HEALTHY OLD AGE

The majority of persons over 60 are very alert and do not need to be contented with wearing spectacles or being limited in their use of tobacco or other hedonistic habits. They are often as active as younger persons, and are generally well pleased with themselves. They may be well provided for, and their food may be made to answer their needs.

S.S.S. IS THE IDEAL TONIC AND BLOOD PURIFIER FOR OLD PEOPLE.

Dr. William R. Hamlin

The S.S.S. is a tonic that is used by old people to keep their hearts healthy. It is a preparation of minerals, and contains a number of vitamins, which are necessary to maintain the health of old people. It is used in the treatment of heart diseases, and is highly recommended by physicians. It is taken in the form of a tablet, and is very effective in cases of heart disease.

The S.S.S. is manufactured by the S.S.S. Company, and is sold by all druggists.

The Weekly Tallahassense, Thursday, August 2, 1900.
