# AN EXPLOSION IN A TENEMENT

### Portuguese Police Think It Indicates a Plot to Kill the King.

Special to The Journal. Lisbon, Portugal, Aug. 21.—What is supposed to be a plot to assassinate King Carlos and Premier Franco was brought to light today through the explosion of a bomb in the tenement district of the city. Two persons were killed, and two fatally injured by the explosion.

The police immediately began an investigation, and as a result thirty republicans have been arrested and taken aboard the cruiser *Adamastor*, in the Tagus river, where they are now confined.

Jose Betangourt, a medical student is believed by the police to be the leader of the conspiracy. In a search of his room, where the explosion occurred, many incriminating papers were found, which gave clues to other suspects. The thirty prisoners will be tried secretly.

Ever since King Carlos last refused to abdicate his throne at the demand of the republicans, the revolutionary spirit has been spreading in Portugal and the agitators have been growing bolder and more defiant. It is thought certain by the police that had not the accidental explosion taken place today the king would have been assassinated within a few hours.

### Don't fail to enjoy the musical program at the Star Theater to-day.

### NAVAL COMMITTEE ON AN INSPECTION.

Special to The Journal. Washington, Aug. 21.—Light members of the house committee on naval affairs left here today on board the *Dolphin* for a cruise of inspection of the various navy yards between Washington and Portsmouth, N. H. Stops will be made at Norfolk, Brooklyn, Newport and Boston.

Willie was an only child, whose parents lived on a farm. He often grew very lonely and longed for a playmate. One day he asked his mamma why she didn't get him a little brother. Mother replied, "Willie, babies are too much trouble to tend." "Say, mamma, if you a plant him, I'll hoe him." —Lippincott's.

## Severe Pains

When a prominent nerve is affected, the pain is severe. It is called neuralgia. It may be in either the head or body. Relief comes only when this nerve trouble is overcome. By its soothing and strengthening influence upon the nervous system Dr. Miles' Nerveine removes the cause.

"It was about two years ago that I was taken with what the doctors claimed was neuralgia, and some called it lightning rheumatism. Sharp pains would go from one place to another, mostly in my head, and they would last two or three days before I could get relief. During these spells I would be so nervous that I hardly knew what I was doing. The brains of my husband would have to steady me when walking across the room. I would have fever, and my heart would palpitate, and in a day or two I would feel better. Just as soon as I would expose myself the very least I was sure to have a spell of neuralgia. I have taken lots of doctor's medicine, but I ain't just as well take water. My aunt kept writing me to just try Dr. Miles' Nerveine, and I am thankful that I was persuaded to do so, for the Nerveine has cured me—has driven it out of my system."

MRS. H. C. DIXON, 2122 Savannah Ave., St. Joseph, Mo.  
 Dr. Miles' Nerveine is sold by your druggist, who will guarantee that the first bottle will benefit you if it fails, he will refund your money.
