- To be released for test by next Tuesday
- **Testing Applications**
  - Need computer
  - Background in Silver and Message Box

- **Ephemeral Cities** Development will stop on July 15<sup>th</sup>
  - Programming Issues
    - Separate application
    - Searching features complete
    - Searching streets only needs HTML rendering
    - People searching and ingest a couple days away
  - Digital Resource Loading
    - Most EPC digital resources now loaded
    - Checking 'my city' ephemera images
  - Data Issues
    - EPC Features / Corps lists almost ready
  
- **UFDC**
  - Sanborn Views
    - Will table the issue with so many views for now and ask Marilyn to review issues and alternatives upon her return.
  - De-Duping

## PENDING ISSUES

- **Importers**
  - Implement new minimum record requirements across all importers
  
- **Tracking Database / Workflow Applications**
  - Support for 'UF PR00 0001'
  
- **UFDC**
  - PreLoader

- Support locking of digital resources
  - Move audio/video to AV server
- Loader
  - Check browse creation errors
  - Add authority information into the GSA XML files
- Copy feature, street, people, and map searching to UFDC
  - Sanborn
  - Ringling
  - Newspapers
- **Digital Resource Loading**
  - Ringling
  - **CARICOM**
  - **Jamaica**
- **UFDC Toolkit**
  - Recombine all workflow applications
  - Allow users to select work folder ( rather than 'C:\DLOC' )
  - Haitian tweaks

## REFACTORING

- **Tracking**
  - Grid
  - Speed
  - Database Saves
- **UFDC**
  - Converting user controls to classes
  - Convert to .NET 2.0
  - Examination of generated HTML, View State, and css
  - Moving away from item level information in the URL when possible (AJAX)
  - Moving directory checks into the database
  - Threading

**In the future need to review technologies....**

**Paint .NET**

**JPEG2000 viewer in .NET**

**DLMS Change**

**Streaming Bandwidth Use-Cases and Software**
