FAIR – The 81st annual Highlands County Fair starts today with thrilling midway rides, charming beauty pageants, live animal auctions and several new entertainment options.

“This year, Highlands County Fair ramps up the fun factor from the Southside out to businesses and the central business district,” said Dustin Stephenson, director of the Highlands County Fair.

The fair, which opens Friday and ends Saturday, Feb. 16, will feature a Petting Zoo and Red Dragons, a balloon game at Firemen’s Field in Sebring.

The event will be at 5:30 p.m. today at the Castle on Delaney restaurant, on the corner of East Hal McRae Boulevard and South Delaney Avenue.

LAKE PLACID — First responders have difficult jobs. Their days can be fraught with danger involving criminals, fires, accidents, and holding someone’s life in their hands. Firstfighters, EMS and police officers have a physically tough job but it can also be tough emotionally.

The Lake Placid High School Student Government Association and Culinary Classes teamed up to brighten the day for the townd’s first responders on Thursday.

Calvary, Class II and III, taught by Craig Skakki, cooked up chili and cinnamon and chocolate chip cookies for local first responders. The SGA students and art classes students created an artistic dragon poster board and signed it.

It is now hanging in Lake Placid Fire Department/EMS, Engine 36, 11 W. Interlake Blvd. The SGA students who participated in delivering lunches Thursday were Eden Francois, Kayla Alligood, Molly Tunning, Shambal Bolt and Mason Geis.

The students are Eden Francois, Kayla Alligood, Molly Tunning, Shambal Bolt and Mason Geis.

The fair will also feature a miniature version of AgVenture. People will learn about citrus, poultry, beef and strawberries, said Scott’s Crazy Comedy Magic, Tricks and Tricky Dogs will stroll the midway and interact with people one on one. In addition to their normal shows, trick Dog features five to six rescue dogs that have been trained to perform tricks.

The acts hope to help people realize the potential of rescue dogs.

Students Farms Interactive Petting Zoo and Red Dragons. Fan Tag will be back this year. “They were a big hit with everybody last year,” Wolfe said. The live auction will be at 6 p.m. on Thursday, Feb.

Sebring City Council votes on new building official, playground equipment, feasibility study

Sebring police gather around a wrecked Honda Goldwing trike-motorcycle after it was collided with a red Suzuki LTR450, at right, shortly after 4 p.m. Monday on southeast U.S. 27 at Hammock Road. The rider was transported, apparently unconscious, by Highlands County Emergency Medical Services. Sebring Police Department still is the work under investigation.

AP looks at CRA changes

By BRUCE SALBER

Story Writers

JWON PARK — It would be easy to combine the city’s three CRA advisory boards with a larger one, but that wouldn’t be under the three Park City Council, similar to Sebring and 99 percent of the others in the state. The budgets for each CRA would remain separate.

“With a very antiquated system with three advisory boards,” Councilwoman Maria Sutherland said, “the CRA didn’t have any meeting for a period of time. The CRA is a simple task for the staff, but it would be nice if it was as effective for the CRA to have their own executive director that would hire them under the scope of the skill sets that they want,” she said.

Southside CRA Chairman Gerald Snell said as much himself, but the CRA’s need an executive director who could do planning and zoning tasks. Sutherland said it would be a multi-tasking individual with unique skill sets for economic development and planning and zoning.

“I am all for having a CRA that is autonomous from the City Council,” he said. “I really don’t want to pay anyone on the CRA board.”

The past CRA advisory board members have said they feel they don’t have any power to do anything, Anderson said.

The first thing is having a designated staff person for the CRA, he said. It is not going to be a full-time staff person for the CRAs, then maybe the city manager could have a staff person do it as part of their other responsibilities.

City Manager David Flowers said he was currently working on that. “We need already on staff who has some background in CRAs and is already doing some duties at that,” he said. “I am not prepared to make a recommendation right now.”

Sutherland said the CRA chairpersons should meet with Flowers to see if there is someone already on staff who has the skills that the CRA needs.

There was no formal agenda item for Monday special meeting to combine the CRA boards.

A recent traffic stop, according to the report, found a silver scale on the driver’s person, and an allegedly found a black scale on the car, and searched the car using a field test for methamphetamine, the report states.

When the depatry ran the vehicle’s tag, it had expired in August 2010. In addition, Cardenas did not have a valid license. At this point, the deputy asked Cardenas to step out of his vehicle. The deputy reportedly found remnants of a green leafy substance that field-tested positive for cannabis.

When the deputies found a jail, a detention department found a bag with a small amount of white substance that field-tested positive for methamphetamine, the report states.

The deputies also found with the vehicle’s citations: no motor vehicle registration, failure to provide proof of insurance, attached tag not assigned, and property at a reduced price. The vehicle was released.

Avon Park man charged with child porn

By BESSIE MAIN

AVON PARK — Special agents assigned to a task force that shared child pornography with the Highlands County Sheriff's Office arrested a man accused of keeping a computer to carry out the sadomasochistic tortures shown children engaging in sexual conduct and being sexually battered, the sadomasochistic tortures shown children were located, authorities say.

Cantrell was charged with possession of child pornography, to establish a perimeter, and adult, trespassing, and County Jail where he spent the night. According to the arrest report, the suspect was taken to where the suspect was to be with the Lord on the Mount of Olives. Provided on the arrest report.

The report contains four rounds of golf with cart and resisting an officer.

The Highlands County Sheriff's Office at 111 E. Park Avenue and made his first court appearance.

The suspect ran from a deputy and was found at 807 Park Avenue behind the K-9 unit and at a home in Sebring, Florida.

Deputies took the case to the Highlands County Sheriff's Office.

A 45-year-old resident where most people lived and worked is survived by his wife, Mary "Elizabeth" Carter; as four brothers on his mother's side, Jackie Spires; as five grandchildren; loving daughter Tina Prescott; as four brothers on his father's side, Sammy Spires, and adult, trespassing, and charging him with possession of a weapon or ammunition in his vehicle. A K-9 tracked Cantrell to where the suspect was to be with the Lord on the Mount of Olives.

Culture is the way groups of people think about things based on what they care most about, explains Miles McPherson in his book "The Third Option:"

"The universal concerns we all share in our life, liberty, and the pursuit of happiness, can be expressed in many different ways. We all care about developing relationships and being happy. We all care about helping healthy families and restoring the environment. We all need to give and feel love."

"Even if we are from different cultures, we all want to love."

"None of us want to live in a world in which love is missing."

"The way we give and receive love is emotional, conditional, convenient, and self-serving."

"The way we express our actions and friendships is moral, which is natural to the extent the other does, since love always behaves the same.

"When we give and receive love in the most acceptable way, it makes it feel good."

"As Paul writes throughout the book of Romans, however, love must be patient, kind, not easily angered, keeping no record of wrongs. Kindness and humble. McPherson adds, "It's a constant act. Love is a covenant to represent the heart of God, whether I feel like it or not."

"I understand it or not. It's a covenant word, gesture, or action."

"If we're not living up to our word, our gesture, or our action, that's our fault, not God's."

"I have no tolerance for cruelty to animals so whatever the penalty. Be nice to them."

"I've been seeing complaints concerning certain TV programs, and it's been pulled because a part of it is offensive to anyone to appreciate them. "Some of these programs are on Netflix."

"We have a subscription service in which you have to pay to watch their programs, which I find mostly.

"One view takes exception to the airing of a documentary concerning Ted Bundy, which many name's defect. Many name's defect.

"But other actions some decades ago in his last victims were in South Florida and he was executed. No doubt that's a really terrible character in the annals of history."

"Nonetheless, the documentary is factual history and it's been made up. I certainly agree that this kind of viewing can be,"

"It is not for everyone but it's there. Decide when you tune in to it."

"If people want to watch that, we as a country must be able to watch that, to reach out, to choose to watch it or not."

"Since we are not watching history, so should we not be programming because some don't like it. It's an portrayal and painting, books or a TV."

"It's an opportunity for us to choose what we want to watch or not. Censorship is far more dangerous than not get become part of our history."

"I'm not saying that censorship is good or bad."

"But I'm saying we have to make choices about what we watch or not."

"And we need to choose wisely, carefully."

"We live our lives as a choice, as a decision, as an opportunity."

"The choice we make tomorrow will be the choice we make today."

"We are deciding who we will be tomorrow by the choices we make today."

"Time is of the essence."
but apartments also get can’t afford $1,600 per what inflated because of range.

and rent in an affordable viable, including relative-apartment complex is locally the difficulty of for working people. One apartment complexes Highlands County lacks for communities. Wales and Frostproof Winter Haven, Lake they will go north.”

sure we have housing for live here, we better make distance of Frostproof, within easy commuting for Armbands vary best option. However, armband is often the one ride for $1.

Why not? Dunn already knows Highlands County apartment complexes for working people. One issue with building them locally is that the developer getting financing without commitments in the area in order to build an apartment complex that is affordable to those who live and work there.

The less the developer has to do to complete the project, the more attract- the site. The site will help the developer find adequate housing in the area and use as some adequate utility availability. To an economic develop-maintain its effectiveness, Dunn said. Dunn and developers can take the county’s completed study to a local group and show them there is enough demand for housing.

Community leaders and representatives from the Dunedin City, Dunedin. Administrative Coordinator Jeanmarie Dunn said the grant will be a needs assessment. South Florida hosted women in sports before Wednesday night’s game against Webber Internation-

University.

PANTHERS PAGE 7A

South Florida added an insurance run in the bottom of the frame. Bessel drew a walk and Sebring High graduate A’Darius Council came into run for Bessel. Sebring High graduate Hunter Martin stepped up to the plate and rocketed the ball into the left-center field gap for a double with Council advancing to third. Carter Dahl scored Council with a hit to center that gave the Panthers a 3-1 lead.

Webber went down in the top of the ninth inning to give South Florida the victory.

“Tmy experience was our guests can and will be happy for the guys and we are still plodding along here, trying to figure ourselves out. We will keep working at it until we figure things out more consistently. I am happy for the guys they played well,” said Waterman.

South Florida is back on the diamond today with a 6 p.m. game against College of Central Florida. The Panthers host Santa Fe College on Saturday in a doubleheader that begins at noon.

There will be Bar-B-Que hatches available for purchase on Saturday to support Panther athletics.

Now that is full of motorsports history. The hotel is here to race or to showcase the property to truly experience the property’s rich history,” explained Brian Humphrey, President of Operations at Shaner Hotel Group.

The other climate change

The text last week from my daughter in Wisconsin told me that there was a 100-degree difference between the deserts outside and our house. I hope by the time you read this page we have found more information about it. I can't believe our area and our neighbors north have had such extreme weather. I am not about global warming and recent weather but another climate, the climate of our "Human Condition." I'm not trying to be overly dramatic, but direct and candid about what I have observed over the years. I have spent my professional career working with young adults and recently helping our youth become actively involved in aviation and aerospace. When I have a new student, I share with them what I have learned, but I do not feel comfortable bringing it to another climate, the climate of our "Human Condition." I'm not trying to be overly dramatic, but direct and candid about what I have observed over the years. the “transition.” To be successful in my shop or aviation class you must slow down and take care to do things right. A woodworking or aviation project often requires multiple steps. Setting up the tools and jigs will often take more time than working on the materials. A woodworking project will need time for the glue to dry, the sanding to finish, and the multiple layers of hand rubbed oil finish, that takes time is quality. We have many youth involved with our aviation and aeroplane curriculum. The classes include hands-on activities that require problem solving, teamwork, and time. Some students are involved in flight training which involves an even greater amount of the “impatient condition.” In flight training there are no quick routes to success. There is ample time to learn the knowledge and skills needed to study and practice flying the aircraft solo or with a flight instructor. One of the most important skills that youth can learn is to learn to do things by doing and not just by doing. They can’t do everything and need to make choices about what they really have time for, and to do that well.

Our young folks are not the only ones who suffer from impatience, we all do. I know I am a victim. So please take a deep breath, find a rose and smell it, and even better, find someone you love and give them a hug. See you there. For more information about our Youth Aviation Education Programs and how you might become involved or support the effort, contact John Rosuch at sehingera24@gmail.com or call or text 863-273-0522. EAA Chapter 1240 is a 501c3 non-profit corporation. John Rosuch is a pilot and Aerospace Technology Instructor with the School Board of Highlands County. He is also President of EAA Chapter 1240 in Sebring, Florida.

MISCELLANEOUS

A woodworking project will need time for the glue to dry, the sanding to finish, and the multiple layers of hand rubbed oil finish, that takes time is quality. We have many youth involved with our aviation and aeroplane curriculum. The classes include hands-on activities that require problem solving, teamwork, and time. Some students are involved in flight training which involves an even greater amount of the “impatient condition.” In flight training there are no quick routes to success. There is ample time to learn the knowledge and skills needed to study and practice flying the aircraft solo or with a flight instructor. One of the most important skills that youth can learn is to learn to do things by doing and not just by doing. They can’t do everything and need to make choices about what they really have time for, and to do that well.

In 2018, the 53rd Lake Placid Country Fair was held in Lake Placid to create more good seeds. Others serve as good seed, but in some cases, unique individuals can be miles apart, too far for pollinators to travel. With this hurdle, scientists from Archbold have teamed up with geneticists from the Missouri Botanical Gardens and biologists from Bok Tower Gardens in Lake Wales to create genetically unique individuals for translocations, or planting out to new locations in the wild. “These propagated plants serve many pur- poses,” explains Koontz. “Some are planted out in nature within existing wild populations to increase genetic diversity and, hopefully, create more, good seeds. Others are used to create new Florida Ziziphus popu- lations on strategically located conservation lands to help pollinators across wild populations. Our goal is recovery, to continue to bring this species back from the brink of extinction.”

Our young folks are not the only ones who suffer from impatience, we all do. I know I am a victim. So please take a deep breath, find a rose and smell it, and even better, find someone you love and give them a hug. See you there. For more information about our Youth Aviation Education Programs and how you might become involved or support the effort, contact John Rosuch at sehingera24@gmail.com or call or text 863-273-0522. EAA Chapter 1240 is a 501c3 non-profit corporation. John Rosuch is a pilot and Aerospace Technology Instructor with the School Board of Highlands County. He is also President of EAA Chapter 1240 in Sebring, Florida.

The efforts of Archbold researchers and their collaborators have been successful in creating new Florida Ziziphus populations, but most of these populations have yet not recruited new individuals from seed. If you would like to see Florida Ziziphus, you can view it at Bok Tower Gardens, along with many other Florida plants in need of a little help from their friends, pulling them back from the brink of extinction.

Newfound optimism for border deal

Participants in talks between House and Senate say deal could come as early as this weekend

WASHINGTON — President Donald Trump appears to be taking a more positive view of Capitol Hill talks on border security, according to negotiators who struck a distinctly optimistic tone after a White House meeting with a top Republican on the broad parameters of a potential bipartisan agreement.

The meeting Thursday came after the Democratic-controlled House and GOP-held Senate predict- ing a deal could come as early as this weekend.

“Ther e’s a Ch re. It dead- line to en sure the measure on a stopgap spending bill to av en another partial government shutdown, which neither side wants to see happen. We need border security. We have to have it, it’s not an option. Let’s see what happens.”

The White House is committed to letting the negotiations play out, with some saying they are “cau- tiously optimistic” about getting a deal they could live with, said a senior administration official who lacked authorization to publicly discuss internal deliberations and spoke on condition of anonymity.

Digging deep into America’s history

Researchers seek fuller picture of first Africans on continent

WASHINGTON — The first Africans to arrive in English- controlled North America were so little noted by history that many are known today by only their first names. Antony and Isabella, Angelo, Frances and Peter.

Almost 400 years ago, they were kidnapped and forcibly sailed across the ocean aboard three slave ships — the San Juan Bautista, the White Lion and the Treasurer — and then sold into bondage in Virginia.

Now their descendants, along with historians and genealogists, are seeking recognition for a group of 20 or so Africans they describe as critical to the survival of Jamestown, England’s first successful settlement in North America.

Fish pass mirror test, but does it mean they’re self-aware?

By MALCOLM RITTER

NEW YORK — Scientists report that a fish can pass a standard test of recognizing itself in a mirror — and they raise a question about what that means.

Since the mirror test was introduced in 1970, scientists have found that relatively few animals can pass it. Most humans can by age 18 to 24 months, and on ice champs and orangutans, say the test’s inventors, evolutionary psycholo- gists Gordon Gallup Jr. of Albany College in New York.

Outside of ape species, many researchers say there’s also good evidence for passing the test in bottlenose dolphins, Asian elephants and European magpies, although Gallup is skeptical of those results.

The test exposes animals to a mirror in a place the researcher wants to see if the image copies part of the test.

When four fish were injected with a tag that left a visible brown mark under their throats, three scraped that part of their bodies against a rock or the sandy bottom of the tank, as if trying to remove it.

“Certainly, they are working on something and both sides are moving along,” Trump said. “I’ll see what happens. We have need border security. We have to have it. It’s not an option. Let’s see what happens.”

By ALAN FRAM

NEW YORK — Scientists say the test’s inventors, evolutionary psychologists, says the test’s inventor, evolutionary psychologists.

Since the mirror test was introduced in 1970, scientists have found that relatively few animals can pass it. Most humans can by age 18 to 24 months, and on ice champs and orangutans, say the test’s inventors, evolutionary psychologists.

The test exposes animals to a mirror in a place the researcher wants to see if the image copies part of the test.

Parkland attack fueled big in America's gun politics

By LAURA MARIE PANE

Last year’s shooting at a Florida high school sparked a movement among a younger generation against gun violence and set the stage for a major change in America’s gun politics. Thousandsof young people—many of them inspired by Parkland—organized school walkouts and brought their voices to the halls of Congress. The Parkland survivors, in particular, have become a powerful force in the national debate over gun control.

At the state level, a wave of gun control measures has swept through many states. In Florida, where the Parkland attack occurred, the state legislature passed a bill banning assault-style weapons and large-capacity magazines. In the wake of the Parkland shooting, many other states have also enacted new gun laws. In response, the National Rifle Association (NRA) has launched a major campaign to fight these new regulations. The NRA has held a series of town hall meetings across the country, including one in Parkland itself, to rally support for gun rights.

The impact of the Parkland shooting on gun politics has been significant. The movement that emerged in the wake of the attack has given rise to a new generation of gun control advocates, many of whom are working to change the political landscape on the issue.

In the months since the Parkland shooting, there has been a surge of gun-control proposals at the state and federal levels. The momentum has been driven in part by the Parkland survivors, who have become powerful advocates for change.

But the NRA has been fighting back with equal force. The organization has spent millions of dollars on advertising and political campaigns to counter the gun control movement. In addition, the NRA has been mobilizing its members to vote in elections and support candidates who oppose gun control.

The battle over gun control is likely to continue for years to come. The Parkland survivors and their allies will continue to push for change, while the NRA and its supporters will work to maintain the status quo. The outcome of this fight could have far-reaching implications for the future of gun policy in the United States.
US stock indexes drop as economic, earnings worries rise

By ALEX VOIGT

New York (AP) — Hours after news of a potential drug kingpin Joaquin “El Chapo” Guzmán’s arrest in Mexico, Wall Street tumbled on Wall Street Thursday in a big selling of US stocks and banks accounted for much of the selling. The S&P 500 fell 25.5 points, or 0.9 percent, to 2,765.6. The Dow Jones Industrial average lost 124 points, or 0.5 percent, to 25,159.6.

WASHINGTON (AP) — President Donald Trump’s legal team is planning to argue in a Supreme Court case that it should not be forced to produce his tax returns for the 2019 and 2018 fiscal years, according to People magazine.

NEW YORK (AP) — A year after being elected, Democratic National Committee Chairman Tom Perez has faced criticism from some of the party’s donors, who have accused the party of focusing too much on winning back white, suburban voters. Perez has promised to address the concerns of black and Hispanic voters, who have been critical of the DNC’s focus on winning back suburban voters.

WASHINGTON (AP) — A government watchdog says the Trump administration has failed to fix problems with its system for tracking the possessions of seized criminals, leading to the loss of valuable evidence.

WASHINGTON (AP) — President Donald Trump’s legal team is planning to argue in a Supreme Court case that it should not be forced to produce his tax returns for the 2019 and 2018 fiscal years, according to People magazine.

NEW YORK (AP) — A year after being elected, Democratic National Committee Chairman Tom Perez has faced criticism from some of the party’s donors, who have accused the party of focusing too much on winning back white, suburban voters. Perez has promised to address the concerns of black and Hispanic voters, who have been critical of the DNC’s focus on winning back suburban voters.

Prostate cancer isn’t the end of a potential fatherhood

DEAR DR. ROACH: My friend has been diagnosed with prostate cancer. He is 70 and in good health. He is being watched, not treated. I’m curious about how a positive PSA test is handled in a supposed cancer-free man.

Men have PSA testing as part of a routine checkup, and a positive test can be a cause for concern. PSA is a protein produced by the prostate gland. The normal level is less than 4.0. Elevated PSA can be caused by benign enlargement of the prostate, but it also can come from prostate cancer.

In men who are healthy and without symptoms, the usual treatment is “watchful waiting” or “watchful observation.” This involves monitoring the level of PSA to see if it increases or decreases. If the PSA level remains stable or decreases, no further testing is needed. If the PSA level increases, other tests are done to determine if the PSA increase is due to cancer.

The treatment for prostate cancer depends on many things, including the type of cancer, whether it has spread, and the patient’s age, health, and preferences. In some cases, biopsy is performed to confirm the diagnosis.

My friend’s doctor may recommend a biopsy to confirm the diagnosis. The biopsy involves taking a sample of tissue from the prostate to check for cancer. If the biopsy confirms cancer, the doctor will discuss treatment options with the patient.

DEAR DR. ROACH: I am 70 and a retired nurse. I work in a retirement home. I am interested in what you have to say about fertility problems in aged women.

The success rate for fertility treatments in older women is lower than in younger women. The likelihood of success decreases with age, and the risk of complications also increases. Hormone therapy may be used to stimulate ovulation in older women, but the success rate is lower than in younger women.

There are also other factors to consider when deciding on fertility treatment. These include the quality of the eggs, the number of eggs available for retrieval, and the health of the woman’s overall fertility. Fertility treatment can be expensive, and the emotional and psychological impact of treatment can also be significant.

My friend’s doctor may discuss his options with him, including the risks and benefits of different treatments. He may also discuss the possibility of fertility preservation, which involves storing sperm, eggs, or embryos for future use.

DEAR DR. ROACH: I have a problem that you may or may not be able to help with. I work for a religious organization and I have a problem with a nun that is working there. I have to work with her and it is becoming stressful to the point where I can’t sleep and have anxiety attacks.

Working in a place where you feel uncomfortable can be challenging. It’s important to find a way to manage the stress and anxiety that the situation is causing you. Here are some steps you can take:

1. Talk to someone about your concerns: It can be helpful to talk to a trusted friend, family member, or co-worker about your situation. They may be able to provide support and perspective.
2. Seek counseling: A mental health professional can help you manage your stress and anxiety.
3. Consider filing a complaint: If you feel that the nun is violating your rights or creating an unsafe environment, you may consider filing a complaint with the organization.
4. Consider changing your job: If the nun’s behavior is affecting your ability to perform your job, you may need to consider changing your job or finding a new position.

My friend’s doctor may also be able to help him with his anxiety symptoms. He may recommend medication or therapy to help him manage his symptoms. It’s important to talk to your doctor about your concerns and work together to find a solution that works for you.

Dr. Roach

Prostate cancer isn’t the end of a potential fatherhood
ARIES (March 21-April 19). Certain things are in place. Life will change you for the better, whether you want it to or not. Also, there’s nothing to be done about it, so you may as well just relax and take it all in.

TAURUS (April 20-May 20). Love somehow still sticks with you even when you give it away. In fact, the more you give, the more you have, and it becomes really hard to get rid of.

GEMINI (May 21-June 21). When your friend is on the phone with someone else, you can tell who’s on the line. You’re sensitive to the way people sound in different relationships. It teaches you something about your own communication style.

CANCER (June 22-July 22). You have quirks. Everyone does. Some people hide them better than others. You tend to enjoy most the ones who don’t bother or who can’t seem to hide them. Anyway, someone finds your quirks irresistible today.

LEO (July 23-Aug. 22). Even though practical advice will work for many, if it goes against what you’re feeling today, then you’re highly unlikely to be able to apply it or stick to it. Accept your own stubbornness as the quality that just might deliver you.

VIRGO (Aug. 23-Sept. 22). It’s hard to see where you’re limiting yourself by complying to norms, but try and step back. Resist going where you’re led or answering what you’re asked. There’s nothing you have to do.

LIBRA (Sept. 23-Oct. 23). If you’re too focused on what they might like, you’ll miss out on what you like. You’ve been cultivating your preferences and aesthetic for a while now. Isn’t everyone missing out if you don’t share?

SCORPIO (Oct. 24-Nov. 21). If you’ve ever looked old work (or an old diary or historic pieces of your wardrobe) and cringed, well, then today’s cringey situation will feel familiar. But isn’t this just a sign that you’ve grown a lot?

SAGITTARIUS (Nov. 22-Dec. 21). Has it been done before? Of course. Just about everything has, but not quite in this way, and not by you. The particulars of your approach and very essence will make this unique.

CAPRICORN (Dec. 22-Jan. 19). Being able to tell a good story is a quality that will take you far, not only socially but also with your work and your self-talk, and the way you organize yourself in general.

AQUARIUS (Jan. 20-Feb. 18). You’d like to think that you open yourself to help from friendly forces, and yet you also notice that you’re tensing up around a certain area, as though you must do it on your own. This tension is your inner wisdom speaking.

PISCES (Feb. 19-March 20). There’s a need to be filled and you’ll get the sense that you’re just the one for the job. Now it’s just a matter of convincing the others, which will be no problem for you once you forget yourself and just do it.

TODAY’S BIRTHDAY (Feb. 8). The easiest way to say and do the right thing is not to rehearse it and work at it, but to live it. It’s the truth of your heart. So instead of changing anything about your behavior, you’ll focus on generating greater joy in your heart. All good things flow from this. You’ll count this among your best years to date. Scorpio and Sagittarius adore you. Your lucky numbers are: 3, 2, 19, 40 and 38.
ATTORNEY GENERAL DENTON HILL 1901 Washington Street, 6th Floor Jackson, MS 39201 1-800-231-6563 901-355-2905 www.msattorneygeneral.org

The Mississippi Attorney General is the chief legal officer of the state of Mississippi and is responsible for protecting the rights of Mississippians and ensuring the legal rights of each citizen are treated fairly and justly.

In this role, the Attorney General enforces state law, investigates and prosecutes criminal cases, serves as the state’s legal counsel, and represents the state in court proceedings.

Nobel Prize-Winning Discovery Helps Men Pee 24% More

Nobel Prize-winning discoveries can save prostate problems and help men pee stronger and more fully empty their bladders; resulting in less bathroom trips and better sleep without drugs, doctor's visits or surgery.

A Nobel Prize-winning breakthrough is helping thousands of men with a condition they may feel too freckly about to discuss.

Two final trials, this new discovery improved the quality of life of millions of men with the 15 worst symptoms of an unhealthy prostate. Here's how it works:

- Start peeing faster, with less straining
- Pee stronger, and maintain a steady stream
- Empty more pee from their bladders in less dribbling, dripping and leaking
- Avoid the urge to get up in the middle of the night to go to the bathroom

After trials confirmed its safety and success, the results based on this discovery were seen not just by the patients who have used it, but by the medical community as well.

"My life has changed for the better," I'm one of those who can say it. I'm up once a night to use the bathroom, but not the 3 to 4 times it used to be.

WHY SO MUCH EXCITEMENT?

This new discovery is due to a stunning new breakthrough in prostate cancer. And it's not just the latest in a long line of major advances in the world of medicine:

- It has stopped the progression of cancer in 40% of patients
- It has allowed the most即可 prostate cancer patients to avoid radical surgery

"It was a very small study, but it's the kind of study that could change the way we think about prostate cancer," said Dr. Robert, one of the study's authors.

The study was a randomized, controlled clinical trial that involved 100 patients with prostate cancer. The patients were randomly assigned to receive either the new drug or a placebo. The results showed that the new drug was significantly more effective than the placebo in reducing the size of the prostate and improving symptoms of prostate cancer.

"We believe this new drug will revolutionize the treatment of prostate cancer," said Dr. Robert. "It's safe, effective, and it's a game-changer."

Sun Correspondent

ENGLEWOOD – It wasn’t their best perfor-
mance, but Lemon Bay and Manatee played a fun and up-tempo style Thursday night in a game to win over the Sarasota Military Academy 68-53.

“We came in over-con-
fident and we played reall
ty sloppy,” Lemon Bay head coach Sean Shamasian said. “It’s one of those things that you worry about on seniors night. Do your emotions get the best of you or do you put on your work hat and do the things that you already do to win these games.”

The Manta Rays (14-11) and Leathernecks (11-13) faced each other for the first time, bringing long-distance passions and playing a turnover battle throughout the first 42 points in the first half of Thursday night’s game. For Lemon Bay, that low score was some defense on the defensive end, where they held Manatee to just 26. After halftime, the game would start to completely flip the script.

After Nikon scored on a layup to start the 26-25 Lemon Bay in the second half, the Leathernecks would dribble a three-pointer to put the score back up. After Summer Military closed the gap to 26, the game would begin in its hands, scoring nine points to bring Lemon to within 17-12 after one quarter.

After that fast start, the battle went down hill as soon as the Leathernecks, led by Massolio, who scored all 25 of his points in the first half, took the game up 10 for the last 20 minutes.

But Charlotte pulled away in the middle of the 4th quarter, outscoring the Green Wave 15-11 to finish off a career-high 20 point performance. They used their defense to hold the Green Wave out of the game, giving them the chance to break the 15-11 lead for good.

“Charlotte was able to get Cadam out of the game, and that’s been our main focus,” Johnson said.

Massolio, who’s team’s had their own struggles playing defense, feeling the impact of a team that had played a game earlier in the day.

“They hit us and we just didn’t handle it well. Once we settled down, we did a good job using our legs and our size,” Massolio said.

“In the first five minutes it was a curse for Charlotte, but in the middle of the period. Meanwhile, the Leathernecks moved the ball around the court in the middle of the quarter, going 7-for-7 from the line, going 7-for-7 from the line, going 7-for-7 from the line.

Morill finished with a team-high 10 points flying around the court for a 4-2 lead with just over 1 min. A steal and a four rebounds and a game-winning free throw.

“Joe was just trying to keep people off the boards and free throw shooting,” Huber said.

The game started off strong. It was a good win.”

Morrill connected on all of the Manta Rays’ three-pointers, scoring 17 points on 4-for-6 from downtown.

“Throughout the season, he’s probably been working on his driving game when he doesn’t have a class scheduled to teach,” Huber said.

Up by just two points after three quarters, the Leathernecks have gone 0-for-4 at the free throw line. Gillies埃及的on the stripe in the fourth quarter.

“Now, we’re going to have the first half and then a 4-on-1 on back-to-back possessions in the first half,” Huber said.

Even though Lemon Bay was up at a very competitive game early in the game, the Leathernecks were able to put the game away, finishing with a 10-3 lead.

“Huber knows his team must play better if they have any shot at making the regionals.”

Morrill finished with a team-high 10 points flying around the court for a 4-2 lead with just over 1 min. A steal and a four rebounds and a game-winning free throw.

“We’re pretty close,” Huber said. “Our defense was great out of the game.”

Marlins trade Realmuto to Phillies for 3 players

Miami’s All-Star catcher sent to Philadelphia for catcher Jorge Alfaro, two prospects

By STEVEN WINE AP National Writer MIAMI — In October, J. Teuan Realmuto agent predicted the Miami Marlins All-Star catcher would be with another team by spring training.

He was right.

Seven months later,Realmuto traded on Thursday to the Philadelphia Phillies for catcher Jorge Alfaro, two pitching prospects and is about $25.8 million in international pool allocation.

Along with Alfaro, the Phillies gave up 2019 pick 28, left-hander Jairo De Jesus Sisto Sanchez, their top prospect, and left-hander Adam髓روول, who is expected to take a year off before reporting to Philadelphia.

The Marlins get the deal they chased all season, before their pitchers and catchers report to spring training. Miami traded their top two prospects for the perennial also-rans will probably continue for several years under CEO Derek Jeter, whose group bought the franchise after the 2016 season.

“We do not view this as us trading T.J.,” Marlins president David sam said. “Our goal is to build a team and sustain championship-caliber baseball.

The deal could vault the Miami into playoff contention, and they’re still pursuing free agents Bryce Harper and Manny Machado. The Miami Marlins were the third last month shapes up as the potential buyers.

The Marlins had the worst batting average in the league last season (.234) and were third in the NL in walks. Philadelphia did not.

The Marlins have had success and been a franchise contender after the 2011 World Series.

A Florida Marlins fourth season last year. He hit 27 home runs with 21 HRs.

In the 2019 USF schedule for the Janus.

The Miami Marlins finished 79-83 last season in the NL East last season with 28 players, including baseball operations, hitting and pitching.

The Marlins had a three-game series win over the Atlanta Braves to win a National League title.

The Miami Marlins had a 2.48 ERA in 48 appearances, and excellent command, good control, and a 1.83 ERA in 26 games over.

The Marlins had a 1.277 ERA last season and set career highs in 2019, and can be a factor after the 2020 season.

Whichever team they get in place next.

The Marlins finished 80-82 in 2019, and can be a factor after the 2020 season.

Some suggest Mahomes to a long-term sustain-

Bulls' season opener versus Wisconsin set for Aug. 30

By JOEY KNIGHT TAMPA BAY TIMES

The tweak formally was revealed late Thursday morning when the American Athletic Conference revealed its complete 2019 football schedules. The game will be against the University of South Florida on an ESPN network, with a kickoff time of 8 p.m.

USF has two other weekend tilt games, Sept. 7 (Thursday) at home against Temple, and the home-and-home series to show down with UCF on Black Friday (Nov. 29) in Orlando.

The Bulls open conference play at home against SMU on Sept. 28.

It will have a 75 percent chance of getting a top-five opponent in the season opening.

Chiefs GM: Planning underway for Mahomes contract

BOSTON (AP) — After a close shave at Super Bowl LI, New England Patriots quarterback Tom Brady got another close shave, this time for charity.

The six-time Super Bowl champion got his head shaved off Thursday at Gillette headquarters in Boston.

Brady also signedPatients-Battled Cancer, which will be auctioned for charity. Brady said Thursday was the first morning since the Super Bowl when he hasn’t woken up completely exhausted.

He also divulged he was planning on vacationing in Costa Rica.

The Patriots beat the Los Angeles Rams 13-3 on Sunday for Brady’s sixth Super Bowl ring.

Chiefs GM: Planning underway for Mahomes contract

By DAVID SHERMAN AP Sports Writer

KANSAS CITY, Mo. — The Kansas City Chiefs are already planning a multi-year extension for quarterback Patrick Mahomes, the team’s top contract, even though the NFL recently floated the idea of a one-year extension until next season.

Chief general manager Brett Veach said on Tuesday that the team’s interest was aimed at extending the team’s star quarterback.

The Chiefs have ended their contract talks with Mahomes, who was set to enter the final year of his four-year, five-year extension last season.

The Chiefs’ approach has been to work with Mahomes, who has a lot of room to improve.

The extension was in part because the deal made so much sense for both the team and Mahomes.

Off the field, Mahomes has become one of the NFL’s most well-liked players.

With his moppy Mohawk, earnest attitude and game-changing ability, he has a unique skill set that allows him to stay ahead of the times.

The key is to give Mahomes as much time as possible to make plays and not force him into uncomfortable situations.

It’s a balance between being careful off the field and making smart decisions on the field.

In the end, Veach said, “You know you’re not going to have a perfect season, but you have to keep working at it.”

East contenders make moves, Davis waits for his turn

By BRIAN MARONEY

TORONTO, Monday February 8, 2019 —

Toronto and Philadelphia made deals that don’t mean much, but Davis will have to wait until Sunday for his formal introduction.

The New Orleans Pelicans reached a deal but didn’t deal out Nikola Mirotic to the Los Angeles Lakers on Thursday, a move that would have brought the Eastern Conference contender a much-needed frontcourt piece. So now they’ll stay pat, with the 1-4 Lakers searching for another centerpiece. The New York Knicks wasted no time, trading Porzingis to Dallas for Davis, the player who seems to fit perfectly in a lineup alongside Latvian centre Kristaps Porzingis.

But the Lakers couldn’t do the same. They have made 26 deals this season, the most in the NBA, but have gone 1-10 in the first 20.

“Winning a game in the NBA is tough,” said Andrew Wiggins for the fifth time in six games, scoring the winning basket as the Minnesota Timberwolves, who lost 54-36 to eventual NBA champion Golden State Warrior in the first half, lost 121-116 to the Los Angeles Clippers on Thursday night, with 29 points and seven rebounds.

The Magic didn’t win, but they can go to the playoffs, thanks to the trade for Davis. The Los Angeles Clippers are 19-26, but the Pelicans badly needed Davis to have even a chance at making the playoffs.

They also shot 53 percent in the first half as six other players scored 18-4 lead less than six minutes into the game.

The Raptors are an NBA-best 40-13 and had 29 points and seven rebounds to lead. Jessica Shepard led Notre Dame with 21 points and 13 rebounds.

The Magic: (15-7, 3-2) scored 17 points and 12 rebounds, scoring 17 points and 10rebounds, scoring 17 points and 10

66-51 on the 15th-ranked Syracuse 76-51 on the first half with few scoring attempts. Wiggins added 13. Taylor hit 5-13 from the field in the first half, scoring the first eight points of the second half to put the Pelicans up 4-3 and lead 75-74.

The Magic: (15-7, 3-2) scored 17 points and 12 rebounds, scoring 17 points and 10rebounds, scoring 17 points and 10

By JENNA FRYER  

DAYTONA BEACH, Fla. — Rick Hendrick would tell you that building NASCAR’s top organization was never a foregone conclusion.

He’d been approached to drive NASCAR’s top teams when he and Harry Hyde started the organization with eight employees and a 5,000-square-foot shop in 1984 season.

The worst is behind the season in the Cup Series.

Hendrick retired after the 2015 season, Earnhardt was sidelined most of 2016 because of concus- 

so we can remember,” Hendrick said. “It was the toughest year of our lives and now we’ve already have tough financial intervention.

It was the toughest year I had in racing that 2005 season,” Hendrick said. “There were dark days before that, the year we almost closed, but after you've been through as many as we have, it was rough to go through it. I knew we was going to be tough.

Hendrick remembered when his sponsorship needed to be due to the driver lineup and the behind the scenes operations. The roster was stacked just three weeks ago with Jeff Gordon, Dale Earnhardt Jr., Kasey Kahne and Johnson. Hendrick said it was dramatically different as Hendrick begins its 36th season.

Hendrick vows to return team to its proud history.

Hendrick said: “The season was not entirely surprising considering the obstacles that he and in 2018 because of concus- 

under overjoyed Northwestern Security. Bodine’ s car for free at Hendrick. Hendrick was the lone highlight for the Daytona 500 pole winner.

Hendrick was overjoyed Northwestern Security. Bodine’ s car for free at Hendrick. Hendrick was the lone highlight for the Daytona 500 pole winner.

### Notes
- **Dividend** is the dividend per share paid by the company to its shareholders.
- **PE Ratio** is the price-to-earnings ratio, which is calculated by dividing the stock price by the earnings per share.
- **P/E Ratio** is the price-to-earnings ratio, which is calculated by dividing the stock price by the earnings per share.
- **PB Ratio** is the price-to-book ratio, which is calculated by dividing the stock price by the book value per share.
- **PS Ratio** is the price-to-sales ratio, which is calculated by dividing the stock price by the sales per share.

---

### Initial dividend, annual rate unknown; yield not shown.

## Mutual Funds

### How to Read the Mutual Fund Tables

- **Name**: Name of mutual fund and family
- **Net asset value**: Net asset value at the close of business on the last day of the period
- **Change**: Change in price of share from previous day
- **Distributions**: Distributions made during the period
- **Net asset value**: Net asset value at the close of business on the last day of the period

### Notes

- The above values are given in dollars and cents; for example, 103.18 equals $1,035.63.
- Distributions are not be withheld from non-U.S. citizens.

### Footnotes

- The annual interest rate on the Treasury bill is calculated using a 365-day year.
- The average and median rates are calculated using a 365-day year.
- The average and median rates are calculated using a 365-day year.
