Migrant smugglers who abandoned a large boat Friday at the isolated Newfoundland Harbor Keys may have stolen a flats boat to make their getaway on Saturday.

One suspect has been arrested in connection with the incident on which 27 Cuban refugees were dropped off at the Newfoundland Harbor Keys, on the southside of Big Pine Key. A search continues for at least one other suspect, federal officials said.

A three-engine, 35-foot
center-console boat with a black hull was abandoned

**STOLED BOAT FOUND ADRIICH**

From Migrants, 1A

"That was not a fun day," said Dunning on Tuesday. It had been a cold, windy day for Dunning and his crew. A3 had found adrift about three miles off the Florida Keys in the Gulf. It had not been seen

"It really was a muddy mess," Dunning said. "Two Heinkens were missing from a cooler." Based on information found at the water's edge near his dock, Dunning speculated that the boat ran aground about one mile from the U.S. and Privateers Island Wildlife Conservation Area. "They could have hit the Little Palm Island resort." The crew of A3 quickly pushed their boat out to sea and used the radio to reach a remote search-and-rescue team.

"They probably left it near Long Bay Drive," Dunning said. "Where they found the boats, they said they'd been here before and the people probably had them out on the water."

"In the past, officers have been asked about going to the Mexican fishing grounds. They're in the area," Dunning said. "I think it's a place to go if you want specialty items, elvers. Hard to find elvers and mussels and interesting fish.

I think it is important to do business with others in the Keys and, of course, the Keys are very far away from anything. We have to look at our best interests. We have to do business with others in the Keys and now we offer the biggest selection of liquor and wines in the Keys. We have to do business with others in the Keys. We have to do business with others in the Keys.

Dunning's business is the only bank that has ever checked on the regular. It's great to have a relationship with them.

I used to visit the Keys regularly and during a trip twenty years ago, I found that we couldn't do business with each other. I decided to set the opportunity pass by so I purchased the property and moved from New York and have been here ever since.

I think it is important to do business with others in the Keys and now we offer the biggest selection of liquor and wines in the Keys. We have to do business with others in the Keys. We have to do business with others in the Keys.

Dunning's business is the only bank that has ever checked on the regular. It's great to have a relationship with them.
LETTERS TO THE EDITOR

Glades cleanup remains stalled

Latest hearing before federal judge doesn’t do much to get the state and EPA moving forward with progress

Empty court docket of progress?

There were two conflicting assessments of what happened last week in U.S. District Court Judge Alan Gold’s Key West courtroom.

On the hot seat facing the judge: The state of Florida, specifically, the Florida Department of Environmental Protection Agency.

On the hot seat facing the state: Its five-year long and contentious case involving Everglades cleanup, which has been stalled on the federal courthouse docket for years.

The Miccosukee Indian Tribe filed the suit in 2004, saying the state and feds weren’t enforcing the Clean Water Act.

Christopher K. Rise, a Tallahasse attorney representing the state’s interests in the case, tried to reassure the judge that we’ve spent our restoration dollars “appropriately.”

That we’ve spent our restoration dollars “appropriately.”

The EPA, in particular, has approved between $6 billion and $7 billion for forward-looking projects.

The EPA, in particular, has approved between $6 billion and $7 billion for forward-looking projects.

Democratic writer Curtis Morgan.

In fact, we cannot have one with-out the other. Economic growth are not mutually exclu-sive. We cannot afford to foster a culture of customer service and regulatory efficiency at the agency, and water management dis-tricts, that are not bound by our standards. It means simply that we need to improve our management, because both environmental protection, economic growth, and community and business expecta-tions are important to Florida’s economic growth.

For example, in the South District, from 1980 to 2000, the EPA and others identified 1012 sites that are Priority Superfund sites.

The Florida Department of Environmental Protection Agency’s environmental protection, economic growth and community expectations.

Shall to lay out city hall proposal

BY SEAN KINNEY

The Key West City Commission is scheduled to hear a proposal to construct a new City Hall on various plans for rebuilding City Hall.

Commissioner Chris Chulip, who has been pushing for the new City Hall for years, said he has met with city staff and members of the enforcement branch and that they are excited about the new proposal. He also mentioned that the new City Hall will be constructed in a way that would allow for future expansion.

Chulip said that the new City Hall will be located on Flagler Avenue because the current City Hall building is too small and does not have enough space for all the city departments.

He also said that the new City Hall will have a larger council chamber and more space for public meetings. The new building will be designed to meet the needs of the city and its residents.

Chulip added that the new City Hall will be constructed with funds from the city's bond program, which will allow the city to pay for the new building in a timely manner.

He concluded by saying that the new City Hall will be a significant improvement for the city and its residents, and that he looks forward to seeing the new building completed soon.

The commission will vote on the proposal during its regular meeting on Monday, February 6th, at 6 p.m. in Old City Hall. The meeting is open to the public and members of the public are encouraged to attend.

In other news, the commission will also hear a report on the city's emergency management plan and discuss the city's budget for the upcoming fiscal year.

The commission will adjourn after the public comment period, and the meeting will conclude at 7 p.m.
Lady Canes enter postseason with three-game winning streak

Paton hits three goals at Coral

BY KEVIN WADLOW

Coral Shores High School's Lady Hurricanes rode a three-game win streak into Thursday’s opening round of the District 16-1A soccer tournament, being played at Miami’s Carrollton.

Coral Shores (12-3-2) held the No. 2 seat in the Sanderson district soccer ratings, behind Marathon (14-0-5), and has won its three recent matches by a combined score of 17-2.

The Lady Canes, coached by Terry Blose, will take on the sixth-seeded Sabres from Westminster Christian School School for the opening round. Westminster is 12-5-2 and has won its last three games, scoring 14 goals in the process.

“I think we need a win here to keep going,” Blose said. “The first goal is to get through this round and then we’ll see where we go from there.”

Westminster is coming off a 1-1 tie in Thursday’s district semifinal with a strong Sanderson team at Sanderson High School. The Lady Canes, who are ranked No. 7 in the Sanderson district ratings, scored twice in each half but a goal by Westminster’s Victoria Gaglione with 19 seconds left in overtime cost the Lady Canes a district title.

Blose said Westminster was a well-coached, well-played team, but the Canes plan to put together an even better effort against the Sabres.

“Westminster has a strong team and we got our hands full with them,” Blose said. “We’ll be ready for this one.”

Wednesday’s playoff game is set for 7 p.m. at Carrollton and the winner moves on to Friday’s semifinal round.

Coral Shores soccer seniors (from left) Jasmine Paterson, Camen Lopez and Jennev DOJ are recognized after they finished their home final game for the Lady Hurricanes. The 12-3-2 team enters postseason play this week.

FISHING THE FLORIDA KEYS

Sails, dolphin still near the reef

Spanish macks and yellowtail also

• The Gulf Stream is still holding in close to the reef edge.
• It’s butted up against the reef, creating a distinct color and water temperature change.
• There have also been quite a few Spanish macks mACKED mixed with the yellowtail, as well as some very nice, very fat mackerel stopping on the mutton snapper- or yellowtail slick. Drift a bait line in the reef, or put a hook back in the dock which is another great tactic to pick up a few fish.
• The Conchs, who had 18 points, Butler scored four by Lopez, who had 18 points. Butler scored four by Lopez, who had 18 points. Butler scored four by Lopez, who had 18 points. Butler scored four by Lopez, who had 18 points.
• Paterson said: “We controlled the game and had all the momentum of the game the whole second half after falling behind in the first half”

3B MARATHON SOCCER

Lady Dolphins open district today

12-9 squad plays rival Westminster

BY RYAN MCCARTHY

The Marathon High School girls soccer team struggled offensively Thursday afternoon, but overcame a 2-0 deficit to earn a 3-2 win over rival Westminster Christian School.

The Dolphins played Ransom Everglades to a scoreless tie on the ball at the half, but the Raiders netted three second-half goals in a 3-1 decisive win.

“We were missing a couple players and that hurts us,” coach Ken McKee said. “We need 13-14 to do it to improve to 10-11 with the same left in the regular season.

What seemed to be an easy District 16-1A victory turned out to be a true must-win battle.

Early in the second quarter, the Dolphins played in an usual strong game and were held to two goals. But Westminster made it to the quarter, and the Lady Dolphins were held to two goals.

But the Conchs, who are the only team to beat the Lady Dolphins in three goals, made it 3-2.

Two goals in the final minutes, including one with 14 seconds left in extra time, sent the game into overtime.

Sanderson noted.

“Two goals in the final minutes, including one with 14 seconds left in overtime, sent the game into overtime.”

The Lady Dolphins are the No. 1 seed and will face either Westminster or Point Pleasant in Friday’s semifinal round, which will begin at 7 p.m. at Carrollton.

In the bay waters, the dolphin just love.

Creating a distinct color and water temperature change, hopefully the mangrove remains consistent and, around the channel humps will be the best place to fish. Large porgy, some Florida Keys Keynoter Art Wolfe

Chris Johnson (Feb. 1) and North Bay’s Casey Grasso had been a good deal the Past 11 days, 24 hours. We hid away in Marathon (Feb. 1) and Marathon into the reef, and get back in the water temp moves with the wind direction.

Also, there are still some large Spanish macks mACKED, plenty of yellowtail, lots of dolphin, pompano and even some Spanish macks mACKED mixed with the Spanish macks mACKED.

There’s also a strong king mACKED mACKED mixed with the Spanish macks mACKED.

Also, there are still some large Spanish macks mACKED, plenty of yellowtail, lots of dolphin, pompano and even some Spanish macks mACKED mixed with the Spanish macks mACKED.

Key West Conchs dropped their regular-season finale

Squad opens postseason on Monday

By DICK WAGNER

Keeper Contributor

The Key West High boys soccer team, which hadn’t made it past a month, had long looked forward to Friday night’s game against undefeated American Heritage Plantation. Coach Rob Eggers had said the Conchs would try to knock the world off Friday at 7:30 in its final regular-season game before a small bundled-up crowd at Tommy Robinson Municipal Stadium.

But the coach’s thinking approach didn’t follow through, Eggers said. “It didn’t go as I had visualized.”

The Conchs — playing in new uniforms debuting by the 1947 Princeton University football team, of which Eggers’ father was a member — looked energized early in the game and ended up with a 2-0 win.

Some great defending against skilled defenders, but it did surprise me,” Eggers said.

Heritage, which won 16-2 and 8-0 in District 16-3A, was as expected, “It was like a soccer-instruction video,” Eggers said. “We did pass the ball crisply and anticipate where other players are going.”

The Conchs (6-1, 2-0) are in a first-round game Monday in the district tournament at Heritage. Eggers said the team probably would be seeded second.

Anglers (from left) John Murphy and Larry Smorgala fished with captains Bucky Platt, R.J. Meyer and Ethan Wallace on the Silent Hunter boats over the weekend and landed this nice catch of a dozen cohos.

The crew of the Capt. Spider’s Casting contest from Schonk each added a goal. Seniors Devin Mitchell and Lauren Schoneck each added a goal.

Miniatures. We had excellent action in Hawk Channel and on the reef and then some large amberjack on the deep drop to give the ladies a big fight. Great meals from plenty of good-eating fish.

The crew of the Catch-Em-All Charters fishing families and groups were plentiful on the weekend, as well as Ohio, Michigan and Minnesota. We had excellent action in Hawk Channel and on the reef and then some large amberjack on the deep drop to give the ladies a big fight. Great meals from plenty of good-eating fish.

Mike Allen and Dan Kent, from Kent Island, Md., fished with Capt. Kevin Wilson of Kicker Deep Charters out of Gogey Key Marinas. They filled the ram and made it back to the dock with a lots of legal-size wrack.

Casting contest Capt. Spalders Casting contest takes place Thursday at Salty’s Waterfront Grill, located at the 7 Mile Marina, marina East 45th by 45th in Marathon.

The Winnetka team breezed to a 58-0 victory over the larger kings are beginning to show up. Amberjack offshore last week. Catch-Em-All Charters

Marathon postseason starts Monday

Marathon High School's boys basketball team is looking to make a strong statement in the upcoming district tournament. The Eagles, ranked 3rd in the district, are set to face the No. 7 team in their opening game of the District 16-A Tournament. Marathon coach Jorge Bosque is confident in his team's ability to take down their opponents.

"This was a big improvement from the first time we played them," Bosque said. "But the strategy is to keep working on our game for the tournament." He is focusing on sharpening his team's intensity and focus, with an eye on the future.

"I think they'll be surprised," Bosque said. "Girls are getting better and better. I think they'll be surprised with the performance of a starting lineup right out of the gate to get younger players a chance to play throughout the season.

"We wanted to give our younger players a chance right away. I was happy with the experience of a starting lineup against Coral Shores' opening game Saturday.

"Next week is going to be a tough district tournament, and we'll be trying to sharpen our game for the tournament." Bosque is looking forward to Monday's game and is confident in his team's ability to perform.

"The Canes packed the district tournament and kept Gulliver's offense in check. We are trying to keep Gulliver's defense in check and to break the deadlock with a little intensity in the second half," Bosque said. "With the Canes moving to answer that, you'll see even more scoring opportunities for the talented Raider squad.

Lady Eagles stop on road

Coral Shores High School's Lady Eagles travel to Key West High School for their District 16-A Tournament game against the No. 7 team. The Lady Eagles are looking to make a strong statement in their opening game of the tournament.

"This was a very good performance," coach Kevin Freeman said. "It was our first game for the tournament, and the players' focus was good. We played well and were always a calm and reliable force on the court. The Lady Eagles are looking to make a strong statement in the upcoming tournament.

"We played well in both games against Marathon and Princeton. We are looking to build on our success and make a strong statement in the tournament." Freeman is confident in his team's ability to perform and is looking forward to the upcoming games.

The Lady Eagles are scheduled to play Marathon on Monday and Princeton on Tuesday. They are looking to make a strong statement in their opening games and are confident in their ability to perform.

Coral Shores High School's Lady Eagles (25-14) come out to challenge Gulliver Prep in the Harnazone 40-30 blowout in the district tournament. The Lady Eagles are looking to make a strong statement in their opening game of the tournament.

"This was a very good game for both teams, and the Lady Eagles performed well," coach Kevin Freeman said.

"We are always a calm and reliable force on the court, and the Lady Eagles are looking to build on our success and make a strong statement in the tournament." Freeman is confident in his team's ability to perform and is looking forward to the upcoming games.

The Lady Eagles are scheduled to play Marathon on Monday and Princeton on Tuesday. They are looking to make a strong statement in their opening games and are confident in their ability to perform.
The Board of Directors of Florida Keys Electric Cooperative Association, Inc. (FKEC) has set the following dates for the District Elections for two positions on the Board of Directors:

**District 1**
- Key Largo area northeast of the section line common to Sections 3, 7, 11, and 15, Township 62 South, 33°20’41” North, 88°13’45” West, and the waters of Upper Key Largo.
- Effective April 1, 2022

**District 2**
- Tavernier area southeast of the section line as established by Order of the Board of Directors.
- Effective March 13, 2022

**EXHIBIT A**

A copy of the FKEC bylaws may be obtained from the FKEC Headquarters, “Lobby.”

**NOTICE OF ELECTION OF TWO DIRECTORS**

**District 1**
- Key Largo area northeast of the section line common to Sections 3, 7, 11, and 15, Township 62 South, 33°20’41” North, 88°13’45” West, and the waters of Upper Key Largo.
- Effective April 1, 2022

**District 2**
- Tavernier area southeast of the section line established by Order of the Board of Directors.
- Effective March 13, 2022

Elections will be held on the above dates between the hours of 7:00 a.m. and 7:00 p.m. in each district. Polling locations for the District 1 election are at the Key Largo Tavernier Library at 299 Knickerbocker Street, Key Largo, Key Largo Village Hall at 100200 Avenue of the Arts, and the Ocean Reef Academy. The polling location for the District 2 election is at the FKEC Headquarters “Lobby.”

Elections will be held on the above dates between the hours of 7:00 a.m. and 7:00 p.m. in each district. The polling location for the District 2 election is at the FKEC Headquarters “Lobby.”

Directors elected at the district elections shall serve for a period of three years, and will take office at the regular or special meeting after the Annual Membership Meeting to be held on Saturday, April 2, 2012.

Members interested in becoming candidates and placing their names in nomination for membership on the Board of Directors are hereby notified of the qualifications and election procedure prescribed by the Bylaws of Florida Keys Electric Cooperative Association, Inc.

A candidate for director must be a member of FKEC and bona fide resident of the district for at least one year preceding the date of the election.

Candidates must submit a nominating petition with fifteen (15) or more signatures of members residing in the district for no less than thirty (30) days prior to the date of the district elections specified above. Petitions for districts 1 must be received by FKEC no later than Monday, March 12, 2012, and for districts 2 must be received by FKEC no later than Monday, March 12, 2012. (Please allow time for certification of signatures before the election.)

The election will be decided by written vote, with each district voting proportionately to the total number of votes cast.

All candidates must be notified of their election status within ten (10) days after the election. If a candidate is not notified of his election status, he may be re-nominated at the annual meeting of the members of the association.

**BRIDGES**

Bicycle rides unite unlike sundays

A new Marathon-based group called the Companions has formed a monthly mission. Now the group is looking for some exercise. The club, 8 to 10 miles each Sunday, with socializing afterward, features Candy Kelner at 292-2112 to sign up.

Free spa, neuter clinic on Sunday

Cutting for Cats, the Spa for Cats and Dog Rescue, and the Key West Humane Society have teamed up to provide a spa and neuter-neuter on Sunday. The spaying and neutering at the veterinarian hospital, marker 8.5, will cost $55. For more information, call Margie Schwartz at the Cat's Care at 664-5557.

Expert on orchids

Diving museum

Wendy Long, executive director of the Florida Keys Treasures Museum, will discuss the technology and techniques developed specifically for the creation of the Key West Extension of the Florida East Coast Railroad and the resur- prout of hard-hat divers in the Keys.

The museum is at mile marker 85. Hours: Saturday and Sunday. For more information, call 664-0973.

**LIVING BRIEFS**

**1202.**

On Monday, Feb. 13, from 9:30 to 11 a.m., the Habitat for Humanity of Florida Keys Rededication of hard-hat divers will be the topic of a free lecture series. All classes are free and open to the public. For more information, call 850-569-5001.

**Expert on orchids**

**Diving museum**

Museum in Islamorada continues its Immersion of Waters concerts tonight at 7 p.m. with a free program, “The History of Diving,” presented by Thomas Benecke, the manager of the Florida Keys National Marine Sanctuary.
