DeSoto commissioners set date for Mosaic rezoning

By CRAIG GARRETT
Arcadian Editor

A tentative date was set Tuesday for the first public hearing to rezone farmland in DeSoto County owned by Mosaic Fertilizer, the giant phosphate mining company.

The DeSoto Board of County Commissioners set April 23 for the hearing, specifying that it will be a quasi-judicial session, meaning that participants follow rules such as those in a courtroom — sworn witnesses and testimony, exhibits and conduct. Because it could get rambunctious, rowdy visitors would be warned or escorted out, for example.

Commission Chair Jim Selph also suggested evening limits of 11 p.m. to keep presentations and feedback from drifting into the wee hours.

One or two in the morning "to me, is ridiculous," Selph told other commissioners at Tuesday's regular meeting. "[Your] state of mind is not good" after that.

Commissioners on Tuesday adopted a resolution for the quasi-judicial designation. The April 23 date could get fluid should obstacles arise in the coming weeks, however. Commissioners can't publicly surmise any matter before them under the quasi-judicial umbrella, which means Mosaic rezoning is a big question. The BOCC adopted quasi-judicial rules for possibly contentious public hearings in late 2017.

Opponents are gearing up.

"I expect we'll be prepared," said Sarah Hollenhorst, a member of the Friends of Horse Creek who has spoken against phosphate mining.

Mosaic Fertilizer LLC owns 18,200 acres of farmland in west DeSoto. The Fortune 500 company is asking that DeSoto County rezone 14,000 acres from agricultural to a mining classification. The phosphate firm in December 2016 delivered its research and post-dig plans to county planners. Those volumes are in the DeSoto County Library.

Phosphate mining in DeSoto County is proposed from 2021 to 2037, with land reclamation lasting six years beyond that. Mosaic estimates, however, that start date could get pushed back, as state and federal permitting could take years to satisfy.

Arcadia Rodeo readies for March 8-11 grand opening

By CRAIG GARRETT
Arcadian Editor

ARCADIAN PHOTOS BY JIMMY PETERS

Construction is nearly finished at the $9 million Mosaic Arena.

This place will be nothing like what you're used to.

As workers like bees scramble to complete the new Mosaic Arena, Katie Marks walked the perimeter seats of the giant indoor facility. She checked that the ticketing booth, livestock pen and concession work are on schedule, that arena rodeo dirt is the precise formula; turf from the old rodeo grounds is used as a nostalgic underlay of the new red clay and sand surface mix. She checked that lighting and giant fans worked, that brackets bolted in the stands will soon hold the blue seats stacked nearby — there are exactly 7,796 aluminum bench and special cupped seats.

Marks, who is executive director of the Arcadia Rodeo, worried that a critical sound system similar to that at Alico Arena in Fort Myers and a stadium-sized video screen are in place on time.

Oh ... there was Hurricane Irma's bad timing to contend with — delaying construction of the $9 million, 107,000-square-foot arena by weeks, possibly throwing the March 8-11 grand opening off and demolishing nearly five years of hard planning, lots of investment and clocks of time, she said.

But in the middle of this morning's mad rush to inspect and to complete the new Mosaic Arena and to host, perhaps, the grandest Arcadia All-Florida Championship Rodeo and the special parties leading up to those intoxicating days, a thin cowboy slowly circled the mostly assembled grandstands. He poked around the yet finished elevator access landing, stopped to survey the vast indoor arena from under the shade of his tilted range hat. A cool draft sifted through the place, under the three-quarter walls and over roofing breezeways. Ceiling fans with helicopter blades will nearly lift us from our seats in the almost sold out Arcadia All-Florida Championship Rodeo.

You see the cowboy is impressed, not rushed to fool with the little things left to fix.

In those moments as she watched the man, Marks seemed less anxious. For Terry Welles's family built the elderly wood arena south of town, the place named in his family's honor, and that showed its final rodeo last fall. Terry Welles is quietly excited for Mosaic Arena, he said, which makes Marks happy.

For effect, Welles paused to tell Marks he had missed just two Arcadia rodeos in 75 years, and that was "because the United States Air Force didn't have a sense of humor."

Marks, who rodeoed in Kentucky as a child, smiled at the dry joke and raised her finger to freeze that moment to answer another ringing cellphone call.

While much is left to finish, Mosaic Arena in its first phase will be ready for the March 8-11 rodeo, Marks said. The project's next phase, which will cost another $4 million, includes a rodeo museum, a NFL-esque jumbotron and other touches certain to make it an elite arena in America.

Terry Welles and Katie Marks discuss the days leading up to the March 8-11 Arcadia All-Florida Championship Rodeo.

Agricultural deputy sheriff, keeping all of DeSoto County safe

Behind the badge

Jim Potter

I have written about other functions of the Sheriff's Office in previous articles ... so I want to share about the duties of our Agricultural Deputy Sheriff in this article.

As a young boy I always watched western movies or TV shows where the lone lawman was out protecting and keeping the community safe from criminals in remote places on the vast expanse of lands. Our country certainly has changed from those days of simple black-and-white movies depicting good prevailing over evil. Who cannot recall the glint in John Wayne's eyes in a John Ford movie classic depicting the "Duke" bringing the bad guy into town!

Well, enough of the reminiscing. Let me share a current function of the DeSoto County Sheriff's Office with you which harkens of the past but with a modern twist. Our Agricultural Deputy Sheriff is part old-time lawman tracking and watching for criminal activity and part modern lawman utilizing the many advances in the practice of modern policing to curtail criminal activity.

Our Agricultural Deputy Sheriffs patrol the vast expanse of rural lands consisting of many agricultural properties and businesses here in DeSoto County. Our agricultural community is of great value to DeSoto County and is one of many protection priorities for the DeSoto County Sheriff's Office. We believe in serving the needs, providing proactive protection and crime-prevention education to our agricultural community.

Our Agricultural Deputies consist of two full-time deputies and one part-time deputy. They are responsible for patrolling the vast expanse of agriculture-related businesses and operations throughout DeSoto County and are supplemented by our regular Uniform Patrol Deputies around the clock. They are responsible for investigating crimes that occur on rural properties, as well as other activities which are unlawful.

It is always great to hear from a DeSoto County resident who was happy to have one of our Agricultural Deputies stop by their home, barn or property to say hello and check on their safety. Our Agricultural Deputies are equipped with four-wheel drive trucks, boats, all-terrain vehicles and special surveillance equipment. They spend time meeting with landowners, operation managers and grove owners in building relationships and a greater understanding of the unique needs of our agricultural community stake-holders.

We have also implemented the "No Trespassing AG-ID" sign program. This helps quickly identify owner/business contact information and agent agreements by the AG-ID number. Our agriculture protection program is one of understanding and providing crime-prevention information and techniques in a manner of respectfulness to the owners and operation managers, as we understand their time is valuable.

Many agricultural associations and bureaus encourage their members to become involved and work with their county sheriff's offices. We, in turn, are extending our hand of protection to them through our Agricultural Deputy program. Our joint goal is to curb theft, trespassing and other various unlawful activities which occur on their rural properties.

Again, it is an honor to serve you as your sheriff; we are here to keep you safe!

FPL's first solar-plus-storage system is in Arcadia

Fossil Hunting on the Peace River

By JIMMY PETERS
Arcadian Correspondent

OUR HOMETOWN

I was excited as I drove to Brownville Park to meet Mark Renz and his group of fossil hunters. I'm finding that Arcadia is full of talented and interesting people — I was not disappointed this morning.

I was greeted at the park by Mark, a tall, lanky man with a gray beard and peaceful smile, along with his wonder dog, Darwin. His semi-dry sense of humor let me know that we were in for a fun as well as an informative morning.

Renz displayed various fossils on a picnic table as his guests arrived. He began: "The reason we're doing the Peace River this morning is that it dates back 15 million years to the Miocene period; it is constantly cutting through that whole 15 million years just mixing things up.

"In the last 2 million years the state of Florida has been land and ocean at least 24 times. We will find mammal, reptile, shark, as well as invertebrate shells here."

The group was then treated to an in-depth explanation of the fossil samples he displayed before him, how they got to this area and the time period in which they lived. They included a megalodon tooth about 4 inches long, the ear bone of a whale, a whale tooth, and a horse jaw with two teeth in it. Renz then picked up two bones and explained: "This is a whale ear bone, and this is a dolphin ear bone, both of which can be found where we're going … and if you're not paying attention, they just look like rocks."

Mark showed the group a bone the size and shape of a silver dollar and explained that it "came from an armadillo the size of a Volkswagen. We will also be looking for large horse teeth down to those the size that belonged to the miniature three-toed horse."

He also covered the impact sediment and river current have on fossils. Mark ended his lecture saying that, "if we find anything Native American, we must leave it in the river."

Next, we were off to the area of the Peace River where the group would be digging for fossils. It was a beautiful walk through meandering strands of live oaks and down a bright green grassy path to the river. We ended up on a small sandbar formed by the river current and began digging, one person using the shovel and the other handling the strainer which captures the treasures.

I noticed that Darwin the dog quietly sat on a mound looking down at the river as if he was supervising the operation. The silence was broken with a "what's this" coming from one of the diggers. Renz peered into the strainer. "That," he said, "may be a piece of dugong [manatee cousin] rib bone you've just found.

"In our area one of the most sought-after finds is a tooth from the Carcharocles megalodon, which may have reached 60 feet in length, weighed over 75,000 pounds, and taken automobile-sized bites out of whales," Renz said.

Ron Rizzo, Nick Reindl, Doug Fogg and Joan Rizzo are entertained by Mark's books.

ARCADIAN PHOTOS BY JIMMY PETERS

Explaining the differences between a new and a very old megalodon tooth.

A horse jaw with teeth from the Pleistocene period found in the Peace River.

He went on, "That's kind of the holy grail of fossils and people come to Arcadia from all over the world to search for that tooth."

Mark Renz began his quest for finding fossils almost 30 years ago.

"The stories that come from a single fragment of bone, the habitat, the place, the time period give us a clue of what was going on locally and globally which arouses my curiosity," Renz said, "and … there's always the hope that I'll find something that science will find useful."

Well, he did indeed find something science found useful — a site in LaBelle that turned up 12 nearly complete mammoth and mastodon elephants, a dozen or so llamas, plus a couple dozen horses, half of which were a species new to Florida. State scientists date the site to about 500,000 years ago. Renz supervised

OUR VIEW

Proper support for agriculture, citrus industry

OUR POSITION: *After months of negotiations, Congress props up citrus growers devastated by disaster.*

Tucked in the huge budget package signed by President Trump last week was emergency relief funding that will resuscitate Florida's citrus industry, which had been clawing back to normalcy before the destruction of Hurricane Irma last September.

The bipartisan deal, months in the making, was rightfully a top priority for Florida's congressional delegation, notably Rep. Tom Rooney, the Republican who represents South Sarasota County, Charlotte and DeSoto counties and many of the inland regions slammed by the storm.

The package was part of the overall $90 billion congressional disaster relief appropriation. Some $2.3 billion was allotted for farmers and growers battered by the hurricane. According to reports, some $700 million will go directly to payments for growers affected by the hurricane.

In a news release, Rooney said, "In today's political climate, any bipartisan breakthrough in Washington constitutes a miracle."

It does seem so. On the other side of the aisle, Sen. Bill Nelson, D-Fla., also chimed in, "For some, the funding in this bill is a light at the end of the tunnel and a major step forward in helping them return to the way life used to be before these storms."

It was a real accomplishment with direct benefits to our agricultural economy.

Last year, Florida's $9 billion citrus industry had finally begun to regain its footing after years of struggles against foreign competition and the plague of the citrus greening bacterial disease. Hurricane Irma was a whopper that devastated orchards, particularly in Southwest Florida. Growers in Charlotte, Collier, Hendry, Glades and Lee counties were said to have lost 75-85 percent of their crop.

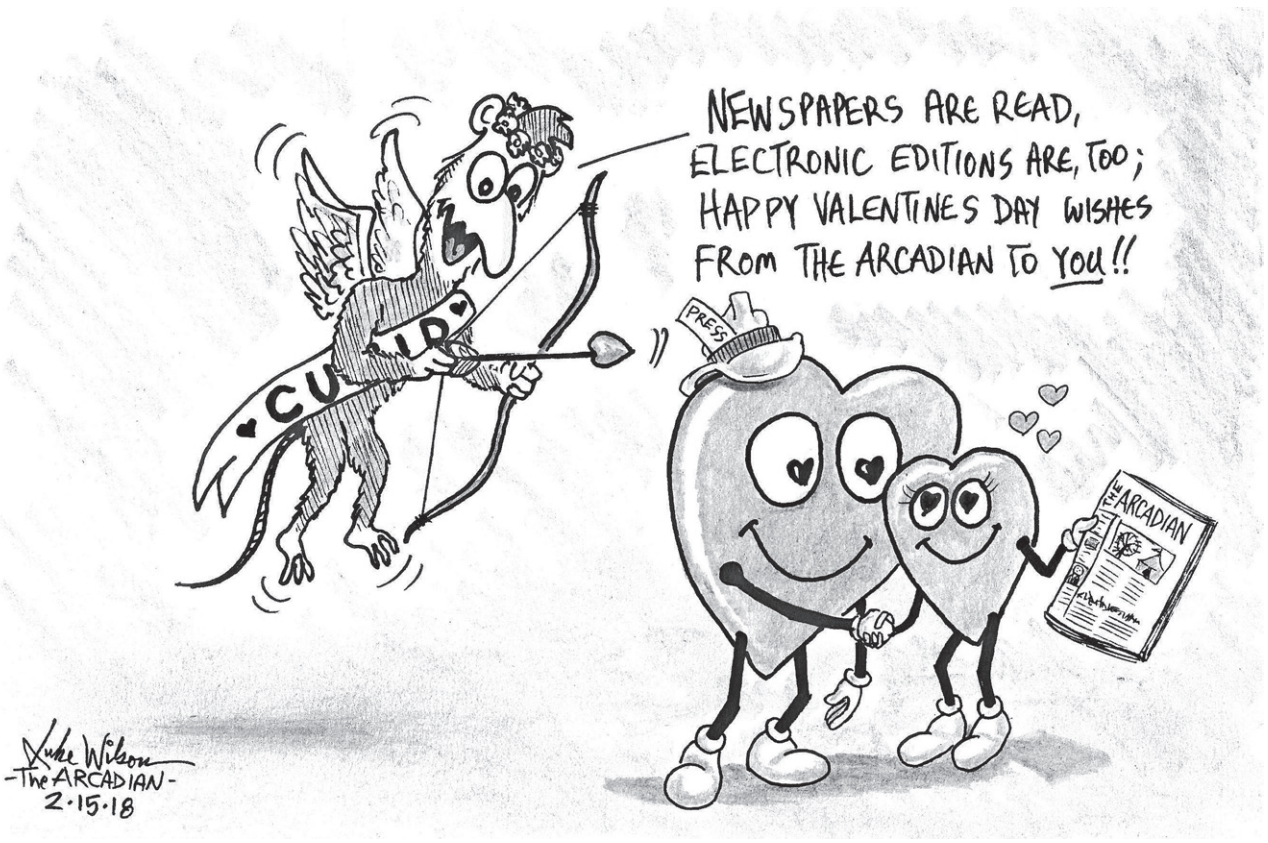
Florida Citrus Mutual, a growers organization, reported last week that losses in Southwest Florida were 100 percent in many instances. Statewide, the organization pegged losses at 65 percent.

Also last week, the U.S. Department of Agriculture lowered its projection for Florida's 2017-2018 orange crop. Again. The estimate fell 2 percent to 45 million boxes, 1 million boxes less than its previous estimate in January. The new number is 9 million-box decline from the USDA's initial October estimate of 54 million boxes.

The one-month change came entirely off the late-season Valencia orange crop, which fell to 26 million boxes. The early and mid-season orange varieties, largely harvested by the end of January, remained at 19 million boxes, according to the Lakeland Ledger. That news was confirmed earlier state estimates of $760 million in direct damages to the industry.

The bailout money will directly offset those losses and help get growers back on a sustainable path. The public radio station WUSF reported distribution of aid will be negotiated between growers, the state Department of Agriculture and Consumer Affairs and the U.S. Department of Agriculture.

Beyond a jug of orange juice from the supermarket, those of us living along the Southwest Florida coast may not always recognize the importance of agriculture to the region's economy. But travel inland and head north past the ranches and orchards, and you'll quickly understand. Citrus is a critical component of the economy that needed revival after a disaster.



LETTER TO THE EDITOR

Nothing has really changed in Arcadia

Editor:

We hear the constant self-praise from upper level staff that "things are changing" in the city of Arcadia. Really?

Streets for the most part are still in a horrible state with the suggestion of more money to fix them from the already over-taxed property owners as the only solution. What happened to promised grants, inventive solutions? Most people don't mind paying taxes if a noticeable return in services is given.

The lack of code enforcement in the city is appalling! Windows boarded up since Hurricane Irma are still boarded up; are we waiting for the next hurricane season? Accumulated debris is everywhere.

Single family homes used by multiple families seem to be becoming the norm rather than the exception — putting occupants which include a large number of children at risk from health/social issues — with the only ones making a profit being the "slum lord" owners that knowingly rent these hovels. If we can see the mess, why can't staff?

Nothing has changed, only the minor players that seem to have "drank the Kool-aid" and become the new cheerleaders; I worry that nothing ever will with those in charge.

Joseph Fink
Arcadia

GRITS & PIECES

Responding to last week's letters to the editor

"As of Jan. 31, 2018, DeSoto Memorial Hospital will no longer be delivering babies at the hospital."

Seems like a straight-forward, informative statement that anybody could understand and interpret.

Maybe not, in my case.

The above comment is the opening line of an audio advertisement being run on our local radio station, WFLN 1480 AM here in Arcadia, and it's aired long after the Jan. 31 deadline has come and gone. Anyway, having known this issue was coming for some time now, I've drawn two cartoons for the *Arcadian* newspaper in as many months, featuring my possum character, Tater. Neither were negative, but according to last week's edition of the *Arcadian,* opinions printed on the editorial page by Vincent A. Sica, Desoto Memorial's CEO and Dan Hogan, CFO of the same, I am misrepresenting the facts, and insinuating that the hospital is taking glee in ending its OB services, respectively.

I don't recollect drawing anything of the sort.

Luke Wilson
troubador55@embarqmail.com

We all know how our beloved hospital (and I am being sincere here, having proudly had both my daughters born there) has been struggling with finances where its OB department is concerned, namely due to so many fewer children being born and so few bills being paid for those births. No cash on delivery, so to speak. It's an impossible balance that cannot go on forever, so it's time to get real and cut the losses and move on, regretfully

So my cartoon of Dec. 28 showed Mr. Sica barring the door to the hospital's OB ward with a stork trying to deliver the proverbial New Year's baby. The stork was saying, "But this is a special delivery — it's a new year!" Mr. Sica was responding with, "It most certainly is a new year" (hinting of the change), and Tater was commenting, "So much for 'natal attraction,' it looks like" (my play on the movie title "Fatal Attraction"). No complaints about that one. As a matter of fact, our editor, Craig Garrett, said Mr. Sica enjoyed it.

My Feb. 1 cartoon depicted three upset and very pregnant women trying to get into the "Newborn Ward" that had been renamed the "No Born Ward," and Tater was saying, "Looks like it's the mamas who will have to be weaned now!" Just to be clear, this ran after the deadline for babies to be born at DMH, and I heard the radio ad still running last week.

Mr. Sica's response in last week's paper said the cartoon brought into question whether or not anyone on the editorial staff had researched the facts to reasonably understand what has occurred. What part of the opening line of this column could be misconstrued?

LETTER SUBMISSION POLICY

Letters are welcome on virtually any subject, but we do have some rules. Please keep them to less than 250 words. Letters must be received no later than noon on Tuesday. Letters will be edited to length as well as grammar and spelling. All letters must be signed with full name - not initials. An address and telephone number must be included; they are not for publication, but must be provided so we may verify authorship if necessary. Due to the number of letters received, we reserve the right to run only one letter per person per month. The Letters to the Editor section is intended as a public forum for community discourse and the opinions and statements made in letters are solely those of the individual writers. *The Arcadian* takes no responsibility for the content of these letters. Please send or bring correspondence to the *Arcadian*, 108 S. Polk Ave., Arcadia FL 34266, or fax to 863-494-3533. Readers with access to the internet may e-mail Letters to the Editor to cgarrett@sun-herald.com or arcadian.editor@gmail.com.

L&E Club enjoys hilarious book review

By MARGARET HAY
L&E Club Contributor

The L&E Club met Feb. 6 at the lovely home of Nancy Ambler.

Co-hostesses were Edith Wildt and Sheila Knoche. They welcomed members and guests and invited everyone in for a Valentine-themed dessert of red velvet cake with nuts and candy. Vice president Sue Ellen Smith made some announcements and thanked the hostesses for their gracious hospitality. She introduced the guest speaker, Angela Waters.

The program reviewed *Humor: The Magic of Genie* by Jeanne Robertson, who is a professional speaker. Her book has helped hundreds of people develop a sense of humor. In her book she has magic "potions" for creating your talents. Some of them are: learn to laugh at yourself, look for humor in all situations, create your own special humor, associate with people who are funny and have a sense of humor in awkward situations. Ms. Robertson has written three books and has eight DVDs of her uproarious tales.

Adding a touch of fun, the hostesses gave each person a bookmark with famous humorous quotes to be read aloud by everyone. Some of the authors were Benjamin Franklin and Mark Twain. As the meeting came to a close, a drawing was held and Ann Ryals won the prize, a box of candy.

Enjoying the laugh-filled meeting were members: Jane Adams, Nancy Ambler, Shirley Cullom, Muriel Hall, Margaret Hays, Linda Hollingsworth, Martha Jo Markey, Genie Martin, Sue Overcash, Ann Ryals, Mindy Ryals, Sue Ellen Smith, Kathryn Standard, Mary Ann Treadwell, Nancy Jo Vaughn, Angela Waters, Edith Wildt and Marlou Zolkos. Guests were Pat Moore and Sandy Neuman.

The next meeting will be on March 6 at the home of Genie Martin.

over 100 volunteers who excavated that site for 18 months. He published a book on the site called *Giants in The Storm*.

Once he turned the site over to the state, Renz asked if some of the material could be given back to the county in which it was found; the state agreed and today there is a world-class fossil exhibit in Clewiston on the banks of Lake Okeechobee.

For the past 22 years Renz has been doing what he loves to do; taking people on fossil tours and they come from all over the world to join him. As a consequence, every time he leaves home his wife says, "have fun." His advice to those who want to join the hobby: "Fossil hunt gently, try to be aware of the environment so you don't destroy it, make sure you have the state fossil permit if you're on a state river, join a fossil club wherever you live in Florida, and learn from other fossil hunters.

"Be willing to donate whatever you find to the state of Florida so that others can benefit from your good fortune," he added.

Mark Renz has evolved spiritually through his work, as he explained: "I didn't know much about science when I first started collecting fossils. What a lot of people call spiritually is my connection on the biological side to the environment, and to the past.

"The interconnectivity that all of us share with every living thing has deepened over the years."

It was an exciting morning made even better by the expertise and semi-dry humor of Mark Renz, fossil-hunter extraordinaire.

You can find Mark Renz at www.fossilexpeditions.com.

• Alcoholics Anonymous Second Tradition meets at 7 p.m. at St. Edmund's Episcopal Church, 327 W. Hickory St.

■ FRIDAY

• On Feb. 16, the DeSoto Chamber of Commerce Leadership Class IX will host Vintage Las Vegas, from 6-10 p.m. at McSwain Park. Tickets are available along with drink tickets, casino chips, ads in the program and more; plus casino, live music and silent auction. For info and reservations, call 494-4033.

• View the award-winning documentary "Time Simply Passes," about James Richardson of Arcadia, wrongfully convicted in 1968 of murdering his seven children. The film will be shown at 6:30 p.m. on Feb. 16 at Pine Level United Methodist Church, 9596 NW Pine Level St., and at 4 p.m. on Feb. 17 at St. John Missionary Baptist Church, 208 Gordon St., following a brief commemorative service for the children. The events are free and open to the public.

• The All Faiths Food Bank distributes free food 6-10 a.m. Monday through Friday at the Center for the Needy, 161 S. Orange St.

• Arcadia Quilt Club meets from 9-11:30 a.m. Fridays at the Palace Dance Hall, 1627 N.E. Floridian Circle, Arcadia.

• Alcoholics Anonymous Hispanic meets at 7 p.m. at 426 N. Brevard Ave., next to El Charro Rest.

• Alcoholics Anonymous Second Tradition meets at 8 p.m. at Grace Lutheran Church, 900 W. Oak St.

• Alcoholics Anonymous Arcadia/Nocatee Group meets at 7 p.m. at Nocatee Methodist Church, 4502 S.W. Welles Ave.

• Faith Mission provides free lunches for anyone in need, 11 a.m. to 12:30 p.m. 1109 S.E. 9th St., Arcadia. Donations gratefully accepted.

■ SATURDAY

• View the award-winning documentary "Time Simply Passes," about James Richardson of Arcadia, wrongfully convicted in 1968 of murdering his seven children. The film will be shown at 4 p.m. on Feb. 17 at St. John Missionary Baptist Church, 208 Gordon St., following a brief commemorative service for the children. The events are free and open to the public.

• The Peace River Woodcarvers will hold their annual show on Sat., Feb. 17 from 8 a.m.-3 p.m. at the Turner Agri-Civic Center, 2250 N.E. Roan St. Free admission.

• On Sat., Feb. 17, The Taylors return to Sunnybreeze Christian Fellowship to present their exciting rendition of Southern Gospel music. This is an award-winning family trio from North Carolina who love to share their passion for the gospel through music. The concert begins at 7 p.m. at Sunnybreeze Christian Fellowship Hall, 11682 S.W. Welcome Ave., Arcadia. Because they are not sponsored, a $10 admission fee is taken at the door. All are welcome.

• Peace River Audubon hosts a field trip Feb. 17 beginning at the State College of Fla. at 8 a.m. on U.S. 41 north, 1 mile past River Road on the left. Park in the lot closest to US 41 by the lake. We will walk around the lake and check the rookery and reedy areas there. It is about a mile on asphalt surface. We will then travel north to the Venice Audubon Rookery, just past Jacaranda Blvd. on the left (behind the Sarasota South County Annex Bldg.). Anhingas, cormorants, great blue herons, and great egrets nest at the Rookery. Pack a lunch to eat there or travel on into Venice for lunch. For details call Barb Taylor at 717-968-6013 or visit www.peaceriveraudubon.org. Free and open to the public.

• Classic car show in the Walmart parking lot, 5 p.m.-9 p.m. the third Saturday of every month. Trophies, door prizes, and 50/50 jackpot.

• The Democratic Women's Club of Desoto meets at 11:30 a.m. on the third Saturday of each month at Beef 'O' Brady's, 1703 E Oak St.

• All You Can Eat Pancake Breakfast this Saturday at the Arcadia Airport in hangar A-5 @ 9 a.m. Great pancakes, sausage, OJ & coffee only $6. Bring the kids for a great time at the airport. Sponsored by Friends of Arcadia Airport.

• DeSoto County Library children's movies are offered at 10:30 a.m. at 125 N. Hillsborough Ave. every Saturday. Children must be accompanied by an adult. Call 993-4851 for more information.

• The All Faiths Food Bank distributes free food 6-10 a.m. Monday through Friday at the Center for the Needy, 161 S. Orange St.

• Faith Mission provides free lunches for anyone in need, 11 a.m.-12:30 p.m. 1109 S.E. 9th St., Arcadia. Donations gratefully accepted.

• Alcoholics Anonymous Second Tradition meets at 7 p.m. at St. Edmund's Episcopal Church, 327 W. Hickory St.

Important Information About Your Drinking Water

City of Arcadia Water Department
Drinking Water System

SITUATION

The City of Arcadia Water Department public drinking water system failed to collect a sufficient number of bacteriological compliance samples during the month of December 2017. Rule 62-550.830, Florida Administrative Code, requires this water system to collect a minimum of 10 bacteriological distribution samples for each month this water system provides water to the public. Department records indicate that the above-referenced water system only collected 5 bacteriological distribution samples during the month of December-2017.

HEALTH EFFECTS

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the month of December-2017, we did not perform bacteriological monitoring at a sufficient number of distribution sample sites, and therefore cannot be completely sure of the microbiological quality of your drinking water during that time.

WHAT IS BEING DONE?

Although the above-referenced public drinking water system missed performing bacteriological monitoring at 5 of its 10 distribution sample sites during the month of December-2017, the monitoring it did perform at 5 of its distribution locations on December 28, 2017, all indicated the absence of coliform bacteria.

WHAT SHOULD CUSTOMERS DO?

Since the laboratory analyses results for the bacteriological samples collected on December 28, 2017, all indicated the absence of coliform bacteria, at this time,

customers need not take any action or seek an alternate water supply.

ADDITIONAL INFORMATION

For more information please contact A. J. Berndt at 863-494-1626
(Name) (Telephone Mumber)
or contact the Patty Baron of the Department of Environmental Protection's Potable Water compliance/enforcement Section at (239) 3445615.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

Avant given life sentence for residential burglary

Garrett Lee Avant, 38, was sentenced to life in state prison following a jury trial in which he was found guilty of burglary of a building or structure causing over $1,000 in damage, first degree arson and battery. The life sentence applies to the charge of burglary of a dwelling with property damage; Avant was also sentenced to 30 years on the arson charge.

AVANT

According to documents from the DeSoto County Sheriff's Office and Clerk of Courts, Avant had a confrontation with his former girlfriend at her home. Avant left and later returned, kicked open the front door, entered the bathroom and began to choke her while she was in the tub. According to the report, he threatened to kill her and to "beat you so f****** bad nobody will recognize you." When she said she would call the police, Avant reportedly took her cell phone and left.

The woman's father took her to DCSO to report the incident. While they were there, a call came in reporting that the father's house was on fire. Shortly after, Avant called the father's phone and left a message, "I promise you, you won't have a place to come back to," adding "I hope you find a place to stay."

DeSoto County Fire Rescue responded to the fire. One of the firefighters on scene called the state fire marshal, who concluded the fire was intentionally started, and she collected samples to determine what accelerant was used. Firefighters also reported the padlock on the front door was still locked, but the hasp it was locked to had been pulled away from the door frame.

Deputies picked Avant up shortly after and found the ex-girlfriend's cell phone in his possession. When Avant was brought to the jail, a lighter was found on him. He was held without bond.

Avant was found guilty after a jury trial of burglary with property damage, arson and battery. He was given a life sentence for the burglary charge and a 30-year sentence for the arson count.

On Jan. 12, an appeal was filed on Avant's behalf claiming the trial court erred in not dismissing the State's case for failure to establish venue.

On Jan. 18, Avant was transferred to the Department of Corrections. His DOC record indicates he was previously incarcerated from 1997 to 1999, 2000 to 2001, and 2004 to 2007 for charges dating back to 1996 including burglary, grand theft and false imprisonment.

POLICE BEAT

The information for Police Beat is gathered from police, sheriff's office, Florida Highway Patrol, jail and fire records. Not every arrest leads to a conviction and guilt or innocence is determined by the court system.

The DeSoto County Sheriff's Office reported the following arrests:

• Rainer Sage Incitti, 23, 2700 block of N.E. Earnest St., Arcadia. Charges: possession of a controlled substance without a prescription and driving while license is suspended. Bond: $2,000.

Nocatee (New) Old Timers Reunion 2018

By CAROL MAHLER
Arcadian Correspondent

When I arrived after lunch at the Nocatee Old Timers Reunion this past Saturday at the Nocatee Community Center, I was told that the Old Timers had already left, and those remaining were the "new timers." They shared a few stories about the "good old days."

McCall and Dennison

Ray "Dink" McCall remembered, "We had three girls in our class ... [one day at recess] we tied the three girls up to the oak tree in front of the school house. We did it as a joke, and we were going to untie them, but when the bell rang, we went inside and forgot to untie the girls ... Mrs. Henderson was our teacher, but Curt Hall is the one that swung the paddle."

Ray Dennison recalled, "Mr. Hall was our sixth-grade teacher. He would bring his golf clubs and golf balls, and he would hit the ball, and some of the guys would get their ball gloves out and try to catch them, or they would chase them down. That was what he called 'field day P.E.'."

Donaldson, Mott, Kinnecom

Royce Mott remembered Nocatee's Mustang baseball teams: T-ball, Little League, and Senior League. He played in all three against teams from Arcadia sponsored by Hodges Tile, Eller Realty, Trinity Methodist Church, First Baptist Church, Central Maloney — "called CTC for the Central Transformer Company," chimed in Colleen Sullivan Donaldson.

"The Nocatee Community sponsored our three baseball teams," Mott recalled. "We had this civic center and we'd have fundraisers here and people would raise money to buy our uniforms and stuff like that. They had a fire station ... right here on this property ... a volunteer fire department."

Mott said, "We had a junior high here in Nocatee that went up to the 8th grade. When you got to the third floor, you were in junior high ... then when we left there, we went to Arcadia for high school."

Nocatee Junior High "didn't have football, so the only two sports were basketball and baseball," said Mott. "I think we played Lemon Bay ... and a team in Arcadia. So it was like a three-team league ... it was good times. When we meet here, we talk about going to school."

Connie Donaldson, Royce Mott and Cheryl Kinnecom.

Donaldson recalled when the Nocatee Junior High School closed about 1965: "I was a Nocatee kid. I went to school in the old Nocatee School. My family moved, and I started the 7th grade in Arcadia, and half way through that school year, the kids from Nocatee that were in that age group started coming to school in Arcadia."

Earlier, the Fort Ogden school had consolidated with the Nocatee School, and Cheryl Collins Kinnecom, who grew up in Fort Ogden, attended the Nocatee School through the 6th grade. In 2004, Hurricane Charley wrecked the three-story Nocatee School.

ARCADIAN PHOTOS BY CAROL MAHLER

Ray McCall and Ray Dennison.

Dustin Gauss, Ernie Gauss and Justin Gauss.

Ernie Gauss, son Dustin Gauss, grandson Justin Gauss

Ernie Gauss said, "I've only been here 30 years, but this is my son and grandson ... both born and raised here." He remembered the Old Timers Reunion "and they used to have it at a place they call Sapp Lake. It was men only then. I went to it one

GRITS & PIECES

FROM PAGE 4

"No means no," my parents taught me when I was growing up. Now, to be fair, the aforementioned radio ad went on to say that DMH and Bayfront Port Charlotte are "entering into a joint venture to provide comprehensive women's health services in DeSoto County, and that the latter will deliver the babies, where there is a level II NICU (neonatal intensive-care unit) if needed."

This tells me the babies will be born somewhere besides DMH, but please correct me if I'm wrong.

I totally agree with the portion of Mr. Sica's statement about the hospital staff, physicians, and board of directors being dedicated to providing quality care for our community. I will be the last to berate our community, its government, its facilities, its history, and its heritage, and have defended those against outside sources and the media for 35 years now, through my columns and cartoons. My mission with cartoons is not to demean, but to try to find the lighter side of issues. Generations of women have given birth to their children at DMH and its predecessor, Arcadia General Hospital, and even before that, Simmons Sanitarium, built in 1912, and my message was simply that since it'd been ongoing so long, the moms would have to be weaned from going there now (a reversal play on the fact that moms have to wean their babies, you know). That's all.

Mr. Sica stated that he expected a retraction or apology from the *Arcadian*. I can't and won't say I'm sorry for my cartoon's message and how I interpreted it, but if what I draw is misunderstood by whomever, I regret that I may not have drawn it clear enough for readers to see the issues through my eyes. That would be my shortcoming — certainly an understandable and a forgivable one. Some people don't "get" my humor, and many don't even "get" me, but that's okay.

As for Mr. Hogan's comments, they pretty much reflect what Mr. Sica said, and I appreciate them both taking time to respond. As far as glee is concerned, that's not even a word I like, and it's one I don't believe I've ever even uttered. Losing our OB services at DMH is certainly nothing for anybody to be gleeful about. My family members have been born here in DeSoto County for generations, and I don't like the thought of any future ones having to leave this county to be born. However, I do understand basic math, and if it's not cost-effective, a change needs to be made. I am not happy (nor gleeful) about that. Tater and I were just seeing it from a slightly different angle, as we always do.

I wish continued success for our hospital as it seeks to serve our community. And Tater does, too.

OBITUARIES

Rachel Carpenter Griffin

Rachel Carpenter Griffin, age 85, passed away on Feb. 5, 2018, at the Tidewell Hospice in Arcadia, Florida.

Ms. Griffin was born on Aug. 15, 1932, in Carrollton, Mississippi, to William Glenn and Estelle (Crow) Carpenter. Rachel's family eventually migrated to Dade County in South Florida, where she attended Redlands and Homestead High School, graduating from the latter in 1950.

In 1953, Rachel met her future husband, R.V. Griffin, at the Washington Avenue Post Office in Homestead, Florida. On July 5, 1954, they were married at First United Methodist Church of Homestead, and remained happily so for the next 42 years, until R.V.`s passing 1996.

In 1957, they would move to R.V.'s hometown of Arcadia, Florida, where Rachel would spend the remaining 60 years of her life. For nearly half of those 60 years she would remain extensively involved in the management of the family's grocery business, which included Midway Market and R.V.'s Foodway. Rachel enjoyed cooking, sewing, and spoiling her grandchildren and great-grandchildren. She was also a faithful member of Pine Level United Methodist Church.

Rachel was preceded in death by her husband, parents, sisters, Margaret Perkins and Hetty Nicholson, and brother Charles Carpenter. She is survived by her son, Steve Griffin of Tallahassee, daughter Treasa Griffin of Arcadia, granddaughter Tara (Shane) Yoder of North Port, grandson John Griffin Latimer of Arcadia, great-grandchildren Ava, Mia and Harper Yoder of North Port, sister Betty Nicholson of Port Charlotte, special nieces Lynn Carter and Jenny Cross of Arcadia, and special nephews Newt Keen and Jody Griffin of Arcadia.

Funeral services were Feb. 8, 2018, at Pine Level United Methodist Church, 9596 N.W. Pine Level St., Arcadia. Pastor Roy Arms officiated. Ronnie Allen, Bert Keller, Steve Price, Danny Via, Robert Womack and Rusty Womack served as pallbearers for Mrs. Griffin. Interment followed in Joshua Creek Cemetery. Arrangements were made by Ponger-Kays-Grady Funeral Home Arcadia, Fla.

Kenneth Elvoy Webb

Kenneth Elvoy Webb, age 77, of Arcadia, Florida, passed away on Jan. 14, 2018, at his home as a result of a tragic house fire.

Mr. Webb was born on Oct. 12, 1940, in Madison, Fla., to the late Daniel G. and Leona Johnson Webb. After serving in the United States Army, he moved to Arcadia in 1961, where he worked as a welder for the Central Maloney Plant for 32 years. He loved working on used lawnmowers and reselling them. He loved going to yard sales and fishing. He enjoyed spending time with his family and his beloved dog, Shorty, who was always by his side. He was very proud to be a nine-year member of AA and enjoyed the many friends he made there.

Kenneth is preceded in death by his loving wife of 38 years, Betty S. Webb, three brothers, Lavaughn, Floyd and James (Donald) Webb, one sister, Dorothy Woods, and one great-grandson, Victor Ball.

He is survived by three sisters: Elvira Waters, Glenda Fox and Geneva (Fred) Willis; three uncles, Lonnie, James and Charles Johnson; four children, Steven K. Webb, Debra S. Bird, Charlotte (Anthony) Brown and Lenny D. Hill; eight grandchildren, Casandra Melfi, Tina Ball, Jennifer Gebeau, Shanna Walls, Scott Hill, Steven King, Miranda Webb and Travis Webb; 12 great-grandchildren and a host of extended family members.

A celebration of life will be held on Feb. 17, 2018, at the Mount Ephraim Baptist Church, 2865 SW County Road 661, Arcadia, beginning at 11 a.m., with Pastor Dana Spurgeon officiating. Immediately following the service, family and friends will gather in the church's Fellowship Hall, and then proceed to the Oak Ridge Cemetery in Arcadia for interment.

In lieu of flowers, please make donations in Kenneth Webb's name to the American Cancer Society.

Nerrissa Valene Mullings

Nerrissa Valene Mullings, age 36, passed away Feb. 8, 2018, in Tampa, Florida.

Ms. Mullings was born Dec. 30, 1981, in Arcadia, Florida, moving to Tampa at age 18 to attend the University of South Florida. Nerrissa was a very devoted mother to her children and loved spending quality time with her family and friends. Nerrissa was of the Baptist faith.

Nerrissa is survived by her father, Valentine Mullings, Lehigh Acres, Fla., two children; a son, Amari Luther, Tampa, Fla., and a daughter, Anadia Mullings, also of Tampa, Fla., one brother, Anthony Patrick, Haslet, Texas; four sisters; Antoinette (Jimmie) Warren, Monterey, Calif., Allison (Purcell) Bradley, Tampa, Fla., Nika Patrick, Arcadia, Fla., and Alexis (Luis) Alejo, Bonaire, Ga. Nerrissa is preceded in death by her mother, Jean Anderson Patrick, and a sister, Adriann Patrick.

Visitation will be conducted on Feb. 17, 2018, from 10-11 a.m., at Shiloh Baptist Church,14 S Alabama Ave., Arcadia, Fla. Funeral services follow at 11 a.m., with the Rev. Matthew Redmon officiating. Burial follows at Oak Ridge Cemetery, Arcadia, Fla.

Online condolences may be made at pongerkaysgrady.com. Ponger-Kays-Grady Funeral Home and Cremation Services, Arcadia, Fla., is in charge of arrangements.

Bluegrass jam in Arcadia

By MARTHA BAUM CARLTON
Arcadian Contributor

On Feb. 9-11, a bluegrass jam camp took place in Arcadia.

Two instructors, Gilbert and Leigh Nelson, came from Boiling Springs. South Carolina, to help more than 20 students learn the intracacies of playing together.

Leigh and Gilbert used the Wernick Method to teach. Pete Wernick, a world-class banjo player as well as a great teacher, developed the concept of jam camps. In his years of teaching, he found the skill that was the most difficult to learn for students was to play in a jam. He decided to find really good players of bluegrass music everywhere and enlist them to teach bluegrass jamming. Now there are jam camps and jam camp teachers throughout the U.S.

Players came from as far away as South Carolina, Ohio and Wyoming.

and even in Europe and Japan. This method has everyone playing within minutes of starting the class. The atmosphere is friendly, and supportive. Everyone develops the courage to try new things.

We learned how to give everyone in the jam a chance to play a solo, to sing and to accompany properly. We spent a long time learning harmony singing. We learned special techniques for our particular instruments. We had banjos, guitars, fiddles, mandolins and a bass.

The students came mostly from the Southwest Florida area, but two were from Cleveland, Ohio, and one was from Wyoming. The students had varying backgrounds ... there were two doctors, one dentist, one lawyer and one NASA physicist. But no matter previous careers, for this one weekend of constant and intense learning, we tried as hard as possible to achieve that elusive goal of being able to play properly in a jam.

An exhausting time for all, but what fun.

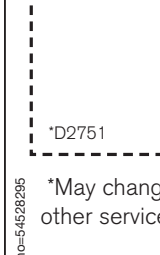
DEATHS

FROM PAGE 9

Joanne Rider

Joanne Rider, age 71, longtime resident of Arcadia, Florida, passed away after a long, brave battle with cancer on Feb. 10, 2018.



Ms. Rider will be forever remembered and loved dearly by her best friend and soulmate, Jim; as well as their loving children, Heidi, Michelle and Peter; by her grandchildren, Heather, Ashley, Austin and Logan; her great-grandchildren, Aubrey, James and Kaylee. Joanne was preceded by her brothers Johnny and Billy, and is survived by her sister Christine. She will also be forever remembered by her nieces, nephew and extended family and dear friends.

Joanne loved socializing in the community, gathering with close friends, and most of all, spending time with family. Joanne had a few other loves, some of which include her Green Bay Packers and Sheepshead cards.

Those who knew Joanne always felt loved and welcomed no matter the circumstance, because of her caring demeanor. She had a smile that could light up a room.

In honoring Joanne's wishes there will be no funeral services. In lieu of personal donations or flowers, on behalf of the family we ask that you continue the fight and donate for a cure to end cancer. Donations can be made to Strolling 4 A Cure or Shriners Hospitals for Children.

Jo's commitment to helping others fight cancer was very evident in the years she spent supporting "Relay for Life" and more recently supporting "Strolling 4 A Cure" to help those in her local community with cancer expenses.

Her many years with the Eastern Star in Arcadia was one of her many passions, as well as volunteering to teach cooking to local 4-H groups. Coastal Conservation Association Florida was another love helping youth to learn fishing. Jo's other talents included writing many articles for the Masonic Lodge.

Her many years traveling with Jim were some of her most treasured times, especially Alaska, and walking the "Mighty Mac Bridge" in Michigan. The walls of Joanne's home are lined with many awards and certificates from the many accomplishments of her life. She never left you without saying "I love you"!

Special thanks to Pastor Louie at the Trinity United Methodist Church for his support and the many friends who have been so compassionate and caring through Joanne's cancer battle.

Online condolences can be made at pongerkaysgrady.com. Ponger-Kays-Grady Funeral Homes, Arcadia are in charge of the arrangements.

3114 INVITATION TO BID

INVITATION TO BID
NOTICE IS HEREBY GIVEN that the City of Arcadia invites sealed bids from qualified Contractors to perform the following work, which is described in detail in the Bid Documents.
BID TITLE:
ARCADIA MUNICPAL AIRPORT
TURF RUNWAY DRAINAGE IMPROVMENTS
FDOT FM No. 439454-1-94-01
BID OPENING LOCATION:
City of Arcadia Margaret Way Building
23 North Polk Avenue
Arcadia, Florida 34266
The City of Arcadia is seeking sealed bids for the Turf Runway Drainage Improvements. This work includes regrading Turf Runway 13-31 and parallel ditches, replacing deteriorated or undersized pipes and end sections, ditch grading improvements, seeding and mulching, relocating a wind cone, ancillary civil/electrical and incidental activities necessary to complete the work in accordance with the specifications and drawings.
The bidding documents are available beginning **Thursday, January 25, 2018** by contacting **Elise Legg, Phone 407-622-2050, or E-mail elegg@hanson-inc.com.**
A Pre-Bid Conference for all interested Prime Contractors is **scheduled for Thursday, February 8, 2018 at 10:00 a.m. E.D.T.** in the Council Chambers at the City of Arcadia Margaret Way Building, 23 N Polk Ave., Arcadia, FL 34266. Attendance to the pre-bid meeting is encouraged, but not mandatory.
Questions may be submitted until 5:00 pm, Friday, February 16, 2018 to Doug Wilcoxon, P.E. at dwilcoxon@hanson-inc.com as a Microsoft Word document. No questions will be accepted after that time. Bidders shall not contact City of Arcadia Employees, Agents, City of Arcadia Elected Officials, or the Engineer to discuss the project. All questions will be answered in writing by addendum no later than Tuesday, February 20, 2018.
Bids, mailed or delivered, must be sealed and plainly marked "X06 TURF RUNWAY DRAINAGE IMPROVMENTS", on the outside of a sealed envelope and addressed as follows: City Clerk, Penny Delaney, City of Arcadia Margaret Way Building, 23 N. Polk Ave., Arcadia, FL 34266, no later than the deadline specified, using the forms furnished with and conforming to the requirements of the Bid Documents. At the time and location mentioned above, bidding will be closed and those proposals received will be publicly opened and read aloud, one-half hour after the submittal deadline.
The City of Arcadia assumes no responsibility for bids received after the bid submittal time or at any location other than that specified, no matter what the reason. Late bids will not be opened and will not be considered for award.
A bid bond or certified cashier's check payable to the City of Arcadia, equal to five percent (5%) of the total bid amount must be enclosed with the bid. No bidder may withdraw his bid within a period of ninety (90) days after the actual date of opening thereof.
All bidders are advised that the project will be funded in part by an FDOT grant. Also, some typical Federal mandatory provisions will apply to the contract. Among these are:
1) Buy American
2) Foreign Trade Restrictions
3) Davis Bacon
4) Affirmative Action
5) Government-wide Debarment and Suspension
6) Government-wide Requirements for Drug-free Workplace.
A full listing along with the text of the referenced provisions is included in the contract documents and specifications.
The City of Arcadia reserves the right to waive any formalities, technicalities, or irregularities in; or reject any or all Bids; or to re-advertise for Bids and award or refrain from awarding the Contract for the Work.
The City of Arcadia adheres to the American with Disabilities Act and will make reasonable modifications for access to City services, programs and activities. Please call (863) 494-4114 for further information. Requests must be made at least 48 hours in advance of the event in order to allow the City time to provide the requested services.
All Bidders must be licensed in accordance with Florida Laws. The City of Arcadia recognizes fair and open competition as a basic tenet of public procurement. Respondents doing business with the City of Arcadia are prohibited from discriminating on the basis of race, color, creed, national origin, handicap, age or sex.

City of Arcadia

Request for Contractor Statement of Qualifications For Regional Integrated Loop System Phase 1 and/or 3B Interconnect Pipeline Projects

The Peace River Manasota Regional Water Supply Authority (Authority) is prequalifying construction contractors to bid on the Authority's Regional Integrated Loop System – Phase 1 and/or Phase 3B Interconnect Pipeline Projects. Any Contractor intending to submit a bid on either or both of these projects must be prequalified. The Authority is also prequalifying horizontal direction drilling (HDD) subcontractors for the Phase 1 Interconnect.
The Phase 1 Interconnect Project includes installation of approximately six (6) miles of 24-inch diameter potable water transmission main, including a 3,500-ft subaqueous crossing of Shell Creek in Charlotte County to be installed by horizontal directional drilling (HDD). Additionally, the project includes installation of a new Meter Station at the Shell Creek Facility, and associated potable water pipeline Work at the Shell Creek Facility and the Desoto County South Booster Pump Station. Prequalification is required separately for Prime Contractors, and for HDD subcontractors, for the Phase 1 Interconnect Project.
The Phase 3B Interconnect Project includes the installation of approximately four (4) miles of 48-inch diameter and one (1)

3138 OTHER NOTICES

mile of 36-inch diameter potable water transmission main.
Prequalification is required for Prime Contractors only; prequalification of specialty trade or subcontractors is not required.
Information Packages containing the Request for Statements of Qualifications (SOQs) and details of each project and prequalification requirements are available for download on the Authority's web page www.regionalwater.org or by contacting Rachel Kersten at:
Peace River Manasota Regional Water Supply Authority
9415 Town Center Parkway
Lakewood Ranch, Florida 34202
Telephone: (941) 316-1776
Email: Rkersten@regionalwater.org
Contractors submitting SOQs for consideration must submit five (5) hard copies and one (1) electronic PDF copy of their SOQs in accordance with the requirements contained in the Information Packages to the attention of Patrick J. Lehman, Executive Director, at the address above no later than 2:00 pm, local time, Monday, March 12, 2018. Contractors are solely responsible for the timely delivery of their SOQs. SOQs will not be accepted after the specified time and date, and will be returned unopened.

HCW Foundation's first Black History Month

By CAROL MAHLER
Arcadian Correspondent

ARCADIAN PHOTO BY CAROL MAHLER

Visitors at Saturday's tribute.

"More often than not, our story has not been told, and this is the season for us to tell our story because only we can tell it," said Brenda Johnson, vice president of the HCW Foundation, during her welcoming to the Foundation's first Black History Month program on Saturday at Pleasant Hill Christian Church in Arcadia.

The HCW Foundation was the idea of Charles Washington, son of Helen Copeland Washington and whose initials name the foundation. Its mission is to collect, preserve, and share information about DeSoto County's African-American history and culture, and to provide a museum and educational center for community outreach.

"We appreciate Charles for having the vision," she said.

A retired teacher, she gave the audience a "history test," asking them to remember what Alabama Avenue used to look like. One person responded, "It was dirt." Others called out the businesses located there including bars, a barbershop, drugstore, laundromat, movie theater, and more.

People also remembered the establishments along South Orange Avenue: Alice's Cafe, Anderson Cleaners, Burton Barbershop, Mrs. Hemingway Store, Hickson Funeral Home (still in business), Roger's City Service Gas Station, Roger's BBQ, Uncle Joe's, "Ruby Tillis who sold cookies two for a penny" and others.

Johnson said, "I have history at my house, and you have history at your house," naming items such as old photos, documents, and newspaper clippings that the Foundation seeks to digitize for its collection. She reminded the audience that the Foundation also wants to record oral histories: "Each of us is a living historical testament. Let's pass that legacy on. We are somebody!"

The program featured "Trail blazers here in DeSoto County," and first on the list of 10 was Helen Washington. Longtime president of the DeSoto County Chapter of the National Association for Advancement of Colored People (NAACP), she worked to help those less fortunate, and she was "proud to be from Arcadia."

Johnson recalled Washington as a strong leader — "she never backed down" — and when she needed assistance from the county or the city, "she put herself on the agenda."

Foundation board member James Faison, a retired history teacher from DeSoto Middle School, noted the contributions of nine other important African-American Arcadians: Richard Bowers — first African-American head football coach and athletic director in an integrated high school; George Brown — Florida's first African-American deputy sheriff; Minnie L. Brown — business owner; William Burton — business owner who worked for voting rights for DeSoto County's African-Americans; Thomasena Floyd — longtime teacher and historian; Sharon Goodman — Arcadia's first woman African- American mayor, vice mayor and city council member; Eugene Hickson — Arcadia's first African-American mayor, vice mayor and city council member; Johnny Rembert — who played football for the NFL's New England Patriots; and Clarence W. Walton — teacher and principal who worked to build the new Smith-Brown School.

Students participating in a History Leadership Camp at West Elementary School had decorated posters about the 10 leaders, and their posters — plus others featuring historic photos and newspaper clippings — covered the church's walls. The Rev. Sam Morgan, pastor of Pleasant Hill Church who offered the event's opening and closing prayers, found a photo of himself in the display, as did many others in the audience.

The DeSoto County Historical Society set up a mini-exhibit about the Smith-Brown School — the "separate but equal" school for African Americans that closed after integration in 1970. The program also included Althea Irving reading an original poem, Serina Williams performing a "praise dance," and Rupert Brown singing a solo.

Lunch and learn in Arcadia

ARCADIAN PHOTO PROVIDED

Beth Duda with the Suncoast Campaign for Grade-Level Reading presents the program to DeSoto County educators, professionals and others on Feb. 8 at the South Florida State College campus in DeSoto County. Coordinated by the Patterson Foundation in Sarasota, the national project targets youngsters to read by the end of third grade: One in three in DeSoto County currently do so, Duda advised the gathering. The nonprofit wishes to partner with DeSoto Schools.

DeSoto's best and brightest

Bulldogs keep on grinding in loss, having fun too

By STEVE KNAPP
Arcadian Sports Editor

The DeSoto County boys basketball team hasn't won as many games as they had hoped when the season began.

But you've got to give them credit for working at getting better.

The Bulldogs lost at Lemon Bay last week, 65-43, as they neared the end of an eight-game road trip (see accompanying story). There are only eight players on the team, as a half dozen players missed the final couple of weeks for various reasons.

Still, the Bulldogs kept on fighting even after the game was decided. Keimar Brown had a team high 11 points, followed by fellow freshman Ellis Hodges. Rene Monroy keeps getting better as he knocked down five points, but led the team with 10 rebounds.

The Brown and Hodges freshman combination is a good foundation to build the future around. There are several good underclassmen that will help bring the Bulldogs back to former glory — if they stay together and work, not just play, but work at getting better.

DeSoto trailed by 11 at the end of the first quarter and also at the half. The Mantas lead grew to 12 at the end of three quarters ... but Lemon Bay blew the game away in the final quarter, outscoring the Bulldogs 21-11.

With only eight players rotating in and out of the game, fatigue may have been a problem, especially with three games played in the week.

"Whether we win or lose, I'm still having fun playing the game," said Hodges.

Proof of that came in the first half as Hodges went to the line for a couple of free throws.

With the Lemon Bay cheerleaders sitting in the bleachers behind the net, they started a chant hoping for Hodges to miss the free throw. After the first shot was nothing but net, Hodges gave a big Hollywood grin and a wink at the cheerleaders that got them giggling.

Having fun while playing a game that you love is a pretty good thing.

ARCADIAN PHOTO BY STEVE KNAPP

Keimar Brown gets up over the Lemon Bay defenders to pick up two of his team high 11 points in the 65-43 loss.

Road trip ends for Bulldogs, record-setting run in loss

By STEVE KNAPP
Arcadian Sports Editor

Even though the DeSoto County boys basketball team probably doesn't listen to country music on their headphones, they have something in common with Willie Nelson. Nelson had a big hit called "On The Road Again."

The Bulldogs can relate.

They finished their season with eight straight road games (nine including the first district game at Hardee). That could be a record for any Florida high school basketball team. There is a good chance that the Bulldogs set a state record playing in three straight "Senior Night" games in one week. Their own senior night was way back on Jan. 22.

The Bulldogs didn't back down from any teams as their last week included Lemon Bay who had 16 wins this season. Port Charlotte is the four-time defending district champion and Charlotte is seeded number 1. All three of those teams are in the tough 7A district 10. The Bulldogs compete in 5A.

Against Charlotte, the Bulldogs had an early lead 5-2, but watched the Tarpons score 15 straight points before Arnold Mele hit a long 3-point shot at the buzzer to end the first quarter.

The nine-point lead grew to 19 at the half and 28 after three quarters. The Tarpons won the game, 76-43. Again it was the freshmen Keimar Brown and Ellis Hodges that led the way with 13 points each, with Brown getting all of his in the second half.

The final regular season game for the Bulldogs was at Port Charlotte on Friday night, the Bulldogs' third game of the week. Senior Tyler Vest hit a pair of treys in the first quarter for all of the Bulldogs scoring, as the Pirates took a commanding 20-6 lead at the end of the opening quarter.

The Pirates just had too many weapons and pulled away with a 58-45 win. Vest led the team with 10 points, with both Fred Fields and Mele scoring nine. Brown finished with eight points.

DeSoto Coach Darrell Nicklow has good reason to be proud of his team. They took a few beatings this season but kept on playing hard all the way to the end of each game. They didn't just roll over and give up, but they fought hard until the final whistle blew.

"I'm proud of the whole team," he said, "the way they played and competed. We didn't give in to anybody. They played hard and fought. I'm just so proud of my boys."

The DeSoto County basketball team played hard this season despite a brutal schedule. Those left standing are: Jonshea Reed, Tyler Vest, Ellis Hodges, Rene Monroy, Keimar Brown, Arnold "Bubba" Mele, Fred Fields and Elijah Arthur.

Bulldogs basketball future looks bright

By STEVE KNAPP
Arcadian Sports Editor

The DeSoto County JV boys basketball team lost their three games last week but played against some very good teams in Charlotte, Lemon Bay and Port Charlotte. Those teams are not made up of shoe clerks and jockeys.

In order for the varsity program to be strong, it starts at the JV level … and those three teams have good programs going.

The Bulldogs are getting closer to becoming one of those very good teams. The only mismatch was against the Tarpons, who beat up on our boys, 78-22. Charlotte is a powerhouse that finished their season with a 23-2 record against a lot of very good teams. The Bulldogs aren't one of them yet, but they have the potential of becoming one of the very good teams in the area.

The 66-43 loss at Lemon Bay had a lot to do with a poor passing game and the season long problem of turnovers. The Bulldogs were golden from the free throw line, going 8-11 without Tyrese Prince's off night of just 1-8. A 9-19 night still isn't the worst a team could do.

Prince led the Bulldogs with 16 points, with Jas'Juan Rosario adding nine to the DeSoto total. Queshawn Burroughs was close behind with eight and five other players each had a pair to account for the Bulldogs' 43 total.

A slow start at Port Charlotte put the Bulldogs behind by 26 at the half, as the Pirates won 67-27. Rosario led the team with eight points. He had 24 points in the three games, with Prince taking scoring honors with 29.

The 2018 DeSoto senior class has a lot of very good girl athletes. The boys freshman class has just as many or more. It's not often that a large group of athletes are all in the same class. This freshman class has the potential to be very good.

WHEN IT'S FLU SEASON, TAKE STEPS TO STAY HEALTHY... INCLUDING SEPARATING FACTS FROM MYTH.

Here are some common myths about the flu

MYTH 1: You can catch the flu from the vaccine. Vaccine is made from inactivated virus that can't transmit infection. It takes a week or two to get protection from vaccine, so you may still get sick if exposed, but the illness will be shorter and less severe.

MYTH 2: Getting the flu vaccination is all you need to do to protect yourself from the flu. There's more you can do: Avoid contact with people who have the flu, wash hands frequently, and consider taking anti-viral medications if you were exposed to the flu before being vaccinated.

MYTH 3: You don't need to get a flu shot every year. The influenza virus changes (mutates) each year, so getting vaccinated is important to make sure you have immunity to the strains most likely to cause an outbreak that flu season.

MYTH 4: The flu is just a bad cold. Influenza may cause bad cold symptoms, like sore throat, runny nose, sneezing, and cough, but they are not the same. In the United States, 36,000 people die and more than 200,000 are hospitalized each year because of flu. CDC recommends yearly flu shots for everyone older than 6 months of age, including pregnant women. It is especially important for those over 65 or with underlying medical conditions.

MYTH 5: If you have a high fever with the flu that lasts more than a day or two, antibiotics may be necessary. Antibiotics work well against bacteria, but are not effective for viral infections like flu. Some people develop a bacterial infection as a complication of the flu, so get checked out if your symptoms drag on or get worse.

Flu vaccine is available at our Primary Care Clinic

1031 E. Oak Street, Arcadia

Israeli leader vows to carry on

Israeli Prime Minister Benjamin Netanyahu vowed to carry on after police recommended indicting him on corruption charges. ***See page 3***

MIKE STOCKER/SUN SENTINEL/TNS

Students are evacuated by police out of Marjory Stoneman Douglas High School in Parkland, Fla., after a shooting on Wednesday.

GUNMAN OPENS FIRE IN SCHOOL

Former student in custody; at least 17 dead

By TERRY SPENCER and KELLI KENNEDY
Associated Press

PARKLAND, Fla. — A former student opened fire at a Florida high school Wednesday, killing at least 17 people and sending scores of students fleeing into the streets in the nation's deadliest school shooting since a gunman attacked an elementary school in Newtown, Connecticut.

Frantic parents rushed to Marjory Stoneman Douglas High School to find SWAT team members and ambulances surrounding the campus as classes prepared to dismiss for the day. Live footage showed emergency workers who appeared to be treating the wounded on sidewalks.

"It is a horrific situation," said Robert Runcie, superintendent of the school district in Parkland, about an hour's drive north of Miami. "It is a horrible day for us."

The 19-year-old suspect was taken into custody without a fight about an hour after he left the scene, authorities said.

Broward County Sheriff Scott Israel said the suspect, who was previously expelled for disciplinary reasons, had at least one rifle and multiple magazines.

"It's catastrophic. There really are no words," Israel said on Twitter.

Most of the fatalities were inside the building, though some victims were found fatally shot outside, the sheriff said.

The gunman was identified as Nicolas Cruz by a U.S. official briefed on the investigation. The official spoke on condition of anonymity because he was not authorized to discuss the information publicly.

In a cul-de-sac near the school, Michael Nembhard was sitting in his garage when he saw a young man in a burgundy shirt walking down the street. In an instant, a police cruiser pulled up and officers jumped out with guns drawn.

"All I heard was 'Get on the ground! Get on the ground!" Nembhard said. He said he could not see the suspect's face, but that the man got on the ground without incident.

The day started normally at the school, which had a morning fire drill, and students were in class around 2:30 p.m. when another alarm sounded.

AP PHOTO

Parents wait for news after a reports of a shooting at Marjory Stoneman Douglas High School in Parkland, Florida, on Wednesday.

Noah Parness, a 17-year-old junior, said he and the other students calmly went outside to their fire-drill areas when he suddenly heard popping sounds.

"We saw a bunch of teachers running down the stairway, and then everybody shifted and broke into a sprint," Parness said. "I hopped a fence."

Beth Feingold said her daughter, Brittani, sent a text at 2:32 p.m. that said, "We're on code red. I'm fine," but sent another text shortly afterward saying, "Mom, I'm so scared."

GUNMAN | 3

Latest mass shootings all have something in common: the AR-15

By MATT PEARCE
Los Angeles Times

When a gunman attacked a high school in Parkland, Fla., on Wednesday, killing 17 people, the event marked a depressingly familiar milestone.

As of this week, seven of the 10 deadliest mass shootings in modern U.S. history have all happened since 2007. The Parkland massacre is now the eighth-deadliest attack.

The nation's mass-shooting problem seems to be getting worse. And the latest, most serious shootings all seem to have one new thing in common: the AR-15 semiautomatic assault rifle.

The AR-15 that typically has large magazines, shoots rounds at higher velocities than handguns, and leaves more complex wounds in victims.

In each one of the older shootings on the 10-deadliest list — including the 2007 attack on Virginia Tech in Blacksburg, Va., that left 32 victims dead — the shooters carried handguns. (The exception is the 1984 San Ysidro, Calif., massacre, where the gunman also used a shotgun and an Uzi semiautomatic carbine.)

But in all of the latest incidents — Newtown, Conn., in 2012; San Bernardino, Calif., in 2015; Orlando, Fla., in 2016; Las Vegas, 2017; Sutherland Springs, Texas, 2017 — the attackers primarily used AR-15 semiautomatic rifles.

There are a couple of theories that might suggest why AR-15s would be associated with deadlier attacks. AR-15 rifles shoot small but high-velocity .223-caliber rounds that often shatter inside victims' bodies, creating more devastating injuries than the wounds typically left by larger but lower-velocity handgun rounds.

Shooters also commonly use the rifles with 30-round magazines, which allow a shooter to fire more rounds uninterrupted, compared to the smaller magazines commonly used in handguns.

Details were still coming in about Wednesday's shooting in Florida, but officials say the suspected gunman, Nikolas Cruz, 19, was armed with at least one AR-15 semiautomatic rifle and "countless magazines," according to Broward County Sheriff Scott Israel.

TNS FILE PHOTO

On display at a gun shop in Wendell, N.C., an AR-15 assault rifle manufactured by Core15 Rifle Systems.

There's one thing that does make the Parkland massacre unusual. Of the 10-deadliest mass shootings, Cruz is the only suspected gunman to escape, survive and likely face trial — giving the public a chance to learn why the massacre happened.

NATION/WEATHER

A Westminster wow: Bichon frise becomes America's top dog

By BEN WALKER
AP Sports Writer

NEW YORK — Flynn the bichon frise won best in show at the Westminster Kennel Club on Tuesday night, a choice that seemed to surprise almost everyone in the packed crowd at Madison Square Garden.

Fans who had been loudly shouting for their favorites fell into stunned silence when judge Betty-Anne Stenmark announced her decision.

No matter, the white powder puff was picked and walked off as America's top dog.

Guided by expert handler Bill McFadden, Flynn beat out Ty the giant schnauzer, Biggie the pug, Bean the Sussex spaniel, Lucy the borzoi, Slick the border collie and Winston the Norfolk terrier.

"It feels a little unreal," McFadden said. "I came in expecting nothing except hoping for a good performance, and I think I got it."

Upsets by underdogs are common on the green carpet of the Garden — inside dog fanciers indeed fancied Flynn, but the people sitting in the stands were obviously pulling for other dogs.

Cheers of "Let's go, Biggie!" bounced all around the arena for the popular pug. Bean was a clear crowd favorite, the way he sat up straight on his hind legs and begged judges for the biggest treat in dogdom.

Ty came into this competition as the nation's No. 1 show dog last year and finished as the runner-up. He endeared himself to spectators by jumping up and putting his front paws around handler Katie Bernardin after winning the working group earlier in the evening. Slick and Lucy also drew applause.

Almost 6, Flynn was the fourth-ranked show dog in the country last year. Even so, he wasn't the hot dog when this night began.

Flynn posted his 42nd career best in show victory in what was almost certainly his last event before retiring. McFadden says it takes two hours to cut his fur before being presented, and not a hair — or step — was out of place for his finale.

The famed JR was the only other bichon to win Westminster, in 2001.

McFadden has enjoyed success at the Garden, having guided Mick the Kerry blue terrier to the title in 2003.

Flynn won't get much rest before beginning his victory lap. Wednesday's schedule includes visits to the morning TV news shows, a steak lunch at Sardi's, a trip to the top of the Empire State Building and a walk-on part at the Broadway musical "Kinky Boots."

The Westminster-winning team gets no prize money. Instead, there's a shiny bowl, lucrative breeding fees and, most of all, a lifetime of memories.

The 142nd Westminster event attracted 2,882 entries in 202 breeds and varieties. Among those who didn't quite make the cut: face-licking Spicy Nacho the miniature bull terrier who drew laughs, just not the judge's look.

Flynn made a goodwill gesture toward Stenmark upon meeting her, offering his paw as if to shake hands when she went down the line to review the final seven dogs.

His full name is Belle Creek's All I Care About is Love, and this champion from the nonsporting group delivered a few minutes before it became Valentine's Day.

"He has my heart," McFadden said. "He is pure joy."

The fans seemed to like Flynn, too, only they hollered a lot more for several others.

"He kept wagging his tail and that sold himself to me," Stenmark said.

The 2018 Westminster Dog Show, Best in Show, was awarded to "GCHP CH Belle Creek's All I Care About Is Love"

Trump shows willingness to raise fuel taxes

By KEN THOMAS
Associated Press

WASHINGTON — President Donald Trump on Wednesday signaled his openness to a 25-cent fuel tax increase to help pay for his infrastructure proposal.

Sen. Tom Carper of Delaware said Trump told lawmakers in a White House meeting that he would be willing to provide leadership on such an increase.

"To my surprise, President Trump, today in our meeting, offered his support for raising the gas and diesel tax by 25 cents a gallon and dedicating that money to improve our roads, highways, and bridges," Carper, a Democrat who has advocated for the increase, said in a statement.

He said the president "came back to the idea of a 25 cent increase several times throughout the meeting."

Trump made the comments, first reported by Axios, in a meeting with members of the House and Senate to discuss his plan to rebuild and restore the nation's roads, bridges and ports. The White House unveiled a proposal Monday to use a $200 billion federal investment to leverage more than $1 trillion in public and private funding to pay for the upgrades.

The White House proposal is silent on what the administration would do about the Highway Trust Fund, which finances most highway and transit projects through the fuel taxes. The trust fund is forecast to go broke in 2021.

Some lawmakers and prominent groups like the U.S. Chamber of Commerce have called for a 25-cent, phased-in increase in the federal gas tax to bolster the nation's highway trust fund. But any tax increase would represent a political risk for members of Congress in an election year.

Conservative groups warned against the calls for a tax increase. Grover Norquist, president of Americans for Tax Reform, said gas tax revenue is often siphoned off to fund projects unrelated to infrastructure and Democrats have long sought fuel tax increases.

"President Trump will not be fooled into following the Democrat play book," Norquist said in a statement.

The federal gas and diesel tax hasn't been raised since 1993.

Trump-sought parade could cost $30M

By ANDREW TAYLOR
Associated Press

AP PHOTO

Budget Director Mick Mulvaney makes a note while attending a House Budget Committee hearing on Wednesday on Capitol Hill in Washington, after attending Ash Wednesday services.

WASHINGTON — The White House budget director said Wednesday that a military parade envisioned by President Donald Trump could cost between $10 million and $30 million, although that money is not included in the administration's new budget request.

Office of Management and Budget Director Mick Mulvaney told the House Budget Committee that estimates are "very preliminary." He said they're "between 10 and 30 depending on the length" of the parade.

"I've various different cost estimates from between I think $10 million and $30 million depending on the size of the parade, the scope of it, the length of it," Mulvaney said. "We've not accounted for it in this year's budget simply because it's come up at the last minute."

Officials such as Defense Secretary Jim Mattis have confirmed that Trump has pushed for a large-scale parade to trumpet the U.S. military, but Mulvaney said the administration hasn't decided to go forward with it.

"We'll continue to work with you folks if we decided to push forward," Mulvaney told the lawmakers.

Mulvaney said the administration would have to seek an appropriation from Congress or redirect existing funds to finance the parade. Trump's new budget requested $686 billion for the Pentagon's budget next year.

Israeli leader vows to carry on despite corruption charges

By ARON HELLER
Associated Press

JERUSALEM — Israeli Prime Minister Benjamin Netanyahu vowed to carry on Wednesday after police recommended indicting him on corruption charges, angrily dismissing the allegations and the critics calling on him to step down.

With his coalition partners dutifully lining up behind him, the longtime leader readied himself for a prolonged battle over his political legitimacy as the attorney general considers whether to ultimately press charges.

The police announcement that Netanyahu's acceptance of nearly $300,000 in gifts from two billionaires amounted to bribery sent shockwaves through the Israeli political system and delivered a humiliating blow to Netanyahu after years of allegations and investigations. But it did not appear to immediately threaten his lengthy rule as reaction largely fell along partisan lines. Nearly all of Netanyahu's Cabinet ministers issued statements of support and his coalition partners all signaled they would stick by him, for now.

"Let me reassure you: the coalition is stable. No one, not I and no one else, plans to go to elections. We will continue to work together with you for the people of Israel until the end of our term," he said to a gathering of local government officials in Tel Aviv. "After I read the recommendations report, I can say it is biased, extreme, full of holes like Swiss cheese and doesn't hold water."

In an impassioned defense, Netanyahu took aim at police investigators saying their figures were vastly inflated and tried "to create a false impression of exchanges that never existed."

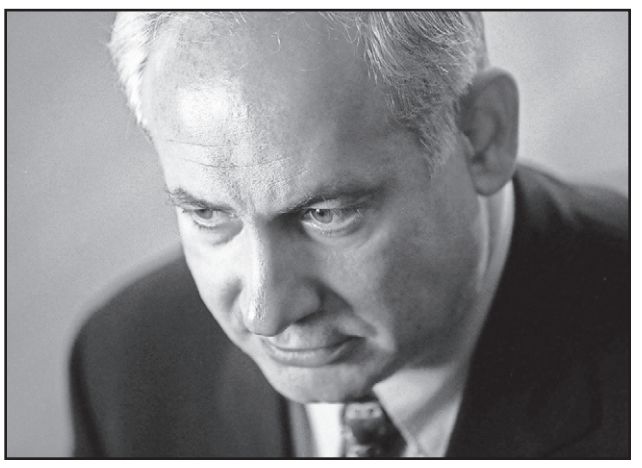
Though he is not legally compelled to resign, several opposition figures called on Netanyahu to do so to avoid corrupting the office further.

Under similar circumstances a decade ago Netanyahu, then the opposition leader, urged then-Prime Minister Ehud Olmert to resign after police recommended he be indicted, saying a leader "sunk up to his neck in interrogations" could not govern properly.

In contrast to Olmert, who eventually stepped down and was convicted and imprisoned, Netanyahu is still relatively popular with the public and enjoys broad political support in his Likud party and among coalition partners — nearly all of whom stand to lose power if elections were held today.

Public Security Minister Gilad Erdan, who oversees the police, said the prime minister "deserves the assumption of innocence," while Netanyahu's coalition whip, David Amsalem, accused the police of committing "an illegitimate act here to attempt a coup d'etat in Israel."

More importantly, the coalition parties that keep Netanyahu afloat said they would await the ruling of Attorney General Avihai Mandelblit, who could take months to decide whether to file charges.



AP FILE PHOTO

In this file photo taken on Dec. 6, 1998, Israeli Prime Minister Benjamin Netanyahu accuses Palestinian leader Yasser Arafat of "making a farce" of the Wye River accords during an interview in his Jerusalem office.

The only crack in the wall-to-wall support came from Education Minister Naftali Bennett, head of the nationalistic Jewish Home party, who said Netanyahu could keep serving but was "not living up to the standard" expected of his office.

Police recommended indicting Netanyahu over accepting gifts from Hollywood mogul Arnon Milchan and Australian billionaire James Packer, and over suspicions that he offered to give preferential treatment to a newspaper publisher in exchange for favorable coverage.

Police say that in that in return for lavish gifts that included jewelry, expensive cigars and champagne, Netanyahu had operated on Milchan's behalf on U.S. visa matters, tried to legislate a generous tax break for him and sought to promote his interests in the Israeli media market.

White House struggles with domestic abuse vetting scandal

By CHRISTI PARSONS
Tribune Washington Bureau

WASHINGTON — President Donald Trump broke his silence on the subject of spousal abuse Wednesday, declaring publicly that he is "totally opposed to it" — but spoke out only as a scandal continued to fester over the White House handling of domestic violence allegations against a former top aide.

For more than a week, the administration has proven unable to convincingly answer questions about how officials failed to respond to accusations of physical abuse levied by two ex-wives against Rob Porter, who until last week served as a key White House official.

On Wednesday, Congress entered the picture as Rep. Trey Gowdy, R-S.C., announced that his House Oversight Committee was launching an investigation to find out what and when the White House knew about the allegations. He vowed that he'd either get answers or "a really good reason" why there weren't any.

"I am interested in how someone with credible allegations of domestic abuse, plural, can be hired," Gowdy said.

He added that he had questions about the interim security clearance Porter had received, which allowed him to continue to work in the White House and handle highly classified material even after the FBI had indicated that he would be unlikely to receive a permanent clearance.

A congressional investigation could keep the controversy in public view for weeks or months, an unattractive prospect for the White House.

Within hours, the president, who had shunned reporters' questions all week, was talking, condemning all forms of violence within families.

"I am totally opposed to domestic violence of any kind," Trump said. "Everyone knows that, and it almost wouldn't even have to be said."

His choice to say it anyway indicated that Trump recognizes the harm the Porter case has done to his administration. Officials had wanted to spend this month claiming credit for the economy and pushing Trump's infrastructure plans.

Instead, the news has focused on whether his chief of staff, John F. Kelly, had known of the accusations against Porter and ignored them or had been negligent in not asking why Porter hadn't received a full security clearance.

Until Wednesday, Trump's only comments had been to lavish praise on Porter and question whether men accused of misconduct were being denied due process. Those remarks and tweets heightened outrage among women and many men across the country.

As day after day passed without the president personally expressing sympathy for victims of domestic violence, GOP strategists began to voice concern about the potential effect on this year's midterm election.

The handling of the Porter case raises particular problems for Trump because of his own history of having been accused by multiple women of sexual misconduct.

On Wednesday, a former porn star, Stormy Daniels, who received a $130,000 payment from Trump's personal lawyer, said she now felt free to talk about her history with Trump because the lawyer had publicly confirmed making the payment. The lawyer, Michael D. Cohen, said Tuesday that he had made the payment shortly before last year's election, but said the money did not come from the Trump Organization.

Daniels has previously said she had an affair with Trump that began when his wife, Melania, was pregnant.

If Trump didn't see trouble coming, his fellow Republicans seemed to have sensed it. House Speaker Paul D. Ryan, R-Wis., said he considers it Gowdy's "proper job" to look into the Porter case.

GUNMAN

FROM PAGE 1

Brittani later was able to escape the school, which is one of the largest in the state, with about 3,000 students.

Inside the school, students heard loud bangs as the shooter fired. Many of them hid under desks or in closets and barricaded doors.

Television footage showed those students who fled leaving in a single-file line with their hands over their heads as officers urged them to evacuate quickly. Parents hurried to the scene.

Caesar Figueroa said when he got to the school to check on his 16-year-old daughter, he saw police officers drawing machine guns as they approached the campus.

"My wife called me that there was an active shooter, and the school was on lockdown. I got on the road and saw helicopters. ... It was crazy and my daughter wasn't answering her phone." She finally texted him that she was inside a closet with friends.

Len Murray's 17-year-old son, a junior at the school, sent his parents a chilling text: "Mom and Dad, there have been shots fired on campus at school. There are police sirens outside. I'm in the auditorium and the doors are locked."

A few minutes later, he texted again: "I'm fine."

Murray said he raced to the school only to be stopped by authorities under a highway overpass within view of the school buildings. He said he told his son to save his battery and stop texting. The boy's mother told him to turn off his ringer.

Medical personnel tend to a victim following a shooting at Marjory Stoneman Douglas High School in Parkland, Fla., on Wednesday.

Inside the school, students heard loud bangs as the shooter fired. Many of them hid under desks or in closets and barricaded doors.

Television footage showed those students who fled leaving in a single-file line with their hands over their heads as officers urged them to evacuate quickly. Parents hurried to the scene.

Caesar Figueroa said when he got to the school to check on his 16-year-old daughter, he saw police officers drawing machine guns as they approached the campus.

"My wife called me that there was an active shooter, and the school was on lockdown. I got on the road and saw helicopters. ... It was crazy and my daughter wasn't answering her phone." She finally texted him that she was inside a closet with friends.

Len Murray's 17-year-old son, a junior at the school, sent his parents a chilling text: "Mom and Dad, there have been shots fired on campus at school. There are police sirens outside. I'm in the auditorium and the doors are locked."

A few minutes later, he texted again: "I'm fine."

Murray said he raced to the school only to be stopped by authorities under a highway overpass within view of the school buildings. He said he told his son to save his battery and stop texting. The boy's mother told him to turn off his ringer.

Authorities told parents to gather at a nearby hotel to get information.

"I'm scared for the other parents here. You can see the concern in everybody's faces. Everybody is asking, 'Have you heard from your child yet?'" Murray said.

Murray said he's had just one thought running through his mind since he got his son's text: "All I keep thinking about is when I dropped him off this morning. I usually say, 'I love you,' and I didn't this morning. He's 17, he's at that age, and I didn't say it this morning, and I'm just kicking myself right now over and over and over. Say it early and often, I'm telling you."

ALMANAC

Today is **Thursday, Feb. 15**, the 46th day of 2018. There are 319 days left in the year.

Today in history

On **Feb. 15, 1798**, a feud between two members of the U.S. House of Representatives (meeting in Philadelphia) boiled over as Roger Griswold of Connecticut used a cane to attack Vermont's Matthew Lyon, who defended himself with a set of tongs. (Griswold was enraged over the House's refusal to expel Lyon for spitting tobacco juice in his face two weeks earlier; after the two men were separated, a motion to expel them both was defeated.)

On this date

In **1564**, Italian astronomer Galileo Galilei was born in Pisa.

In **1933**, President-elect Franklin D. Roosevelt escaped an assassination attempt in Miami that mortally wounded Chicago Mayor Anton J. Cermak; gunman Giuseppe Zangara was executed more than four weeks later.

In **1953**, Tenley Albright, 17, became the first American woman to win the world figure skating championship, which was held in Davos, Switzerland.

In **1971**, Britain and Ireland "decimalised" their currencies, making one pound equal to 100 new pence instead of 240 pence.

In **1989**, the Soviet Union announced that the last of its troops had left Afghanistan, after more than nine years of military intervention.

In **1992**, a Milwaukee jury found that Jeffrey Dahmer was sane when he killed and mutilated 15 men and boys. (The decision meant that Dahmer, who had already pleaded guilty to the murders, would receive a mandatory life sentence for each count; Dahmer was beaten to death in prison in 1994.)

Today's birthdays

Actress **Claire Bloom** is 87. Author **Susan Brownmiller** is 83. Rock musician **Mick Avory** (The Kinks) is 74. Jazz musician **Henry Threadgill** is 74. Actress-model **Marisa Berenson** is 71. Actress **Jane Seymour** is 67. Singer **Melissa Manchester** is 67. "Simpsons" creator **Matt Groening** is 64. Musician **Mikey Craig** (Culture Club) is 58. College and Pro Football Hall of Famer **Darrell Green** is 58. Actress **Natalie Morales** is 33. Actress **Amber Riley** is 32.

Bible verse

"For the kingdom of God is not meat and drink; but righteousness, and peace, and joy in the Holy Ghost." — Romans 14:17.

There is no substitute for the supernatural! The Holy Spirit has come so that we don't have to settle for less.

Dog in the race? Pooch barred from race for Kansas governor

HUTCHINSON, Kan. (AP) — Kansas election officials are putting the brakes on a dog's campaign for governor.

KWCH-TV reports that Terran Woolley, of Hutchinson, decided to file the paperwork over the weekend for his 3-year-old pooch, Angus, to run for the state's top office after reading stories about six teenage candidates. The teens entered the race after learning Kansas doesn't have an age requirement, something lawmakers are seeking to change.

Angus is a type of hunting dog called a wire-haired Vizsla. Woolley figured Angus would need to run as a Republican. He described Angus as a "caring, nurturing individual who cares about the best for humanity and all creatures other than squirrels."

But the Kansas Secretary of State's office says man's best friend is not capable of serving the responsibilities required of the governor.

Uber's net loss widens to $4.5B for 2017

By TOM KRISHER
AP Auto Writer

Ride-hailing giant Uber's full-year net loss widened to $4.5 billion in 2017 as the company endured a tumultuous year that included multiple scandals, a lawsuit alleging the theft of trade secrets and the replacement of its CEO.

The results also showed that Uber cut its fourth-quarter net loss by 25 percent from the third quarter as new CEO Dara Khosrowshahi moves to make the company profitable ahead of a planned initial public stock offering sometime next year.

The full-year loss grew from $2.8 billion in 2016, a year with results skewed by a gain from the sale of Uber's unprofitable business in China. Uber also said its U.S. ride-hailing market share fell from 82 percent at the start of last year to 70 percent in the fourth quarter. Uber said the share has now stabilized.

Gross revenue for the year rose 85 percent over 2016, to $37 billion.

For the fourth quarter, Uber's net loss was $1.1 billion, down from $1.46 billion it lost in the third quarter. Bookings from fares rose 14 percent to just over $11 billion for the quarter.

While the losses are significant, the results still are positive for Uber with revenue rising and losses falling in three of four quarters in 2017, said Rohit Kulkarni, managing director of SharesPost, a research group focused on privately held companies. The numbers show that Uber under

AP FILE PHOTO

This June 21 photo shows the building that houses the headquarters of Uber, in San Francisco. Ride-hailing giant Uber's full-year net loss widened to $4.5 billion in 2017 as the company endured a tumultuous year that included multiple scandals, a lawsuit alleging the theft of trade secrets and the replacement of its CEO.

Khosrowshahi is on a path toward profitability and a sustainable economic model, Kulkarni said. "If you draw that out further, a year from now, this could be a significant IPO waiting to happen," he said.

Uber considers adjusted earnings before taxes as a better indicator of its financial performance rather than net earnings based on Generally Accepted Accounting Principles, which include losses for accounting purposes. On an adjusted basis, excluding stock-based compensation, legal costs, taxes and depreciation, the company lost $2.2 billion for the full year. The fourth-quarter adjusted loss was $475 million, down from $606 million to in the third quarter.

San Francisco-based Uber Technologies Inc.'s results are difficult to report because only pieces are released. Khosrowshahi detailed them on a conference call with investors Tuesday, and the company made some results public by giving them to a website called The Information.

A person briefed on the results provided some numbers and confirmed the accuracy of The Information's story to The Associated Press on Wednesday. The person didn't want to be identified because Uber remains a private company.

Last year was a particularly bad one for Uber with its reputation tarnished by the company's acknowledgement of rampant sexual harassment within its ranks, a yearlong cover-up of a major computer break-in, and the use of duplicitous software to thwart government regulators.

CEO Travis Kalanick was ousted in June and replaced by Khosrowshahi in August.

Earlier this month Uber ended the autonomous vehicle trade secrets lawsuit filed by Alphabet Inc.'s Waymo for a payment of Uber stock valued by Waymo at $245 million.

Health costs growing faster than economy

Associated Press

WASHINGTON (AP) — U.S. health care spending will keep growing faster than the overall economy in the foreseeable future, squeezing public insurance programs and employers who provide coverage, the government said Wednesday.

Annual projections from number crunchers at the Department of Health and Human Services cite an aging population and an uptick in prices for health care services and goods as factors behind the ongoing growth in costs.

Spending is projected to rise by an average of 5.5 percent annually through 2026, or about 1 percentage point faster than economic growth.

Prescription drugs account for the fastest increase, 6.3 percent a year on average, due to the high cost of advanced medications.

Although Congress recently repealed the Affordable Care Act's requirement that most Americans have health insurance, the share of people with coverage is only expected to dip slightly, hovering around 89 percent.

Medicare spending will increase as more baby boomers join the program. Costs per patient are also expected to rise, partly reflecting an increase in the use of medical services.

The nation's health care tab — estimated to reach nearly $3.7 trillion this year — would rise to nearly $5.7 trillion in 2026.

That would average out to more than $16,000 per person, although the sickest patients account for most of the costs. In any given year, roughly half of health care spending is on 5 percent of Americans.

Health care would represent nearly 20 percent of the economy in 2026.

When health care costs grow faster than the overall economy, it makes it harder for government to pay for programs like Medicare and Medicaid, and for employers to keep financing medical coverage for workers and their families.

Still, experts aren't predicting a return to 7 percent yearly growth seen before the 2007-09 "Great Recession."

The study by the HHS Office of the Actuary was posted online by the journal Health Affairs.

Fannie Mae loses $6.5B in 4Q on tax change

Associated Press

WASHINGTON — Sweeping changes to U.S. tax law led to a $6.53 billion loss at Fannie Mae last quarter, putting the government-controlled mortgage company in the position of seeking cash assistance from taxpayers for the first time since it emerged from the housing crisis six years ago.

Fannie Mae said Wednesday its net worth sank to a negative $3.7 billion after it had to "remeasure" its deferred tax assets to the tune of $9.9 billion as required by the Tax Cuts and Jobs Act, signed into law by President Donald Trump just before the end of the year.

Due to the tax charge, Fannie Mae reported 2017 net income of $2.46 billion for 2017, down from $12.31 billion in 2016. But its pretax income was $18.45 billion, slightly better than the $18.33 billion in 2016.

Many U.S. companies had similarly large accounting charges because of the new Republican tax law, which took effect Jan. 1.

"Our 2017 results demonstrate that the fundamentals of our business are strong," said Fannie Mae President and CEO Timothy Mayopoulos. "While the fourth quarter was affected by a one-time accounting charge, we expect to benefit from a lower tax rate going forward."

Washington-based Fannie Mae said it expects its federal regulator to request $3.7 billion from Treasury to offset its current deficit.

The government rescued Fannie Mae and sibling Freddie Mac during the housing crisis in 2008 with a combined $187 billion taxpayer bailout. Fannie Mae hasn't taken money from Treasury since 2012, and has made more than $130 billion in dividend payments since 2013, more than repaying its $116 billion bailout.

The companies don't make loans to homebuyers, but rather, buy mortgages from lenders, package them as bonds, guarantee them against default and sell them to investors.

STOCKS LISTING CHANGE - REQUESTS WELCOME!

The *Sun* Newspaper is tweaking the way stocks are listed in the daily paper. We will continue to run a wide range of stocks, but we're trying to eliminate stocks our readers don't want. If you do not see your stock in the paper, please let us know and we will put it in the listings. Email the name of the company and the symbol to nlane@sun-herald.com, or call 941-206-1138. You can leave the stock name and symbol on voice mail. When requesting a stock, please include where you live so we can run the listing in the appropriate edition. If you reach voice mail, please leave your contact information so your call can be returned.

STATE BY STATE/TV GRID

STATE-BY-STATE

News from across the USA

ALABAMA Montgomery: A heart surgeon says former governor Don Siegelman is expected to make a full recovery following bypass surgery.

ALASKA Fairbanks: Two Rivers musher Allen Moore won the 2018 Yukon Quest sled dog race.

ARIZONA Phoenix: Gov. Doug Ducey has signed legislation providing $2.5 million to Maricopa County for a special election April 24 to replace Rep. Trent Franks, who resigned amid sexual harassment allegations.

ARKANSAS Rogers: An ex-Gateway police chief serving a 30-year prison term for murder was charged this week with raping a school teacher 20 years ago, based on DNA evidence.

CALIFORNIA Big Bear Lake: Two bald eagle eggs laid last month near Big Bear Lake hatched this week.

COLORADO Denver: The City Council voted to let developers build higher structures in exchange for constructing more affordable housing.

CONNECTICUT Monroe: Authorities are warning residents to be aware of "virtual kidnapping" schemes demanding ransoms for people who weren't actually kidnapped.

DELAWARE Dover: State lawmakers are considering changing how juveniles convicted of felonies are sentenced, *The News Journal* reports.

DISTRICT OF COLUMBIA: A dispute has emerged in Congress over efforts to name a suburban park adjacent to Ronald Reagan National Airport for former first lady Nancy Reagan.

FLORIDA Tallahassee: The Seminole Tribe would get craps and roulette at its casinos under a Florida bill.

GEORGIA Suwanee: Police say a construction worker was fatally injured when hit by a car in a closed section of Interstate 85.

HAWAII Hilo: North Kona Councilwoman Karen Eoff is under fire for owning a vacation rental amid efforts to pass a rental industry bill. Eoff denies any conflict of interest.

IDAHO Moscow: Syringa Mobile Home Park's owner will pay more than $280,000 to residents left without clean water for months.

ILLINOIS Quincy: Officials say two more cases of Legionnaires' disease were found at a veterans home already linked to 13 deaths.

INDIANA South Bend: An ex-University of Notre Dame worker accused of taking $200,000 from the Clinical Law Center pleaded guilty.

IOWA Fort Dodge: A plan to remove two Des Moines River dams could cost more than $4 million.

KANSAS Hutchinson: State election officials rejected a man's effort to register his dog as a candidate for governor, KWCH-TV reports.

KENTUCKY Louisville: The local school board has named Marty Pollio as superintendent.

LOUISIANA Shreveport: The Caddo Parish sheriff's office is looking for the owner of Rowdy, a brown goat whose name tag had no address.

MAINE Machiasport: A couple of local food suppliers say they took a huge hit from the abrupt closure of the Downeast Correctional Facility.

MARYLAND Annapolis: A federal prosecutor wants a state ethics panel to delay its investigation of state Sen. Nathaniel Oaks until federal bribery charges are resolved.

MASSACHUSETTS Raynham: Police have cited a school bus driver for crashing into two trees and then driving off. No one was injured.

MICHIGAN Mount Clemens: The Detroit Zoological Society is seeking a waterfront site for a nature center that will focus on the Great Lakes.

MINNESOTA Hastings: A woman faces charges for allegedly punishing her grandnephew and his brother by withholding food and tying them to a pole in her basement.

MISSISSIPPI Jackson: The B'nai Israel Synagogue in Hattiesburg is among Mississippi additions to the National Register of Historic Places.

MISSOURI Jefferson City: State lawmakers voted down tougher penalties for killing police dogs.

MONTANA Billings: Officials say a new morgue will save Yellowstone County $50,000 a year.

NEBRASKA McGrew: State game officials and volunteers spent last weekend assessing the health of Nebraska's bighorn sheep.

NEVADA Las Vegas: An ambulance driver lost control on a wet road and crashed, killing an EMT and a patient on a non-emergency call.

NEW HAMPSHIRE North Woodstock: The state Maple Producers Association has given its trophy for best syrup made in New Hampshire to the Atkins Family Sugarhouse.

NEW JERSEY Mendham Township: Deputy Mayor Rick Blood resigned after comparing immigrants to "rabid, messy raccoons" on Facebook.

NEW MEXICO Santa Fe: University of New Mexico students are calling on state lawmakers to shore up the lottery scholarship program.

NEW YORK Albany: Gov. Andrew Cuomo has a new dog. Captain is a Siberian-shepherd mix, with some Malamute thrown in.

NORTH CAROLINA Kinston: Authorities say two teens broke into a home on Super Bowl Sunday, killing two pet parakeets and setting a vehicle on fire, WITN-TV reports.

NORTH DAKOTA Bismarck: North Dakota's spring light goose hunting season gets underway Saturday.

OHIO New Philadelphia: A former police officer was sentenced to three months in jail for falsely claiming he was shot during a traffic stop.

OKLAHOMA Oklahoma City: An auditor says a $3.6 million cleanup of Tar Creek Superfund site should have cost less than $600,000.

OREGON Salem: State lawmakers are considering a November ballot issue to add a right-to-health-care amendment to the state constitution.

PENNSYLVANIA Philadelphia: The Philadelphia Orchestra will perform in Europe in May and Israel in June.

RHODE ISLAND Providence: Secretary of State Nellie Gorbea says it's time to allow early in-person voting.

SOUTH CAROLINA Beaufort: Ex-state lawmaker Rick Quinn Jr. will serve two years of probation after pleading guilty to misconduct in office.

SOUTH DAKOTA Yankton: The 2018 World Archery Indoor Championships are underway this week.

TENNESSEE Johnson City: The Gray Fossil Site and Museum is celebrating the 209th birthday of naturalist Charles Darwin on Saturday.

TEXAS Austin: President Trump has picked Andrew Oldham, Gov. Greg Abbott's new general counsel, for the 5th U.S. Circuit Court of Appeals.

UTAH Salt Lake City: Authorities say a leaping elk brought down a research helicopter trying to capture it in a net. The elk died, but the helicopter crew wasn't seriously hurt.

VERMONT Rutland: Firefighters used air packs in battling a salvage yard blaze to avoid inhaling toxic smoke.

VIRGINIA Richmond: City Council has approved a meals tax hike to raise $9 million a year for schools.

WASHINGTON Mount Vernon: Authorities say dozens of trees were illegally chopped down in Sauk Park and along the Cascade Trail.

WEST VIRGINIA Charleston: Federal authorities say five people implicated in heroin trafficking in the Parkersburg area have pleaded guilty.

WISCONSIN Ahswaubenon: A man accused of stealing a church crucifix used it to bash a TV station sign.

WYOMING Jackson: Authorities say a man was killed in a snowmobile crash during a guided trip after becoming separated from the group.

Compiled from staff, wire reports.

Reader asks what can be done to totally get off insulin

Dr. Roach

DEAR DR. ROACH: My doctor placed me on insulin for diabetes because I was not able to bring my glucose below 100. The bloodwork results are now 120 glucose and 6.6 hemoglobin A1C. I have been averaging 6.5 hemoglobin A1C for over two years. I have been taking glucose readings three times a day, with results between 108 and 147 mg/dl. My blood pressure reads 117/61, and my heart rate averages 55. All my bloodwork is within normal limits. I'm 65 years old and was wondering if taking the insulin is needed at this time. I still work, and I'm very active for my age. I take 15 units of insulin injections at night before bed. I also take XIGDUO XR 10 mg/1,000 mg in the morning after breakfast. The other medication I take is 10 mg of simvastatin before bedtime for my cholesterol, which is within the limit when I do my bloodwork. What can I do to get off the insulin? — S.R.

ANSWER: I understand why people want to stop taking insulin. Many people do not like giving themselves an injection every day. However, it is hard to argue with the success you have had on your current regimen. Your blood sugars, confirmed by your A1C, are in the near-normal range, and your results are very close to what most experts would recommend.

Another consideration is that the insulin you are taking keeps your own pancreas from having to make insulin. This might help your long-term ability to regulate blood sugar. Your insulin is a long-acting form of human insulin, which is the most natural way of replacing the insulin your body can't make enough of. You also take a potent combination of oral medicines to help the insulin work better.

I spoke with one expert, who said she would consider looking at your body's ability to make insulin (through a blood test called a C-peptide level). If that level were low, it would be unlikely that you would have success going off insulin.

If you still feel strongly about trying to get off insulin, speak to the doctor managing your diabetes about trying to slowly taper off the insulin, going down one or two units a day every week or so. Do not try this without discussing with your doctor; he or she would need to monitor your sugars very carefully during the process.

DEAR DR. ROACH: I was diagnosed three months ago with osteoarthritis in my knees, including an itchy rash on my right thigh, which is dormant for some hours during the day; other times, it is almost unbearable. I have started some over-the-counter supplements, including boswellia and turmeric, with good results for the knee pain. But the rash concerns me.

ANSWER: Osteoarthritis and rash normally do not go together. There can be several types of skin changes in a different condition, rheumatoid arthritis, which generally does not affect the knees as much as it does the hands and wrists. So, I suspect that the joint and skin problems are separate issues.

This time of year, when I hear about itchy rashes, I look for dry skin changes such as eczema. I often tell people to start with some moisturizers, especially applied after bathing. If symptoms continue and I cannot make a diagnosis by exam, I will refer to a dermatologist.

I am glad you are having a good response to the supplements. Both boswellia and turmeric present some evidence that they may benefit people with osteoarthritis, and have a generally favorable side effect profile.

7 LITTLE WORDS

Find the 7 words to match the 7 clues. The numbers in parentheses represent the number of letters in each solution. Each letter combination can be used only once, but all letter combinations will be necessary to complete the puzzle.

Man conflicted on inviting mother-in-law to wedding

Dear Abby

DEAR ABBY: My wife passed away two years ago at age 40 after a long bout with cancer. We had three children, ages 7 to 12. I am 44 and engaged now to a wonderful woman. We are planning to have a small wedding with fewer than 50 guests.

While the kids and I are doing well, my late wife's mother, "Karen," is still grieving. She has a forceful personality and can be quite pushy. She lives nearby.

We have not finalized the arrangements or sent out invitations. Karen has been asking if she and my former father-in-law are invited, but we haven't answered her yet. She says she's hurt because she feels we don't want her there.

Is it proper etiquette to invite the parents of a deceased spouse to a remarriage? — Looking To The Future In Illinois

DEAR LOOKING: The decision whether to attend should be theirs to make.

Welcome them and treat them with kindness. A wife can be "replaced," but a daughter cannot, which is why Karen is still grieving even though you have gone on with your life.

DEAR ABBY: I need advice on how to deal with a friend/neighbor's messy, unkempt backyard. We are getting ready to put our house on the market, and I'm concerned their yard may be a deterrent to potential buyers. Their pool looks like a swamp.

They are friends of ours, but I have no clue how to broach such a sensitive topic without upsetting them. Please help. — Living Next To A Swamp

DEAR LIVING: If you live in an area that's prone to any dangerous mosquito-borne viruses, you would be doing them a favor to point out that their pool equipment needs fixing because still water makes an excellent breeding place for mosquitoes.

As to the state of their yard, your real estate agent may have some suggestions about how to handle that.

What to know about GMO

Hints from Heloise

Dear Readers: You may hear the terms "GMO" and "non-GMO" in the media. Have you ever wondered what that means?

"GMO" stands for "genetically modified organism." A GMO is something whose DNA has been scientifically altered by man for any number of reasons: to improve flavor, to produce more from a crop and to prevent insect damage, for example.

Corn, beets and soybeans are the largest crops that are genetically modified, according to the U.S. Food and Drug Administration (www.fda.gov), and these are then made into forms of oils and sugars.

The big question: Are genetically modified foods safe to eat? Research largely says "Yes." The FDA regulates their production. As with anything, some people may have allergies to GMOs. By the way, organic foods are always non-GMO.

Do your research, talk to your doctor. — Heloise

HOROSCOPE

ARIES (March 21-April 19). Though generations before you did things a certain way and the principles they used to get through life are still relevant today, modern problems require you to build on that foundation. You'll acquire new tools.

TAURUS (April 20-May 20). The best way to predict what happens next is still the same as always: Make it happen. Today's work may be a bit rushed, but it's still remarkable and generous if not as polished as it might have been had you more time.

GEMINI (May 21-June 21). The antidote to selfishness is publicity. Most would avoid the shame of being called out for putting one's own interests before the interests of loved ones, teammates or the group — unless, of course, selfishness is the cultural norm.

CANCER (June 22-July 22). Is any creature on the earth built for empathy? It could be argued that empathy plays against individual survival instincts. It's definitely not the first instinct of humankind, yet it's definitely required for the survival of our species.

LEO (July 23-Aug. 22). Don't wait until life forces you to sprint. Just sprint to energize things. Just sprint to prove that you can. No one can sprint for the whole of the race, but a good marathon runner builds the occasional sprint into the over-all plan.

VIRGO (Aug. 23-Sept. 22). You're going to do the brave thing — not because you have less to lose (if you had nothing to lose, it wouldn't be brave) but because you realize more than the others do that your action is what's sorely needed.

LIBRA (Sept. 23-Oct. 23). The situation will trigger your competitive instincts. Suddenly it will be important to dress, talk and move like the winner. Much of this will come naturally to you, although some degree of study may also be involved.

SCORPIO (Oct. 24-Nov. 21). You won't be satisfied with just any result. You want your work to be artful and useful, or you'd rather not turn it in at all. The thing is, you're not the best judge of this today.

SAGITTARIUS (Nov. 22-Dec. 21). The omens warn against selling your future for today's quick fix, and yet fixing something quickly doesn't always spell trouble in the future. So examine your options from a long-term perspective.

CAPRICORN (Dec. 22-Jan. 19). In general, your life is easier when you make fewer promises. However, everything you do sets up an expectation. The promises are implicit. And every one you keep builds trust you'll keep them in the future, too.

AQUARIUS (Jan. 20-Feb. 18). How you imagine yourself will define your position. What one person considers a position of weakness another may consider a position of strength.

PISCES (Feb. 19-March 20). As you climb the mountain to get a better view you make yourself more conspicuous to those below. This may not be your aim, but you should be aware that the beauty you seek will make you more influential.

TODAY'S BIRTHDAY (Feb. 15). You seek clarity. You'll understand where your power lies and how to use it. This will manifest in a much less serious way than it sounds: Delight and enjoyment will open as many doors for you as hard work and study. Trust yourself, and believe the forces are working to lift you and let you fly. Aries and Capricorn adore you. Your lucky numbers are: 9, 20, 22, 1 and 17.

MORTON'S FORK

Both vulnerable, West deals

NORTH
♠ A Q 8 7
♡ 5 4
♢ Q 3 2
♣ A 9 7 3

WEST
♠ 2
♡ K 10 9 8 3
♢ A J 8
♣ K Q 10 2

EAST
♠ Void
♡ Q 7 6
♢ 10 9 6 5 4
♣ J 8 6 5 4

SOUTH
♠ K J 10 9 6 5 4 3
♡ A J 2
♢ K 7
♣ Void

The bidding:

WEST	NORTH	EAST	SOUTH
1♡	Dbl	2♡	6♠
All pass			

Opening lead: King of ♣

The Morton's Fork Coup in bridge is named after Cardinal Morton, Chancellor of the Exchequer for a bygone English king. He was charged with collecting the king's taxes. He believed that people who lived nicely could obviously afford to pay taxes and those that lived frugally must have substantial savings and could also afford to pay. The people were said to be caught on "Morton's Fork."

South's jump to slam was a reasonable gamble. Should partner have a singleton heart, three spades to the ace and the queen of diamonds would be enough for slam. A doubleton heart with partner would require a bit more than that, but not much.

Not knowing what to discard on the ace of clubs, South played low from dummy on the opening club lead and ruffed in his hand. He led the jack of spades, drawing trump, and immediately led a low diamond away from his king. This caught West on "Morton's Fork." Should West play low, dummy's queen would win the trick and the king of diamonds would be discarded on the ace of clubs. Should West rise with his ace instead, South could discard both of his heart losers, one on the ace of clubs and one on the queen of diamonds. Six spades making six either way.

East was too much of a gentleman to point out that the slam would have been defeated with a heart lead.

JANRIC CLASSIC SUDOKU

Fill in the blank cells using numbers 1 to 9. Each number can appear only once in each row, column and 3x3 block. Use logic and process elimination to solve the puzzle. The difficulty level ranges from Bronze (easiest) to Silver to Gold (hardest).

WORDY GURDY®

BY TRICKY RICKY KANE

Every answer is a rhyming pair of words (like FAT CAT and DOUBLE TROUBLE), and they will fit in the letter squares. The number after the definition tells you how many syllables in each word.

1. Child lost traction on ice (1)
2. Calf meat business transaction (1)
3. Trash-hauling boat Chinese dog (1)
4. Knightly mission nuisance (1)
5. Cosmetics drastic reorganization (2)
6. Gorgeous girl's formal obligations (2)
7. Implying ennobling (4)

How to read the stock tables

① Name	② Ticker Symbol	③ Div	④ Yield	⑤ PE	⑥ 52-week High	Low	⑧ Vol 1000s	⑦ Last	⑨ YTD %Chg
XYZcorp	XYZ	1.20	3.6	17	34.09	27.27	2780	33.72	+20.7

1 — Name of stock.
2 — Ticker Symbol company trades under.
3 — Dividend: A distribution of the company's earnings to shareholders, usually consisting of stock dividends, interest on bonds, or short-term capital gains on the sale of securities usually paid quarterly in the form of cash or stock.
4 — Div. Yield: The dividend divided by the stock price. It helps gauge how well the stock is paying, compared to other investments such as CDs, bonds or savings accounts.
5 — Price to earnings ratio: The price of a stock divided by its earnings per share. PEs are used to gauge the relative worth of a company' stock. When compared to other companies in the same industry, the companies with the lowest PEs are generally earning higher profits.
6 — Range of closing prices in last year.
7 — Sales in thousands (10 = 10,000 shares), and closing price.
8 — Last trading price of the day.
9 — Percent change for the year.

▲▼ Arrows, indicate new highs or lows.
Underline: indicates top 100 stocks by volume rank.
Bold stocks , designates which stocks have gone up or down 5% .

FOOTNOTE: Rate-The annual interest rate the Treasury bond provides to investors. **Date**-The month and year the bond will expire. **Bid**-The price investors will pay for the bond. **Ask**-The price at which investors will sell. A bond price is expressed as a percentage of its original purchase cost of $1,000. The whole numbers and the decimals-which represent 32nds of a point-must be converted to dollars and cents; for example, 103.18 equals $1,035.63. **Chg**-The change between the preceding day's final bid price and the final bid price from the day before. **Yld**-The annual percentage return to the investor, based on the bond's current price, if the bond is held until it matures. **K**-Taxes on interest will not be withheld from non-U.S. citizens. **n**-Treasury note. **p**-Treasury note; taxes on interest will not be withheld from non-U.S. citizens.

How to Read the Mutual Fund Tables

Here are the 4,300 biggest mutual funds listed on Nasdaq. Tables show the fund name, sell price or net asset value (NAV), daily net change and weekly net change. Underlining highlights the funds ranked in the top 20% in each of the last 5 years:

Name: Name of mutual fund and family.
Obj: The fund's objective group. Abbreviations listed below.
NAV: Net asset value.
Chg: Net change in price of NAV from previous day.
Rtn: The fund's total return, or percent change in NAV for the time period shown, with dividends reinvested. If period longer than 1 year, return is annualized.
Rank: Fund's letter grade compared with others in the same objective group; an A indicates fund performed in the top 20 percent; an E, in the bottom 20 percent.

Footnotes: e - Ex capital gains distribution. **f -** Previous day's quotation. **n -** No front end load or contingent deferred sales load may apply. **p -** Fund assets are used to pay fo r distribution costs- 12(b)(1) plan. **r -** Redemption fee or contingent deferred sales load may apply. **s -** Stock dividend or split. **t -** Both p and r. **x -** Ex cash dividen d. **NA -** not available.

Fund Objectives: AL: Allocation - 70-85% Equity, **AM:** Multialternative, **BL:** Bank Loan, **BM:** Bear Market, **CA**: Allocation - 30-50% Equity, **CC:** Consumer Defense, **CD:** Consumer Cyclical, **CH:** China Region, **CI:** Intermediate-Term Bond, **CL:** Long-Term Bond, **CR:** Multicurrency, **CS:** Short-Term Bond, **CV:** Convertibles, **DP:** Diversified Pacific/Asia, **EB:** Emerging-Markets Bond, **EE:** Equity Energy, **EI:** India Equity, **EM:** Diversified Emerging Markets, **ES:** Europe Stock, **FA:** Foreign Small/Mid-Value, **FB:** Foreign Large-Blend, **FF:** Managed Futures, **FG:** Foreign Large-Growth, **FQ:** Foreign Small/Mid-Blend, **FR:** Foreign Small/Mid-Growth, **FV:** Foreign Large-Value, **FX:** Single Currency, **GI:** Intermediate Government, **GL:** Long Government, **GR:** Global Real Estate, **GS:** Short Government, **HM:** High-Yield Muni, **HY:** High-Yield Bond, **IB:** World Bond, **IC:** Trading-Inverse Commodities, **ID:** Industrials, **IE:** Trading-Inverse Equity, **IH:** World Allocation, **IP:** Inflation-Protected Bond, **IS:** Trading-Miscellaneous, **JS:** Japan Stock, **LB:** Large Blend, **LC:** Trading-Leveraged Commodities, **LE:** Trading-Leveraged Equity, **LG:** Large Growth, **LO:** Long-Short Equity, **LP:** Energy Limited Partnership, **LS:** Latin America Stock, **LV:** Large Value, **MA:** Allocation - 50-70% Equity, **MB:** Mid-Cap Blend, **MG:** Mid-Cap Growth, **MI:** Muni National Intermediate, **ML:** Muni National Long, **MQ:** Miscellaneous Region, **MR:** Miscellaneous Sector, **MS:** Muni National Short, **MU:** Multisector Bond, **MV:** Mid-Cap Value, **MY:** Muni New York Long, **ND:** Trading-Inverse Debt, **NE:** Market Neutral, **NT:** Nontraditional Bond, **PJ:** Pacific/Asia ex-Japan Stock, **RI:** Target-Date Retirement, **RR:** Preferred Stock, **SB:** Small Blend, **SC:** Communications, **SF:** Financial, **SG:** Small Growth, **SH**: Health, **SI:** Muni Single State Intermediate, **SL:** Muni Single State Long, **SN:** Natural Resources, **SP:** Equity Precious Metals, **SR:** Real Estate, **SS:** Muni Single State Short, **ST:** Technology, **SU:** Utilities, **SV:** Small Value, **TA:** Target-Date 2000-2010, **TD:** Target-Date 2015, **TE:** Target-Date 2020, **TG:** Target-Date 2025, **TH:** Target-Date 2030, **TI:** Target-Date 2035, **TJ:** Target-Date 2040, **TK:** Target-Date 2045, **TL:** Target-Date 2055, **TN:** Target-Date 2050, **TW:** Corporate Bond, **TV:** Tactical Allocation, **UB:** Ultrashort Bond, **VD:** Trading-Leveraged Debt, **VL:** Stable Value, **VO:** Volatility, **WS:** World Stock, **XM:** Allocation - 85+% Equity, **XO:** Infrastructure, **XQ:** Target-Date 2060+, **XR:** Option Writing, **XS:** Long-Short Credit, **XP:** Emerging-Markets Local-Currency Bond, **XY:** Allocation - 15-30% Equity. ON THE COVER

Photo by Robert Lugiewicz

Robert Lugiewicz and Robert Moore went sailfishing on Florida's east coast and finally hooked into one that would jump.

FROM THE PUBLISHER'S DESK • JOSH OLIVE

Owning wild fish

Some of you are probably already aware of how the federal government allocates red snapper and grouper to commercial fishing operations. For those who aren't, there's an IFQ (individual fishing quota) program. Instead of having an open season for anyone to fish, each boat is allotted rights to a portion of the allowable catch.

This portion is commonly called a catch share. If you catch more fish than you have catch shares, you have to let them go. If you have no catch shares, you can't harvest at all. And if you have shares but don't harvest them, you can sell them to other commercial fishermen and they can go catch and sell them.

Federal regulators like this system a lot because it makes half their job — figuring out how many fish are caught — far easier. Ever since they came up with the idea, they've been trying to figure out how to apply it to recreational fishermen as well.

And now they have … at least for some anglers. The Gulf Council has put forth Amendment 41 to the Reef Fish Fishery Management Plan. The amendment would bring allocation-based management to federally permitted charter vessels. At first, it would be voluntary and apply to red snapper only. Naturally, those offshore charter captains who choose to not participate will end up with the short end of the stick.

This is just a first step toward what will inevitably be a much more restricted and regimented fishery in the Gulf. This will be a good and bad thing. The positive: Managers will be able to much more reliably track how many fish are being removed from the water, and will be able to use that information to ensure sufficient abundance of the target species we value so highly.

But then, the negative: We'll be paying more for the privilege of harvesting those fish.

The direction I see this going is harvest tags. That's the easiest and most straightforward method. Basically, the Gulf Council would say the red grouper quota for the year will be 5 million pounds. The average fish weighs 7 pounds, so that's 714,000 fish. You want to harvest one? OK — that'll be $15 for the tag. Once the fish has been harvested, the tag must be attached and the catch reported.

On the one hand, what's $15 compared to the cost of the boat, fuel, tackle, bait, etc. when you go grouper fishing? On the other, this method of managing feels strange and foreign, and somehow more obtrusive and invasive.

Anyway, it may not happen. The Council may choose other methods. But of this much I'm very sure: The goal is to have every fish that comes out of the water be accounted for. The way this is done on the commercial side is coming to the charter fishing industry. Maybe it will lead to more fish for all of us, which they say is the goal. If it does, I guess it's tough to argue against it. But somehow, owning a fish you haven't caught feels odd.

LETTERS TO THE EDITOR

If you have a comment or question for WaterLine, email it to Editor@WaterLineWeekly.com.

JOSH:
I live on the south shore of the Peace River. Last night from 8 till 10 p.m., the river glowed with a blue-green aura. When it abated a bit, a stick swished around in shallows produced wild trailers of greenish-bluish phosphorescence. Farther out some fish were chasing and slashing bait, and the action produced this same phenomena. What gives? Ever seen this? I have plenty of witnesses. I googled ocean phosphorescence and got an explanation linking these organisms to red tide.
— Craig Johnson

CRAIG:
Bioluminescence is a glow in the water produced by living organisms, and it can occur at any time in Charlotte Harbor. In the cooler months, the most common culprit is comb jellies, also called sea walnuts or ctenophores (TEE-nuh-forz). They can grow to a couple inches long, but it's usually large numbers of very small ones that light up the night waters. In summer, bioluminescence is more often caused by dinoflagellates. Red tide is also caused by a type of dinoflagellate, but it's not the same species and is only very distantly related. In other parts of the world, there are glowing dinoflagellates that may cause fish kills. The ones here are harmless, so you can just enjoy the show.
— Josh Olive, WaterLine Publisher

JOSH:
Please help end this heated debate. Is the gray triggerfish season open or closed in both federal and state waters off Charlotte Harbor. Thank you.
— Mark Sasena

MARK:
I understand the confusion. Gulf triggerfish management has been a real Charlie Foxtrot. Due to the federal government not being able to get out of its own way, triggerfish were open Jan. 1-15 in federal waters only. They have not been open in state waters since the weird some-weekends-only fall season. They're currently closed to all harvest, but not for long. In both state and federal waters, season will open March 1 with new regulations: Bag limit one fish, minimum size 15 inches. Moving forward, the season will be closed in January, February, June and July. Unless they decide to randomly change it again, which they just might. These new regulations apply to all state waters and all Gulf federal waters. Hilariously, the bag limit in federal Atlantic waters is 20. Remember that triggerfish are considered a reef species, and reef fish rules apply — inline circle hooks only, and you must have a dehooking device aboard and use it when appropriate.
— Josh Olive, WaterLine Publisher

Letters are welcome on any outdoor-related subject, but we do have some rules. Please keep them to less than 250 words. Letters may be edited for length as well as grammar and spelling. We reserve the right to refuse any letter not signed with the writer's full name. Slanderous or libelous material will not be published. The Letters to the Editor section is designed as a public forum for community discourse. The opinions and statements made in letters are solely those of the individual writers. WaterLine and Sun Coast Media Group take no responsibility for the content of these letters.

THE FISH COACH
JOSH OLIVE

Hold still a minute

A boat can take you to where the fish are, but once you get there, you're going to want some way of staying in position. There are many different ways to anchor a boat. The method you choose will depend on how big the boat is, why you want to anchor and how long you plan to stay there.

OUTDOOR NEWS BULLETIN BOARD

If you have an event you want included in the Outdoor News Bulletin Board, email it to Editor@WaterLineWeekly.com

GOT AN EVENT COMING UP?
We'd be happy to let people know. Email your info to Editor@WaterLineWeekly.com at least two weeks before the event.

BUY ONE, GET ONE AT THE PG BOAT CLUB
The Punta Gorda Boat Club is offering a BOGO membership special. The first applicant's initiation fee is paid in full, and the second applicant's initiation fee is free. This special deal is good through the beginning of April. For more information, call Jan at 941-743-2472 or Barb at 941-764-0134.

AUDUBON MEETING
The Peace River Audubon Society invites you to attend their next monthly meeting, scheduled for 6:30 p.m. Feb. 15 at First Alliance Church (20444 Midway Blvd, Port Charlotte). Angeline Scotten will speak on how coyotes came to Florida, their biology, behavior in urban areas and how to protect pets, and Dan Quinn will make a presentation on the python challenge in Florida. For more info, contact Susan Galvin at GalvinSusan242@gmail.com.

LECTURES AT DING
The J. N. "Ding" Darling National Wildlife Refuge (1 Wildlife Drive, Sanibel) is hosting a series of weekly free lectures. Lectures will be held twice each Friday, at 10 a.m. and 1 p.m. The season's complete schedule is listed below. Seating for the lectures is limited and available on a first-come basis. Early arrivals can save one seat each and then may explore the Visitor & Education Center or Indigo Trail before the lecture starts. Saved seats must be filled 15 minutes before lecture time. For more info, call 239-472-1100 ext. 241 or visit https://goo.gl/B37knm. **Feb. 16: Impersonator Joe Weigand**, "Theodore Roosevelt Speaks out on Conservation" — **Feb. 23: Author Stephen Kress**, The Puffin Project: The Improbable Quest to Bring a Beloved Sea Bird Back to Egg Rock — **March 2: Author Larry Nielsen**, Nature's Allies: Eight Conservationists Who Changed Our World — **March 9: Author Kevin Karlson**, Birds of Prey: Hawks, Eagles, Falcons, and Vultures of North America — **March 16: Author Tom Butler**, Wildlands Philanthropy: The Great American Tradition — **March 23: Photographer-sound recordist Gerrit Vyn**, The Living Bird: 100 Years of Listening to Nature — March 30: **Artist and author Dawn and Blair Witherington**, Our Sea Turtles: A Practical Guide for the Atlantic and Gulf, from Canada to Mexico — **April 6: Mote Marine Researcher Dr. Erinn Muller**, "Coral Restoration" — **April 13: Avian researcher Dr. Kenneth Meyer**, "Swallow-tailed Kites: 10,000 Miles to Survival."

VENICE ROOKERY TRIP
All are welcome to join Peace River Audubon on their Feb. 17 field trip to the Venice Rookery. The trip will begin at the State College of Florida (8000 South Tamiami Tr., Venice) at 8 a.m. Park in the lot closest to U.S. 41 by the lake. We will walk around the lake (about a mile on asphalt surface) and check the rookery and reedy areas there. We will then travel north to the Venice Audubon Rookery to see anhingas, cormorants, great blue herons and great egrets nesting. For more info, call Barb Taylor at 717-968-6013 or visit PeaceRiverAudubon.org.

PARTY FOR WILDLIFE
The Wildlife Center of Venice invites you to their Mardi Gras Gala from 2 to 6 p.m. Feb. 17 at the Golden Beach Gazebo (at the end of Spadaro Drive, Venice). For only $35 per person, you will enjoy New Orleans cuisine on Venice Beach among friends. Bird masks, beads and Mardi Gras Tervis Tumblers will be for sale, and there will be a silent auction. To get your tickets, go to https://goo.gl/2zWi6t.

NEW FISHING CLUB MEETS
The brand-new Venice Fishing Club will meet at the Nokomis Fire Dept. (111 Pavonia Road, Nokomis) at 6 p.m. the third Tuesday of each month. At the Feb. 20 meeting, the speaker will be Sarasota Sea Grant agent Armando Ubeda, discussing the water in the Sarasota area and fish-related projects they are doing. After the speaker, a general fishing discussion will be held. Drinks and snacks will be provided for members and first-time guests. You will be required to join the club to attend again. Joining at a cost of $40 per family will give you access to the club's Facebook page and to view members fish pics, where the fish are, bait used, etc. and ongoing events. Contact Bob at flabob1@hotmail.com for more info.

CALLING ALL BUTTERFLY LOVERS
The next meeting of the Peace River Butterfly Society will be held at 10 a.m. Feb. 21 at the GFWC Women's Club of Port Charlotte, (0271 Tappan Zee Drive, Port Charlotte). Award-winning naturalist, author, botanist and photographer Roger Hammer will speak on using native plants to attract butterflies and birds. Seating is limited, so RSVP to Steve or Olivia Scott at 941-625-0381 or sfscott2011@hotmail.com.

ONGOING EVENTS

FISHIN' FRANK'S FISHIN' CLUB: Learn all about fishing Charlotte Harbor. Meetings are held the second Tuesday and Wednesday of each month at Luigi's Italian Restaurant (3883 Tamiami Trail, Port Charlotte). Reservations are required; call 941-625-3888 for more info or to sign up.

FISHING CLUB MEETINGS: The Gulf Cove Fishing Club meets on the second Monday of the month from October through May at the Hope Lutheran Church in Gulf Cove (14200 Hopewell Ave., Port Charlotte) at 7 p.m. At each meeting, a speaker will talk on a timely topic. The public is invited to attend, but only Gulf Cove residents can be members. For more info, call 941-698-8607.

NATIVE PLANT SOCIETY MEETINGS: The Mangrove Chapter of the Florida Native Plant Society meets from 7 to 9 p.m. the second Tuesday of each month (Oct-May) at Lemon Bay Park (570 Bay Park Blvd., Englewood). Call 941-769-3633. The Coccoloba Chapter of the Florida Native Plant Society meets from 7 to 9 p.m. the second Thursday of each month at the Calusa Nature Center and Planetarium (3450 Ortiz Ave., Fort Myers). Call 239-275-3435. Meetings are free and the public is welcome.

HANG OUT WITH SCRUB JAYS: Spend the morning with the scrub jays at Oscar Scherer State Park (1843 S. Tamiami Trail, Osprey) from 8:30 to 10:30 a.m. every Sunday. This unique Central Florida experience includes a nature walk to see the park's diverse ecosystems, native flora and fauna. Call 941-483-5956 for info.

WHAT'S THAT BIRD?: Volunteer bird interpreters share their expertise on ID and behavior of raptors, shorebirds, waterfowl and other avian visitors at Myakka River State Park (13208 S.R. 72, Sarasota). Volunteers set up scopes and help people identify birds from 9 a.m. to 1 p.m. every day of the week.

CHARLOTTE HARBOR DRAGONS: Dragon boat club meets every Wednesday and Saturday at 8 a.m. and Sundays at 1 p.m. Learn the ancient art of dragon boat racing. We practice out of the Port Charlotte Beach Complex (4500 Harbor Blvd. Port Charlotte). For availability, contact Eddie Amara at 941-740-1286 or eamara1@comcast.net, or to learn more about the club visit CharlotteHarborDragons.com. Paddles up!

CHARLOTTE HARBOR MULTIHULL ASSOCIATION: Members of this club for multihull owners, sailors or those who are interested in the exchange of ideas about equipping and sailing boats, share information about anchorages and cruising destinations, hold informal races and have raft-ups. No dues. The club meets at a local restaurant the first Monday of each month at 6 p.m. For more info, call 941-876-6667.

COASTAL VENTURES CRUISE CLUB: This club, designed for personal boat cruising, meets on the third Tuesday of the month at the Waterfrontoo Restaurant (2205 N. Tamiami Trail, Nokomis). Join them for dinner at 6 p.m. and/or the 7:30 p.m. meeting where they'll discuss upcoming cruises and activities. Enjoy the camaraderie of like-minded water rats. If interested, attend a meeting or call 941-493-0070 for more info.

VOLUNTEER AT SHAMROCK PARK: Shamrock Park Nature Center (3900 Shamrock Drive, Venice) holds its monthly volunteer work mornings from 8 to 10 a.m. on the third Friday of each month. For more info, call Jennifer Rogers at 941-861-5000 or email her at jrogers@scgov.net.

PEACE RIVER PADDLING: Join a guided kayaking trip on the Peace River. Free if you bring your own kayak, or rent equipment for $25 per person. Paddle with an experienced guide and explore remote areas of the Peace River. These trips are intended to be easy paddling for everyone to have fun, meet people with similar interests, and enjoy the outdoors. We paddle from 9 to 11 a.m. each Tuesday if weather permits. Meet at the Nav-A-Gator (9700 SW Riverview Circle, Lake Suzy) 30 minutes prior to departure. Sign up by calling Steve Burroughs 813-857-4634. Trips are provided byKayakEcoTours.com.

CHEC FIELD TRIPS

The Charlotte Harbor Environmental Center and the Charlotte County Natural Resource Department will be conducting the following free guided walks and programs. Unless noted, all walks begin at 9 a.m. For directions, reservations or more info, call 941-475-0769. All programs can be found at CHECFlorida.org.

FEB. 17 & 26: Join a CHEC naturalist on a guided walk through Tippecanoe II Mitigation Preserve (16259 Joppa Ave., Port Charlotte). This 150-acre preserve is home to several families of the threatened Florida scrub jay. Meet in the parking lot.

FEB. 18 & 28: Join a CHEC naturalist on a guided walk through the scrub and pine flatwoods of 217-acre Amberjack Environmental Park in Cape Haze. Meet in the parking lot (6250 Gasparilla Pines Blvd., Placida).

FEB. 20: Join a CHEC naturalist on a guided walk through the old-growth pine flatwoods and mangrove fringe of 125-acre Oyster Creek/Ann Dever Regional Park in Englewood. Meet at the San Casa entrance (6791 San Casa Drive).

FEB. 23: Join John Phillips on a guided walk through Charlotte Flatwoods Environmental Park (5801 S. Tamiami Trail, Punta Gorda), a 487-acre Charlotte County property of mature pines, dry prairie, marsh wetlands and freshwater ponds. Its location adjourning state lands make it an important wildlife corridor. Meet at 8:30 a.m.

FEB. 27: Get wild and wet! Join Bobbi Rodgers at Cedar Point Park (2300 Placida Road, Englewood) on a seagrass adventure wading trip into Lemon Bay in search of marine organisms such as seahorses, crabs and juvenile fish. Registration required.

VABA BIRDING TRIPS

The Venice Area Birding Association will host the following field trips. The public is welcome to come along at no charge; no birding experience is necessary. For more info or to sign up, email the listed trip leader. **Abbie**: Amberina@aol.com | **Steve**: SFreedman7@gmail.com | **Deb**: Bosss302@comcast.net | **Christine**: ChrisBDukes@gmail.com | **Robert**: RAKraft2@gmail.com | **Andy**: AWhite369@me.com | Don: **DonRippeon**@aol.com | **Margaret**: MKDunson1@comcast.net | **Jean**: FlutterbyQuilts@verizon.net | **Kate**: KateBorduas@gmail.com.

Feb. 21: Ollie's Pond	Jean
Feb. 22: Ollie's Pond	Bette
March 7: Harns Marsh	Andy
March 18: Celery Field	Andy
March 24: Wildflower Preserve	Abbie
April 7: Tippecanoe	Kate
April 11: Kiwanis Park	Christine & Robert
April 14: Boyd Hill, St. Pete	Deb
April 16: Pinecraft Park	Deb

LET'S GO FISHING!
Capt. Ralph Allen will offer an introductory course in Florida fishing. Classes will be held from 7 to 9 p.m. for six consecutive Wednesdays beginning Feb. 21 at the PGI Civic Association (2001 Shreve St, Punta Gorda). Topics to be covered include fishing techniques, tackle selection, rigging, knot tying, lures, baits, castnets, fish identification, tides, and fishing regulations for fishing in fresh and salt waters of Southwest Florida. Rods, reels, lures, nets and other fishing equipment will be demonstrated during the class and there will be a number of useful handouts issued to students. The class is geared towards beginning anglers, but more experienced fishermen may pick up helpful tips as well. Capt. Ralph might even reveal the locations of a few local hotspots! The cost for the class is $45 (one charge for all six sessions). Advance registration is recommended; call 941-637-1655.

HOW FAST CAN YOU ADAPT?
Drawing from Elizabeth Kolbert's book "Sixth Extinction," Florida Master Naturalist Kate Borduas will present a free lecture — "But, Ma, I'm Adapting as Fast as I Can!" — at 10 a.m. Feb. 21 at Bayshore Live Oak Park (23157 Bayshore Road, Port Charlotte). Kate will explore early extinctions and examine the challenges facing some endangered species today. Call 941-475-0769 for reservations.

PG BOAT CLUB SOCIAL
The Punta Gorda Boat Club will hold a sunset social from 5 to 7 p.m. Feb. 23 at 802 W. Retta Esplanade, Punta Gorda. Bring an appetizer and beverage, come and meet the members and find out about the BOGO Membership Special. For more info, call Jan at 941-743-2472 or visit PGBoatClub.org

PLANT SOCIETY FIELD TRIP
The Mangrove Chapter of the Florida Native Plant Society invites the public to join them Feb. 24 for a free nature walk at Yucca Pens WMA (Zemel Road, Punta Gorda). The society promotes the preservation, conservation and restoration of the native plants and native plant communities of Florida. Meetings, field trips and special events are free and open to the public. For more info, contact trail guide Al Squires at 941-769-3633 or AHSquires1@comcast.net.

LAND CONSERVATION WORKSHOP
The Charlotte Harbor National Estuary Program will be hosting a public event on environmental land conservation from 9 a.m. to 4 p.m. March 2 at the Charlotte Harbor Event & Conference Center (75 Taylor Street, Punta Gorda). Conservation lands support our quality of life and enhance our local economy. They also provide essential habitat for native species and allow water to flow naturally on the surface and to aquifers. What can we do to secure the additional conservation land needed to protect critical water and wildlife habitat areas in Florida, especially in light of sea level rise? This public workshop is an opportunity to learn and share your ideas regarding this important topic. Workshop speakers will include experts from local and state governmental and non-governmental agencies, including the South Florida Water Management District, Conservation Foundation of the Gulf Coast, U.S. Fish and Wildlife Service, Florida Fish & Wildlife Conservation Commission, National Wildlife Refuge Association, Polk County Natural Resources Department, The Trust for Public Land, and more. A nominal $25 fee registration fee helps to defray some of the costs, including the provided lunch and refreshments. Limited spaces available; to register, go to https://goo.gl/EtNaoX.

ADULT SAILING CLASS
The Englewood Sailing Association is offering the opportunity to learn to sail or refresh your skills with their "Snowbird Adult Sail Camp" for ages 18 and older. This popular four-day course will be held March 12-15, from 10 a.m. to 2 p.m. daily at the ESA Sailing Center at Indian Mound Park (210 Winson Ave., Englewood). The only requirements are the ability to swim and the desire to sail. The course is $175 and includes everything you'll need. Registration is open at the Englewood SKY Family YMCA (701 Medical Blvd., Englewood). For more info, contact Craig Keller at 941-276-3115. Also, visit EnglewoodSailing.org. Space in this class is limited to 10 students.

NATIVE PLANT SOCIETY MEETS
The Mangrove Chapter of the Florida Native Plant Society invites you to join them at their next meeting, scheduled for 7 p.m. March 13. The featured speaker will be North Port stormwater manager Elizabeth Wong, and her topic will be North Port's fertilizer ordinance and plants for pollutant reduction. There will be plenty of time for comments, questions and lots of good discussion with snacks included. Meetings are held at Lemon Bay Park (570 Bay Park Blvd., Englewood). For more info, call 941-769-3633 or visit Mangrove.FNPSChapters.org.

AUDUBON BANQUET
The Peace River Audubon Society will hold their annual fundraising banquet and silent auction from 5:30 to 9 p.m. March 15 at Twin Isles Country Club (301 Madrid Blvd., Punta Gorda). This year's featured speaker will be Liz White, a Ph.D. student in the rangeland wildlife and ecosystems program at UF-IFAS Range Cattle Research & Education Center. Ticket must be purchased in advance by March 6; $33 per person ($36 afrer Feb. 24). To reserve or for information, contact Sandy Artman at 717-880-3341 or Banquet1@PeaceRiverAudubon.org.

VENICE FISHING CLUB MEETS
The Venice Fishing Club will meet at the Nokomis Fire Dept. (111 Pavonia Road, Nokomis) at 6 p.m. the third Tuesday of each month. At the March 20 meeting, the speaker will be a representative from Freedom Boat Club, discussing the benefits of membership versus owning a boat. After the speaker, a general fishing discussion will be held. Drinks and snacks will be provided for members and first-time guests. You will be required to join the club to attend again. Joining at a cost of $40 per family will give you access to the club's Facebook page and to view members fish pics, where the fish are, bait used, etc. and ongoing events. Contact Bob at flabob1@hotmail.com for more info.

LBC FIELD TRIPS

The Lemon Bay Conservancy invites you to join us for a variety of informative, free nature walks. For more info about these trips, call 941-830-8922.

JUVENILE TARPON RESEARCH: 7:45 a.m. to noon Feb. 17, March 17 — Join LBC volunteers in hands-on volunteer work using long seine nets to study the juvenile tarpon population in Lemon Creek at Wildflower Preserve. Interested volunteers should contact Jim Cooper at 941-979-6258 or JCoop43@comcast.net.

BEACH AND BARRIER ISLAND ECOLOGY: 9 to 11:30 am. Feb. 20, March 6 & 20 — A 2.5-mile walk from the Stump Pass State Park (900 Gulf Boulevard, Englewood) parking area to the pass at the southern tip of Manasota Key. The natural and human history of the area will be discussed, along with the dredging of the pass and the jetty. Stump Pass State Park entry fee is $3 per vehicle.

PINE FLATWOODS ECOLOGY: 9 to 11 a.m. Feb. 22 — The Myakka State Forest (2000 S. River Road, Englewood) is a remarkably large and well preserved example of hydric pine flatwoods. We will hike along a trail that passes through wetter and drier areas, identify plants and animals, and discuss the factors that control their distribution. This trail can be damp in spots, so be prepared. Led by Bill Dunson.

NATURE OF WILDFLOWER: 9 to 11 a.m. Feb. 24, March 24 — Wildflower Preserve (3120 Gasparilla Pines Blvd., Englewood) is home to a great diversity of plants and animals. During this leisurely two-hour walk, we will observe some of these and discuss plans to improve the preserve habitats over time. Guided by Dave Clayton and Bob Cooper on Feb. 24, and by Bob on March 24.

WILDFLOWER PRESERVE HABITAT RESTORATION: 9 to 11 a.m. March 3 — Join Charlie Woodruff on Dec. 9 or Bob Cooper on Jan. 27 for a first-hand look at the major habitat restoration project currently underway at Wildflower Preserve (3120 Gasparilla Pines Blvd., Englewood) and observe some of the many plants and animals within the preserve.

BARRIER ISLAND ECOLOGY: 9 to 11 a.m. March 13 — Blind Pass Park (Middle Beach, 6725 Manasota Key Road, Englewood) is an unusually nice place to study the community ecology of Manasota Key. A short walk from the parking lot reveals very nice examples of natural coastal communities. Guided by Bill Dunson.

SIERRA CLUB OUTINGS

The following outings will be held by the Greater Charlotte Harbor Sierra Club. Outings are free and the public is invited to attend. For kayak trips, all participants must provide their own watercraft, PFD and be able to swim. Voluntary donations to the club are always appreciated. Call the listed number for more info.

PADDLE SHELL CREEK: 9 a.m. to 1 p.m. Feb. 16. Paddle through the natural winter look of a pristine South Florida creek with Florida Master Naturalist Rick Fried. Reserve at 941-637-8805.

SLASH PINE TRAIL: 10 a.m. to 1 p.m. Feb. 17. Join us for this 5-mile walk in the Myakka State Forest, known for its birding opportunities and a great view of the Myakka River. Reserve at 941-423-2713.

PADDLE FROM PONCE DE LEON PARK: 10 a.m. to 2 p.m. Feb. 21, April 12. Explore mangrove tunnels and the shoreline of Charlotte Harbor with Florida Master Naturalist Helen Buonviri and Bill Schuyler. Facilities available. Reserve with Helen at 941-467-0974 or Bill at 941-763-9248.

PADDLE MYRTLE SLOUGH: 9 a.m. to 2 p.m. Feb. 22, March 8 & 21, April 4 & 22, May 4. Florida Master Naturalist Jim Story will lead us through a freshwater jungle to tidal Shell Creek waterfall and dam. Reserve at 941-505-8904.

HIKE THE LAKE WALES RIDGE: 9 to 11 a.m. Feb. 27. Hike a typical Florida scrub habitat with Florida Master Naturalists John Phillips and Jamie Reynolds. Observe unique plant and animal species, such as the Florida scrub jay, rosemary and others that are only seen in scrub. 941-639-7468.

PADDLE SHELL CREEK (LONG VERSION): 9 a.m. to 3 p.m. March 1. This is the longer upstream paddle to the shallows and Cypress Knee Garden. Bring your lunch to eat on the beach at the turn-around. Escorted by Florida Master Naturalist Rick Fried. Reserve at 941-637-8805.

NATURE WALK AT FOOTPRINTS TRAIL: 8:30 to 11:30 a.m. March 10. Join John Phillips and Jamie Reynolds as we walk a trail through pine flatwoods, wet prairie and cypress swamp habitats. 941-639-7468.

PADDLE WEBB LAKE: 8:30 to 11 a.m. March 12. Paddle along the shores of Webb Lake observing waterfowl, wildflowers and fragrant pine forests. Call Florida Master Naturalist Jamie Reynolds at 941-637-8284 to reserve.

PADDLE ALLIGATOR CREEK: 10 a.m. to 2 p.m. March 14, May 9. Explore the shoreline of Alligator Creek in Punta Gorda with Florida Master Naturalist Helen Buonviri and Bill Schuyler. We will enjoy a lunch at Callaloo Caribbean Restaurant & Bar before returning to the launch. Bring lunch money! Reserve with Helen at 941-467-0974 or Bill at 941-763-9248.

WHAT I LOVE MOST ABOUT GASPARILLA MARINA

As a busy working charter captain, my boat has to be available and ready to go when I need it. Here at Gasparilla Marina, I have everything I need to make sure that happens. My boat is securely stored on a lift, but I have easy access to it 24 hours a day, 7 days a week. I can get fuel, bait and supplies at competitive prices right here. I love not having to trailer it anywhere to have work done; the marina's service department takes care of everything. Plus I have quick access to the area's best fishing spots. I can't imagine keeping my boat anywhere else.

— Capt. Mike Myers, Reelshark Charters

WaterLine FISHING RULES

State and federal regulations for Southwest Florida waters as of Feb. 1, 2018. All bag limits are per harvester per day. Other limits may apply. For full rules, visit MyFWC.com/fishing and GulfCouncil.org/fishing_regulations.

LICENSES

Resident saltwater or freshwater: Annual $17, 5-year $79. **If you fish from shore in salt water only, a license is required but it is free.** A combo license for both freshwater and saltwater fishing is $32.50 annually.

Resident senior: If you are a Florida resident age 65 or older, your driver's license or ID card replaces your fishing license. Gulf reef survey (Note 14) and tarpon are tags still required.

Nonresident saltwater or freshwater: 3 days $17, 7 days $30, annual $47. **Free shore fishing license not available for nonresidents.**

Annual permits (required only when a license is required): Snook $10, lobster $5

SALTWATER FISH

Almaco Jack
Bag limit 100 pounds in state waters, limit 20 in federal waters; notes: 9,11,14

Amberjack, Greater
34″ min.; bag limit 1; **open for the entire month of May, and from Aug. 1 through Oct. 31**; notes: 1,3,4,5,7,9,14

24″ min.; **bag limit 3**; notes: 1,5

Mackerel, Spanish
12″ min.; bag limit 15; transfer of Spanish mackerel to other vessels at sea prohibited; notes: 1,5

Mullet, Striped & Silver
Bag limit, Feb. 1-Aug. 31, aggregate 50 per harvester or 100 per vessel, whichever is less; Sept. 1-Jan. 31, aggregate 50 per harvester or per vessel; bag limit also applies to bait mullet; possession of striped mullet prohibited in Punta Gorda between 6 p.m. and 6 a.m. Nov. 1-Feb. 29 (see http://bit.ly/urExej); notes: 15

Permit
Slot 11″ to 22″ (over 22″ — may possess 1 per harvester up to 2 per vessel); bag limit 2; hook and line gear only in state waters; spearing legal in federal waters; see http://goo.gl/pU5Wug for rules in Special Permit Zone south of Cape Sable; notes: 1,5,6,7

Pompano, Florida
11″ min.; bag limit 6; notes: 1,5,6,7

Pompano, African
24″ min.; bag limit 2 per harvester or per vessel; notes: 1,5,6,7

Porgy, Red (Champagne)
Bag limit 100 pounds; notes: 4,5,7,9,15

Redfish (Red Drum)
Slot 18″ to 27″; bag limit 1 per harvester up to 8 per vessel; off-the-water transport limit 6 per person; illegal to harvest **or possess** in federal water; notes: 2,5,6,7,8

Sailfish
63″ min. from tip of lower jaw to center of fork; bag limit 1; notes: 5,6,16

Sea Trout, Spotted
Slot 15″ to 20″ (may possess 1 over 20″); bag limit 4; notes: 2,5,6,7

Sharks
State waters, no size limit on sharpnose, blacknose, blacktip, bonnethead, finetooth & smooth dogfish; 54″ min. on bull, nurse, spinner, common thresher, blue, oceanic whitetip, porbeagle & shortfin mako; **species not listed are prohibited**. Federal waters, 54″ min all species except sharpnose and bonnethead; **for federally prohibited species see https://goo.gl/envCwD**; bag limit in state waters 1 per harvester up to 2 per vessel; bag limit in federal waters 1 per vessel; **inline circle hooks required when fishing for sharks in federal waters**; notes: 1,5,6,7,8,16

Sheepshead
12″ min.; bag limit 15; notes: 2,5,7,15

Snapper, Cubera
Slot 12″ to 30″ (over 30″ — may possess 2 per harvester up to 2 per vessel); bag limit 10 if under 30″; **fish over 30″ not included in aggregate snapper limit**; notes: 2,4,5,7,9,13

Snapper, Mangrove (Gray)
10″ min. in state waters; 12″ min. in federal waters; bag limit 5 in state waters, 10 in federal waters; notes: 2,4,5,7,9,13

Snapper, Lane
8″ min.; bag limit 20 in federal waters or 100 pounds in state waters; **not included in aggregate snapper limit**; notes: 2,4,5,7,9,11

Snapper, Mutton
18″ min.; **bag limit 5**; notes: 2,4,5,7,9,13

Snapper, Red (American)
16″ min.; bag limit 2; **2018 private and charter season TBD**; notes: 2,3,4,5,7,9,13,14

Snapper, Schoolmaster
10″ min.; bag limit 10; notes: 2,4,5,7,9,13

Snapper, Vermilion (Beeliner)
10″ min.; bag limit 10; **not included in aggregate snapper limit**; notes: 2,4,5,7,9,11,14

Snapper, Blackfin, Dog, Queen, Mahogany, Silk & Yellowtail
12″ min.; bag limit 10; notes: 2,4,5,7,9,13

Snook
Slot 28″ to 33″; bag limit 1; season closed Dec., Jan., Feb., May, June, July, and Aug.; $10 snook permit required to harvest when license is required; state regulations apply in federal waters; notes: 2,5,6,7,8

Tarpon
Bag limit 1 per harvester per year; $51.50 tag required to harvest or possess, which is legal only in pursuit of an IGFA record; for seasonal Boca Grande Pass rules, see http://bit.ly/I6zrDj; state rules apply in federal waters; notes: 6,7,8

Triggerfish, Gray
State and federal waters: 15″ min.; bag limit 1; open March 1-May 31 and Aug. 1-Dec. 31; notes: 1,4,5,7,11,14

Tripletail
15″ min.; bag limit 2; may be harvested by hook and line only; notes: 2,5,6,7,8,15

Wahoo
Bag limit 2; notes: 1,5,15

Lionfish
Kill on sight; no size or bag limits

UNREGULATED SPECIES
In state waters, bag limit 100 pounds or two fish, whichever is more: Blackfin tuna, catfish, cero mackerel, croaker, grunts, ladyfish, little tunny, jack crevalle, pinfish, porgies, rays, sand trout, silver trout, spadefish, whiting, etc. See http://bit.ly/1aLP4iF.

NO-HARVEST SPECIES
In addition to the species previously listed, harvest of bonefish, Nassau grouper, spotted eagle rays, manta rays and sawfish is prohibited.

Visit http://bit.ly/10nYDlz for full rules, including more no-harvest species.

NOTES

1. Measured fork length (the straight line distance from the most forward part of the head with mouth closed to the center of the tail).

2. Measured total length (the straight line distance from the most forward part of the head with the mouth closed to the farthest tip of the tail with the tail squeezed together while the fish is lying on its side).

3. Bag limit zero for captain and crew of for-hire vessels on a paid trip.

4. Reef fish gear rules apply. Anglers must use inline circle hooks when using natural baits, and must possess a dehooking device. Venting tool not required. Also, cannot be taken by powerhead in the reef fish stressed area (see https://goo.gl/KqP2Ab).

5. Must remain in whole condition (head and tail intact) until landed ashore. Removal of gills and internal organs OK. **Cannot be used as cut bait.**

6. Harvest by spear, gig or bow prohibited.

7. Use of multiple hooks (more than one point on a common shank, like a treble hook) in conjunction with natural bait prohibited.

8. Harvest by snatching prohibited.

9. Reef fish; illegal to use as bait in federal waters. In state waters, legal-size reef fish may be used as bait but must remain in whole condition and count against bag limit.

10. Included in aggregate 4 grouper bag limit.

11. Included in 20-fish reef fish aggregate bag in federal waters (includes vermilion snapper, lane snapper, almaco jack, gray triggerfish and all tilefish species).

12. Closed Feb. 1-March 31 **in federal waters outside 20-fathom break ONLY.**

13: Included in aggregate snapper bag limit of 10 fish.

14: Participation in Gulf Reef Fish Survey required to harvest. See http://bit.ly/15D6Hip

15. No bag limit in federal waters.

16. HMS permit required to target or harvest in federal waters; see https://goo.gl/bbmLXL

FRESHWATER FISH*

Largemouth Bass: Bag limit 5, no min. size limit. Only one fish can be longer than 16″ (tournaments may apply for a permit allowing participants to weigh more than one over 16″)

Sunfish (all species excluding crappie)**:** Aggregate bag limit 50

Crappie: Aggregate white/black bag limit 25

American Eel: Min. 9″, bag limit 25

Butterfly peacock bass: Max. 17″, bag limit 2 (may possess one fish over 17″)

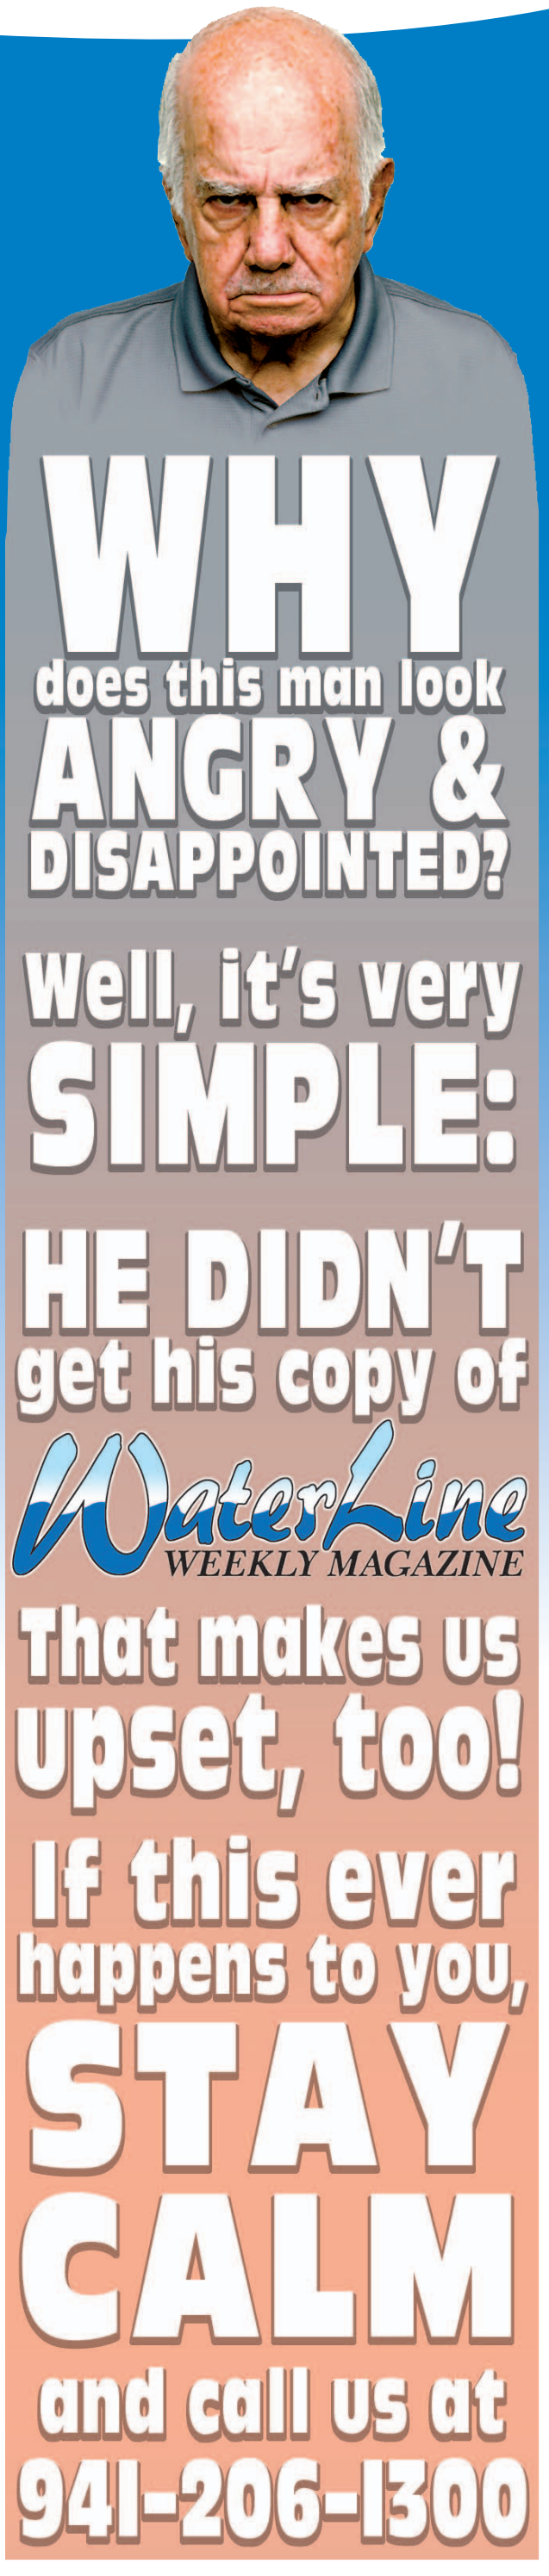
Grass carp: Must be released immediately.

Other exotic fishes: Keep and eat or otherwise destroy; may not be used as live bait.

Unregulated species: No bag or size limits on bowfin, pickerel, catfish and gar (see below).

Prohibited species: Alligator gar, sturgeon.

*** Visit http://bit.ly/10nYJQr for full rules, including special management areas.**



WaterLine FishFinder

FRESH LOCAL FISHING REPORTS FROM VENICE TO PINE ISLAND

	INSHORE & FRESHWATER	GULF & OFFSHORE	BEST BET
ERIC COOKS SPORTLAND Venice 941-493-0025	Fishing is good if not great. Most anglers who go are catching fish, and the folks who know what they're doing are catching lots. The north end of Pine Island Sound has been loaded with **trout**. **Sheepshead** are good on any sort of inshore structure. Bait has been abundant around Snake Island inside Venice Inlet, and **bluefish** are around the pods. **Bass** fishing in fresh water is still doing very well, with lots of fish 5 pounds and bigger.	**Grunts** and **porgies** are eating shrimp and squid in about 30 feet of water. **Lane snapper** have become scarce, at least close to shore, but **mangrove snapper** have been abundant if a little on the small side. Short **red grouper** have also been commonly caught.	**Pompano** have been taking shrimp or silly jigs along the beaches at Caspersen and Manasota.
JIM FISHERMAN'S EDGE Grove City 941-697-7595	**Snook** slot and above are crushing the new Savage 3D Baitfish lures on island points all around Gasparilla Sound. Keeper **trout** and a few shorts are hitting shrimp or a variety of soft plastics around Cayo Pelau and in Turtle Bay. **Redfish** have been reported taking live shrimp under a float along the mangrove shorelines in Bull Bay and Whidden Creek. Lots of **sheepshead**, some **black drum** and a few **pompano** are coming from the Ainger and Placida piers.	**Red grouper** fishing has been so-so. The Novak and other nearshore reefs have been producing good catches of **sheepshead**. Catch-and-release **amberjack** have been just a few miles off shore on the wrecks. The **tripletail** action has also been really good.	The bite on **lane**, **mangrove** and **yellowtail snapper** has been pretty good around the Bayronto and some of the other deep reefs. Chum plenty.
CAPT. ROGER FINE BAIT & TACKLE North Port 941-240-5981	**Crappie** are active now that it has cooled down. Most anglers report best luck with a jig or minnow rigged under a float. **Bass** fishing has been awesome; try a senko fished slowly on the bottom. Some over-slot **redfish** have been coming from the local passes on outgoing tides. Pinfish and shrimp are hot. Lots of **snook** have pushed into the Peace and Myakka rivers with the cold temps. Fish live pinfish in the Harbor and live shiners in the rivers.	Within 10 miles of the beach you can find all kinds of life. **Kingfish**, **little tunny**, plenty of **lane** and **mangrove snapper**, **tripletail** and the **gags** have pushed in as well. Out past 10 we're seeing **amberjack**, **blackfin tuna**, **permit** and **African pompano**.	Look for **trout** on grassy flats with 1 to 5 feet of "clean" water. A popping cork or clacker with an average-size live shrimp is a sure shot.
JEFF CAPT. TED'S TACKLE Port Charlotte 941-627-6800	The **trout** bite is coming alive in Placida and Pine Island. Right now, little jigs are working well. Cownose rays are showing up in the Harbor as far up as the Myakka Cutoff, and the **cobia** have been following behind. **Shark** activity has picked up in Gasparilla Sound and near the passes. Some big mystery fish have been hooked and lost around Burnt Store. It's been getting too warm for **crappie** fishing to be good, but the **bass** bite is only getting better.	**Mangrove snapper** and **sheepshead** are still going strong on the nearshore reefs. **Tripletail** have been fished hard and are worn out by an hour after sunrise, so arrive early if you want one.	Everything's starting to get good, so get out there and be ready for whatever.
ROBERT FISHIN' FRANK'S Charlotte Harbor 941-625-3888	As the water gets warmer, more people are catching **snook** — some on purpose, some by accident. The **redfish** and **trout** action has been pretty good around Gasparilla Sounda, Placida and Pine Island Sound (more trout than reds, of course). A few **reds** have also been caught randomly in the Port Charlotte canals. Big **jacks** and **black drum** to 30 pounds have been in the Punta Gorda canals. Devilfish is loaded with **bonnetheads**.	**Spanish mackerel** are showing up from 3 to 10 miles out on schools of glass minnows. The **tripletail** are still getting beat up by everybody and his brother. **Grunts**, **mangroves** and **porgies** are on the nearshore reefs, and some good **lane snapper** reports have come from 8 to 15 miles. **Cobia** and **'cudas** have been popping up on the reefs.	Some **sheepie** hotspots: Alligator Creek Reef, few but big ones at El Jobean, the Placida and Ainger piers, and the nearshore reefs. Get' em while they last.
CHUCK LAISHLEY MARINE Punta Gorda 941-639-3949	**Speckled trout** are biting well around Pine Island Sound, Cape Haze and Placida. It's slow elsewhere. Some **pompano** and **flounder** are on the outside bar edges. The **snook** bite has picked up and is getting pretty good in the usual areas. **Redfish** are scattered around but not particularly abundant in any one place. Look for deeper water on the flats. The canals are producing **jacks** to 10 pounds, **black drum** and baby **tarpon**. Watch for random **cobia** anywhere.	A mix of **red grouper** and **snapper** have been caught in water 80 feet and deeper, including a few **red snapper** this week. The nearshore wrecks have had some **amberjack** and more than a couple anglers have run across some **permit**. Start looking for **king mackerel** to show up any day.	**Sheepshead** are still thick in the canals, along oyster bars, around most docks and on the nearshore reefs. Enjoy them before it gets too warm.
JESSE OLD PINE ISLAND MARINA & TACKLE St. James City 239-283-2548	The **black drum** bite is pretty good in Tarpon Bay and Blind Pass. There are lots of **snook** stacked around the deeper docks, but getting them to chew has been tough. Try a big live fish. The **trout** bite has been OK around the oyster bars and very good over the grass around the north end of the Sound. Some **Spanish mackerel** have been starting to show up around the Causeway. The **catfish** seem to be everywhere, but at least the big sailcats are fun.	The **red grouper** have been deeper than usual, like 115 to 125 feet. **Mangrove snapper** have been hot at 15 to 18 miles, with fresh whitebait the hot ticket if you can catch any. The **tripletail** bite remains stellar; you want really frisky live shrimp. If these temperatures stay high, the **king mackerel** are due today if not sooner.	Catch some **sheepshead** while the water is still cool, because it's getting warm really fast.

THE FISH COACH'S TIP OF THE WEEK: Water temperatures have come up a lot in a short time. As of Monday, we were looking at about 72 degrees for a Gulf surface temperature. As you can see from this week's reports, we're expecting Spanish and king mackerel to be arriving and sheepshead to be on their way out. This "spring crossover" is dependent on temperature and available forage, and usually happens at somewhere around 70 to 75 degrees. The upcoming days are forecast to be a bit cooler, but not much, so our warming water should continue. It's a great time to be a Southwest Florida fisherman as we get ready to break out the trolling gear and spoons. If this is really an early spring and not just a tease, tarpon should be arriving soon — maybe a month away, maybe just a week or two. If you need some pointers for taking on these bigger species, don't hesitate to call me — *As the Fish Coach, Josh Olive offers personalized instruction on fishing techniques. To book your session or for more information, go to FishCoach.net, email Josh@FishCoach.net or call 941-276-9657.*

Get it on your driveway every week and you'll never miss out on Southwest Florida's best and freshest fishing reports!

ANGLING 101 • ROBERT LUGIEWICZ

Photo provided

There are times when artificials can outfish natural bait, and one of those is when you're on a school of Spanish mackerel.

Must-have artificial lures

I know that a lot of fishermen are not big fans of using artificial lures. I get it: It can be harder to get fish to eat something made of plastic than it is to get them interested in a live shrimp or baitfish.

But even for bait fishermen, it makes sense to have a small selection of artificials available. The reason is simple — sometimes, they can outfish anything else.

Now, there are a lot of different lures out there. Take a look at the walls of any tackle shop and you'll see no shortage of options. But let's narrow it down a little. Actually, let's narrow it down a lot — we'll pick just three essentials.

The first one is a spoon. Spoons are almost universal in their appeal to predatory fish, and they're also easy to fish. You can simply toss it out there and reel it back in. You can drag it behind a boat moving at 2 to 4 knots (trolling). You can add action to it by twitching the rod or varying the speed of your retrieve. Versatility is the name of the game here.

Spoons come in many different shapes and sizes. The most common sizes we use here in Southwest Florida are quarter- and half-ounce models, though you can find spoons as light as 1/64-ounce and up to several ounces (the really heavy ones are usually fished vertically and are called butterfly jigs).

A flats-style spoon, which is made of thinner metal and has a single hook instead of a treble hook hanging off the back, is a very popular choice here. There are many colors available, but most local anglers use silver or gold.

I have many spoons in my tackle bag, but if I had to choose just one, I'd take a half-ounce gold weedless flats spoon. It can be worked fast or slow, ripped across the surface or skimmed over the bottom, plus the hook can be tipped with a small piece of natural bait or plastic tail. It offers the maximum versatility for many fishing situations.

Next, consider a suspending lipped plug, such as a Storm Twitch Stick or Rapala X-Rap. Again, this is a lure that's easy to get the hang of. The lip gives it built-in action — just reel it in, and it will seductively wobble side-to-side.

Better yet, you can swim it, twitch it, pause it, rip it, and mix up the retrieve to make it seem more like a dying baitfish. That's the type of motion that will really get a snook's insticts fired up. There's nothing a hungry hunter likes better than easy prey — maximum gain for minimum effort.

So far, we've described any lipped plug, but the suspending versions have one more trick: When you suddenly stop in the middle of reeling them in, they just hang there in the water. That means you can keep your bait in the strike zone for longer, which makes suspending plugs perfect for times when the fish are feeling extra lazy (such as when the water is cool or very warm).

While there are lots of colors available, it's hard to go wrong with white, gold or silver with a dark back.

Last, we come to the soft plastic jig. You'll grow old trying to count all the varieties on the market, but a white, root beer or chartreuse curly or shad tail about three inches long and a quarter-ounce jighead in red or unpainted will do what you need it to.

Like the lipped plug, you want to get a good varied retrieve going with this bait. Let it sink a foot or two, the sharply lift the rodtip and reel it upward before letting it sink again. Reel it for a second, then allow it to drop all the way to the bottom. Keep mixing it up.

Often, fish hit a soft plastic as it drops toward the bottom — they think it's going to get to cover and hide. Be ready to set the hook if your bait stops sinking before it should have reached the bottom.

The same soft plastic lure can also be used as a trailer on a spoon, or rigged a whole bunch of different ways. We'll explore those another day, but if you really want to learn now, you can come see me at the shop and I'll be happy to show you.

Even the most die-hard bait fishermen should recognize that the ability to cover water quickly is a big advantage of lures, and refusing to use them at all is probably going to cost you fish. For that reason alone, it's worth giving these artificials a try. I think you'll find faking it every now and then really isn't a bad thing.

Robert Lugiewicz is the manager of Fishin' Frank's Bait & Tackle, located at 4425-D Tamiami Trail in Charlotte Harbor and at 14531 N. Cleveland Ave. in North Fort Myers. Call 941-625-3888 for more information about the shop or for local fishing info, or visit them online at FishinFranks.com.

Up a creek

Photo provided

Creek mouths are productive places for many inshore gamefish, but snook are one of the top targets.

ANGLING 201 • CAPT. CAYLE WILLS

One of my favorite places to fish are some of the creeks that feed into Charlotte Harbor. Some are barely big enough to get a cast into; others are more than big enough to fit your whole boat. Some of them even have names — Trout Creek and Rock Creek are pretty well known. Others don't have names, and some have a different name depending on who you talk to.

Creeks are great places for smaller fish like finger mullet and sand bream to hide. It's also a great place for many species of crabs. All of this food will eventually attract our regular gamefish. Sometimes it will even attract some of our irregular game fish like cobia and sharks, depending on the size of the creek.

Along with a good concentration of food, creeks usually offer good current flow. The water coming in and out of these creeks is amplified due to it being necked down from the Harbor. Just like any other section of mangroves you would fish, some creeks are great on any tide, some are better on the incoming, and some are better on the outgoing.

One of the main problems with our creeks is getting into them. Because of that current rushing out, there's usually a pretty good sandbar or at the very least a "hump" out in front of them. These shallow areas can make getting into creeks challenging. There are going to be times where you just can't get to them in time to catch the fish. You may have to go in slow on the trolling motor, or even get out and push.

Timing is everything. If you go in at high tide, you have to remember you're on borrowed time. If you start catching fish and lose track of time, you may be stuck there. And believe me, you don't want to become intimate with the creek's mosquito population overnight. It's not fun.

Fishing the creeks is like fishing a mangrove shoreline crossed with fishing up a river. The outside bends of those creeks (and some are big enough to have multiple bends) are usually the deepest sections. Always concentrate there. If you're near high tide, then the fish can be anywhere, but as the tide gets lower they will congregate in those deeper holes. They may not have a choice.

If you can't get inside the creek, another option is to fish the deep hole that is probably at its mouth. Chances are good you can get within casting distance on your trolling motor, but sometimes throwing a couple shrimp in your pocket and hoofing it in works better. I will normally fish the mouths at the very beginning of the incoming tide just past low tide. The fish that are in that creek may essentially be trapped there by the outgoing tide.

Once they sense that incoming tide, they're going to start funneling out to the mangroves to feed. That makes this a great ambush spot for the fisherman willing to press his luck. And the bright side is that the water is getting deeper, so the chances of you getting stuck there is slim. Well, slimmer.

The bad news is that there are rules for the creeks. First and foremost, don't hit the mangroves. Don't touch them, don't get snagged in them, don't hit them with your boat. Disturbing the trees will release the curse of the no-see-ums. Also, you know how we preach to you to be quiet on the flats? Not slamming livewell lids, not stomping on the deck? It's even worse in the creeks because those fish might be inches from your boat. The quieter you can be, the better you will do.

In small creeks, there's not much room to work an artificial so I stick with natural bait. I usually throw shrimp, but I will also take a few crabs if I can get them. Sometimes the redfish and black drum in the creeks prefer crab over shrimp. I also love whitebait in the canals but remember to tighten that drag. You can find monster snook hiding in some of them, and you may not have a ton of room to fight them.

Some of the larger creeks like Trout Creek are even great places for artificial baits because you actually have space to work them. You can even get away with trolling in Trout Creek. Here, I like to do the same things I would on the flats. Shallow-diving crankbaits, suspending twitchbaits, soft plastics and spoons all work well.

Capt. Cayle Wills owns and operates Bad Fish Charters on Charlotte Harbor. You can contact him at 941-916-4538 or Capt.Cayle@ReelBadFish.com. You can also visit him online at ReelBadFish.com or Facebook.com/BadFishCharters.

Hold still a minute

Power-Pole.com photo

Anchor pins are a great way to keep your position in shallow water. These work with the push of a button, but manual models are also available.

THE FISH COACH • JOSH OLIVE

A boat can take you to where the fish are, but once you get there, you're going to want some way of staying in position. There are many different ways to anchor a boat. The method you choose will depend on how big the boat is, why you want to anchor and how long you plan to stay there.

We'll start with the traditional fluke anchor. This is a basic item that should be aboard any boat, regardless of your reason for being on the water. An anchor isn't just for convenience — it's also safety equipment. If your engine won't start, you'll be completely at the mercy of the wind and tide if you don't have an anchor. That's a bad feeling.

But from a fishing perspective, a regular old anchor is useful in some situations and less than ideal in others. If you want to hold your position in water deeper than about 15 feet, there aren't many other options. Anchors come in many specialized shapes, but the fluke is ideal for getting a good bite in the soft sand/mud bottom that is prevalent in our area. I prefer an anchor with a slip ring because it's less likely to get hung up in a rocky area if you choose to do some reef fishing.

A lot of people get frustrated with anchoring on a reef. They'll try once or twice, miss it and then just give up. Here are some tips that will help you anchor successfully: First, toss out a marker buoy on the spot you'd like the boat to end up. Then orient your bow to the wind and kill the engine. Watch how the wind and current shift your boat's position relative to the marker.

Fire up the engine and maneuver the boat to about 50 to 150 feet from the marker (less in calm, shallow water; more in rougher or deeper conditions), moving in the opposite direction from that in which you just drifted. Lower the anchor over and start paying out rode, holding position with the motor until the anchor hits bottom. Then flip the key and let wind and water push you to where you want to be. Don't forget to keep letting rode out until you're where you want to be. And remember — always cleat the anchor off at the bow, never the stern. Stern anchoring sinks boats.

A mushroom anchor can be a useful tool in shallow water. They're very different from flukes and don't really bite into the sand, though they do sink partway into really soft bottoms. The smaller your boat is, the better these will work. For owners of little skiffs or paddlecraft, a small mushroom anchor might be the perfect solution (and doesn't take up much valuable space). On larger boats, I find them useful for temporarily holding a spot over grass or mixed grass and sand, especially in areas where the water is just a few feet deep.

Mushroom anchors are sometimes used to slow a boat's drift. In reef areas, this isn't the best idea because that heavy piece of metal is down there knocking down the habitat you're trying to catch fish on, and it can take years for such damage to be repaired. Even over grass, the plowing doesn't do good things. A drift sock is a better choice and leaves no trace of damage at all.

For anchoring in shallow water, throwing out a fluke will work, but there are simpler methods. A manual anchor pin is cheap and easy to use. Basically, this is a fiberglass stick with a pointy tip and a T-handle at the other end. Using human power, you drive the pointy end into the sand or mud and tie it off to a cleat. To retrieve it, pull the boat over to the pin and pull straight up. Anchor pins are great if you have the strength and balance to get them set, and especially if you enjoy a workout on the water.

Since most of us are lazy, there are powered anchor pins. The most familiar are the Power-Pole (which uses hydraulic power) and the Minn-Kota Talon (electric). Both have their fans, and I'm not going to debate which is better. I will point out that neither system is perfect, so research carefully how to retrieve the pin in case of a failure. On local waters, you'll see probably a dozen Power-Poles to one Talon. In other areas, the reverse is true. If you want to add one to your boat, I suggest a heart-to-heart with the dealer you trust most before deciding.

In recent years, trolling motors with the ability to hold a position have become popular. Some of them even have the ability to communicate with a fishfinder. These setups are easy to use and have become the go-to method for an increasing number of boaters because they're push-button simple and work in any depth.

While they're convenient and useful tools, be careful about becoming too reliant on them. There are many circumstances in which other choices are better: Rough water, which tends to pull the trolling motor out of the water; shallow areas, where the motor will spook fish; and areas very close to above-water structure, where a little GPS "oopsie" might drive you right into a bridge piling. And you still should have a fluke anchor, just in case.

Every fisherman's boat and preference will be a little different, so what type of anchoring system or systems you use will vary. On my boat, I have a fluke anchor, a drift sock, a Stick-It manual anchor pin, a 10-foot Power-Pole Blade and a Minn-Kota Riptide Terrova trolling motor. What can I say? I like to have lots of options.

As the Fish Coach, Josh Olive offers personalized instruction on how and where to fish in Southwest Florida. Whether you're a complete beginner or just looking to refine your techniques, he can help you get past the frustration and start catching more fish. Lessons can be held on your boat, on local piers or even in your backyard. To book your session or for more information, go to FishCoach.net, email Josh@FishCoach.net or call 941-276-9657.

BIG BOY TOYZ expo

Charlotte Harbor Event & Conference Center
75 Taylor St, Punta Gorda, Fl 33950

$5.00 Admission
Sat, Feb 24: 9 am to 6 pm and Sun, Feb 25: 9 am to 5 pm

VISIT OVER 100 EXHIBITORS DISPLAYING:
Cars, Trucks, Boats, ATV's, RV's, Golf Carts, Gun Shops, Food Vendors and much more!!!

There is something for everyone! Where else can you see all of your dreams and passions in one location!!!!

All food profits will be donated to Thank You Across America who are committed to helping American veterans.

AROUND CHARLOTTE HARBOR • CAPT. RALPH ALLEN

Where did the water go?

Photo provided

Some tides in Southwest Florida can be scary low, especially in winter.

Water gets no respect — it gets pushed around all the time. We all know that the Earth's gravity makes water run downhill, which is why streams and rivers run to the sea. But there is a lengthy list of other things which move water around too: Winds, barometric pressure, gravity from the moon, gravity from the sun, temperature changes, the rotation of Earth, and others.

The most well-known way that ocean water gets moved around is tides. If Earth were smooth as a marble and completely covered by a thin layer of water, tides would be very easy to understand. Gravity from the moon is the biggest influencer of tides. Essentially, the moon's gravity pulls water toward it. As Earth rotates, the water on the planet's surface gets pulled towards the moon and tries to follow it across the sky.

If there were no land masses to get in the way, then the tide would act like a Earth-wide wave that traveled completely around the globe in about 24 hours and 50 minutes, which is approximately the length of a lunar day. The tidal range (the rise and fall of the tides) would always be the same at any given latitude all around the globe.

Fortunately for us land-dwelling humans, there are continents which rise above the sea surface. They offer convenient places for non-gilled creatures to live, but these continents make tracking tides more complicated because they get in the way of those globe-trotting, moon-chasing waves. Ocean water that surrounds the continents tries to follow the moon, but can't because it runs into land. Shoreline locations on bigger sections of the oceans, such as the open Atlantic or Pacific Oceans, may have tidal patterns which are similar to those that would prevail in a landless Earth, but those on relatively small bodies of water, such as our Gulf of Mexico, often have very different tidal patterns.

If you look at a chart which shows the entire Gulf of Mexico, you see that it's mostly enclosed — more like a huge lake than an open ocean. This means that water in the Gulf gets tugged on by the moon's gravity but can't get very far in following the moon before running up on a beach somewhere, then sloshing back the other direction.

Eons of trying unsuccessfully to follow the moon has set up a side-to-side sloshing of the Gulf's waters that is on a different schedule than the passage of the moon. Tides along Florida's Gulf coast are a combination of the effects of the moon's passage and the side-to-side sloshing (called a seiche), which explains why tidal patterns are so very different on Florida's east and west coasts, even though they are only a short distance apart. Of course, this is all very oversimplified. In real life, there are the effects of gravity from the sun, seasonal differences in water temperature, and other stuff.

The upshot for boaters and fishermen who want to be able to predict tides in Southwest Florida: It's almost impossible to do it in your head. You'll need access to tide tables or, even better, tide graphs. Yes, there are predictable patterns, such as the two-week cycle between two-tide days and four-tide days or the seasonal pattern which brings lower water levels during the winter. But for day-to-day tide predictions, you're going to need help (or have a lot of math homework).

And that's not the end of the story, since our water is moved around by many things other than tide — mostly meteorological things that can't be forecast far enough in advance for inclusion in tide tables. Wind is the biggest of these.

We probably all know that wind pushing across the surface of the water causes waves, but not everybody realizes that it also moves water horizontally. This effect can result in a vertical raising or lowering of the water level. In Charlotte Harbor, the wind directions which have the most effect on our water level are northeast (which pushes water out of the Harbor) and southwest (which pushes water in). A sustained 20-knot wind from either of those directions for a day or two can make a foot of difference in the water level.

These effects are totally separate from the tides, so you have to add to or subtract them from the water level predicted by your tide tables. That's most of the reason why we had so much low water during January. Some of the lowest tides of the year were coupled with strong northeast winds, and the result was the lowest water levels since Irma's passage in September. (Cold temperatures and high barometric pressure played parts too, lowering the water still more.)

Speaking of Irma, there wasn't too much that was wonderful about Hurricane Irma's September's visit. But it did provide a wonderful example of some of the ways that water gets moved around by the weather, including a perfect example of how storm surge can work to bring flooding waters to an area, or pull water away, or both.

Tropical weather systems are rotational. In the northern hemisphere, they always spin counter-clockwise. Irma traveled south to north and skirted just a hair's breadth to our east, so as she approached the area our strengthening winds became easterly and pushed water away from the coast. The result was that on that Sunday afternoon, Southwest Florida experienced the lowest water levels seen in many years. That's when most of the areas seawall failures were initiated.

Then, as the center of the spinning storm passed us by, the winds shifted to a westerly direction and began pushing Gulf water towards the coast. Just 24 hours later, we had some of the highest water levels seen here in years. The last time we saw the water rise as high in Punta Gorda was during Tropical Storm Gabrielle in September 2001.

There are other factors that move water around, and some of them are pretty technical. One of these is the Coriolis effect, which results from the rotation of the Earth and has the effect of making anything that travels in the northern hemisphere tend to curve its path to the right. Things that travel quickly are affected very little, so there's no need to aim your gun a little to the left of your intended target. But things which move long distances at relatively slow speeds can be greatly affected.

This is why tropical storms in the northern hemisphere all turn counterclockwise, and why ocean currents in northern hemisphere basins circle those basins in a clockwise direction. Here's an interesting bit of Coriolis effect trivia: The water that's flowing in the northbound Gulf Stream is all being pushed to the right by the Coriolis effect — so much so that the water is higher on the right-hand side of the Gulf Stream than on the left. So, if you leave Miami and cross the Gulf Stream to Bimini in the Bahamas, you're traveling uphill. Who knew?

Let's go fishing!

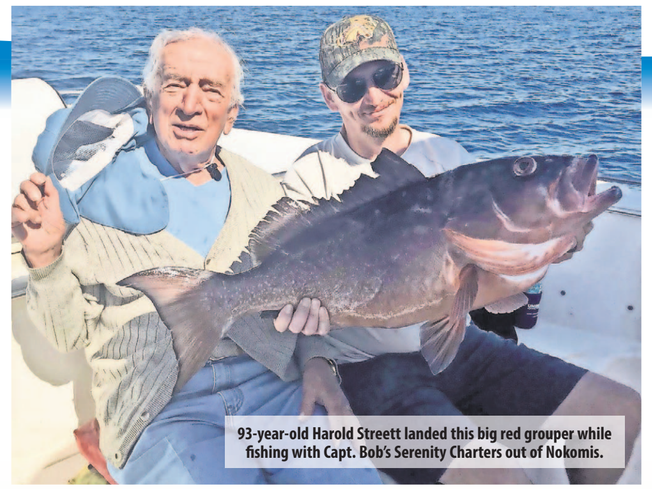
Reader Photos

Al Bolan, Stan Policka and Richard Madison with their catch of red grouper.

Jon Freese caught this 25-pound true black grouper with Capt. Joe Miller out of Venice.



93-year-old Harold Streett landed this big red grouper while fishing with Capt. Bob's Serenity Charters out of Nokomis.

Tanner White caught his big Punta Gorda bass on a spinnerbait.

Beverly Phillips, visiting from Cambria, Calif., caught her first sheepshead in a Burnt Store Isles canal.

Ray Foster, formerly of Moretown, Vt., and now a Punta Gorda resident, with his first jack.

PGI Fishing Club member Paula Arnold with her 25-inch, 14-pound tripletail.

Carl Hansen with Skip and Jeff Ohman and a trio of redfish caught in Punta Gorda.

Ann Harber with one of the two black drum she caught at Placida.

Larry Cook with a keeper seatrout caught in the Manchester Waterway.

John Noviello with his biggest fish on fly — a black drum he guessed at 60 pounds.

WE WANT YOUR PHOTOS!

Here's how it works: Take pictures of your outdoor adventures. Send your high-quality digital photos to **Editor@WaterLineWeekly.com**. **DO NOT send us photos of oversized or other release-only fish being poorly handled.** Photos of such fish being gaffed, held by the lower jaw only or obviously damaged or dead **WILL NOT** be published, no matter how big the fish or how proud the angler may be.

VABA photo

Somebody tell this silly bird the book says limpkins eat apple snails, not mussels.

Magical Myakka

BIRDING • ABBIE BANKS

Margaret Dunson leads an annual trip for Venice Area Birding Association to Myakka River State Park. This is a very popular birding trip, and one of my personal favorites. The area is quite diverse with 58 square miles of wetlands, prairies, hammocks and pinelands. The park was developed in 1934 by the Civilian Conservation Corps and is one of Florida's oldest. There is no telling what birds or critters one could see.

We always stop at St. Margaret's Church, and rarely are we disappointed in this quick little side trip. When we pulled in, I immediately went off to find the ever-present loggerhead shrike. It did not disappoint me — there it was, sitting on a fence post waiting for me to take its picture. I thanked it and then went to join the group to see what else was flitting around.

Robins were feeding in the meadow along with several meadowlarks. Myrtle warblers flew erratically back and forth in the oak trees. Several black-crowned night herons were thinking they were well-hidden in the low shrubs around the pond. However, we could see your bright red eye glaring at us, Mr. Night Heron. We watched the graceful gait of the sandhill cranes as they pranced across the meadow. In the very far distance a bald eagle was spotted.

Good birding, but we had to be off to our destination and so everyone piled into their cars. The first stop was by the ranger station so folks could use the restrooms. Don spotted a red-shouldered hawk perched in a tree across the parking lot. That was our first bird at Myakka but certainly not the last.

We always stop at the first bridge over the wetlands. It is great to always see the gators flourishing even though they have gator bites on the menu at the restaurant. We spotted great and snowy egrets; tricolor, great blue and little blue herons and lots of limpkins on both sides of the bridge.

We traveled slowly down Park Drive and stopped at another wetland area to observe a large flock of wood storks and four roseate spoonbills napping. Almost hidden in the undergrowth was a small flock of wild turkeys. A quick stop and a walk down Powerline Road brought us a swamp sparrow and a flock of myrtle warblers. When we arrived, we sighted three red-shouldered hawks on the power lines. We also spotted a few baby alligators.

Next, we were off to the birdwalk — a boardwalk that extends out on to Myakka Lake. We had to greet Yogi, one of the volunteers who has been coming here for 17 years. He filled us in on the sightings of the day. Fortunately, our group had some scopes set up and we got to see some beautiful black-necked stilts. As we were scanning the area, a huge flock of green-winged teal flew in. Dozens of tree swallows were flying hither and yon. Greater and lesser yellowlegs were also spotted. An osprey flew overhead, squawking about something. Bill spotted two white pelicans in flight behind us. A large flock of least sandpipers flew in. We were thankful for having scopes at the birdwalk.

Our leader declared we should take a break and have lunch. After lunch, we would hike to the weir. Diane, Don, Andy, Kausie and I opted to have lunch out on the deck. We were treated to some noisy limpkins and a beautiful roseate spoonbill for our dining entertainment.

After lunch, we hiked out to the weir. It was a nice surprise to see a flock of lesser scaup. The usual tribe of 22 alligators were on the opposite bank, thankfully not interested in us. There were quite a few limpkins here, more than usual. Bill noticed that they were consuming clams, not apple snails which we thought was their food of choice. As we watched the limpkin activity, a lone red-shouldered hawk watched us watching him.

Patty's eagle eye caught a glimpse of a sparrow in the reeds, and with a quick glance I would agree that it was a savannah sparrow. In addition, we added glossy and white ibis. We also had a little discussion about the American crows, which we see here at Myakka but never see by the Gulf of Mexico. We had this talk by a tree that the crows had decided was a great place to roost.

By this time the sun was high, we had shed our layers, and it was time to leave. We had a wonderful day at Myakka — thank you to Margaret Dunson for planning this great VABA trip. Don diverted on our trip back and somehow wound up at the Albee Farm Road Nokomis Orange Grove, where Diane was treated to her first creamsicle ice cream which is an orange and vanilla soft ice cream delight.

We had a great day in beautiful Florida out on the birding trail. If you'd like to come with us on a future birding adventure, see our schedule on page 3 or email me — we'd love to have you along.

Abbie Banks is a member of the Venice Area Birding Association, a group of folks who want to enjoy the environment and nature without the cumbersome politics of an organized group. For more info on VABA or to be notified of upcoming birding trips, visit AbbiesWorld.org/references.html or email her at Amberina@aol.com.

TOURNAMENT BASSIN' • GREG BARTZ

WaterLine photo by Josh Olive

Which is better? As with so many other choices, it's not that simple — there are several factors to consider.

Braid or mono?

There are so many different types of fishing line on the market these days. I want to take a look at the difference between monofilament and braid. There are other choices out there — copolymer line, fluorocarbon, hybrid lines of braid and mono — but I want to solely focus on the two basic lines we are most familiar with.

Let's put the size of the line to the side for now and simply focus on when to use which line. You may be shocked by some of my analogies, but you will find out if you experiment with both of these choices enough that a lot of times it will boil down to personal preference. Your line diameter can take care of strength issues, but like I said, we'll leave the line diameter out of this conversation today.

What's the biggest difference between these lines? First let's look at braided line. One of its biggest differences from mono: It floats. Since it doesn't sink, if you are using braid with something like a lipless crankbait, that bait will ride higher during the retrieve than if you used mono. That holds true for any diving lure you use braided line with. The other big difference is that braided line does not stretch. Mono has some stretchability built into it.

Is there ever a use for braid on a crankbait? Absolutely. When I fish early in the year and like ripping it over the top of hydrilla, braided line is a very nice fit. With a simple tug of the rod tip, I can keep the bait from hanging up in the hydrilla. But what you have to be careful of is setting the hook once you get a strike — no stretch, remember? You can rip a hole in the mouth of a bass so big enough it will allow the fish to slip your hook out of its mouth with one simple jump. So you have to be aware of which line you have on and make sure you react accordingly once you get a bite.

When I cast a worm or other soft plastic bait, I still prefer mono over braid. I do believe that mono line is less visible than braid is, so I like to use mono when I don't have a lot of vegetation in the area. I seem to get more bites, and with the assurance that there is not a lot of vegetation or structure around to chafe my line on, I believe that mono is a better fit than braid is here.

Go back to what I said earlier about braided line floating. When you cast a soft plastic bait, a lot of times you are target casting — meaning you want that bait right next to something you are seeing. With that buoyant line, the bait can drift away from your target you casted at as it starts to sink. The bait will work away from your target and back to the boat, leading it away from what you casted at. That reduces your ability to get strikes near those targets.

If I am flipping heavy cover or punching mats, braid is my only choice. In this situation, I'm counting on a reaction bite. I want to feel it, and because braid has little to no stretch at all, I'll feel that bite immediately. Often I'll end up horsing that bass back to the boat with a wad of vegetation on it, and I need that strength in order to catch fish that way.

The only time I ever use monofilament line to flip is when I am sight fishing. Here I'm usually hunting bass on beds. I don't have much line out, and less-visible mono won't spook the bass from the bed. Plus, I can set the hook without putting a big hole in the bass' mouth and run the risk of losing it when it jumps.

As you can see, I somewhat contradict myself on almost every application or bait that I want to throw with either of these two types of line. You can make a case to use these lines interchangeably, depending on the situation you find yourself in. Here is one good rule of thumb that I like to follow. If you can get away with mono, use it.

The factors that need to be considered are what bait you are using, water clarity, and vegetation around where you are fishing. If you get into situations where you are in heavy cover and water clarity is not a huge issue, use braided line.

Experiment with both and see which one works best for you. If you have someone else in the boat with you, one of you use mono and the other use braid. The information return can be instant, as long as at least one of you is catching bass.

Greg Bartz is a tournament bass fisherman based in Lakeland. Greg fishes lakes throughout Florida's Heartland with his wife and tournament partner, Missy. Contact him at Greg.Bartz@SummitHoldings.com.

Whoooo's got a birthday?

PEACE RIVER WILDLIFE CENTER • ROBIN JENKINS, DVM

PRWC photo

Jackson Andritsch and Orion — just a couple kids looking for a good time.

Peace River Wildlife Center invites you to celebrate the first birthday of the latest addition to our family of glove-trained birds. Orion the barred owl turned one yesterday on Feb. 14. He is our Valentine baby, and lives up to all that entails by being such a love.

Orion was transferred to PRWC last year as a fledgling from our sister organization, the Wildlife Center of Venice. They had helped to re-nest the barred owl chick when he was found on the ground, but subsequent exposure to the people at the site caused the bird to get habituated to humans and unsuitable for life in the wild.

Barred owls, with their distinctive "Who cooks for you?" call, were historically found on the east coast of the U.S. But they've been expanding north and west into Canada and now down into northern California, due to changing habitat. They do not migrate and usually spend their entire lives within a six-mile radius of where they hatched.

Breeding season in Florida is late January to March. Hatchling barred owls are covered in white fluffy down, which is slowly replaced by adult feathers as they age. The young barred owl will have complete adult plumage by six months.

At four to five weeks of age, the "branching" (an age between nestling and fledgling) barred owl will perch on the edge of the nest and climb out onto nearby branches. If he drops to the ground, he can usually climb back up his tree or a neighboring one using his talons and beak to dig in, while fluttering his wings to get to lower branches. He will remain there while his parents protect and feed him. This unique behavior is what got Orion in trouble when people interacted with him and lured him down from the tree to feed him.

During a re-nesting, we normally ask the homeowners in the area to keep an eye on the baby and let us know if it falls out of the nest again. We will re-nest another time or two, but if it continues to end up on the ground, we assume there is either something wrong with the baby or there are larger siblings that will not allow the smaller one to eat and rest comfortably. I know that feeling, having had an older sister who used her height and weight advantages to torture me throughout our youth.

When WCV heard nothing more about the status of the barred owl, they assumed all was well. Until it wasn't. At some point, they realized the homeowners were paying a little too much attention to the baby owl. The owlet was taken back into rehab and placed with foster parent barred owls to try to wild him up again. But by then, the damage was done. He would not know how to feed himself or associate with members of his own species.

Luckily, PRWC was able to obtain a permit to keep Orion as an education bird. He took to glove-training easily and is one of our most sought-after birds for outreach events and greeting visitors at the Center. Orion will be at the Peace River Woodcarvers Show at the Turner Agricultural Center in Arcadia on Saturday from 9 a.m. to 3 p.m. Stop by PRWC on Sunday to wish him a happy birthday. If you want to get him a gift, he likes dead mice.

Peace River Wildlife Center is a nonprofit organization, dedicated to the care, preservation and protection of Charlotte County's native wildlife since 1978. They are open seven days a week year-round, including holidays. Tours are offered from 11 a.m. to 4 p.m at their rehab center (3400 Ponce de Leon Pkwy, Punta Gorda). PRWC receives no government funding and relies entirely on private donations. For more info, visit PeaceRiverWildlifeCenter.org, email PeaceRiverWildlife@yahoo.com or call 941-637-3830.

FISH PROFILE • SPANISH SARDINE

SIZE LIMIT: n/a

BAG LIMIT (per harvester per day): 100 lb

SEASON: No closure.

LOCAL AVERAGE SIZE: 4 to 8 inches

MAXIMUM SIZE: About 14 inches

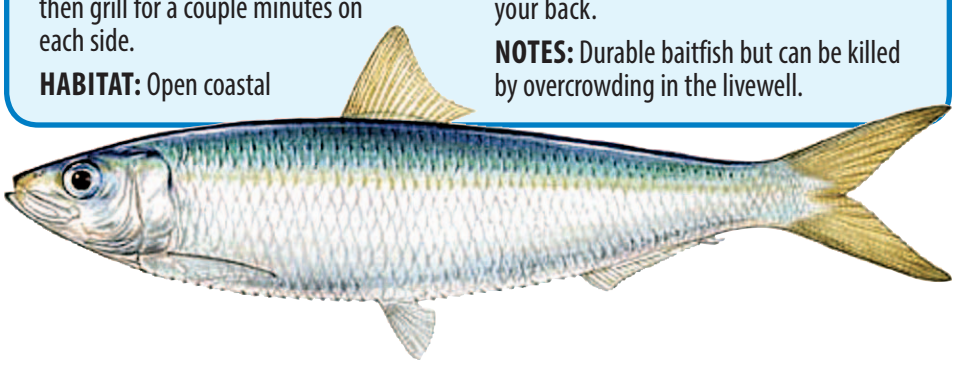
FOOD VALUE: Very good. Fresh sardines are a lot less fishy than the canned ones. Gut, stuff with lemon, garlic and butter, then grill for a couple minutes on each side.

HABITAT: Open coastal waters from 3 to 50 feet deep.

LEGAL METHODS: Hook and line, castnet, seine, dip net, spear, gig. Treble hooks OK with natural bait. Snagging OK.

FISHING TIPS: Spanish sardines are fast and often found in water too deep for smaller castnets. You can learn to throw a heavy 12-footer, but a sabiki rig is also an effective method and less likely to wrench your back.

NOTES: Durable baitfish but can be killed by overcrowding in the livewell.



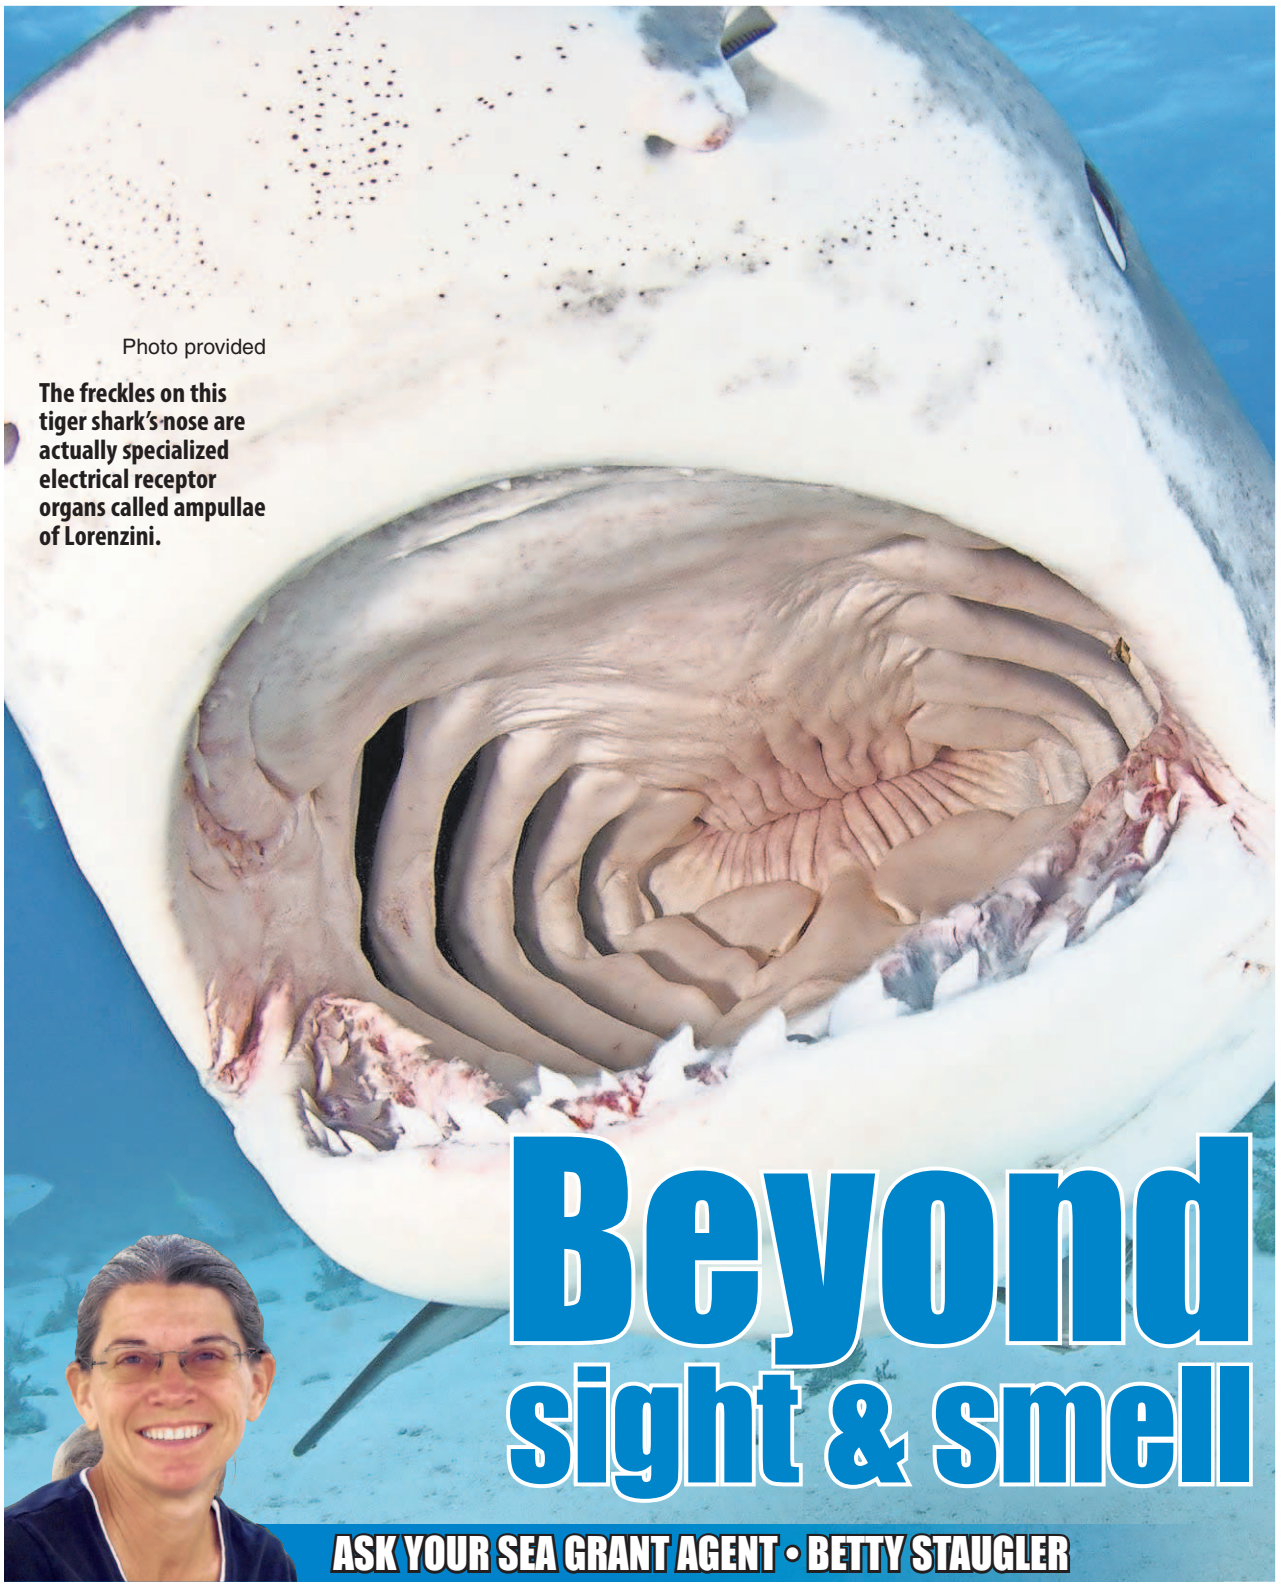


Photo provided

The freckles on this tiger shark's nose are actually specialized electrical receptor organs called ampullae of Lorenzini.

Beyond sight & smell

ASK YOUR SEA GRANT AGENT • BETTY STAUGLER

Fish sense the world around them in many ways. While most fish possess sight, hearing, taste and smell senses, all of which we can easily relate to, they also have sensory means for detecting stimuli such as water particle displacement and, in some fish, electrical currents. These latter sensory perceptions take advantage of the physical and chemical properties of water, and work in conjunction with the more conventional sight, hearing, taste, and smell sensory modes. Let's explore them!

Most fish have a lateral line. The lateral line senses tiny pressure changes in the water, sort of like how an eardrum senses tiny pressure changes (sound waves) in air. The lateral line is also pressure-sensitive. In an effort to help you visualize the structures that make up a lateral line, picture it like a river running down the side of a fish. This river is a lateral line canal. The lateral line canal is filled with endolymph — the same fluid that's in our inner ear.

Below the river, running parallel to it, is ground water. This, on a fish, is nerves. At various locations along the river, there are springs connecting the ground water to surface water. Those points of connection are spring heads, which on fish are called neuromasts. Neuromasts connect the nerves to the lateral line canal, and that connection through the neuromasts allows fish to sense mechanical changes in water.

Each neuromast is comprised of hair cells. Like all hair cells, those of the lateral line are contained in hair bundles. The hair bundles grow longer from one edge of the bundle to the other. These hair bundles are covered by a flexible and jellylike cupula (essentially, a tiny dome) that connects the bundles with canal fluid, or in some cases with the water surrounding the fish. The cupula are sensitive to movements of the watery endolymph fluid through the canal. Pressure changes bend the cupula, and in turn bend the hair cells inside.

There are actually two main varieties of neuromasts located in fish: Canal neuromasts and superficial or free-standing neuromasts. Canal neuromasts are located along the lateral lines in fluid-filled canals (the river), just under the skin, which usually open to the environment through a series of pores. You can see these pores if you look carefully at the scales along the lateral line.

Superficial neuromasts are located externally on the surface of the body (around the head, trunk and tail). These neuromasts work the same way as canal neuromasts, except instead of being in contact with endolymph fluid, they are in contact with the external water environment.

As fish swim, they produce a flow field around their bodies. The lateral line system is able to detect distortions in this self-generated flow field due to the presence of objects. The distortions cause pressure changes which are received by the neuromasts. Pressure-change information received by neuromasts is passed along to the brain.

By integrating the information of many neuromasts, fish can detect different things, like movement, vibration and pressure gradients in the water around it. This plays an essential role in orientation, predatory behavior, defense and social schooling.

For instance, the lateral line system is necessary to detect vibrations made by prey, and to orient fish toward the source to begin predatory action. Surface-feeding forage fish can detect the surface waves caused by struggling insects that have fallen into the water with their lateral lines. They can also determine the direction and the distance to the surface wave source. Midwater fish use the lateral line for detection of moving objects. Not only can they detect the direction of movement, but they can also detect its speed, size and shape.

How about detecting electrical currents? Electroreception facilitates the detection of prey and other objects, and is used by some species as a means of social communication. The electroreception ability is enabled by ampullae of Lorenzini, large pores filled with a jelly-like substance.

Minute sensory cells line the walls of each pore. These sense even faint electrical impulses from the environment and transmit the message to the sensory nerve at the base of each pore. This nerve sends messages directly to the brain, which in turn informs the fish of gravitational sensations or nearby prey. The ampullae of Lorenzini are also able to detect changes in water pressure and, to some degree, temperature.

Electroreception is most notable in cartilaginous fish (sharks and rays). However, it's also reported to be found in other fish such as sturgeon. The electroreception ability present in sharks is a significant survival tool as it allows them to seek out and find prey, even when they're hiding in structure or in the sand, just from sensing the natural electrical signals emitted by all animals.

Electroreception occurs almost exclusively in aquatic animals, but it's not restricted to fish. Most amphibians are electroreceptive during their aquatic larval phase, and many species continue to be electroreceptive as adults.

Betty Staugler is the Charlotte County extension agent for the Florida Sea Grant Program. She is active in many areas relating to boating, fishing, and watershed/coastal living. The Florida Sea Grant College Program supports research and education activities that help Florida's shoreline communities, industries and citizens wisely use the state's coastal and marine resources. Stump Pass Marina is a cool local spot for fishermen, boaters and outdoor enthusiasts.

A LIFE ON THE WATER • CAPT. VAN HUBBARD

Where do you get your fishing info? I utilize local bait and tackle shops for updated fishing information and for buying my supplies. My home port and pick-up point is Stump Pass Marina on Lemon Bay — a beautiful, first-class facility with everything I need. Most of the time, at least — since all bait shops receive shrimp deliveries at different times, they all run out occasionally.

I also shop at Fisherman's Edge in Grove City; Jim is helpful and does all he can to provide chum and quality baits both live and frozen. I also like the "old Florida" places in Placida and the Englewood Bait House on Beach Road.

One of the advantages to diversity is I get daily input from several reliable sources helping me decide where to go and what to look for on my day's charter. Up-to-date information enhances my odds of successful, fishy trips. It requires time to build trust and healthy relationships, especially in the fishing world. Be courteous and don't push people. We have all been lied to and used by helping folks who bit the hands that fed them. No one likes this. Buy something, be considerate, and be sure to thank the individuals who helped you. Show your appreciation for the extra efforts someone shares with us.

I was asking where the whiting went last week, so while getting some shrimp at Englewood Bait House last week, I was happy to hear one of their regulars had discovered plenty of them on Manasota Key beaches recently. I saw some photos here in the magazine also. We need to utilize all the resources available to us and take help where we find it.

I want to point something else out also. Head boats don't offer the private space you get on charters, but the cost is much less. A few local boats at Englewood Bait House and Stump Pass also help put split trips together. Split trips can be challenging, attempting to match individual wants and special needs of clients.

The Reef Raider, Englewood's head/party boat, does offer value for the cost. It also allows you to meet other fishermen and gain access to our Gulf fishing at a reasonable cost. It's a good way to introduce yourself to our waters and discover what you can expect to discover in your future fishing adventures.

I recommend going with professionals before investing in a rig and then realizing it isn't matched to your desires or budget. You also have an opportunity to talk with the crew and other local fishermen. Many are regulars and if you ask nicely, they will help most of the time — just please respect their space. Reservations are advised now since everyone gets busy as we warm up. Last-minute might work, but don't count on it because we do fill up frequently.

If you want to check out any operation, visit when the boats come in. I'm spoiled at Stump Pass Marina because we have the awesome Lighthouse Grille to hang out at, indulging on great food (and drinks if you like). Most bait shops have learned that many of our ladies like nice clothes, so they have much more than just bait and tackle. Bait shops can be a great place to hang out when they aren't busy. Bring some donuts or homemade cookies and see how fast things warm up. The old saying "You get more with sugar than vinegar" is absolutely true at any bait shop.

I live on Lemon Bay, so these are some of my spots. But we have special places to visit all over our area. Check out Fishermen's Village in Punta Gorda. Capt. Ralph Allen's King Fisher Fleet crew is experienced and glad to help. We even have a great food and music venue up river at the Nav-A-Gator on the Peace River. There is a nearby boat ramp and river fishing is hot in cold weather. You can get out of the wind also. Snook Haven is another beautiful old-timey hang out.

Look around and take a chance — we have plenty to offer for any tastes. And remember that you can't catch fish if you don't go fishin', so let's go fishin' soon.

Capt. Van Hubbard is a highly respected outdoor writer and fishing guide. He has been a professional USCG-licensed year-round guide since 1976, and has been fishing the Southwest Florida coast since 1981. Contact him at 941-468-4017 or VanHubbard@CaptVan.com.

Are you looking for a top-quality AR-15 rifle?

ASK THE GUN GIRL • JENNY MALONE

Photo provided

There are many reasons to own an AR rifle. If you want a really nice AR, check out Daniel Defense.

The AR-15 has become a symbol of American pride and freedom. It has become a must-have for every gun enthusiast, but with so many AR manufacturers out there it may be very hard to know what to choose if you're in the market. Let me tell you about one of my favorites — Daniel Defense.

Daniel Defense is a young company, just over 15 years old. Despite their relatively new status, they are one of the top contenders in the AR industry. Founder Marty Daniel built his company out of a dream and a desire to make the best optimal performance AR-15.

Marty began his career as a machinist and then later became a gun enthusiast. Fairly new to the shooting world, Marty fell in love with the AR-15, but believed there was room for improvements on the long-used standard design. His machining background drove him to eventually redesign the AR platform.

Daniel Defense strives for quality in all areas, seeking to enhance th comfort, durability and performance of their rifles. Ninety percent of all Daniel defense rifle components are built in-house. Unlike the vast majority of their competitors, they do not use outside resources for their uppers, lowers or barrels.

They are only one of five companies in the world that produce cold hammer-forged barrels. This process uses a fully automated piece of machinery that literally pounds the barrel from all sides, squeezing it down on a steel rod to the desired caliber. This process creates a much harder steel, thus giving the barrel greater strength and durability.

Daniel Defense rifles are available chambered in a few different calibers: 5.56 NATO, 7.62x51 (.308), .300 Blackout and 6.8 SPC. In addition to rifles and carbines, Daniel Defense also builds AR pistols and SBRs (short-barreled rifle). This means they have firearms for almost every shooting application.

A direct gas impingement system comes stock in all their ARs. What this means is that some of the gas behind the fired bullet is redirected through a small gas tube from the barrel back into the chamber. The redirected gas will pushes the bolt backwards allowing the rifle to cycle.

Low-profile gas blocks that are pinned to the barrel allow the Daniel rifles to have an uninterrupted rail system. This means you can spread your sights farther apart from one another, creating the optimal sight radius. Also, you can grip closer to the muzzle, which means more leverage and stability as you hold it.

The choices of rail systems that are available on Daniel Defense rifles are unique. Some of the available options include the classic Picatinny quad rail and the KeyMod. The KeyMod system is a fairly new concept that reduces a lot of the rifle's weight. Attachments can still be used on the KeyMod system by using KeyMod accessories or by using KeyMod-to-Picatinny adapters. With the KeyMod rail, you can avoid the "biting" from the Picitany rail slots. More rail systems include the SLiM rail (Picatinny on top and KeyMod at 3, 6 and 9 o'clock positions), LW (lightweight) and SLW (short lightweight).

Another unique aspect of Daniel Defense designs is the free-floating quad rail with a four-bolt connection system. A free-floating rail means that nothing touches the barrel, eliminating interference with accuracy. Daniel rifles are designed with a lengthened barrel extension and receiver flare, creating a larger and more stable connection. Twice as much connection area means less movement and increased accuracy.

Some Daniel rifles come stock with a Giselle trigger, one of the leading performance triggers on the market, but even the stock trigger is rather nice.

Daniel Defense just does a great all-around build. They skimp on nothing, instead continually stepping up their game. Plus they all come with a 100 percent satisfaction lifetime guarantee. While they may have a slightly steeper price tag than most ARs, you're definitely getting an excellent quality rifle. If it's in your budget, I would suggest that you pick one up. Good thing those tax refund checks are coming in! See ya at the shop.

Jenny Malone grew up in the Charlotte County area and is an NRA-certified pistol instructor and range safety officer. She is the mother of one teenage daughter. In her free time, she enjoys shooting, the beach and being around animals. You can talk guns with her at J&J One Stop Gun Shop in Port Charlotte.

SEAFOOD-STUFFED AVOCADOS

A clip-n-save seafood recipe provided by WaterLine

- 1 cup **flaked cooked crabmeat**
- 1 cup **cooked small shrimp**
- 1/4 cup **peeled and diced cucumber**
- 2 tbsp **mayonnaise**
- 2 tbsp **chopped fresh parsley**
- 1/4 tsp **salt**
- 1/4 tsp **ground black pepper**
- 1/4 tsp **paprika**
- 2 **avocados**

Slice the avocados lengthwise and remove the pits. Scoop out most of the flesh from the avocado halves, leaving about 1/2 inch on the peel. Dice the scooped-out avocado flesh. In a bowl, mix the crab, diced avocado, shrimp, cucumber, mayonnaise, parsley, salt and pepper. Cover and chill until ready to serve. Spoon the seafood mixture into the hollowed centers of the avocado halves. Sprinkle the tops with paprika. Serves 4.

Lawmakers seek common ground on Florida Forever

Photo provided

Florida Forever lands provide critical wildlife habitat for animals like this Florida panther.

By Jim Turner
The News Service of Florida

Lawmakers are continuing to work on restocking Florida Forever, the state's once-prized land preservation program.

However, Florida Forever spending is shaping up to be a big part of the environmental budget differences the House and Senate will have to settle in the coming weeks.

The House Agriculture & Natural Resources Appropriations Subcommittee last week unanimously backed a wide-ranging proposal (HB 7063) that would gradually raise the annual allocation to Florida Forever, starting at $57 million in the 2019-2020 fiscal year.

The move came less than a week after the Senate voted to set aside $100 million a year for Florida Forever starting in the 2018-2019 fiscal year, which begins July 1.

"We're going to get together and try to make our case the best we can for the policy that's in there. I think it's all a good policy," said Rep. Matt Caldwell, a North Fort Myers Republican who is sponsoring the House proposal.

Despite the $57 million figure, Caldwell's bill would allocate $200 million a year toward Florida Forever. However, until 2029, chunks of that allocation would go to reducing existing debt payments.

The money going into Florida Forever would be directed toward land acquisition and would gradually increase to $110 million in the 2023-2024 fiscal year and $200 million starting with the 2029-2030 budget.

Caldwell's proposal also would keep in place bonding approved during the 2017 legislative session for a reservoir in the Everglades Agricultural Area and allow local governments to administer rural-lands protection easement programs with assistance from the state Department of Environmental Protection.

Aliki Moncrief, executive director of the Florida Conservation Voters, said she was "most excited" about the part of the bill regarding land acquisition.

"Land acquisition is a really important and unfortunately an under-used tool sometimes in Florida," said Moncrief, who backed a 2014 voter-approved amendment that directs one-third of an existing real-estate tax toward the land and water conservation.

"When you buy land around springs, for example, and you make sure that those lands stay in conservation, instead of being turned into gas stations or developments, you're actually protecting the springs and you're protecting our underground resources," Moncrief said.

But Caldwell's policy changes have drawn some concern.

Julie Wraithmell, interim executive director with Audubon Florida, said language in the proposal expands when attorney fees can be awarded in outside challenges, which she said could have a "chilling effect" of keeping people from questioning agency actions.

"The little guy who is challenging an agency, yes currently they can be assigned attorney costs from the agencies, but only if their challenge is decided to be an improper purpose, the equivalent of a frivolous lawsuit but at the administrative law level," Wraithmell said.

Caldwell said after the meeting he will continue to work to address concerns with the proposal, which must still go before the House Appropriations Committee.

Caldwell also said he expects any talks between the House and Senate about Florida Forever to include discussions of funding for the St. Johns River.

Senate Appropriations Chairman Rob Bradley, R-Fleming Island, is sponsoring the Senate proposal to spend $100 million a year on Florida Forever. He also has a separate proposal (SB 204) to use the voter-approved money to bump funding to $75 million a year for the state's springs and to put an additional $50 million toward restoration of the St. Johns River, its tributaries and the Keystone Heights lake region in North Florida.

Caldwell's proposal also includes a five-year beach management plan, which doesn't include funding.

Sen. Dorothy Hukill, R-Port Orange, has advanced to the Senate floor a measure (SB 174) that would provide $50 million a year for beach projects.

"Nothing is insurmountable," Caldwell said. "It puts us again in play on a number of issues where we both have interest."

Outlaw teachers say kids need field trips

Photo provided

How do you get kids interested in science and the outdoors without putting them in it?

By Danny Westneat
The Seattle Times

Craig MacGowan is a bit of a living legend in local science-education circles.

He created "Mac's Field Guides," handy laminated primers to the Northwest's birds, trees and marine creatures. But mostly he's known for "Mac's kids" — the more than 2,000 Seattle high-school students, now all adults, he led on science trips during a four-decade teaching career in Seattle's public schools.

"Ecuador, Kenya, Australia, Mexico, Papua New Guinea, we had science adventures absolutely everywhere," recalls MacGowan.

MacGowan, 76, is long retired. But he's been unexpectedly called back into service for a reason that's unusual, but also won't surprise anyone who has dealt with the sometimes soul-crushing bureaucracy of Seattle schools.

This spring MacGowan will lead what amounts to a guerrilla field trip. It's 40 Garfield High School kids in the oceanography classes going to Maui, Hawaii, in April to learn firsthand about marine science. But bizarrely the kids have to skip school to do it, and their current teacher has been barred from going, because the entire trip is happening without the consent of Seattle Public Schools.

"It's insane it seems to have come to this," MacGowan says.

Since the 1970s, marine-biology classes at Garfield have raised money through the year for a chance to go study in the wild the sea life they've seen mostly on videos or preserved in glass jars.

This year, after parents had paid deposits for the trip, it was canceled. Apparently the district wanted an administrator to go along (normally it operates with the teacher, Jonathan Stever, along with some college-level marine biologists as chaperones).

A district official said in a recent email to parents only that "specific conditions were not met, which resulted in the cancellation of the trip."

It was too late to get parents their $200 trip deposits back. So after what he described as "a long battle with the district continuing to challenge our trips," the teacher, Stever, switched control of the trip outside of the school altogether, to a wilderness-education group called Post 84 that's affiliated with the Boy Scouts.

"So we have to leave the school in order to take a school trip," says Luz Villasana, the mother of a sophomore in the class.

It means the teacher can no longer go on his own class trip: "They are saying if I go during my own time and donate my expertise I will be insubordinate and open to disciplinary action," Stever wrote to parents.

It also means the students technically are skipping school for the four days of the trip that overlap with the school calendar.

"SPS central office will not grant 'excused' absences for students who choose to attend this non-SPS sanctioned function," a school-district official wrote to parents. This could mean the students will get zeros on any work or tests missed.

Good grief. The district is right to worry about liability on field trips, having paid a $700,000 settlement for an alleged sexual assault on a trip back in 2012. But there's got to be a better way than turning students who are trying to learn into truants, and a teacher who is trying to teach into an outlaw.

A petition to the district is notable in that it has been signed by dozens of "Mac's kids" from the '80s through the 2000s - all testifying how their experiences changed their lives and careers.

"It was a transformative and eye-opening experience for me," wrote Christy Shelton, about a Garfield trip to Papua New Guinea in the '80s. "I worked two jobs in the summer and after school and actively fundraised with other students to be able to go. The science field trips are one of the things that makes Garfield special."

Most transformed was Stever, a Garfield grad and one of "Mac's kids" who grew up to take over for his mentor. He recruited MacGowan to replace him for this spring's now illicit trip.

Stever, citing his delicate position, declined to be interviewed. But MacGowan said what's happening in education is dispiriting.

"Where are they going to learn a passion for marine biology — sitting in a classroom, or out diving on a reef?" he said. "If this marks the beginning of the end of getting out in the world in the Seattle public schools, it's the saddest thing that's ever happened."

Drilling foes, supporters say Fla. still in play

AP file photo

Perhaps drilling rigs like this could be in Florida's future after all.

By Jim Turner
The News Service of Florida

Supporters and opponents of oil drilling closer to Florida's shoreline refused Feb. 5 to accept U.S. Interior Secretary Ryan Zinke's declaration that the state wouldn't be part of a White House plan to expand exploration.

The federal Bureau of Ocean Energy Management held the only Florida open house on a proposed five-year program to open more waters to oil and gas exploration. But participants in competing press conferences doors away at a Tallahassee hotel agreed on one thing: Zinke's stance on a Florida exemption isn't final.

"Why are the environmentalists here? Why are they raising hell about this issue if no means no? It's because, you know what, no is never no," said Barney Bishop, a Tallahassee consultant and offshore drilling proponent. "You all don't know about the discussions that are being held in private. No, publicly, can mean a whole lot of things in private."

Zinke flew to Tallahassee International Airport on Jan. 9 and, after a brief meeting with Gov. Rick Scott, announced that Florida waters were removed from plans to open previously protected parts of the Atlantic Ocean and the eastern Gulf of Mexico to offshore oil and gas drilling.

The announcement, hailed by Scott and environmentalists, has drawn questions about whether the quick decision was made to further Scott's political career. Meanwhile, governors in some other coastal state have made their own inquiries about getting exemptions from the White House plan.

Opponents of the plan on held a "people's hearing" to gather public comments they will submit to the federal bureau.

Ian MacDonald, a Florida State University professor of oceanography, argued that a potential future spill — similar to the deadly 2010 Deepwater Horizon disaster — would impact the physical well-being of Floridians.

"We received countless calls from state agencies and the federal government … asking for information which in many cases we didn't have," MacDonald said. "How many fish are there? How will they be impacted? How will coral be affected by this? These were all questions we didn't know the answer to. Well, we still don't have enough answers. And we still don't have enough regulations."

And Jerry DiFabrizio, a tile distributor from Tampa, said the threat of oil rigs appearing on the horizon could impact the quality of life in Florida by hindering property values.

"Whenever it's announced that there is drilling off the coast, revenue for the state that helps the state provide good things is reduced," DiFabrizio said. "We don't want to just put condos wall to wall. We need the beaches to be preserved. We need the beaches to be maintained, conserved and restored."

While last week's event at the Four Points by Sheraton Tallahassee Downtown hotel allowed people to see videos and papers and interact with bureau officials, before leaving comments, the "people's hearing" provided a chance for people to vent their concerns with an audience.

A short-time earlier, proponents of oil exploration called for Florida's waters to remain in the program.

Kevin Doyle, executive director of the Consumer Energy Alliance, which advocates "in support of affordable, reliable energy," said exploration would enable the United States to be energy-dominant with the rest of the world.

"I think the original plan that was proposed is something that is a good starting point in this process," Doyle said. "To import energy from areas that don't like us as much, like Venezuela and other places such as that, if we can do that here in the United States, it's a great thing for small businesses, for families and for consumers."

The hearing, one of 22 being held through March 8 across the country, is the only one in Florida. Most are being held in state capitals.

A draft report is expected by the end of the year, which will be followed with another round of public hearings.

Renee Orr, the bureau's chief of strategic resources, said the open house format allows more interaction than lining people up at a podium.

"We're going to look at the comments we receive as a result of all of these public hearings and all of the information that is submitted," Orr said. "We are going to look at all of the eight factors and provide that information to the secretary. Ultimately, he will make that balancing decision."

Prior to the hearing, the Florida Department of Environmental Protection submitted its opposition to the proposal.

Department of Environmental Protection Secretary Noah Valenstein said in a letter that Florida's coastal areas have "high environmental, economic and military value not only for Florida, but also for the nation."

Valenstein also noted the comment by Zinke to Scott that Florida was off the table.

"As we have seen in the past, oil spills can have a devastating impact to Florida's economy and our diverse natural resources," Valenstein wrote.

BLACK BUTTER BLACK DRUM

A clip-n-save seafood recipe provided by WaterLine

6 **black drum fillets** (6 to 8 oz each)
1/2 cup **water**
2 tbsp **white wine**
Lemon, sliced into 8 pieces
1/2 cup **butter**
2 tbsp **white vinegar**
2 tbsp **chopped pecans or almonds**

Simmer water, wine and lemon slices. Add fillets and poach for 6 to 8 minutes. Remove fillets; pat dry with paper towels. Place butter in heavy skillet and cook at medium high heat until it begins to brown slightly. Add nuts in an even layer. Cook, stirring frequently, until butter is deep brown. When butter nears burning point, gently add vinegar and step back (it will steam and may spatter). Remove skillet from heat; stir until foam subsides. Place fillets in single layer in baking dish. Pour black butter over fillets and bake for 10 minutes at 350°F. Garnish each fillet with lemon slice. Serves 6.

SOLUNAR TABLES

What is a solunar table?

The sun and moon, even when they are out of sight, exert forces wild creatures can feel. These forces affect when fish and other animals feed. Weather and tide also play a role, but expect fish to be more active during the major and minor solunar times.

SLACK TIDES NEWS OF NOTE FROM AROUND THE GLOBE

FREEZE ICED DOZENS OF MANATEES

NAPLES DAILY NEWS — Recent cold spells have taken a toll on Florida's beloved sea cows. At least 35 manatees died from the cold between Jan. 1 and 26, compared with seven over the same period last year, according to the Florida Fish and Wildlife Conservation Commission. An average of eight manatees died from the cold in the month of January from 2013 to 2017. Manatees are ill-adapted to survive in frigid water. Their bodies are mostly lungs and ribs — they have deceptively little blubber. The last time Florida saw an uptick in cold-related manatee deaths was in 2010 and 2011 when the number of manatees that died from the cold reached 282 and 114, respectively. "It's been really busy," said Maya Rodriguez, a veterinarian at Miami Seaquarium, which rehabilitates sick manatees. Manatees can develop hypothermia, or cold shock, when exposed to very cold water. A manatee suffering from cold shock will die quickly. Prolonged exposure to water below 68 degrees can cause a condition called chronic cold-stress syndrome. The animal may suffer from emaciation, dehydration, skin lesions and infections. If found in time, these manatees have a chance at being rescued. Most of the cold-related manatee deaths in Florida occurred between Jan. 15 and 22 as nighttime air temperatures dipped into the 30s. At least 19 manatees died from the cold during that period, state figures show.

A TURTLE'S DINNER

This is the incredible moment three hungry turtles feast on an unlucky jellyfish, taking a whopping two days to finish eating the poor creature. The stunning footage shows the green turtles nibbling on their bizarre meal together as they tear it to pieces. Scott Portelli, from Australia, recorded the amazing scene in Byron Bay and says they carried on eating the gelatinous beast for two days. He said: "I was fascinated by the behavior and excited to capture this footage. It went on for hours; we saw this over two different dives on the same day. I've never seen anything like this before, but since I took this footage and the award-winning photo, I have seen more and more people releasing images from the area. The turtles in the video are green turtles and they do usually feed on jellyfish — it's part of their diet. They are not sharing it, they are actually eating it and would sometimes try and take it away from the other turtles. Sometimes they snap at each other to chase the others away." See the video at https://goo.gl/db5iiv.

A WORLD WITHOUT MEN

An all-female freshwater fish species called the Amazon molly that inhabits rivers and creeks along the Texas-Mexico border is living proof that sexual reproduction may be vastly over-rated. Scientists this week said they have deciphered the genome of the Amazon molly, one of the few vertebrate species to rely upon asexual reproduction, and discovered that it had none of the genetic flaws, such as an accumulation of harmful mutations or a lack of genetic diversity, they had expected. They found that the Amazon molly, named after the fierce female warriors of ancient Greek mythology, boasts a hardy genetic makeup that makes it equally fit, or even more so, than fish using sexual reproduction in which both maternal and paternal genes are passed along to offspring. "The Amazon molly is doing quite well," said biologist Manfred Schartl of the University of Wuerzburg in Germany. "Unexpectedly, we did not find the signs of genomic decay as predicted." The fish reproduces using a strategy in which a female's egg cell develops into a baby without being fertilized by a male's sperm cell. But that does not mean the fish does not need some hanky panky. "The Amazon molly female produces clones of itself by duping a male of a closely related species to mate with her. The asexual mode of reproduction termed gynogenesis requires the female to mate with a male but none of the male's genome is passed to the offspring," said geneticist Wesley Warren of the McDonnell Genome Institute at Washington University in St. Louis.

ARCTIC ICE HITS NEW LOW

Another month, yet another record low for Arctic sea ice extent in a warming world. January's average ice extent in the Arctic was 525,000 square miles below the 1981-to-2010 average, making it the lowest January extent in the satellite record. This is an astonishingly large loss of ice — equivalent to 80 percent of Alaska. But what happened in January was equally, if not more significant, for its timing. It happened when the Arctic was gripped by frigid, polar weather. Record lows in the Arctic once occurred mostly in September — at the end of summer when relatively warm temperatures naturally cause the frozen lid of sea ice to shrink to an annual minimum extent. With human-caused warming added on top of relatively mild summer temperatures, record melt-backs in summer perhaps are not so surprising. But now, dramatic reductions in sea ice are occurring more and more often during the cold season. "Now we are seeing winter really get into the act as well," says NSIDC director Mark Serreze. "The shrinking Arctic sea ice cover is no longer something that just stands out in summer."

SLEEP SECRETS OF BLIND FISH

There's something about the blind Mexican cavefish

that will make you quite jealous: To survive and thrive, they require two hours of sleep each night; no more, no less. Imagine everything you could do with those extra six hours. Among all the animals in the world that need their zzzs, species differ remarkably in their sleep patterns and behavior. Humans fall somewhat in the middle of the spectrum, requiring a strict eight hours for adults, according to recent studies. On one end of the spectrum are the brown bat, which sleeps about 20 hours a day, and the giant armadillo and the python, which both take in 18 hours per day. And then there's certain cave dwelling species, including the Mexican cavefish, which gets by unscathed, health-wise, with about 2 hours of sleep per 24-hour period. "We think we can use cavefish to ask fundamental questions about why we sleep and why there is so much variation in sleep across the animal kingdom," says Alex Keene, lead author of the paper and a neuroscientist at Florida Atlantic University. "If we can figure out why these fish get by despite little sleep, we may be able to find better ways to manipulate sleep in humans."

THIS IS TOTALLY NORMAL TO ME

A man walked into a Florida bar with his alligator and asked the bartender: "Do you serve lawyers here?" "Sure," says the bartender. "Good. One beer for me and a lawyer for my alligator."
