NAS Whiting Field Celebrates 26th Year as a Tree City USA

By *Jamie Link, NAS Whiting Field Public Affairs Officer*

Naval Air Station Whiting Field celebrated their 26th consecutive year for a Tree City USA National Arbor Day Foundation certification. The designation recognizes a community's dedication to conservation and urban renewal. This is the Arbor Day Foundation's 42nd anniversary of the start of the program.

NAS Whiting Field planted a Live Oak tree in the front of the Child Development Center to recognize the completion of the annual certification requirements Monday Dec 4.

"We mark our commitment to a healthy sustainable environment with our youngest members of the Whiting community. May the planting of this Live Oak remind people to stay in touch with nature" Natural Resource Manager Christina Malitz said. "This tree will continue to serve as a symbol of NAS Whiting Field's commitment to a healthy environment."

The Arbor Day Foundation presented a banner to the command to recognize the achievement which was unfurled during the event. NAS Whiting Field Com-

Nimitz Carrier Strike Group Returns to Washington After Deployment

By Mass Communication Specialist 3rd Class Cole Schroeder

BREMERTON, Wash. (NNS) -- Washington-based ships assigned to Nimitz Carrier Strike Group (CSG) 11 returned Dec. 10, just in time for the upcoming holidays following a six-month deployment to the Indo-Asia-Pacific region and the Arabian Gulf.

The aircraft carrier USS Nimitz (CVN 68), with embarked CSG-11, returned home to Naval Base Kitsap, and Arleigh Burke-class guided-missile destroyers USS Shoup (DDG 86) and USS Kidd (DDG 100) returned to Naval Station Everett.

The strike group consists of Nimitz-class aircraft carrier USS Nimitz (CVN 68), Carrier Air Wing (CVW) 11, Destroyer Squadron (DESRON) 9, and Ticonderoga-class guided-missile cruisers USS Princeton (CG 59) and USS Lake Erie (CG 70). The air wing and DESRON command staff disembarked in San Diego Dec. 5, along with Arleigh Burke-class guided-missile destroyer USS Howard (DDG 83). Princeton returned to San Diego Dec. 6, and USS Pinckney (DDG 91) and Lake Erie returned to their homeport of San Diego Dec. 10.

CVW-11 consists of Lemoore, California-based Strike Fighter Squadron (VFA) 147, VFA-154, VFA-

The Navy JAG Corps Turns 50

By Navy Judge Advocate General Corps Public Affairs

WASHINGTON (NNS) -- The Navy Judge Advocate General's (JAG) Corps celebrates 50 years of service and excellence Dec. 8.

"From the time the Navy created the 'law specialist' program, to the JAG Corps we know today, the Navy's legal team has made a difference every day - providing steady counsel and advice to keep us from running aground ethically and on the right course always," said Secretary of the Navy Richard V. Spencer.

The JAG Corps hosted a commemorative event Dec. 7, at the U.S. Navy Museum in Washington, D.C. Retired and active-duty judge advocates, as well as other local colleagues, enjoyed remarks from community leaders before cutting a cake to mark the historic anniversary.

"The Navy JAG Corps is a profession with purpose. Every day, around the world, - *Cont. on Page 4*

Judge Advocate General Vice Adm. James Crawford, left, cuts a cake with Lt. Taylor Onik during a celebration of 50 years of Judge Advocate General (JAG) Corps service and excellence. The JAG Corps hosted a commemorative event on Dec. 7 at the U.S. Navy Museum in Washington, D.C. U.S. Navy photo by Natalie Morehouse.

Navy JAG Corps -Cont. from page 3

judge advocates are contributing to the Navy mission, shouldering a weighty responsibility with honor and humility," said Vice Adm. James W. Crawford III, who currently serves as the Navy's 43rd JAG. "I am proud to have worked alongside so many dedicated, talented professionals, both past and present."

On Dec. 8, 1967, President Lyndon B. Johnson signed legislation that formally created the JAG Corps of the Navy. It established active-duty lawyers as a distinct professional group - naval officers focused on the delivery of a wide range of legal services.

Since its inception, the JAG Corps has grown and evolved to meet the demands of an ever-changing world. From the establishment of Naval Legal Service Command (NLSC), to the creation of the Victims' Legal Counsel Program, to the expansion of operational law, the JAG Corps has been ready to respond to emerging issues. Today, the mission of the JAG Corps is to provide commanders, Sailors and Navy families with targeted legal solutions that enable effective naval and joint operations.

"The rich history of the JAG Corps is a source of great pride for all of us," said Rear Adm. John G. Hannink, deputy JAG and NLSC commander. "Our current judge advocates are making their own mark on our legacy and the future of the JAG Corps has never been brighter."

"We do not work alone," he added. "Judge advocates practice alongside enlisted personnel and civilians in order to support the worldwide fleet. We share this milestone with all of them."

Today's JAG Corps includes more than 1,300 accomplished Reserve and active-duty judge advocates practicing in many disciplines, including international law, military justice, administrative law, admiralty and maritime law, environmental law, legal assistance, information operations and intelligence law.

The JAG community's identity statement - dedicated to service, committed to excellence - illustrates the strong work ethic shared by judge advocates and their colleagues, as well as the high standards to which they adhere in their daily work. 🏠

Energy and Water Conservation Upgrades to Save Over \$500,000 annual at NAS Whiting Field

By Sue Brink, NAVFAC Southeast Public Affairs

JACKSONVILLE, Fla. – Naval Facilities Engineering Command (NAVFAC) Southeast, in partnership with Gulf Power and Siemens, recently completed a \$9.8 million Utility Energy Savings Contract (UESC) at Naval Air Station (NAS) Whiting Field in Milton, Florida.

The 13-month project focused on the installation of energy and water conservation upgrades in 58 facilities across the installation.

"I'm proud of the innovation and vision of the NAS Whiting Field and NAVFAC teams on this project," said NAS Whiting Field Commanding Officer Capt. Todd Bahlau. "Their efforts will reduce our base energy footprint for decades to come, directly in line with the Navy's goals for energy conservation, independence and resilience."

One of the highlights of the project was the creation of a new 'virtual' chiller plant. The virtual chiller plant cross-connects the existing chillers in three adjacent facilities that house the installation's advanced avia-

tion simulators. The design consolidates multiple HVAC components, adding system redundancy while increasing energy efficiency. Excess heat is transported to a heat rejection chiller that recovers the energy and uses it to supplement the buildings' heating and de-humidification systems.

"The virtual chiller plant is one of the more ingenious energy conservation measures developed during this project," said NAS Whiting Field Installation Energy Manager Jason Poe. "It will reduce the energy use of the combined plants by 34 percent, or \$66,000 per year."

The UESC project scope included more than 10,000 LED light fixtures, high efficiency HVAC equipment upgrades, low flow water fixtures, transformer replacements and significant modernizations to the building control systems in multiple facilities. The project also aligned with the Navy's new cybersecurity and energy resilience requirements.

"We've already observed - *Cont. on Page 7*

Nimitz Carrier Strike Group -Cont. from page 3

than 78,000 miles during the deployment (equivalent to approximately five times around the world), flew over 1,000 combat sorties into Iraq and Syria, and dropped over 900 pieces of ordnance. The strike group conducted training and operations with the French Marine Nationale, Indian Navy, the Japan Maritime Self-Defense Force, Republic of Korea Navy, Royal Australian Navy, the United Kingdom's Royal Navy and Royal New Zealand Navy. These included Exercise Malabar 2017 in the Indian Ocean, Intrepid Sentinel in the Gulf of Oman and landmark Three-Carrier Strike Force Operations in the Western Pacific. In addition, the strike group conducted visit, board, search and seizure drills, close-in coordinated maneuvers, flag hoisting drills, sea surveillance, replenishments-at-sea, maritime patrol and reconnaissance, explosive ordnance disposal operations, and air, surface and anti-submarine warfare training.

"I am very proud of the entire strike group and all that our Sailors and Marines accomplished during this deployment," said Rear Adm. Gregory Harris, commander, Nimitz Strike Group. "The team demonstrated the professionalism, strength and resolve of the U.S. Navy around the world. They battled through the intense heat of the

Arabian Gulf to conduct operations in support of Operation Inherent Resolve, and now it's time for all of us to get back and enjoy some well-deserved family time."

Over the six-month span, the strike group conducted port visits in Pearl Harbor, Hawaii; Colombo, Sri Lanka; Chennai, India; Manama, Bahrain; Abu Dhabi, United Arab Emirates; Dubai, United Arab Emirates; Hamad, Qatar; Duqm, Oman; Pattaya, Thailand; and Sasebo, Japan. Sailors participated in numerous volunteer events, including interacting with children at schools, visiting patients at hospitals and socializing with animals at shelters. Pinckney Sailors also participated in the Association of Southeast Asian Nations 50th anniversary celebration in Thailand, which included an International Fleet Review, conferences and a parade.

Nimitz Strike Group is part of U.S. 3rd Fleet, which leads naval forces in the Pacific and provides the realistic, relevant training necessary for an effective global Navy. U.S. 3rd Fleet constantly coordinates with U.S. 7th Fleet to plan and execute missions based on their complementary strengths to promote ongoing peace, security and stability throughout the entire Pacific theater of operations. 🐼

Let's Get Fit in 2018

By Raelyn Latchaw, NASWF MWR Fitness Specialist

My philosophy on fitness, health, and wellness: We are integrated beings comprised of physical, mental, emotional, and spiritual elements. Healthy living encompasses more than just one discipline, but is the ongoing effort to care for ourselves in multiple areas with the end goal of finding balance. My goal is to encourage our clientele to continue on a journey of wellness by offering effective and creative ways to improve the physical as well as the mental and emotional. Within the physical aspect of health, there are multiple components. One cannot achieve a place of physical balance without addressing all areas. Although cardio is a necessary component, strength, stamina, flexibility, and body composition are all equally important. I learned this first-hand when I attended my first Yoga class years ago, which heavily emphasized core strength as well as flexibility. I have such a passion for variance now after seeing the benefits first-hand that my hope is to encourage others to discover ways to be more functionally fit.

Raelyn Latchaw is a fitness specialist with NAS Whiting Field MWR. Photo courtesy of Raelyn Latchaw.

I have been active my entire life first through dance and cheer, and then fitness groups as an adult. In 2006, friends encouraged me to "become official" and obtain my Group Fitness Certification. I enjoyed doing it so much that I branched out and began adding additional certifications so I could reach a broader population, believing that everyone can enjoy exercise. It's just a matter of finding the mode that gets one excited and motivated to move! My passion and specialties are Water Fitness and Mat Exercise Classes, but I have been certified and have taught many modes throughout the years. Some of those certifications have been WaterFit, TurboKickbox, PIYO, SPIN, Yoga, and continuing education in a variety of group exercise classes. My college background emphasized the nutritional aspects of health so I am passionate to encourage my clients to be mindful in the fueling

choices they make every day. There is much truth to the adage, "You are what you eat."

Fitness Classes Schedule beginning January 2018:

Strength Fusion: Intense core-focused 'Mat Class' which blends Pilates, Sports Conditioning, and Yoga.

Circuit: A form of sports training involving performing different exercises in rotation. It targets strength building and muscular endurance.

Yoga: Exercises that use slow movements and stretching. It's great for increased strength, flexibility and balance.

Relaxing Yoga: This yoga class is focused on de-stressing your life at a lower intensity than our Yoga class.

Stroller Fitness: Full body workout for mom/dad and fun for baby(s) too. There is no age requirement, as long as your child will stay in the stroller for the entire hour long class.

SPIN: Indoor cycling class designed to reduce body fat while increasing lean body mass

Workout of the Day: A custom tailored changing workout program that challenges you with variety and intensity.

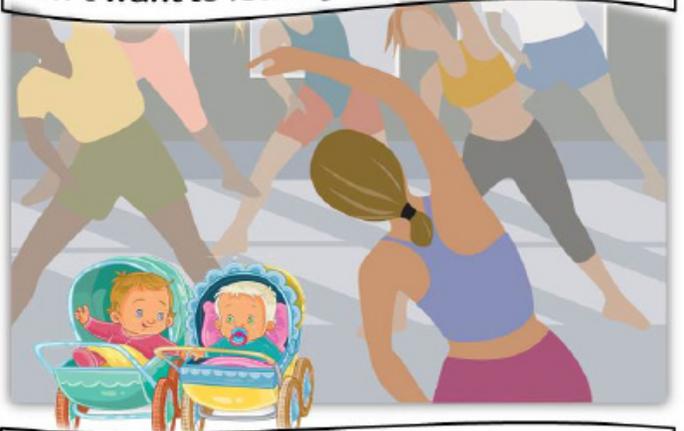

Of special interest is our 'Stroller Fitness' Class. There are lots of new offerings on - *Cont. on Page 7*

Stroller Fitness

Workout With Your Baby!

~ Tuesdays & Fridays ~
10:00 am ~ 11:00

The perfect workout option for any mom / dad looking to get into great shape, but don't want to leave your baby(s) behind.

Full body workout for mom/dad and fun for baby(s) too. There is no age requirement, as long as your child will stay in the stroller for the entire hour long class.

MWR Fitness Center: 850-623-7412
www.navymwrwhitingfield.com

Let's Get Fit

-Cont. from page 6

our Fitness Schedule. One of which I am particularly excited about is our new offering of Stroller Fitness. Being a mom of two boys, and a prior military spouse I remember well those years of being in a new location, far from extended family with a husband full into his military career. In order to keep myself afloat, prioritizing exercise and making connections with other spouses was vital for me.

Our new stroller fit class gives moms with those similar circumstances a chance to take care of themselves physically, mentally, and by default emotionally. We will be offering an effective and challenging workout, modifiable to various fitness levels with a focus on creating an environment which fosters relationships among moms. For myself, participating in these types of activities as a young mom has brought long lasting friendships that are still present after my boys are fully grown. 🐾

Tree City

-Cont. from page 2

our trees with planned activities for the planting of trees throughout the planting season, demonstrating our responsibility as federal land stewards.”

The ceremony is just one step in the year for NAS Whiting Field Natural Resources team to: ensure an allocated cost is directed toward forestry projects (this has to exceed \$2 per person on the base), maintain an Urban Forestry Ordinance, and have a board with regular meetings. All of the requirements serve to raise the awareness of how important trees are to our society. Not only do they provide a natural beauty, but trees also give shade, help to lower temperatures in urban areas, increase the oxygen level in their areas, and help to cleanse pollutants from groundwater and the air. 🐾

Congratulations to NAS Whiting Field Public Works for earning the GOLD LEVEL achievement!

Gold level of achievement indicates a very good to outstanding energy conservation program.

Conservation

-Cont. from page 4

an 18 percent reduction in energy intensity, which is within arms length of the 25 percent reduction by 2025 mandated by Executive Order 13693,” said Poe. “The project savings will exceed \$443,000 in annual energy costs and \$185,000 in operational cost avoidance.”

“The substantial construction activities of this project were completed well ahead of the contract completion date of Dec. 26, 2017,” said NAS Whiting FEAD Director Lt. Chris Thomas. “The project team worked really hard to ensure the project got done with minimal disruptions and impacts to the facility occupants.”

A UESC is an innovative limited-source contract between a federal agency and its serving utility for demand reduction services and efficiency improvements. The initial project costs are financed through a third party and repaid with future utility savings.

The project development began with a series of energy audits conducted in 2014 and 2015. The resulting Energy Conservation Measures (ECM's) for each building were further refined and crafted into a single project to leverage greater economies of scale and maximize the overall Return on Investment (ROI). The NAS Whiting Field Public Works Department awarded the project Sept. 6, 2016.

The project falls under the Energy Independence and Security Act of 2007, which authorizes federal agencies to use appropriations, private financing, or a combination of both, to comply with energy savings mandates. 🐾

THE LANDING STRIP

#68 - For the birds

“Bellingrath Gardens: Magic Christmas in Lights”

Take a trip with us on Saturday, 16 December to beautiful Bellingrath Gardens to see the glorious holiday display of lights. Cost for this event is \$20 per person. Pre-registrations and payment at Community Recreation by calling 850-665-6250. **West (Main) Gate Improvement** West Gate ECP Improvements December 2017 through Spring 2019 Construction to modify the West Gate Entry Control Point (ECP) is targeted to start mid December 2017. This project includes several site improvements to the main gate's ECP. A few highlights include additional travel lanes, increased security measures (jersey barriers and removable bollards) and re-routing of commercial traffic to the Commercial Vehicle Inspection (CVI) station. In order to achieve these improvements, construction will take place that will impact the traffic patterns people have become accustomed to.

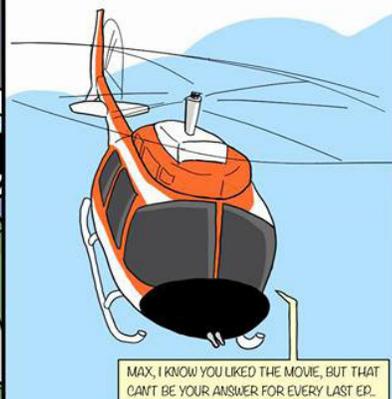

Activities will ramp up after the New Year and will continue through 2018. Be aware that delays entering/exiting the installation are likely. Plan accordingly. Updates will continue to be provided as the project progresses. **2017 Operation E.L.F.** This is the 19th year Fleet and

concerns about the unsafe nature of the speeds that cars are often travelling down the street. Some of the offenders have been noted wearing military uniforms. Please adhere to the listed speed limits around Berryhill and Hamilton Bridge Roads both for the safety of the residents as well as to protect your hard earned income from a potential ticket. **MWR Tickets & Travel** Our office offers a variety of leisure travel services including discount ticket sales to various attractions throughout the country and local attractions. We also offer lodging, cruises, bus tours, airfare packages all over the world, and other special services. **PAO Things to Know Submissions Things to Know** is a weekly publication from the PAO. Please submit your entries to whtg_naswf_pao.fct@navy.mil by Tuesday at 1200 to make that week's issue. 🐦
