MAKE MONEY

Those people who are afraid to invest their money, and are waiting for something that is absolutely sure where they have no chance to lose and all to win ,will never make money. A timid man never does anything in a business way. If you have some money saved up and want to invest it where there is the greatest possibility of making large returns, my advice is to buy **Real Estate** in Pensacola. **Buy it now.** Pensacola will be a city of 100,000 in less than 10 years. The long-talked of railroad is absolutely assured; it is to be built as fast as money can build it. The money to complete it is in the bank, subject to check. The grade stakes are now being placed along Olivia street by the engineers, and the contractors will start to work at once making the roadbed as soon as the engineers are out of the way. These are some of the reasons I say **Buy Real Estate.**

FOR SALE

Two Rules For Good Carriage.

If you are walking along the street and wake up to the fact that you are carrying yourself poorly, take the mental attitude of standing straight as well as the physical one. Look at the men you meet and imagine that each of them owes you a dollar. Put even a suggestion of arrogance into your position. Hold your head well back. Look people squarely in the face. This will not only give the impression to others that you possess the power you want, but it will actually tend to bring that power. Keep the neck against the collar.—World's Work.

Sea Snakes.

Sea snakes are very plentiful in the south Pacific. They are widely distributed, stray individuals having been secured on the coast of New Zealand. When swimming close to the surface they resemble an ordinary snake, except that the head is always below the water. At night they come ashore and lie among the rocks. They feed on fish, and, although their small double fangs appear harmless, they are venomous.
