TOURISTS ROUND-UP

The tourist season continues to be good - this week like last week all hotel rooms are filled and many families have been forced to take tourists into their private homes. The demand for hotel rooms was so great, that the newly constructed "EL PIRATE" Hotel at Sandy Ground, Marigot

the top of Fort Willen (The Fort Hill). To carry out this important project Fls. 53,750.— have been placed on the budget for 1964.

This is a very important project for the island and we commend the authorities for giving it the "green light".
