

Eczema! The Only Cure.

Eczema is more than a skin disease, and no skin remedies can cure it. The doctors are unable to effect a cure, and their mineral mixtures are damaging to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood diseases.

Eczema broke out on my daughter, and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to two celebrated health springs, but received no benefit. Many patent medicines were taken, but without result, until we decided to try S. S. S., and by the time the first bottle was finished, her head began to heal. A dozen bottles cured her completely and left her skin perfectly smooth. She is now sixteen years old, and has a magnificent growth of hair. Not a sign of the dreadful disease has ever returned.

Don't expect local applications of soaps and salves to cure Eczema. They reach only the surface, while the disease comes from within. Swift's Specific

S.S.S. For The Blood

is the only cure and will reach the most obstinate case. It is far ahead of all similar remedies, because it cures cases which are beyond their reach. S. S. S. is purely vegetable, and is the only blood remedy guaranteed to contain no potash, mercury or other mineral.

The Omaha Exhibition.

After so long a time from home, I have at length reached Omaha. I have spent one day at the exhibition. To those who saw the "Columbian" in '93, it at first seems like a small affair in comparison. But no one expected it would be equal to that stupendous show. The mighty buildings and magnificent distances of course cannot be reached. To show the resources and productions of the trans-Mississippi states it is a grand success. The most striking feature I saw was the immense display of cereals.

The quantities of grain grown in the west may be imagined when single firms, as I have seen my own son and nephew do, buy and sell from day to day in blocks of from 30,000 to 50,000 bushels; and this no hypothesized grain supposed to be in elevators, but the real thing as it comes in in cars from the country buyers.

Iowa, Kansas, Nebraska, Minnesota, and the Dakotas have immense exhibits. One feature of the Nebraska exhibit is a picture made of grain, straw, and corn husks, that covers nearly one side of their space, in which is shown the progress of the state from the wild prairie to the present cultivated and inhabited condition. Its wild state is first shown, then the emigrant coming in with his family in a prairie schooner—a covered wagon, drawn by a yoke of oxen, traveling at the rate of fifteen miles a day. Next is seen the sod house, and the ox team breaking up the prairie sod. Following this, a better house and other farm buildings, with large fields in cultivation. Villages, churches, and school houses follow. A train of cars, grain reapers and threshers, orchards, &c. Last is the family gathered around the Christmas table, in statuary, with roast turkey, all made up and dressed in corn husks and leaves. These views are made up by no bungling hand, but in perspective are as perfect as the paintings and statuary in the fine-art gallery. It seems wonderful, beyond comprehension, what can be done with so common material.

The show in the government building is said to be the best the government has ever made. It is not as large as it was at Chicago, but embraces features more desirable. All the various ranks of military life, with the weapons of war from the earliest days to the present time, are shown. There are perfect models of all our war vessels, each class being represented, all in full armor. A beautiful model of the Maine represents that class, and, from its history, excites more interest than most others.

Since the close of the war, the attendance has largely increased, and it is reported that it exceeds that of Nashville and Atlanta.

The president and a part of his cabinet are expected here in October, when the largest attendance is looked for.

Omaha seems to be a fast growing city, and a very pleasant place to live. We have a nice home here with our son-in-law, N. B. Post, and family. He has three fine boys. Each one conspires to make our stay a happy one. N. W.

Snap Shots at a Graphophone.

The graphophone is to the ear what the photographic camera is to the eye, and more, for the graphophone catches instantly and preserves every tint and shade of sound. A most interesting use of a graphophone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one just as she sang it, and have it reproduced perfectly at any time, and as often as you please. Besides, the graphophone affords wonderful entertainment in the way of re-producing the music of bands, orchestras, or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a graphophone. It is the perfect talking machine. Write for catalogue No. 30, to the Columbia Phonograph Company, 110 E. A Sketch of Captain Husson.

The Sunday edition of the Times-Union and Citizen prints the following: Fifty three years ago Florida was admitted as a state to the Union. Hon. William D. Moseley, of Moseley, Madison county, was elected governor. Today the grandson of Florida's first governor is ready to shed additional luster upon the name from the field of battle. The second daughter of governor Moseley married attorney Husson, of New York city, and William Moseley Husson, captain of Company D, First Florida Volunteer Infantry, was born in that city in 1856. Captain Husson's father was one of the joldest practitioners in the great metropolis, being before the bar for fifty years. He died in 1897. Captain Husson was educated in the private schools of Gotham, and at the Virginia military institute, graduating from the latter in 1878. He came to Florida soon after to manage certain properties owned by his family at Palatka. Here he took up the business of an engineer and architect, and designed a number of the best known buildings erected in Palatka after the great fire. In 1884 he organized the Gem City Guards, of which company he was captain. In 1887 he married a daughter of Dr. Moragne, of Palatka. Since 1880 he has been in the employ of the government at Washington. When war was declared in the spring, the Gem City Guards re-elected him captain of the company, and he resigned his position at the capital to accept. May 12, 1898, the Guards were mustered into the volunteer service as company D, and Captain Husson was placed in command, ranking second among the captains in the regiment. He has been judge of the summary court since it first convened, but is now assisted by Captains Williams and Maxwell.

Discovered by a Woman.

Another great discovery has been made and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She finally discovered a way to recover by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was much relieved on taking first dose, that she slept all night, and with two bottles has been absolutely cured. Her name is Mrs. Luther Lotz." Thus writes W. C. Hancock & Co., Shelby, N. C. Trial bottle free at Ackerman & Stewart's drug store. Regular size 50c and \$1 Every bottle guaranteed.

It is Just as Important

That you enrich and purify your blood in the fall as in the spring. At this time, owing to decaying vegetation, a low water level, and other causes, there are disease germs all about us, and a weak and debilitated system quickly yields to attacks of malaria, fever, etc. By purifying and enriching your blood with Hood's Sarsaparilla you may build up your system to resist these dangers, as well as coughs, colds, pneumonia, and the grip which comes with colder weather. To be on the safe side, take Hood's Sarsaparilla now, and always be sure it is Hood's and not something else represented to be "just as good."

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters, and after taking two bottles I was entirely cured. I now take pleasure in recommending them to any person suffering with this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky." Sold by Ackerman & Stewart, druggists.

Mr. Garrett at Ocala.

Ocala Star.
F. C. Alworth has sold his interest in the postoffice drug store to J. J. Gerig, who has associated with himself Chas. J. Garrett, under the firm name of Garrett & Gerig.

Mr. Garrett comes from Palatka, with the highest recommendations as a practical pharmacist, and a reliable and the rough-going business man. He will give his personal attention to all prescription work, of which the store has always enjoyed a generous share from this section of the state, besides keeping an eye of general supervision over the store's business.

The war articles in the September Scribner's are led by Richard Harding Davis's account of "The Rough-Riders' Fight at Guasimas." There is no information at second hand in this article; Mr. Davis was in the thick of the fight and writes of what he saw. When he crushes, once for all, the story of a surprise, he does it with positive knowledge of the previous orders given and received by Gen. Wheeler and Col. The conversations he had with the men in the fight are vivid bits of dramatic dialogue. The whole article is the fullest as well as the most thrilling account of the Guasimas fight yet published, and will stand as the historical picture of that famous event. The illustrations give many of the best known men in the Rough-Riders, and views of the country over which they fought. There are also drawings from life by the artist H. C. Christy, who was there.
