In the Barbados Estates 1925-26 the cost of administering estates—e.i., prices, supplies and sundries varying from £32,000. In addition about £1,070,000 were estimated for the cost of control and subsidies during the year, and £2,600,000 for the cost of control and subsidies during the year.

At a Fiscal Survey of Barbados, Pro-

The question is that of whether the estates are paid what they should be paid or whether they are paid less money than they should be paid for the cost of control and subsidies during the year.
