Examining library collections to make them more inclusive is not an easy process. A methodological collection analysis comparing a collection to an authoritative list or collections at peer institutions is one way to identify gaps. However, if a goal is to build more comprehensive collections moving forward, there are a number of tools and resources available to most college and university libraries that are increasingly adapting to help librarians identify and purchase more diverse, inclusive materials.

Always Growing
Please note: the goal of this poster is not to present an exhaustive list, but to highlight publishers and additional resources that may be useful in building more diverse and inclusive collections, one book and one shelf at a time.

**Background**

Examining library collections to make them more inclusive is not an easy process. A methodological collection analysis comparing a collection to an authoritative list or collections at peer institutions is one way to identify gaps. However, if a goal is to build more comprehensive collections moving forward, there are a number of tools and resources available to most college and university libraries that are increasingly adapting to help librarians identify and purchase more diverse, inclusive materials.
