and address we would send you a copy of our 1910 Florida Almanac. Give us the number of acres and crops you cultivate. We want you to have the almanac because it has in it the information that should be in all good almanacs.

That is not all. It gives a lot of Fertilizer facts and terse information about the growing of crops that is interesting because it is valuable when applied.

We are justified in asking you to send us your name and address, in that we believe it would be mutually profitable for you to have a copy of it. **There is no cost.**

The one vital thing about any fertilizer is: "What will it do for the crop?"

When you buy fertilizer from us it is mixed for your land and for the crop you intend to grow.

In ordering tell us the character of your land and name the crop. When you buy seed, you want to get what you buy. When you buy Fertilizer you ought to get one that will serve the purpose intended.

A free truck with any order for one or more tons.

Send for the 1910 Florida Almanac now.

**Dollars Doubled** by the use of "Blakeslee" Gasoline Pumping and Irrigation Outfits.

The practical service these outfits have given in the hands of the fruit and truck growers is proven by the fact that our customers made large profits this season while their neighbors, who did not irrigate, were not able to mature their crops, and lost money. It will pay you to investigate this, and write for catalog telling you how it is done.
