## A 10-YEAR-OLD GIRL IN JAIL; GIRL IS KILLED BY A BROTHER

### CHARGE WHICH ENTERED CHILD'S FACE AND NEARLY TORE HEAD FROM BODY WAS INTENDED FOR HAWK WHICH FEASTED ON CHICKENS.

When relatives reached the city yesterday morning for the purpose of notifying the coroner and getting material for the funeral of little Minnie Hurd, nearly ten years of age, they told a story of the tragic death of the child that shocked all who heard it. The child, Minnie, was killed instantly by her brother, James, the entire charge of shot which had been intended for a troublesome chicken, entering the side of the girl's face and almost blowing the head from the body. The brother is not of age. In fact, he was less than sixteen years old.

Coroner Nicholson visited the scene yesterday upon notification and returned in the afternoon. Viewing the body and making inquiries, he concluded that the child's death was nothing more than a very regrettable accident and gave a certificate along such line of belief. There was no criminal act attached to anyone.

Coroner Nicholson said that, from what he had learned, the boy, James, was on the lookout for hawks which had been feasting on chickens during the past few weeks. The Hurd family at Bohemia, about six miles east of the city on the P. & A. railroad, Monday evening a hawk showed up, circling around in the air and evidently looking for chickens. The boy ran for the gun and slipped several shells into his pocket, then went out to get a good shot. Minnie Hurd trotted along behind. As the hawk came nearer, James stopped, placed a shell in the gun and was beginning to get ready for a shot. His sister ran a little in advance, and when the breach was snapped on the gun, the newly-placed shell exploded, the entire shot striking the child a few feet away. She was instantly killed. The boy realized what he had done and gave the alarm himself, wailing in the tones of the death of the little girl. Relatives and friends were thus attracted and ran to where he was, finding the child dead and the brother weeping by her side.

The funeral was held yesterday, the remains having been interred at New Hope cemetery, near Ferry Pass. All the relatives are well known in the city.

## GIRL IN JAIL; ON CHARGE OF FIRING HOUSE

### SERIOUS ALLEGATION IS MADE AGAINST PHYLLIS LEE, NEGRO GIRL, WHO IS ALLEGED TO HAVE MADE AN ATTEMPT AT ARSON.

Charged with an offense which, if proven, would likely take away her liberty for many years, Phyllis Lee, a young colored girl, was locked up at the police station about 9 o'clock last night. On the docket at the station now the charge is simply that of being a dangerous and suspicious character. The real reason for her arrest, however, was a complaint made by William Lewis, colored, who swore the girl had set fire to his house and had attempted to burn it to the ground. The house was burning when found, but the girl claims that it ignited accidentally.

Shortly after 4 o'clock yesterday afternoon the police station telephone rang merrily, and when Sergeant Anderson shouted into the instrument, heard an answer which went like this: "Send the fire trucks and a policeman. I need them both right away." After parleying for some time to get an intelligent message from the man at the other end, the station of fear finally made out that the house of one Lewis, in the western part of the city, was on fire and that the girl was alleged to have set the blaze going. The trucks were not sent to the scene but a policeman reached there in short order. The reason the trucks were not sent was because a message was received that the fire was no longer burning.

The girl said that she had "started a fire with kerosene and some of it dropped on the floor when it caught and burned. I didn't set fire to the house like he claimed." On the other hand, Lewis said the girl had been sprinkled profusely about the premises and that it had been purposely fired. He was so mad about it yesterday that he said the county would have to take charge of the case before he was satisfied.

## TWO SHERIFFS VISITING HERE

Two sheriffs arrived in the city yesterday afternoon and last night. Sheriff Fountain, of Brewton, came to the city after a man, who had been arrested for him at Milton, while Sheriff Bell, of DeFuniak, came in later after a man who is wanted in his county.

Both will remain in the city today as the guests of Sheriff Van Pelt.

## END STOMACH TROUBLE NOW

### ALL DISTRESS FROM DYSPEPSIA, GAS, HEARTBURN OR INDIGESTION IS OVERCOME FIVE MINUTES AFTER TAKING A LITTLE DIAPEPSIN.

As there is often some one in your family who suffers from an attack of indigestion or some form of stomach trouble, why don't you keep some Diapepsin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy stomach five minutes after.

Tell your pharmacist to let you read the formula plainly printed on these 50-cent cases of Pape's Diapepsin, then you will readily see why it makes indigestion, sour stomach, heartburn and other distress so in five minutes and relieves at once such miseries as Bloating, Gas, Eructations of sour, undigested food, Nausea, Headaches, Dizziness, Constipation and other stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out-of-order stomach with the common every-day cures advertised that they have about made up their minds that they have something else wrong, or believe theirs is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and sours, turns to acid, Gas and Stomach Pains, which putrefy in the digestive tract and intestines, and, besides, poison the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the stomach, is waiting for you as soon as you decide to try Pape's Diapepsin.

## Gen. Estrada Refuses The Terms of Madrid

(Continued from First Page.)

rights of the Nicaraguan people.

### TERMS OFFERED.

The terms upon which Madrid is willing to make peace, it is believed, are shown in a letter which purports to have been signed by him and addressed to a friend. In it he expresses his desire for peace without further bloodshed and stated that whatever might happen in the future, he was willing to accept. He says further that the revolutionists should recognize his government and that, in case of such recognition, both armies should be disbanded and all arms and ammunition be turned over to him. He states that he would recognize the debts and contracts of the revolutionists and that within six months he would look for the holding of an election, he himself guaranteeing free voting. He adds that he would turn over such power as he had impartially to the person elected president and that he would accept another under proper conditions.

It is not doubted here that Estrada's known astuteness will prevent him accepting terms of peace, predicted upon the prior surrender by him his army, arms and ammunition to his enemy. Therefore, it is not believed that the conference between Estrada and the Madrid commission will result in any particular change in the present status.

A telegram from Managua, received at the state department, says that the Madrid party is making preparations to send troops to meet Estrada's army. Other telegrams confirm the publication of Pasos, the son-in-law of the former president, on the ground that he had swindled the government of money, but that Pasos had so far succeeded in evading arrest. The minister of finance, Santos, has been put in prison, charged with sending unauthorized telegrams and otherwise interfering with government matters with which he had no concern.

## REJOICING OVER DOWNFALL OF FORMER PRESIDENT, ZELAYA

Washington, Dec. 28.—Native Nicaraguans, exiled by President Zelaya during his reign, are rejoicing over his downfall and taunting the fleeing president with insulting telegrams, even inviting him to come to the Mexican frontier and meet them in physical combat.

Dr. Marcos Velasquez, now in Washington, wired Zelaya at Mexico City today reading the latter's alleged shameless career in Nicaragua and inviting him to the border line of the United States to fight a duel. Dr. Velasquez was exiled by Zelaya nine years ago and has since been a resident of Panama. He came to the United States two weeks ago to lend strength to the cause of General Estrada, bearing with him letters to President Taft and Secretary Knox. In his telegram Dr. Velasquez taunts the deposed president with inability to exhibit himself after his "stomachic reign and ominous downfall." Zelaya's attention is directed to the condition in which he left his country and the fact that the United States had succored starving Nicaraguan soldiers and sailors.

## A GREEK SOLD BIG CRACKERS

### CHRIS. CORDELOS VIOLATED THE PROCLAMATION OF THE MAYOR AND WHEN CAPTURED HAD TO PAY FOR IT.

Chris. Cordelos, conducting a store on Palafox street, sold a firecracker in excess of that allowed by law and when a young man who bought it started to the office where he had gotten the big explosive, Cordelos was arrested. In the recorder's court yesterday the Greek was fined \$10 and costs, and the young man who had taken the chances of firing the cracker was fined a like amount. It was stated that the cracker, sold for a dime, was several inches in excess of the length allowed by law.

Immediately after court there was a convention of the Greeks. They have many stores in the city of a small character, but they sold the crackers, after, as they claim, local wholesalers furnished them with a supply. Several Greeks have been fined within the past few days for retailing them, and the foreigners now claim that the wholesalers are equally as guilty, and they are said to have under consideration the question of placing the matter in the light as they find it before the marshal of the proper channel where the wholesalers will be made to feel the law. They also claim that, in view of the mayor's proclamation, they were unable to make sales of the larges as easily as they would have been able otherwise, and they think the wholesaler men were in the wrong when they were supplied. The Greeks have a society for mutual protection and benefit, and this city, it was explained, will take up and finally dispose of the question.

## WILL NOT CLOSE ON JANUARY 1

### MERCHANTS ASSOCIATION DECIDES THAT INASMUCH AS NEW YEAR ARRIVES ON SATURDAY THEY WILL HAVE TO KEEP OPEN.

The stores of Pensacola will be open and do business as usual on Jan. 1. Had not the new year's day, which falls on a Saturday, it would have been observed as usual by Pensacola merchants, but inasmuch as it falls on the last day of the week the stores will keep open.

This was decided by the Merchants' Association and notice to this effect is contained in this morning's issue of The Journal.

The Merchants' Association is to hold an important meeting Thursday night, when another matter will be taken up, and all members are requested to be present.

Two were found yesterday and will be returned to the vessel today by Capt. Wilde. The Montgomery is not going away, as would be inferred from requesting that "provers" be picked up and returned. On the contrary, the exercises are now in full blast, and it was explained that every enlisted man is needed in the proper conduct of the daily exercises.

## MANY CARS OF STEEL RAILS TO COME IN TODAY

### PROBABLY BEFORE MIDNIGHT THERE WILL BE UPWARD OF ONE HUNDRED CARLOADS IN LOCAL RAILROAD YARDS FOR EXPORT.

If all goes well with contemplated schedules, there will be more than one hundred carloads of steel rails in the railroad yards before midnight, such information coming from good sources. The rails, of course, are for South American shipment, and three steamships now at the docks will be supplied with the product of the Alabama mills.

It was reported during the night that several trainloads had arrived in the yards, but this was not true. No trains with rails arrived from the north last night except that for local use, but the bulk of the export stock will come down today and the outlook is for some rapid dispatching of the two steamships which have just started loading. The steamship Caterino, which started some days ago, has a great deal of the cargo aboard.

## MOBILIANS TO BE AT OPENING

### EXCURSION WILL COME FROM GULF CITY TO BE PRESENT WHEN THE GRAND HOTEL IS THROWN OPEN A MONTH HENCE.

Hervey, who will assume the management of the San Carlos hotel when completed, and which will be thrown open about February 1, was in Mobile yesterday and made the announcement that the hotel would be thrown open to the public on February 1. The Register of that city, speaking of the interest taken by the people of Mobile in the new venture of the famous Hervey brothers, stated that the people there were very much interested and would come over in large numbers to be at the opening. The paper stated that there was a movement afoot in that city now to arrange for an excursion to come over on the evening of the big house's opening, on which many people of that city would come and take prominent parts in the opening of the hotel.

## Fearful Condition of DeVilliers Street Work

(Continued from First Page.)

tendencia street to Chase street are badly blown; in a great many places the cement is almost entirely missing.

"I found the pipe badly cracked in a number of places, and in a number of others it had pulled apart, leaving a space of an inch to an inch and a half between the places.

"The above conditions were probably caused by two things, viz: (1) The subjecting of the pipe to an internal pressure in excess of the pressure it was designed to sustain, and (2) the inability of the subsoil to sustain the weight of the pipe and the earth above it.

"I have corrected the first condition to a great extent by cutting off the storm water from the Butcher Pen grade water shed. The second will have to be overcome by placing the pipe on a wooden foundation.

"I therefore recommend that this pipe be re-laid from Intendencia street to Chase street, and that in the event of the adoption of this recommendation the paving and curbing on the street be discontinued between the points named until the work is finished.

"I have estimated the cost of this work as not to exceed \$2,500.

"Respectfully,  
"L. E. THORNTON,  
"City Engineer."  
REPORT IS ADOPTED.

It was moved and seconded that the recommendation of the mayor be received and adopted, and that the cost be requested to appropriate the sum of \$2,500 for the purpose of carrying out the recommendation as made by the city engineer, which was that of re-laying the sewer from Chase to Intendencia streets.

It was also moved and seconded that the city attorney be requested to advise as to who is liable for the conditions; whether it is the city, the consulting engineer or the contractor. That motion, as well as the former one, was carried.

Another motion went still further into the question. It was moved and seconded that the board of bond trustees be notified of the condition of the sewer, as stated in the report of the engineer.
