RARELY DO YOU MEET A MAN

Who does not desire to be well dressed. The man who is careful about the selection of his dress is in nearly every instance a careful man in other matters—the man who does things. The art of properly dressing is in the knowing how to secure the thing desired. The man who gives more than the appearance of neatness and trimness is more likely to be sure of that. That's why the man who dresses from the John White Store gains the approval of his associates and of the neighborhood. And since Novelty and Mass are sold at the same low prices, it follows that suits and furnishings we sell are properly selected and sold the same way.

RUMOR THAT BIG STEAMER HAD FOUNDERED

Carolina, Which Cleared on July 24, Said to Have Been Lost in the Gulf.

Presidential Reconnoiters were in circulation all over the country today as information came from the steamer, which cleared from this port on July 24, not more than 600 miles off the coast of Florida, according to word received from the bureau of commerce of the department of agriculture. The Carolina is a new vessel, having been launched last fall, and fitted up in a most modern manner. The force of the wind and water made the vessel drift away from the harbor, and she was never heard from again.

Arrangements are being completed to give the poor children of the city a day of pleasure.

On the 24th of July, the steamer Carolina left this port for the Spanish coast, and it is said that she was not seen again, although search was made for her for several days. The vessel was carrying a large number of passengers, and it is feared that they are all lost.
