### GTMO Prepares for New School Year

**MC2(SW/AW) Justin Alles**  
*Gazette Editor*

**T**he Department of Defense Activity (DoDEA) W.T. Sampson elementary and high schools at Naval Station (NS) Guantanamo Bay, Cuba start the new school year, Aug. 29.

The start of the new school year is an important time for the GTMO community because many of NS Guantanamo Bay's residents have school-age dependents.

"Each classroom teacher has posted specifics with regard to school supplies", said Sonja Rodriguez, school principal. "School supply lists can be found at the NEX in the school supply section, as well as on our school's website, [www.am.dodea.edu/cubaweb](http://www.am.dodea.edu/cubaweb)."

Rodriguez said there are key elements parents must remember when registering their children for classes.

"All documentation, such as DoD orders, contractual employment agreements, birth certificates, shot records, etc. must be submitted to the school's registrar in order to finalize registration," said Rodriguez.

Rodriguez said keeping families informed of school functions is a top priority for the administration.

"From time to time, district and area professional development opportunities are presented, said Rodriguez. "The school calendar on our website is updated regularly and our school community will be notified for early release and staff development days, holidays, and end-of-quarter teacher work days."

Parents and students enrolled in grades 6-12, New Student Orientation is Friday, 26 Aug. at 10 a.m. at the secondary campus library.

Parents and students enrolled in Sure Start through grade 5, New Student Orientation is Friday, 26 Aug. at 3 p.m. at the elementary campus library.

The Welcome Back-to-School Social will follow the elementary meeting. The entire school community is invited to join in celebrating the beginning of the school year.

## Green Vehicles Hit the Streets of GTMO

Story and photo by MC2(SW/AW) Justin Alles

*Gazette Editor*

**T**he Naval Station (NS) Guantanamo Bay, Cuba's Public Works Department issued 16 Vantage model electric/solar vehicles on island recently.

The 'green' vehicles, which are designed to reduce fuel emis-

sions and fuel costs, were issued in support of Secretary of the Navy Ray Mabus' initiatives to reduce energy demand and increase alternative and renewable energy supply.

"There is an estimated annual fuel savings and emissions reduction that the base will enjoy because of these vehicles," said Debra Scott, Guantanamo Bay Base Support Vehicle Equipment Manager. "Our office should be able to measure the positive effects of these vehicles in the coming months."

Scott said plans are in the works to provide NS Guantanamo Bay with more of the electric/solar powered vehicles.

"By 2014, GTMO should receive approximately 109 'green' vehicles," said Scott. "Currently, NS Guantanamo Bay Housing, Bachelors Quarters, Public Works, Port Operations, Weapons, and Security departments are using of the electric/solar vehicles."

The Vantage solar model vehicles utilize solar panels to charge the battery, which in turn powers an electric motor rather than a traditional gasoline engine. This design creates less pollution than gasoline-powered cars, creating an environmentally friendly alternative to standard vehicles.

"In most conditions, you can drive over 35 miles on a full charge," said Scott. "The vehicle's level of distance can be affected by different driving factors, but the full range of benefits provided from these vehicles makes them a great 'green' alternative."

## Navy Ball Committee, CPO Selectees Sponsor Car Wash

Story and photos by MC2(SW/AW) Justin Ailes

Gazette Editor

Naval Station (NS) Guantanamo Bay's Navy Ball committee and Chief Petty Officer selectees provided the community with a car wash fundraiser, Aug. 13.

The fundraiser was located at the downtown lyceum carwash to raise donations for each organization, and provide community members with clean vehicles.

"All of the money to pay for GTMO's Navy Ball is gathered through fundraising," said Legalman 2nd class David Forrest, Navy Ball committee secretary. "It means a lot to get support from the community."

Forrest said approximately 100 vehicles were cleaned during the day's event, and over \$600 was raised to be shared between the two committees.

"For the selectees, events like this build camaraderie," said Chief Petty Officer Robert Pagtakhan, Navy ball president. "It builds mentorship for junior personnel, and overall helps our selectees become better leaders."

The 2011 Navy Ball is scheduled for Oct. 15 at NS Guantanamo Windjammer Ballroom, and the CPO selectees are scheduled to be presented their anchors Sept. 16.

Forrest said the Navy Ball committee is planning on hosting more fund-raising events prior to the celebration.

"Because the GTMO community has been so supportive, we will be able to present a great Navy Ball," said Forrest.

CULINARY SPECIALIST 2ND CLASS

### Jason Thompson

■ **Job/department:** Gold Hill Galley Quality Assurance

■ **Age:** 23

■ **Hometown:** Miami, Fl.

■ **Quote:** "I strive for perfection so that if I don't reach it, at least I've achieved excellence."

■ **Sailor of the Week because:** Outstanding supervisory role in the recent transfer of food for emergency maintenance. Instrumental in the addition of a sports bar to the galley.

## MWR Hosts 5K Fun Run

Story by MC2(SW/AW) Justin Ailes

Gazette Editor

The Morale Welfare and Recreation (MWR) Navy Fitness Department, sponsored "The Good Run with Radio GTMO; Running in Fidel's Backyard," at Naval Station Guantanamo Bay, Cuba, Aug. 13.

The 5-K fun-run, which began at Denich Gym, was presented as part of an MWR route-submission contest to promote health, fitness, and morale in the GTMO community.

"I think it's important for the community to have opportunities like this to stay active," said Mass Communication Specialist Seaman Joe Koerber, contest co-winner. "To be part of the contest and be somewhat responsible for bringing residents together to build camaraderie is a huge honor for me."

MWR accepted contest route submissions throughout July, before combining two submissions into one event.

"I think experiences like these get people out and help them meet their neighbors," said Kristen Good, contest co-winner. "I think people enjoy having different options when looking to stay fit, and it's great to be a part of that."

At the conclusion of the run, an awards ceremony was held as participants received t-shirts and water bottles, as well as recognition for best run-time per age group.

"Organized races are great events. It motivates you and gives you something to train for," said Nicholas Hamlin, overall run winner. "This run reminds me of home. It's a reminder of something you can do outside of work and it was a great morale boost."

## REGULATION DID-YA-KNOW

The extensive scope of diving operations requires all divers to be thoroughly trained in all aspects of basic diving knowledge and skills. No two diving jobs are exactly alike and the solution to an encountered problem is most often contingent on the conditions of the environment. Every diver should also be trained in new equipment and techniques in order to utilize this combined knowledge to meet the challenges of all diving evolutions.

## CNRSE Holds Change of Command Ceremony

Story and photo by MC2(SW) Greg Johnson

Navy Region Southeast Public Affairs

Commander, Navy Region Southeast held a change of command ceremony aboard Naval Air Station Jacksonville (NAS JAX), Aug. 18.

During the ceremony, Capt. John C. "Jack" Scorby Jr. relieved Rear Adm. Townsend G. "Tim" Alexander as the region's commander. "It's absolutely wonderful to be back in Jacksonville," said Scorby, who previously served as commanding officer at NAS JAX. "It's an absolute honor and a privilege to be able to serve as the commander of Navy Region Southeast. We have an extraordinarily outstanding staff here that I am proud to work with."

Scorby, a 1981 graduate of the State University of New York at Cortland, was commissioned an ensign after completing Aviation Officer Candidate School in March 1983.

He holds a Master of Science in financial management from the Naval Postgraduate School, a Master of Arts in national security and strategic studies from the College of Command and Staff, U.S. Naval War College, and a Master of Arts in national resource strategy from the Industrial College of the Armed Forces.

Scorby has been selected for rear admiral and comes to CNRSE from his current position as executive assistant to the Assistant Secretary of the Navy for Energy, Installations and Environment, a position he has held since May 2010.

Alexander has commanded CNRSE since January 2009. Under his leadership, installations throughout the region made significant reductions in energy costs through the development of the CNRSE Energy Strategy and the establishment of the Regional Energy Council. As a result, the region will save an estimated \$4.2 million with 38 new energy projects during fiscal year 2012 and will generate an estimated \$58 million in new energy projects during fiscal year 2013.

"It has been an honor and a privilege to serve with the men and women, military and civilians, who are the Southeast Region," said Alexander. "I will miss their dedication, professionalism and friendship."

Alexander, who was awarded the Legion of Merit during the ceremony, will assume command of Commander, Navy Region Mid Atlantic, Norfolk, Va., in September.

## Chaplain's Corner

### God's Peace is the Antidote to Quicksand

Lt. Douglas Holmes

NS Guantanamo Bay, Cuba, deputy command chaplain

Do you ever feel like your life is always in turmoil? Do you feel like at times the more you try and dig yourself out, the deeper you get in? In the Scriptures there is this verse in Isaiah 26 about having perfect peace in life. It says, "You (that is God) will keep him in perfect peace, whose mind is stayed on You, because he trusts You. How does one have true peace in this world of chaos and war, of economic depression and recession, of political wrangling and haggling, of starvation and personal loss? Well it starts with having hope beyond what is currently seen, hope in something that gives more to your life than just the day to day drear and fear of being found out or being put out. In Mathew 7 there is a parable about two people who built their houses on different foundations. One built on sand and the other a rock. When the storm came up the one built on sand fell and the one who built on the rock remained strong. Truly if you build your life on a firm foundation you will be able to weather whatever storm comes your way. You will have peace even as the clutches of quicksand are upon you. Isaiah 26:4 says "Trust in the LORD forever, for in the LORD God is an everlasting rock."

## Missoula Children's Thatre

# PIED PIPER

Story and photos by MC2(SW/AW) Justin Alles

Source: K2TV

**D**epartment of Defense Activity (DoDEA) school, W.T. Sampson Elementary, hosted the Missoula Children's Theatre production of the "Pied Piper" at Naval Station Guantanamo Bay, Cuba, Aug. 12.

The production, which cast 45 of the community's youth, was offered to provide an opportunity for students to learn about theater.

"We offered theatrical enrichment workshops throughout the week, covering a range of subjects for kids of all ages such as theatrical make-up, the basics of a play, and mime," said Alea Figueroa, Missoula tour director.

The Missoula Children's Theatre is the largest touring children's theatre in the world.

"We travel to all fifty states and seventeen different countries, and we work with sixty-five thousand children every year," said Figueroa.

The students auditioned for roles Aug. 8, and began practicing for the performance.

"We cast the children in a musical production on Monday, and by the end of the week they perform in one of our many touring shows," said Figueroa. "While the children learn skills specific to the theatre and how a full-length musical is produced, we are also teaching them valuable tools they can use in all aspects of their lives, such as teamwork, confidence, problem solving, and respect for one another."

The "Pied Piper" production depicted the fairy tale of a rat-catching piper, hired by the town to lure vermin away with his magic pipe. When the citizens refuse to pay for this service, he retaliates by turning his magic on their children, leading them away as he had the rats.

Missoula's mission is the development of life skills in children through participation in the performing arts. The children learn skills specific to the theatre and how a full-length musical is produced.

"About a third of our tour shows are produced on military bases, and this is something the Missoula Children's Theatre takes great pride in," said Figueroa. "We are so appreciative of all that our serving men and women give to us, and we delight in being able to give back to them and their families."

- 1 large eraser
- 1 package of pencil top erasers

### Ms. Rinehart

- Ruler
- Pen, Pencils
- 1 Binder, spiral notebook, or folder
- Snorkel Vest
- Snorkel gear

# Comedy Tour Brings Positive Message

Photos and story by MC2(SW/AW) Justin Ailes

Gazette Editor

The Fleet and Family Support Center (FFSC) on Naval Station Guantanamo Bay, Cuba, hosted comedian Bernie McGrenahan's "Happy Hour, Comedy with a Message" tour at the Windjammer Ballroom, Aug. 17.

McGrenahan presented his comedy show to the GTMO community in an effort to raise awareness about the prevention of alcohol abuse, drug abuse and sexual assault.

McGrenahan, a native of New York and a 22 year veteran of professional comedy, has touted "Happy Hour" over college campuses and military bases for over 15 years. The tour showcases McGrenahan's testimony on the harmful effects substance abuse had on his life.

"Happy Hour" focuses on my personal experiences with drugs and alcohol, how I negatively dealt with stress, and eventually overcame those obstacles to go on and do something positive and supportive for others," said McGrenahan. "I hope to relate my story to any service member that may be going through some of the same things and offer a different outlook on life."

McGrenahan, who lost his brother to alcohol-related suicide, promoted FFSC's and military Chaplain's as positive resources for dealing with negative behavior.

"I hope that I can connect with a service member out there that is dealing with these issues and give them sources for support," said McGrenahan. "I want to make people laugh, but also provide inspiration with a heartfelt story."

McGrenahan said seeking help for substance abuse problems is a sign of courage and the military is focused on saving careers and lives.

"This show is a powerful hour. It starts with comedy, but once I have your attention with laughter, I provide positive feedback and solutions on how to deal with problems you may be facing," said McGrenahan.

McGrenahan said he tries to give the audience something more than laughter.

"At the end of the show, I want service members to feel like this wasn't a normal PowerPoint training," McGrenahan said. "My goal is to not only make you laugh, but also to make you think."
