Grenada Strike
Was Justified

---Bradshaw

(From Our Own Correspondent) GRENADA, March 23

WHILE uncompromising the denial of legislation here to deal with the strike situation, the police policy and all important powers of the colonial regions to precipitate a resort to arms when subiding crowds, and local Government's official newsletter saying it seemed to indulge in a report on strikes, Bradshaw's Market Square speech last night was moderate and balanced in the presentation of Trade Union issues.

Guy's introduction, spent most of half an hour furnishing employer groups, remarking on his ability to obtain the low-down on their most elected conference, as much as that which the most delinquent had won the Governor and Barim.

**U.S. Congress Likely**

To Approve SENDING

Division to Europe

BY SEAGRAVE MAYOFF

The United States Congress is going to start action on a new military legislation, which will provide for the sending of an additional 4 divisions to Europe. The bill has been introduced by Representative Seagrace Mayoff of New York, the chairman of the House Committee on Military Affairs.

The bill, which has been endorsed by the Secretary of War, will provide for the establishment of 4 new divisions, each consisting of about 100,000 men, to be stationed in Europe. The divisions will be equipped with modern weapons and will be under the command of General Doolittle, who is now in charge of the United States forces in Europe.

The bill has been introduced in response to the growing unease in Europe over the situation in Korea, where United Nations forces have been engaged in a bitter conflict with North Korean and Chinese troops. The United States has been asked to increase its military presence in Europe to provide a stronger deterrent against further aggression.

The bill has received widespread support from both sides of the aisle in Congress, with bipartisan leaders expressing confidence in the bill's passage. The bill is expected to receive a vote in the House of Representatives this week, with a vote in the Senate expected to follow shortly thereafter.

U.S. Ships In Canal Zone Under Strict Safety Regulations

WASHINGTON, March 24

The United States Government has imposed strict safety regulations on all ships passing through the Panama Canal Zone, effective immediately. The regulations, which were announced by Secretary of State Dean Acheson, are in response to recent incidents involving the sinking of ships in the Canal Zone.

The regulations include requirements for the issuance of permits, the appointment of a master of the ship, and the requirement that all passengers be registered. In addition, all ships must undergo a thorough inspection by the Canal Zone authorities before being allowed to proceed.

The regulations were announced in response to the recent sinking of a British ship, the SS Rawalpindi, which was carrying military supplies for the United States. The sinking has sparked concern among both the United States and Britain, with both nations calling for increased efforts to ensure the safety of ships passing through the Canal Zone.

The regulations come into effect immediately and will be enforced by the Panama Canal Authority. The Canal Zone, a United States possession, is a vital strategic asset and a key link in the global transportation network.

**U.S. Consultant Promises Aid**

To Grenada

WASHINGTON, March 24

In a move to provide aid to the Grenada, an American consultant on social and economic development has been sent to the island to assess its needs.

The consultant, Mr. John Smith, has been appointed by the United States Agency for International Development (USAID) to work closely with the Grenadian government to assess its development needs and to provide assistance.

The consultant will work with local officials to identify areas where USAID can provide assistance, including in the areas of education, health, and infrastructure.

The move comes in response to the growing concerns in the United States about the stability of the Grenada, which has been experiencing political turmoil in recent months.

**Trade Unionist Promises Aid**

To Chile

LITTLE ROCK, March 24

A trade unionist has arrived in Chile to provide assistance to the country's workers.

The trade unionist, Mr. John Doe, has been appointed by the United States Department of Labor to work closely with local union leaders to provide assistance.

The trade unionist will work with local officials to identify areas where American assistance can provide assistance, including in the areas of labor law, collective bargaining, and worker rights.

The move comes in response to the growing concerns in the United States about the state of labor in Chile, which has been experiencing a growing labor movement in recent years.

**RAID PREVENTS PLAY**

In New Zealand Test

WASHINGTON, March 24

The United States national team was prevented from playing a Test match in New Zealand on Sunday night, after a fire broke out at the stadium before the game could begin.

The fire, which started in the stands, was quickly extinguished, and no one was injured.

The United States team was scheduled to play New Zealand in the first of a three-match series, with the second match scheduled for Wednesday and the third on Saturday.

The United States team was devastated by the cancellation of the match, which had been eagerly anticipated by fans.

**Italian Communist Party Due For Purge**

Rome, March 24

The Italian Communist Party is expected to face a significant purge in the coming weeks, following allegations of corruption and ideologic deviations.

The purge, which has been long anticipated by party leaders, is expected to result in the ousting of several high-ranking officials from the party's top ranks.

The purge comes in response to growing concerns within the party about its ability to remain relevant in the face of the rising popularity of the right-wing party, Forza Italia.

**Rescue Teams Seek Missing U.S. Plane With 53 Aboard**

TOKYO, March 24

Rescue teams are searching for a United States military plane that went missing off the coast of Japan with 53 crew members aboard.

The plane, a Boeing C-130 Hercules, went missing early on Sunday, and the search has been intensified since then.

The plane was carrying a crew of 40 and passengers from the United States military, as well as a group of Japanese officials.
