Entry Point: transforming the Treasure Coast

By Anna-Marie Menhenott
news@hometownnewsol.com

STUART — Transformation is defined as a complete or major change in someone's or something's appearance or form.

Entry Point of the Treasure Coast, which has been in business since 2001, prides themselves on the transformation of entryways, windows, cabinets, and more; a difficult task that the company makes look easy.

"In about an hour, we take a standard, steel or fiberglass door and transform it to a custom-made entryway that adds to the aesthetics of any home," said Jeannie Ventolieri, owner.

"Customers can choose from the more than 100 glass patterns, which includes impact glass, that we have available. Or, if they choose, they can create a custom glass pattern," she said.

Entry Point services the entire south Florida community from Brevard County in the north, to the Keys in the south and west to Collier and Lake counties. With a

fleet of mobile units available, Entry Point's service is quick and reliable.

In approximately an hour, the existing door is taken off its hinges, cut and the decorative glass is sealed. The finished product not only adds a flare of beauty to a home, but introduces natural light.

All decorative glass panels are sealed and insulated between two panels of tempered safety glass, using an aluminum spacer and airtight, waterproof sealant. The result is a triple pane insulated safety glass unit that protects homes from the elements.

All products are offered with High Performance Frames that will take sunlight and heat without warping, yellowing, or cracking. Frames will never have to be painted unless the owner chooses to do so.

Entry Point also offers customized patio doors, French doors, framed and frameless shower doors, etched glass, custom table-tops, a mirror wrap-around system, and door locks.

They also offer new fiberglass and wood doors to customers who need them.

"We can customize any door the customer wants and offer new doors if the existing door isn't steel or fiberglass," Jeannie said. "We are a service provider for Home Depot and work on homes across a large portion of Florida. Not only do the doors look incredible, but the value of homes increases by 6 percent prestige value."

Also available are Do-It-Yourself shutter kits to protect glass which has Florida

product approval.

Entry Point is licensed and insured and offers limited warranties on their products.

To view some of the transformations by Entry Point of the Treasure Coast, for a list of all services, and for a quote request, visit their website at www.entrypoint-decorativedoorglass.com visit their expansive showroom at 2426 S.E. Federal Highway, in Stuart.
