

Athens:—The cabinet has resigned, the king being unable to support the ministrys policy.

London:—An Athens despatch says that Roumania is despatching troops to the Bulgarian frontier.

Paris:—Intensive artillery action predominates on the French front and indicates preparations for another attack.

Berlin:—German artillery frustrated French attempts to resume the offensive in Champagne with artillery. The French losses were heavy.

October 7th 1915.

Washington, 7th:—Wireless reports indicate a well defined disturbance in the Central Gulf of Mexico. Storm warnings are ordered from Mobile to Cedar Key.

Vienna, 5th:—Tonights general headquarters statement reads: "There is nothing new on the Russian front. The situation on the Southwestern front is without change. The enemy did not renew his attacks of yesterday against the plateau Vilgeruth and Lafraum. On the South-eastern front from Drina frontier our troops made raids on Serbian territory capturing some prisoners. Otherwise nothing of importance has occurred".

Petrograd, 5th:—The following communication from general headquarters was issued tonight: "There have been several engagements on the Riga front. North of Birshallon our troops occupied a portion of the German trenches. The fighting continues along the lines of Lakes Deunmann, Dreswiatty, Medzio and Vichnev.

In the region of Smormeon and further south, as well as on the Upper Niemen in the neighbourhood of the village of Deliatetche, there have been continued skirmishes with the enemy who is endeavouring, but unsuccessfully to advance in an eastern direction.

Berlin, Via London, 5:—The British attack on the German fortifications North of Loos has been repulsed again. The war office announcement is as follows:

"A British hand grenade attack on the fortifications North of Loos was again repulsed. During fruitless attacks on the fortifications the British left more than 80 prisoners as well as two mine throwers in our hands in addition to a very considerable number of killed and injured."

Berlin, 5th:—A section of a trench which had been occupied by the French on the hill North-west of Givenchp was recaptured yesterday. Four machine guns were taken.

Paris, 5:—In view of the near approach of Winter season and the effect it will have on the campaign interest has been aroused by the prediction of Augustin Rey, the naturalist and metrologist, that the Winter will be an exceptionally severe one. M. Rey has communicated to the French government the reasons on which he bases his opinions. He points first to the premature snowfall in the Alps and to the behaviour of vegetations such as the fact that the beeches began to lose their leaves in August, while heather blossoms have concentrated at the base of the stem, which he states is an indication of an early and hard Winter.

"Animals too," says the naturalist mountaineer, "have begun to prepare early for the Winter, and birds have begun migrating in advance of the ordinary season. My conclusions are that the Winter of 1916 by its earliness, length and the low temperature it bring, will resemble the Winter of 1770".

—:o:—

October 8th 1915.

London, 7th.

Governor,

Bahamas.

Official News:—In Champagne the French carried by assault the village and height of Tahure the latter forming point d'appui enemy's second line.

Progress was also made at Navrin Farm with over 1,000 prisoners.

Four enemy counter attacks were repulsed at Artois.

Stubborn enemy attacks on Tahure position collapsed with very heavy losses.

Russia reports progress at various points several villages having been re-captured.

(Signed)

BONAR LAW.
