AMUSEMENTS

Palmetto Beach. On arrival of the 4:15 car this afternoon the usual ladies' and children's matinee will be given at Palmetto Beach, and considering the fact that as an extra attraction Prof. Swartz will make a balloon ascension, there should be large crowds to witness the attractions. One of the features of this week is "Bounce," a trained little poodle dog, who does all sorts of tricks and proves a valuable acquisition to the act of El Rico, the juggler and foot balancer on this week's bill. This week's bill is doing excellently well as an entertainment feature and the acquisition of the new singing act to replace the Poloff Sisters is to be considered worth while as worth the price of admission. Among the feature acts for next week is Fred Primrose, the blackface comedian, who is none other than the brother of George Primrose, the well known minstrel man. Mr. Primrose comes to Pensacola for the first time, and just rest assured that he comes from a stock of entertainers who are world famous. Sunday there will be the usual Sunday concert afternoon and evening, with sacred music and songs.

BAY EXCURSION. The Gadsden Street Methodist Sunday School will run two excursions today on the steamer Monarch. The first boat will leave the wharf at 3 p. m. and the second at 7:30 p. m. It has been some time since this church has been the hostess of the public on such an occasion, but surely they have not forgotten the charming and unlimited hospitality which always characterizes their public entertainments, and it is safe to say there is a most pleasant time in store for all who take advantage of this excursion. The first boat will return at 7 and the last in time for the cars, thus giving time enough on the island for a delightful surf bath.

WILL MAKE A DARING TRIP

CORPORAL ROTH OF 15TH COMPANY TO ASCEND IN A BALLOON TODAY AT PALMETTO BEACH.

Corporal Adolph F. Roth, of the 15th Company at Fort Barrancas, will make a balloon ascension this afternoon at five o'clock at Palmetto Beach. A great deal of interest is being taken in the proposed feat of this daring local aviator, and crowds will take the late cars in order to see the start. The balloon ascension which took place at the park on last Sunday was witnessed by hundreds of spectators.

Starved to Death. It is what could truthfully be said of many children who die. They have worms, poor little things—they don't know it and you don't realize it. If your child is cross, fretful, pasty complexioned and loses weight for no apparent reason, give it White's Cream Vermifuge, you will be surprised at the results and how quickly it picks up.

FLORALA NOT IN CLASS WITH PENSACOLAS

VISITORS WERE PLAYED OFF THEIR FEET, BUT PROMISE A STRONGER TEAM AND A BETTER GAME TODAY—SCORE WAS 13 TO 1.

The Pensacolas had easy picking yesterday, when they went against the Florala team in the afternoon at Palmetto Beach, and won by the handy score of 13 to 1. The Floralas, while playing fairly good ball, did not class with their opponents, and this was noticeable from the very start. One very plausible reason why the Florala boys did not play better ball was that they were on the train from early morning until after the noon hour, and not only that, but they were in a crowded excursion train.

Today they promise to give a better account of themselves, and with three strong players coming from DeFuniak to add strength to the team they will endeavor to take the second game of the series.

Pensacola presented an exceptionally strong line-up and their playing was fast from start to finish, while they batted hard and timely, Blount making a three base hit, which could have been stretched into a home run. Griffin played a good game at first, while Gordon at second, Roach at short and Sanchez at third rounded out an exceptionally good infield.

The outfield played fast ball, while Hogeboom pitched in good form, and was handled well by Weber. This morning Harley and W. Cawthon and Moore of DeFuniak, the latter a pitcher, will arrive and play with the Floralas in the afternoon. The line-up of the two teams will be as follows:

Florals—Cawthon, catcher; Moore, pitcher; Prestwood, first base; Cawthon, second base; Manning, shortstop; Williams, third base; Farmer, right field; Page, center field; Carpenter, left field; Pelly, sub. Pensacola—Lurton or Weber, catcher; Armstrong or Gordon, pitcher; Oliver or Griffin, first base; Sanchez, second base; F. Blount, third base; Roache, shortstop; Bicker, left field; Van Metre, center field; Bergin, right field.

TALLAHASSEE NEWS NOTES

Items of Interest Gathered at the Capital of Florida.

Tallahassee, July 28.—The biennial election of trustees for the Tallahassee sub-school district, and for the 3-mill tax to be levied for building purposes, was held Thursday, the 27th inst., at the county court house.

The old board of trustees was almost unanimously re-elected, there being but four contrary votes cast. The passage of the 3-mill tax was carried by a vote of 30 per cent. greater than that cast by the combined vote of those opposed to the levy of this tax. This is considered a victory for the more progressive portion of the community, who wish to see the children of the Capital City housed in a building suited to their number and needs.

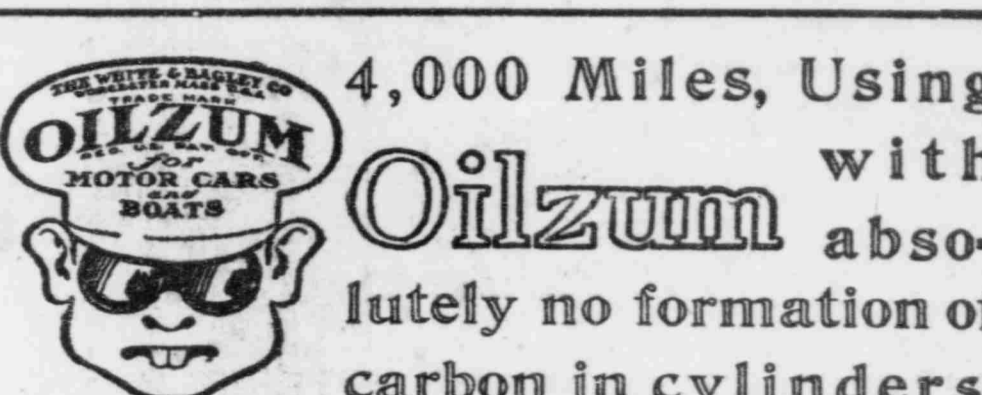

There is already in the treasury a sum of \$11,000.00 that can be appropriated for this purpose, and a year's tax of 3 mills will bring in practically \$10,000.00 more. The friends of the movement hope to see steps taken immediately towards the erection of a building where the children of all the grades may be housed under one roof.

REMARKABLE BONE DEPOSIT

Los Angeles, Cal., July 29.—The academy of science yesterday asked the city council for an appropriation to be used in developing a remarkable deposit of bones of antediluvian animals in the asphalt beds near Hollywood.

There have been exhumed so far complete skeletons of giant sloth, an animal almost as big as a street car; several sabre-toothed tigers; a prehistoric lion of the African type, but larger; a giant camel; three species of prehistoric wolves; a horse that seems to have been larger than any that exists today; giant eagles and condors; a large number of miscellaneous rodents, a small prehistoric cat; the skull of a bird larger than an ostrich, and portions of skeletons of elephants.

The greatest find was the skull of an extinct species of buffalo or prehistoric ox. So far as known there is not another like it in the world. The types of animals shown by these discoveries seem to have been common here several thousand years ago.
