The republicans in Congress will probably have an early opportunity to show how sincere their recent shouting for the Monroe doctrine has been. HAUNTED KITCHEN.

...light of a Belated Cook and Her Precipitate Flight.

...in the neighborhood of Iowa circle lives a government clerk who has grown gray in the services of his country, and with his gray hairs have gradually crept up in him several ills that flesh is heir to, among others an occasional touch of insomnia. Insomnia breeds irritability, and his irritability had been stirred to its lowest depths by inability to get a satisfactory hired girl, but a month or so ago he was fortunate enough to get a "settled woman," who was pretty near perfection. She was a good cook, staid in nights except when her "s'ciety" met, and in other ways was a model. About once a month the oblong piece of buff colored paper that was slipped under the basement door by the gasman would bring a frown to Mr. ——'s brow, but he would only caution the hired girl to turn down the gas when not using it. A few nights ago a "s'ciety" meeting had called the girl out before she finished washing the dinner dishes, and she hadn't returned when the family retired for the night.

Mr. —— had a protracted interview with his enemy, the sleep killer, the same night and could find no rest. In vain he thought over all his misdeeds and counted 100 backward and forward several times. A MONSTER BOOK.

...gest One in the World in the British Museum.

...Chinese department of the British ...eum library contains, says a ...Cassell's "World of Wonders," ...work which occupies no fewer ...020 volumes. This wonderful ...tion of the Chinese press was ...ased a few years ago for $8,000 ...s one of only a very small number of copies now in existence. It is an encyclopedia of the literature of China, covering a period of 28 centuries—from 1000 B. C. to 1700 A. D.

It owes its origin to the literary proclivities of the Emperor Kang-he, who reigned from 1662 to 1722. In the course of his studies of the ancient literature of his country Kang-he discovered that extensive corruptions had been allowed to creep into modern editions, and he conceived the idea of having the text of the originals reproduced and preserved in an authoritative form. This was a mighty conception truly, and in its execution it remains unique down to the present time. For the purpose of carrying out the work, Kang-he appointed a commission of learned men to select the writings to be reproduced and employed the Jesuit missionaries to cast copper types with which to execute the printing.

The commission was occupied for 40 years in its great task. Before the work was completed Kang-he died, but he had provided that his successor should see the book completed, and he faithfully carried out his trust. The book is arranged in six divisions, each dealing with a particular branch of knowledge. The divisions are thus designated: First, writings relating to the heavens; second, writings relating to the earth; third, writings relating to mankind; fourth, writings relating to inanimate nature; fifth, writings relating to philosophy; sixth, writings relating to political economy.

Hood's Is Wonderful.

No less than wonderful are the cures accomplished by Hood's Sarsaparilla, even after other preparations and physicians' prescriptions have failed. The reason, however, is simple. When the blood is enriched and purified, disease disappears and good health returns, and Hood's Sarsaparilla is the one true blood purifier.

Hood's Pills are prompt and efficient and do not purge, pain or gripe. 25 cents.

"About one year ago I was afflicted with nervousness, sleeplessness, Creeping sensation in my legs, Slight palpitation of my heart, Distracting confusion of the mind, Serious loss or lapse of memory. Weighted down with care and worry. I completely lost appetite And felt my vitality wearing out, I was weak, irritable and tired, My weight was reduced to 160 lbs., In fact I was no good on earth.
A friend brought me Dr. Miles' book, "New and Startling Facts," and I finally decided to try a bottle of Dr. Miles' Restorative Nervine. Before I had taken one bottle I could sleep as well as a 10-yr.-old boy. My appetite returned greatly increased.

When I had taken the sixth bottle My weight increased to 176 lbs., The sensation in my legs was gone; My nerves steadied completely; My memory was fully restored. My brain seemed clearer than ever, I felt as good as any man on earth. Dr. Miles' Restorative Nervine is A great medicine, I assure you." Augusta, Me. WALTER R. BURBANK.

He explains in the preface that, as there never has been a fair or full account of "Pennsilvania," he thinks the curious will be gratified with an ample description. He explains why more has not been heard of it, predicts a thriving future and says he "could say much in praise of that sweet tract of land," but reserves it for the body of the book.

THE STATE.

Orlando's Business League having failed to get the broom factory at Kissimmee removed to Orlando are now going to have a new one established.

Fred A. Newell, for a long time night man at the union ticket office in Chattanooga, will come to West Palm Beach January 1st to take charge of the office there of the East Coast Line.

A large force is at work on the Ocala and Silver Springs Railroad. The first regular train will go over the line in a few days. Most of the grading is finished and a portion of the iron laid on the Ocala end.

The case of F. W. Muecke against the Georgia Southern and Florida Railroad suit for damages, is on trial in Macon, Ga. Muecke claims that some time ago he boarded a Georgia Southern train with a scalper's ticket for Jacksonville, Fla. The conductor refused to recognize the ticket, and Muecke was accordingly forcibly put off the train at the little station of Brooksville, far from his intended destination. He sets up that he spent the night at Brooksville, and that on the next day the railroad recognized his ticket and took him on to Jacksonville. He claims that in thus being detained without cause he was damaged.
