PENSACOLA COMMISSION CO'S DAILY MARKET REVIEW

Stocks.

Stocks continued strong on the opening, but toward noon and during the closing hours, sold off slightly. Owing to the tremendous interest that was centered in the cotton market, the fractional decline in stocks may more safely be attributed to something of a lack of interest. The general list shows considerable support, and in view of the fact that the declaring of numerous dividends and other sources which will contribute to the general financial inprovement during the early part of this month, we would not be surprised to see further advances. Money was quoted at from 6 to 9 per cent, closing at 8 per cent. Grain.

Grain.

Wheat was some stronger than yesterday, though fluctuations were not nearly so wide. The market was firm and steady, prices clesing about 1½ cents above the day previous. Corn and eats held firm at practically unchanged figures, closing from ¼ to ½ above Monday's close. Pork, Lard, and Ribs, were practically unchanged, closing very slightly over prices of the day previous.
