The Truth About Stoves

By the Largest Makers of Stoves and Ranges in the World

MANY people have been deceived in believing that stoves were cheap because of low prices, when experience proves them the most expensive. A small price may be paid for a stove which looks attractive in the catalogue, which has been described as "perfect," but it is liable to prove a very expensive purchase for ten chances to one, trouble will arise from this stove in a month's time—it may not heat or cook properly, or it may consume fuel like a locomotive. Then the material in the stove itself may wear so poorly that at the end of a year or so it will have to be replaced.

Garland Stoves and Ranges are durable and handsome in appearance. They are highly nickel-plated and each "Garland" will last a lifetime. "Garland" Stoves and Ranges will not "burn out" but will heat and cook perfectly, and will save fuel, save repairs, save worry, save money. We have local dealers who handle our stoves exclusively, in nearly every village, town and city in the United States. You can examine "Garlands" before you buy, instead of after. You can satisfy yourself that "Garlands" are exactly as represented. There will be no freight to pay on "Garlands" and the dealer will set them up without charge. If no dealer in your town sells "Garlands," or you decide to buy a stove not in your local dealer's stock, you can enjoy the above advantages. We will make a special arrangement so that the stove you want will be delivered to you and properly set up ready for use in your own home. The Written Guarantee of The Michigan Stove Company accompanies every "Garland" and protects you by the absolute guarantee that every "Garland" is as represented—The World's Best.
