Seminole, Pole Chiefs
To Be Picked By Board
By DAN HACKETT
Seminole and Orange Pole bands will be chosen in the future by an lnformational board that selects Alligator officials, with the same requirements that the band is a result of Executive Council action instead of the proposed constitutional amendments.

The announcement followed the vote by the Student Senate on proposed amendments to the Constitution of the University of Florida. The Gator and Orange Pole bands will be selected in the future by an informational board that selects Alligator officials, with the same requirements that the band is a result of Executive Council action instead of the proposed constitutional amendments.

He keeps up with 440,000 customers

* "If you think this is easy, just try it. It's easy to say..." I don't think I started working in a modern accounting department when I was young."

I trained for about a year and a half in different phases of telephone accounting. Then I was placed in charge of the section which operated the toll operators."

I managed about 50 people in my group with a supervisor overseeing us. That's to keep a running record of monthly changes for all exchanges in Central Massachusetts. That comes to 440,000 different customers."

Vigilante reports their bills as soon as possible and they keep their charges to a minimum."

I've had my share of trouble. Once I had a bill for $1000."

I've never been able to match the sales of any of my competitors."

Salary Raises Should Come First

In the hurry and confusion that most necessarily accompanies a session of the Legislature, Florida's teachers and professors make too little note of the important point that raises salaries for professors. Earned during a session when Florida's teachers and professors are away from their responsibilities, they are, by the time salaries are raised for the rest of Florida's citizens, marked off as one of the outstanding per cent below the average paid.

Would this be a good time to raise fees and salaries for the University of Florida? With Florida among the 30 largest of all universities, and with enrollment mounting each year, and faced with heavy tax demands, the university must, naturally, look to general operating funds and buildings.

Glory Over, But Salt Has Made Its Mark

The week as atomic bombs were exploding was a week in which the University of Florida was coming closer to formality and the German and the Chinese Civilizations, nevertheless, took one giant step forward.

While physical facilities most of course are expanded, the time has come when the University of Florida should hand in a positive report with respect to other institutions and business in respect to the university.

Time and again professors are made at home on the business of the university. What the professor in any university wants is to be able to perform his duties.

Buildings can be constructed in a certain amount of time, but it takes time to fill them. If buildings are to be filled, then it must be possible to provide the necessary personnel.

The university, we are glad to say, is moving forward. Buildings can be constructed in a certain amount of time, but it takes time to fill them. If buildings are to be filled, then it must be possible to provide the necessary personnel.

Florida Needs a Naval ROTC Unit

The establishment of a Naval ROTC unit for Florida State University would open to the state a new avenue of military training for its students and is, the result, to be highly advantageous to the welfare and general prosperity of the state.

Another Blow to Academic Freedom

The tradition of academic freedom suffered a severe jolt in the University of Florida as a result of recent events. The fact is that academic freedom and the tradition of academic freedom have never been more threatened.

This is the moment when the university community must take up the task of warding off the threats and the forces that are seeking to undermine academic freedom.

A Newspaper is a Fine Animal

The Florida Alligator, the University of Florida's student newspaper, is a fine animal. It is well-organized, well-managed, well-written, well-distributed, and well-read.

But it is not without its problems. The problem of the Alligator is not a problem of content, but of the lack of sufficient funds to publish it.
