The funeral of L. D. Perdue, who died Monday, was postponed from yesterday until this morning at 10 o'clock, owing to the arrival of one of the daughters of the deceased from college.

YOU WILL REMEMBER The old year pleasantly if your desires are flavored with Blue Ribbon Vanilla Extract. Try it during the closing days.

Don't Be Hopeless about yourself when you're crippled with rheumatism or stiff joints—of course, you've tried lots of things and they failed. Try Ballard's Snow Liniment—it will drive away all aches, pains and stiffness and leave you as well as you ever were.

SHOT BY CHUM, BOY'S LIFE IS IN JEOPARDY

TERRIBLE OUTCOME OF EXCURSION IN WOODS BY GANG OF YOUNGSTERS WHO CARRIED AND USED A LOADED RIFLE OF SMALL CALIBRE.

Five boys, none over a dozen years of age, started out Monday morning to spend the day in the woods against and without the consent of their parents. When next they were heard from they were dragging and coaxing one of their number, who was badly wounded, to walk home and let his mother treat him for a wound in the side, which may prove fatal.

The wounded boy is Earl Bradshaw, residing with his mother at 436 West Government street. The boy who did the shooting was Matt Delahanty, or Delahunt, who at one time resided on Intendencia street. The police say that he is continually on the street.

The other boys in the crowd are Ed. Bradshaw, a young brother of the wounded boy; Sam J. Bell and Jas. J. Edmundson. The gun they carried, and which produced the wound on the Bradshaw boy, is a .22-caliber rifle and the bullet is lodged in the Bradshaw boy's side. It could not be located by Dr. L. DeM. Blocker, who was summoned to attend him. The boy's condition was reported very critical at a late hour last night. His father, Chas. Bradshaw, a shipwright by trade and occupation, is at work at Monroe, La., but has been notified. The mother was alone with the children when the wounded child was carried to the home in a hack, through the kindness of J. E. Concannon.

All Ran Away. Procuring the rifle from some source, the police hearing that it had been taken without the owner's knowledge or permission, the boys started out in the woods for a lark. The Delahanty boy carried the gun. They reached a point near the Y. M. C. A. boathouse, on Bayou Chico, and from the statements of the boys, the Delahanty boy pointed the gun at the Bradshaw boy and threatened to shoot. Some remonstrance being made, the gun was fired quickly and the Bradshaw boy fell, the bullet penetrating the left side. When the result of the shot was realized, they all thought the best way was to get the boy home just as soon as possible and in any way possible. So they persuaded the boy to walk. He was game, for he walked a few steps and would fall, exhausted. Then they would cheer him again, and he would get on his feet. It was in the struggles of this nature that they were found. As luck would have it, Mr. Concannon came along and asked the boys what was the trouble. They said the Bradshaw boy was shot. Then the gentleman started to get interested. The lad had already been helped into the home of Philip Peake, the nearest

Catarrh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease and in order to cure it you must take internal remedies. The Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a sure prescription for rheumatism, foot, F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 75c. SCRATCHED HEAD

TILL IT WAS RAW

Eczema Broke Out on Baby's Head Causing All Her Hair to Fall Out—Could Not Sleep—Spread of Fearful Disease Averted and Easy, Economical Cure Effected, for

A FRIEND ADVISED USE OF CUTICURA

"When my little girl was four months old her head broke out with eczema. I tried everything but nothing did her any good. She could not sleep at night and she did nothing but scratch her head, which was like a raw piece of meat. All of her hair fell out. A friend of mine told me about Cuticura and the good it did for her. After the first cake of Cuticura Soap and box of Cuticura Ointment I used I could see a change. I used two cakes of Cuticura Soap and two boxes of Cuticura Ointment and my little girl's head is cured. Her hair is growing fine and her skin is like velvet. Friends say that my quick action in using the Cuticura Remedies kept the eczema from spreading all over her body."

"I still use the Cuticura Soap and always keep a box of Cuticura Ointment in the house. I used them for my hands, which were so badly chapped that the skin would crack and bleed. I would cry with pain. My hands are entirely cured now. You certainly have my permission to publish this letter in any paper, for I know how wonderful Cuticura is. Mrs. F. Davis, 209 E. Indiana St., Chicago, Ill., Jan. 18, 1929."

Are little patches of eczema on the skin, scalp or hands which are instantly relieved and speedily cured, in the majority of cases, by warm baths with Cuticura Soap and gentle anointings of Cuticura Ointment, purest and sweetest of emollients.

Cuticura Soap (21c), Cuticura Ointment (50c) and Cuticura Resolvent (50c), for use in the form of Cuticura Cream (21c), 3 ounces bottle 60c. Sold by W. A. D'Almeida, druggist and apothecary, 121 South Palafox Street.

residence, and there the most kindly treatment was given him. The little sufferer bore up bravely and endured the pain with a stoicism many an older person. The gentleman who discovered the gang of boys, Mr. Concannon, telephoned for a hack and a doctor, and then notified the mother.

He naturally grew frantic, for her husband was away from home. Friends were with her shortly and gave her comfort. Last night careful attention was given the boy and his chances are not good for complete recovery. The officers have been advancing in the way of making an arrest, but are investigating the story as told by the boy to Mr. Concannon when the gentleman first found them.

USING SURPLUS SAND TO VERY FINE ADVANTAGE

Since the stone curbing has been placed on both sides of the two paved driveways on either side of Garden street, water has found a settling place between the curbs and has been standing for several days on account of no outlet. Yesterday, however, a bright idea was evolved in the brain of someone. The brick paving has been removed rapidly northward on Garden street from Government street and last night had been completed to the south side of the Garden street intersection. The grade there is some feet below the surface of the street, necessitating the removal of a great deal of sand. This is hauled by teams and is being used to build up the centre of Garden street westward from Tarragona street to Palafox. The improvement will be better noticed once the grass plots are transformed into lasting beauty spots after the paving is completed.

CIVIC LEAGUE PREPARING FOR THE PAPER BALL

UNIQUE AND PLEASING ENTERTAINMENT WILL BE GIVEN IN PENSACOLA AND PROMISES TO MAKE A BIG HIT.

The ladies composing the Civic League are among the busiest in the city today. Their every effort is bent toward the perfection of plans for the most unique and pleasing entertainment ever projected for Pensacola—the Paper Ball. To produce the picturesque, well balanced stage setting, the smooth performance they propose presenting requires training and steady application of those behind the scene.

The costumes used in this ball are under construction in Atlanta by the same modiste who designed and executed the costumes for the Atlanta under Prof. Morris when he gave the Reilly there. They are beautiful in effect and handsome, and will vie with those of costly brocades and satins. The crepe paper has great possibilities under capable handling, and the texture is especially adapted to the crisp, airy costume associated in the mind with the dance.

In the Barn Dance, the combination of rural red and simple door-yard flower costume will produce an effect dear to the heart—our grandmother's fragrant garden, with the langorous poppy, the gaudy sunflower faithfully following the sun, the tall red rooster proudly scratching for the latest bidde acquisition to the kitchen garden, and the milkmaids will all be there, the natural tenants of the garden. The boys representing the roosters, in age ranging from six to thirteen, will wear a realistic costume with feathers, wings and all, and cap with peak projecting like the rooster's bill. We believe these boys, as well as the audience will enjoy these costumes. Their partners in this dance, girls of the same age, will wear the milkmaid costume, and we vouch for them the proverbial charm of the milkmaid. Mingled with these will be the poppies and sunflowers, boys and girls from fourteen to eighteen years old, adding to the beauty of the scene.

The vessel passed through various stages of weather. From the region of icebergs to the balmy tropics, the seamen enjoyed their long trip. A typical New England crew is aboard, and most of them will remain at Pensacola, to fish out of this port.

PILES CURED IN 6 TO 14 DAYS PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

A NATIONAL CAR NOW ON DISPLAY

The car is unique in design and of beautiful outline, creating much favorable comment.

SURVEYING FOR AN INLAND CANAL

Special to The Journal. Sanborn, Fla., Dec. 28.—Capt. W. L. Seeley, engineer in charge, with his corps of five engineers and crew of twenty men, have completed the survey for the inland canal to Oklokeone river, a distance of one hundred and ninety-seven miles.

This is for the canal that has been agitated from Jacksonville to Carrabelle, and may be extended to New Orleans.

Crooked river is now being surveyed, the soundings taken and all the river beds will be surveyed for "cut-offs," as some of them will save a mile by cutting one hundred yards and some less. As the writer ran beats on this stream for ten years, he knows whereof he speaks. Once a passenger said, "This river has the right name." We agree with him, as anyone that goes through it will know that it was crooked.

San Pedro bay was the worst place found between Oklokeone river and Jacksonville. It, so Capt. Seeley informs us, has no drainage, except a small portion by Fenholloway river, and this bay is the highest country in Madison and Taylor counties. It is very fertile and all around it very fine timber, with no mode of transportation. The canal would supply ample transportation for the timber and farm products. These lands are very productive, and a large quantity of government lands are situated on the proposed line of the canal, and would be benefited if there was transportation.

This bay was the most difficulty place found on the entire survey, it being fifteen miles across the water and swamps. The proposed line strikes Oklokeone river south of the McIntyre, runs up the river to Crooked river and down Crooked river to Carrabelle. This part of the work will, we think, be of immediate and permanent benefit to navigation, as there will probably be a chart made of Crooked river and the feasibility will come out in the report.

The plan is to cut this canal twelve feet deep and one hundred yards wide, and there are places that the sides will require concrete to make it hold. The portion of Oklokeone river that is used will require practically no work and the strengthening of Crooked river will require as large an expenditure as the dredging of the canal, as a large portion is very deep and over one hundred yards wide.

The distance from Jacksonville to Carrabelle via canal will be approximately 127 miles, while the most direct line of railroad is further and the water route is more than four times the distance.

Capt. Seeley is rushing to complete the work by Jan. 10 next.

CARD OF THANKS.

We desire to herein thank our friends for their many kindnesses and remembrances during the recent illness and death of our wife and mother. E. J. MILLER AND SONS.

CROCKETT PLACED IN HANDS COUNTY AUTHORITIES

Robert S. Crockett, who was arrested for making an attempt to smash in a window at the Thiesen building was called up before the recorder yesterday morning and bound over to the county authorities on a charge of malicious mischief. Crockett was notable yesterday to furnish a bond asked for his release.

ONE WEAK SPOT!

Most Pensacola People Have a Weak Part, and Too Often It's The Back.

Everyone has a weak spot. Too often it's a bad back. Twinges follow every sudden twist. Dull aching keeps up, day and night. Tells you the kidneys need help. For backache is really kidney ache. A kidney cure is what you need. Doan's Kidney Pills cure sick kidneys. Cure backache and urinary ills. Pensacola people recommend the remedy.

Mrs. G. Bower, 422 E. Government street, Pensacola, Fla., says: "I had such severe pains in the small of my back that I could not walk across the floor. Doan's Kidney Pills were at last brought to my attention, and procuring a box at the Crystal Pharmacy, I began their use. The first night I took them, I was able to obtain refreshing sleep. This greatly surprised me, as I did not believe any remedy could bring about so great a change in so short a time. Doan's Kidney Pills soon cured me and to say that I endorse them, but mildly expresses my opinion of their merit. I believe if all persons troubled by pains in the small of the back or any disorder of the kidneys would try Doan's Kidney Pills, there would be but little suffering from these difficulties."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

BIG FISH ARE BROUGHT IN BY NEW SCHOONER

WARSAWS WEIGHING MORE THAN ONE HUNDRED AND ONE WEIGHING TWO HUNDRED POUNDS ARE UNLOADED AT FISH HOUSE

About nine thousand pounds of red snappers were landed here from the new schooner John M. Keen, which arrived yesterday after a long and eventful trip from the New England coast to her new home in Southern waters. The schooner has been purchased by the Saunders Fish company and yesterday afternoon rounded up at the docks and discharged the first catch for the local house. Before coming to Pensacola from the New England home, the schooner made a very profitable trip to the southern snapper banks, and came in with plenty of the deep sea beauties.

In addition to the snappers and a few groupers, the schooner unloaded some of the largest warsaws that have ever been received at the local fish houses. Four of them weighed exactly 145 pounds each. One weighed 150 pounds, and the largest weighed 235 pounds. All were taken into the fish house and stored in the ice boxes.

A large number of visitors were on the wharf when the schooner came up the bay. Many visitors were attracted there by the story in yesterday's Journal concerning the lively movement in the exporting business at Pensacola.

When the new schooner arrived, their attention was wholly occupied in seeing the big fish hauled out of the vessel, a hook having been inserted into the mouth of each of the big ones and two sturdy fishermen hauled away. Many exclamations of wonder came from people on the wharf who had never witnessed such a sight in the past.

The vessel passed through various stages of weather. From the region of icebergs to the balmy tropics, the seamen enjoyed their long trip. A typical New England crew is aboard, and most of them will remain at Pensacola, to fish out of this port.

PILES CURED IN 6 TO 14 DAYS PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.
