Hamilton Tension Spring Shears Free to True Democrat Subscribers.

The Greatest Premium of the Age.

The Tension Spring attachment does away with resharpening entirely and enables the user to set the tension on the rivet so that any kind of material may be cut with perfect ease, without tiring the hand. The Tension Spring takes up all wear on the rivet, making the SHEARS practically INDESTRUCTIBLE. A simple turn of the little thumb-screw shown in the engraving, tightens up the blades as closely as may be desired. Any woman who has had the exasperating experience of trying to use a dull pair of shears can readily appreciate the value of the new invention WHICH KEEPS THIS PAIR OF SHEARS ALWAYS sharp and in perfect cutting condition. No matter how many pairs of shears or scissors you may have around the house, you need this pair with the Tension Spring, and when you get and use it once, you will use it in preference to any other you may have. These SHEARS are perfectly finished and heavily nickel plated eight inches in length.

We Guarantee

the quality of the material and workmanship in this pair of SHEARS to be first-class, that the Tension Spring device doubles the usefulness of the SHEARS and does away with the need of resharpening, and furthermore, our Guarantee Certificate accompanies every pair, agreeing "that if this pair of shears BREAKS or in any way becomes defective within FIVE YEARS from date of purchase it will be replaced with a NEW pair without cost."

Against Green Fruit Shipments.

The shipping of unripe oranges and grape fruit is already proving very harmful to the citrus fruit industry of the State.

The Kissimmee Board of Trade has unanimously adopted the following resolutions:

Whereas, the practice of shipping green fruit is a ruinous one to the citrus markets, and is annually causing the conservative growers of the State serious financial loss, thereby impairing the welfare of our chief industry and injuring the reputation of the incomparable Florida oranges.

And whereas, it appears impossible to put a stop to this pernicious practice through the voluntary action of the growers themselves; be it therefore

Resolved, That in the opinion of the Kissimmee Board of Trade the only effectual way to check this evil is to regulate it by legislation, or by the assistance of the State and Federal authorities, and to that end the Kissimmee Board of Trade offers the following suggestions:

1. That Governor Broward be requested to invite the opinion of the Attorney General upon the possibility of bringing the shipment of green fruit within the scope of the State Pure Food Law.

2. That the co-operation of the Commissioner of Agriculture and of the State Chemist be also invited.

3. That the matter be laid before the Federal Department of Agriculture with a view to ascertaining whether the Federal Pure Food Law will afford us protection.

4. That the attention of the State Board of Health be called to the matter and their co-operation be urged.

5. That Governor-elect Gilchrist be invited to recommend to the next Legislature the passage of an act to require the labeling of all packages containing unripe citrus fruit as "Green Oranges" or "Green Grapefruit," as the case may be, or otherwise to identify all such packages as detrimental to the public health, also requiring the proper inspection of all citrus shipments.

6. That a copy of these resolutions be, with an accompanying letter of explanation, addressed to every member-elect of both houses of the next Legislature.

Resolved further, That the co-operation of the Florida Fruit Growers Exchange, and of the State Horticultural Society, and of the various Commercial Organizations and Boards of Trade throughout the State, and of the State Press be invited to the careful consideration of the suggestions embodied in these resolutions.
