Tension Running High In Egypt

CAIRO, Oct. 17

Tension here has been running high since Prime Minister mundial announced on Monday that Egypt will withdraw its 1936 Treaty with Britain and force British troops to withdraw from the Suez Canal Zone, the vital waterway linking Europe with the Far East. The ultimatum also includes demands that the Anglo-Egyptian Suez, bordering on Egypt from the north and linked to it by the Nile River, be made part of King Farouk's nation. Officals in the embattled British colony said that Egypt had made no move to withdraw its military forces from the Canal Zone, and that the ultimatum was an attempt to force Britain to withdraw its troops from the zone. The ultimatum was met with a firm rejection by the British government, which said that it would not withdraw its troops from the zone without prior agreement on the terms of the withdrawal.
