

Foul-Smelling Catarrh.

Catarrh is one of the most obstinate diseases, and hence the most difficult to get rid of.

There is but one way to cure it. The disease is in the blood, and all the sprays, washes and inhaling mixtures in the world can have no permanent effect whatever upon it. Swift's Specific cures Catarrh permanently, for it is the only remedy which can reach the disease and force it from the blood.

Mr. B. P. McAllister, of Harrodsburg, Ky., had Catarrh for years. He writes:

"I could see no improvement whatever, though I was constantly treated with sprays and washes, and different inhaling remedies—in fact, I could feel that each winter I was worse than the year previous. When I first brought my notes to Dr. Swift, he said, 'I have a complete cure was the result. I advise all who have this dreadful disease to abandon their local treatment, which has never done them any good, and take S. S. S., a remedy that can reach the disease and cure it.'

To continue the wrong treatment for Catarrh is to continue to suffer. Swift's Specific is a real blood remedy, and cures obstinate, deep-seated diseases, which other remedies have no effect whatever upon. It promptly cures Catarrh, and never fails to cure even the most aggravated cases.

A Political Indian's Experience.

Editor Times-Herald:

It is a well-known fact that Indians love the forest, and that they do not like the rush and push of the pale faces. The everlasting jam and jogging—you tickle me and I tickle you fashion—do not agree with them, as Wahoo can well attest. He has, at times, attended small gatherings, but has always avoided large ones, when they meet to select candidates. By attending the late state Democratic pow-wow he broke this rule. It was immense. It was simply clothed with all the intellectual power that scheming could invent; all this set off to advantage by a little hot water. Let me tell my experience.

I left my tepee on the morning of the second instant, and boarded a fire-horse at Cow Crossing (Palatka) on (St. Johns) Blackwater, then I changed fire horses for one south-bound. I had not more than got on the new horse before I was politely invited into a rear coach, where I found many chiefs of the Gold Bug and Silver tribes smoking the pipe of peace and partaking of various kinds of liquids and foods. It was said all these chiefs live in one village, as sub-chiefs of two great chiefs named Plant and Flagler. There were two black men, called "niggers," who, with white aprons and caps, stirred the drinks and handed around the eats. Wahoo laughed and laughed, and thought these fellows was just "bully." All along the route some new pale face would get on and the chiefs would just take them in the car. Before we would go far we could hear them whooping with the rest. One stumpy chief got on at a place called Seville. He was so anxious to get in the rear car he could not say "howdy" to us on his way. This chief Wahoo remembers to have run on another memorable occasion, and was surprised to hear him say he was going to fight for a fence in his county for the crackers, and that the people who lived on a strip of land north of his county was in favor of no fence; this strip of land was also called peninsular. At last we got to the place where the great pow-wow was to be held. I should have said that Wahoo was a candidate and was doing his best to keep his best foot forward and his tomahawk sharp and shining for the fray, but like, yet not like, one Caesar, said I came, I saw, but I did not conquer.

Wahoo is used to meditating and reasoning out the result of things, but a big pow-wow of pale faces is beyond his comprehension. They would say one way, act another, and do another. Wahoo felt he was all right when they adjourned for dinner, but when they assembled again he found before the vote was taken he was a goner, and the thunder of the whole matter was he has gone to the expense of buying ten cigars for ten of those talking chiefs, and neither them felt sorry for him or came near him to "wipe his weeping eyes." Then he was one hundred miles away from his tent, a defeated candidate, who had pictured to himself how he would make those chiefs who run fire horses carry everybody to the sea coast and everywhere else for nothing, little money in his pocket, no friends; alas! I'm gone up Salt River!

Blessed am I dat specks noting.

WAUHOO.

How many young men and young women are cut off just as the future seems brightest and fullest of promise! They are taken away by the disease which causes over one-sixth of all the deaths in the world—the disease which doctors call consumption. There is absolutely no reason in the world why consumption should be fatal—why it should be even serious. It is a disease of the blood, and can be cured absolutely and always by purifying and enriching the blood. The only exception to this is the case where the disease has been neglected and improperly treated until it is stronger than the body—until the body has become so weak as to have lost the ability to recuperate. Dr. Pierce's Golden Medical Discovery will cure 98 per cent. of all cases of consumption if used according to directions. It also cures all lingering coughs bronchial and throat affections.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page Common Sense Medical Adviser, illustrated.

Malaria with Malaria Tablets guarantee cure for chills, fever and ague, or money refunded. 50 cents. All druggists.

Legislature of 1899.

Tallahassee Floridian.

The people of Florida are to be congratulated upon the nominations already made of members of the next legislature. The indications are that the two houses which meet in Tallahassee next April will be composed of men representing in unusually large measure the intelligence and true worth of the people of the state. Among them will be some of the most prominent men of the state, whose qualifications and experience insure good service in the legislature.

Senators Broome of Gadsden, Myers of Leon, and Wadsworth of Madison, have been nominated for a third successive term in the senate; Senators Williams of Nassau, and Adams of Hamilton will enter upon their second term, while Senators McLin of Lake, Palmer of Hillsborough, and Reeves of Walton are already members for a second term.

Messrs. McCreary of Alachua, Baker of Sumter, and Harris of Monroe have been promoted from the house to the senate. Among the new members of the senate will be Hon. E. S. Crill of Putnam, Capt. J. Ed. O'Brien of Escambia, C. B. Rogers of Duval, J. S. Denham of Jefferson, and Frank W. Sams of Valusia.

Among the members of the house who have been so-nominated are Baggett of Escambia, and Dyal of Nassau. The house will also have some particularly strong new members in the persons of Judge George P. Raney and Hon. E. M. Hopkins of Leon, Dr. J. C. L'Engle and Hon. Frank Clark of Duval, Hon. W. L. Palmer and J. N. Whitner of Orange, Gen. J. C. Davant of Hernando, Robert McNamee of Lake, W. S. Jordan of Madison, Nat R. Walker of Wakulla, D. R. Cox of Alachua, and Turnbull and Edwards of Jefferson.

Discovered by a Woman.

Another great discovery has been made and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She finally discovered a way to recover by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was much relieved on taking first dose, that she slept all night, and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamblet & Co., Shelby, N. C. Trial bottle free at Ackerman & Stewart's drug store. Regular size 50c and \$1. Every bottle guaranteed.

NO CURE—NO PAY

That is the way all druggists sell GROVE'S TASTELESS CHILL TONIC for Chills and Malaria. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter nauseating tonics. Price, 50c. Jun 31y

OUR COUNTY EDITORS

COMO.

COMO, Aug 2.

[Received too late for last week.]

Diggett Brothers have taken a trip to the coast overland. They will no doubt find plenty of game en route, such as gallinippers, fleas, sandflies, &c., but the boys will have a good time all same.

Will S. Prior and wife have gone to Boston for a visit.

Mr. Watson is still shipping okra, and is making quite a success in gardening. He is a hustler.

W. K. Prior, who has been seriously ill, is much better and will soon be well if he doesn't have a relapse.

Mr. Yeardley has shipped a fine lot of pears to New York, and realized good prices. He can bid defiance to Jack F.

Como has lost one of her best citizens. Mrs. C. R. Tuttle, who has lived here for more than fifteen years, died on the 23d of July, after a brief illness. She was highly respected and beloved, and was well along in years, being over eighty. Rev. C. M. Miller, our pastor, conducted the funeral services, and the remains were buried in the cemetery.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters, and after taking two bottles I was entirely cured. I now take pleasure in recommending them to any person suffering with this terrible malady. I am gratefully yours, M. A. Hegarty, Lexington, Ky." Sold by Ackerman & Stewart, druggists.

INTERLACHEN.

INTERLACHEN, Aug. 3.

From present appearances there will be a very good corn crop despite the long drought.

The frequent showers of the past five or six weeks have made a good fodder crop certain.

It is now certain that a large acreage of tobacco will be put out this fall—much larger than the spring planting. Growers seem to be taking to the new crop.

Mrs. Thomas Dudley is spending the heated term at her mother's home in the Catskill mountains in New York state.

Mr. and Mrs. E. T. Nininger and daughter, Mary, are visiting in Cloverdale, Va., their former home.

Mrs. B. H. Walker has gone to Cedar Keys for a short visit.

Another little girl has been added to the family of Mr. and Mrs. R. L. Wall, junior.

New York parties are purchasing large quantities of cedar logs, said to be for shipment to Germany. The cabbage creek section is supplying the bulk of the shipment.

John Flynn, superintendent of Palatka's cigar factory, has been here visiting friends, and taking a look at some of our high grade tobacco.

An Old Idea.

Every day strengthens the belief of eminent physicians that impure blood is the cause of the majority of our diseases. Twenty-five years ago this theory was used as a basis for the formula of Brown's Iron Bitters. The many remarkable cures effected by this famous old household remedy are sufficient to prove that the theory is correct. Brown's Iron Bitters is sold by all dealers.

Registration Notice.

The registration book for Putnam county will be open in my office at the court house, in Palatka, for the purpose of registration, on the following days each week, Monday, Wednesday, and Friday, from 9 o'clock a. m. to 12 m., and from 2 o'clock p. m. to 5 p. m.

W. P. ANDERSON,

Registration Officer.

This is the first season in tobacco growing for Interlachen, and from the appearance and texture of the crop now being harvested there seems to be no question that the finest grades of Cuba and Sumatra tobacco can be produced here profitably, and another year will probably see a largely increased acreage. Preparations are now being made for a fall crop by several growers.
