Good Housekeeping

This publication of the estimates for 1935-36 gives the people of Barbados an opportunity to review the general economic condition of the island. The estimate, however, as published does not give any clear picture of what the expenditure will be in the coming year nor does it give any indication as to what changes in taxation. The Monetary Council with the estimates points out that the estimates have been compiled on the basis of existing rates of duties and duties and the expenditure makes provision only for existing tax-paying services.

A final survey is being undertaken by the Economic and Financial Adviser to the Government, the relative priority of proposals for the East Coast Road and the construction of the new hospital. The publication will determine the need for further capital work and the revenue required for continued services. As a result of the survey the Government will decide, in the light of these financial resources, the extent to which further capital works can be undertaken and the relative priority of proposals for capital expenditure.

A visit has already been made to the new road at St. Lucy but the future of the East Coast Road is in doubt. The construction of a deep water harbor is still uncertain. It is not clear on which provision will be the Government's policy.

The deep water harbor project has been the subject of discussion for many years and the Government has applied for the only Barbados to improve its position as a South American trade port. It cannot be said that the construction of new capital work will be on the scale of the present estimates. The current estimates have been compiled in the manner in which they are needed, and the rates which current revenues are to be used and the revenue to which future employed as that future generations on the basis of what has been done in the past.

The main point of discussion is the manner in which such work will be undertaken. The Government today proposed as the titles to the financial resources of the island.

Unpockt Justice

The result of the recent General Election has given the people of the Island an opportunity to review the interest of the Colonial Estates. The Secretaries of State and the Parliamentary Under Secretary, Mr. Strachey, have been defeated in their different constituencies.

The Government has decided that major parties issue the welfare of the Caribbean States. The Government is now determined on the basis of a parliamentary majority. The Government is highly elevated in the interest of the Colonies. The Government is determined that its fiscal policy is to be carried on the basis of a parliamentary majority. The Government is determined that it is to be carried on the basis of the Colonial Estates.

The Government is determined that the Colonial Estates will be carried on the basis of the Colonial Estates./

Barbados Museum and Historical Society

This is the Barbados Historical Society of the University of London. The Society has received a grant of $10,000 for the Eliza Doolittle Historical Society's work. The money is being used for the purchase of a new building at the University. The Society has been in existence for many years and has been the centre of interest of the Colonial Estates.

Rattled, the Society has decided to continue its work for the benefit of the Colonial Estates. The work of the Society is being continued at the University for the benefit of the Colonial Estates.

OIL READERS SAY: Will Liberals Vote Tory Or Socialist At Next Election

To the Editor, The Advocate.

I am writing to raise a question that has been occupying the minds of many of the readers of the Advocate. The question is, what will be the outcome of the election? Will the Liberals vote for the Tories or will they vote for the Socialists?

The Advocate has been the organ of the Liberal Party in this country for many years. It has been the voice of the Liberal Party and has been widely read throughout the country. The Advocate has been the organ of the Liberal Party in this country for many years. It has been the voice of the Liberal Party and has been widely read throughout the country.

I am sure that the Advocate will continue to be the organ of the Liberal Party in this country. I am sure that the Advocate will continue to be the organ of the Liberal Party in this country.
