How can your library help you?

**Resources**

- Online library guides tailored to your needs. Link it to your own website.
- Sustainability related databases. Access reliable publications.
- Books, periodicals and media. Add your input for building these collections.
- Institutional Repository (digital showcase of your university’s productivity.) Create a place for your sustainability projects, events, research, etc.

**Services**

- Search strategies taught by a librarian. Request a class.
- Films, lectures, exhibits, book discussions. Think Earth Day, campus sustainability day.
- Research and publish with a librarian. Collaborate!
- Contributions on Committees and Councils. Draw from your library’s holistic perspective, connections and expertise.
- Individual consultations. Refine your search and advance your project with one on one support.
