If You Are Sick

It is because some of the organs of the body are not doing their work well. There is a lack of that nervous energy that gives them motion. Consequently you are weak, worn-out, nervous, irritable, cannot sleep; have headache, indigestion, etc. because there is not sufficient nerve force to keep the organs active and allow them to perform their natural functions. Dr. Miles' Nervine restores health because it restores this nervous energy.

"I have been sick for a year, and did not know what was the matter with me. I tried many remedies and none of them proved of any value. I heard of Dr. Miles' Nervine. I procured a bottle, and before I had taken half of it I was better. I would have had nervous prostration if I had not got this medicine when I did. I continued to take it until I was entirely well. I have since recommended it to five of my lady friends, and they have all thanked me for doing so, for it benefited them all."

MRS. ROSE OTTO,
139 S. 3d St., Columbus, Ohio.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind

FLORALA TEAM SWAMPS ELBA

SCORE OF FIFTY TO FOUR, AND GAME NOT FINISHED.

(Special.)

Florala, Ala., Aug. 14.—The Florala baseball team met the crack Elba nine on the local diamond this afternoon and in a slugging match swamped them by the score of 50 to 4.

There was no one out when the slaughter was stopped by darkness. The local team will leave early in the morning for Pensacola, where a series of three games is to be played.

THE MAYOR'S MESSAGE

(Continued from First Page.)

nolia street. Eight blocks of streets opened.

Police Department.

The report of the Marshal shows that there were 6,153 arrests made during the year; 2,544 whites and 3,609 colored; 919 discharged, 4,824 found guilty, 224 sent to criminal court, 117 sentences suspended for good behavior and 69 cases continued.

Total amount of fines assessed	$28,830.50
Total amount of fines collected	17,986.00
Total amount of fines worked out	5,751.50
Total amount of fines remitted	4,525.50
There were runaways owing	567.50
Total amount of pound fees collected	403.45

During the year there were 24,788 meals served at a cost of $1,674.31, or 6 3-4 cents per meal. There were 185 sidewalk repair notices and 125 construction notices served. It would not be amiss for me to say right here that the department, in my opinion, could render the city much better service if the salaries were increased to justify the best class of citizens taking positions in this department, and I would recommend to your honorable body that when the budget is made up for the coming year that you consider a raise in the salaries of this department, and that the salary of each officer be raised every two years of continuous service until the salary decided on by your body has been reached. I also recommend that a small amount be deducted each month and placed to the credit of the uniform account of each officer, and at the end of the year if there should be a balance due him, that it be paid him in cash. I consider this a better plan than taking larger amounts from the salaries during the months that uniforms are purchased. I also recommend that the present two watch days be changed to three watches, as follows: 8 a. m. to 4 p. m., 4 p. m. to 12 midnight; 12 midnight to 8 a. m. By making this change I am of the opinion that we could get much better service from the officers.

I would also recommend that you take into consideration the matter of installing a Gamewell telephone system, which is used by all progressive cities in this country, so that all officers could make hourly report to the police, and in case of need of help, or to call for the patrol wagon, same could be accomplished much quicker and more accurately than under our present system.

I would also recommend that as soon as money is available that the city purchase a closed patron wagon. This style of wagon will save the use of an officer going with the wagon each time it is called, as the prisoner is put into the closed wagon and locked up by the officer making the arrest.

Fire Department.

The Fire Department answered 125 calls during the year. The classes of buildings where fire occurred were: Frame 115, brick 6 and corrugated iron 3 and car 1. The total loss by fire was $21,263.36. Total insurance carried $161,160. The improvements in this department during the past year are as follows: Equipped three hose wagons with ladders; eight fire extinguishers; one three-horse hitch for hook and ladder truck; two new truck houses; two men. Also bought larger horses.

I would recommend that we continue to improve this department. I would recommend the following improvements and additions to the Fire Department: More hydrants and fire alarm boxes in all sections of the city where they are needed to protect the property of our citizens. One truck house in the western portion of the city, and one combination hose wagon; two Estaman's Deluge sets; four relief valves; four shut-off nozzles; one thousand feet of hose and four hydrant gates.

I would recommend the same changes in this department as in the Police Department in the raise of salaries of all employes and the deduction of an amount to cover uniforms.

The chief, assistant and men have done excellent work during the past year, and I hope that your honorable body will provide for as many of the recommendations of the chief, to which I have added my recommendation, as possible, as I have given same my careful attention before approving same.

Report of the Board of Bond Trustees.

The report of the Board of Bond Trustees shows that they have received from the sales of bonds, accrued interest and from the city, $350,636.01, and that they have expended by making payments on the City Hall, sewerage, to architects, for City Jail, engineer, interest on bonds, etc., $117,197.13, leaving a balance on hand of $233,438.88.

Health Depatment.

The City Health Officer reports that there were 59,152 inspections made by the sanitary inspectors, of which 53,731 premises were in sanitary, and 5,421 in unsanitary condition. During the year the inspectors made 158 arrests and secured 139 convictions. The amount of food condemned by the food inspector since December 1 was: Veal, 2 carcasses and 160 pounds; mutton, 4 carcasses and 58 pounds; beef, 534 pounds; brains, 1 box and 40 pounds; 2 dressed chickens; 3 barrels oysters; liver, 194 pounds; fish, 245 pounds; pork, 1,016 pounds; pig feet, 1 1-2 kegs; spare ribs, 55 pounds; cabbage, 1 crate; apples, 1 bushel, and grapes, 3 boxes. The City Physician made the following calls on injured employes and indigent sick: Residence visits, 519; office consultations, 177; visits to police station, 165; hospital, 264. Total, 1,125. Our death rate for the year, I am proud to say, was much less than that of last year. The total deaths for the year were 378, against 475 of last year. The inspectors did good work during and after the storm of September in burying and otherwise disposing of dead animals, which were killed by the storm and left in the lower portion of the city under the debris. In the early spring the State Board of Health furnished 5,000 circulars descriptive of the breeding and habits of the mosquito and the common house fly, which were distributed by the sanitary inspectors. I find that every precaution has been taken by the head of this department during the past year to protect the public health, and it is useless for me to say that the sanitary and drain sewers will add greatly to the health of the city, and I recommend that your honorable body prepare and pass an ordinance compelling property-holders to cut weeds, as they furnish harboring places for mosquitoes, which are very detrimental to the health of the city.

I also recommend that your honorable body appoint a committee to confer with a committee of citizens to take up the matter of building and equipping a city hospital. This is of vital importance and should have our earnest attention. I do not know of another city of this size without a hospital, and if it is properly managed, and I have no reason to doubt that it would not be, it will pay a good dividend or at least carry its own interest.

I also recommend for the health of the city that your body take into consideration the buying and maintaining of two street sprinklers, as physicians claim that dust is responsible for most of the common contagious diseases.

Report of the City Engineer.

The report of the City Engineer shows that he has given 109 sidewalk grades and made 147 surveys since October. The engineer has been at a disadvantage the past year on account of not having the proper data on street lines and grades, which will be relieved when the new city map, just authorized, has been completed.

City Attorney.

As you can see by the report of the City Attorney, his duties are very numerous, and the report only shows the cases that he has gone into. His advice in drawing up ordinances, leases, contracts, and other documents has saved the city probably a great deal of money, saying nothing of his daily advice to the Mayor and other officers of the city.

City Electrician's Report.

The report of the City Electrician shows that during the year he installed a patrol system at a cost of $500, separating it from the fire alarm system. The report also shows that nearly all the city wires were blown down or otherwise damaged by the storm of last year, and that he put same in condition within one week at less than the estimated cost of $175, as authorized by the chairman of the Board of Safety. He also reports that numerous sections of wire are bare of insulation in the circuit, and are a great source of electric leakage, due to tree and other ground escapes, and are a danger to the system in the event of contact with wires of high potential in close proximity to which we are compelled to run same, as the city has no poles of its own. He offers as a remedy for this condition that new waterproof wire be purchased for the fire alarm circuit, and same run on extreme top of telephone and telegraph poles where practical, avoiding all poles bearing high charged wires. The system cut into four circuits with repeator and proper switch board, bearing protecting devices, voltammeters, etc., be installed; also storage battery, which I respectfully recommend that your honorable body take into consideration and remedy those defects in our system, as it is only a question of time when it will cause us a great deal of trouble.

I hereby append the reports of the various departments made to me as supplements to this report, and in conclusion, beg to say that I do not expect your honorable body to put into effect every recommendation embodied in this report, as the finances of the city are not in a condition to do so, but it would be well, however, for your body to take same in consideration when money is available. I want to thank you for your cooperation in the beginning of my term, and hope I will have the cooperation of your body and all other city officials during the balance of my term, as the welfare of the city depends largely upon the manner in which its officers accomplish their respective duties, and to accomplish anything it will be necessary for the Mayor, Council, boards and officials to work in harmony.

Respectfully submitted.

C. C. GOODMAN, Mayor.

PABST MILWAUKEE

Practical Temperance

Pabst Blue Ribbon Beer is brewed as a temperance beverage —not as a stimulant.

As the consumption of beer increases, the sale of strong drink decreases. Beer is primarily a food, and its regular use satisfies the natural craving for a mild stimulant and prevents the desire for intoxicating liquors.

Pabst Blue Ribbon
The Beer of Quality

is richer in food values and lower in the percentage of alcohol than any other beer. The Pabst Eight-Day Malting Process retains all of the food values of the barley, while the Pabst Perfect Brewing Process transmits them to the beer in their most wholesome and digestible form.

When ordering beer, ask for Pabst Blue Ribbon.

Made by Pabst at Milwaukee

And Bottled only at the Brewery.

SABRIE MAY QUIT GAME

Popular Southern League Ball Tosser Said to Have Jumped Home.

Eddie Sabrie has jumped the New Orleans club, of the Southern League, and it may be that the star first sacker will not return to assist Manager Charley Frank win a few games for the Louisiana city, says the Jacksonville Times-Union.

The ex-Sally leaguer has been playing the greatest game of his life since his advent into the Southern, and he was the idol of New Orleans fandom. When he left he informed Manager Frank that he was going to return to his home in Louisville to clear up an estate left by his aunt, but he has been away several days and nothing has been heard from him.

It is now being whispered in Southern League circles that Edward became dissatisfied and decided to jump, and just for this the New Orleans writers are saying harsh things about Manager Frank.

Sabrie is a good ball player, and, being a young man, he would be foolish to give up organized ball for the life of an outlaw.

Dr. Mozley's Lemon Elixir

Dr. Mozley's Lemon Elixir is not a new and untried remedy.

More than 1-3 of a century attests its curative and health-giving properties and serves to show that it has no equal as a cure for Constipation, Biliousness, Indigestion, Sick Headache and all other ills arising from

TORPID LIVER.

Being strictly a vegetable compound, it has no harmful effects. Its action is gentle but thorough—cleansing the stomach and bowels of all impurities, and toning up the entire system to a healthy condition—leaving the person feeling good, because every organ is made to perform its part perfect.

50c and $1 at all drug stores.

Mozley Lemon Elixir Co., Atlanta, Ga.

Ashley St., Jacksonville, Fla., April 22, 1907.
I have been using Dr. Mozley's Lemon Elixir in my family for the past seventeen years; and do not hesitate to say that I find nothing equal to it for Indigestion, Sick Headache and Constipation. I cheerfully recommend it to any who are in need of a Tonic and Liver Regulator. MRS. JNO. H. GEE.
