Rain from north may cause more
flooding

By TONY BRITT
theplacereporters.com

Columbia County may get an inch or more of rain during the weekend, but severe weather isn’t expect-
ed. However, recent heavy rains to the north will result in the continued rise of local rivers in the coming days. Shanye Morgan, Columbia County Emergency Management Director, said the local fore-
casts call for “pop up show-
cers” today that could pro-
duce an inch of rain.

3 inmates missing after Pensacola blast located

A hostage situation at a jail in Florida led to the escape of three inmates who have not been located.

The escape occurred during a violent confrontation at a jail in Escambia County, where at least two inmates were taken to hospitals.

The situation is under investigation by law enforcement agencies.

NEW YORK — One of the most popular songs of all time, Bob Dylan’s “Like a Rolling Stone,” is going to auction this summer.

Sofarly is offering a working draft of the finished song in Dylan’s own hand for an estimated $1 million to $2 million.

The song is about a detective who becomes a lover when he learns something from a social circle.

The draft is written in pencil on four sheets of hotel letterhead stationery with revisions, additions, notes and doodles: a hat, a bird, an animal with antlers.

The stationery comes from the Roger Smith hotel in Washington, D.C.

“Does it feel to be on your own?” asks in his handwriting: “No direction home. No future, no promising town. Unknown Like a rolling stone.”

Scrawls seem to reflect the artist’s experimentalism with rhyme and rhythm.

Dylan was only 24 when he recorded the song.

The auction is June 24 as part of Sotheby’s Rock and Pop music sale.

Sorry, Charlie, the Devil won this one

I t’s a sad tale but the melodramatic strains of Charlie Daniels’ great anthem to America, a song of rebellion—“The Devil Went Down to Georgia”—are all too real as we read some of the latest headlines. As a result, we have a new issue to address: how to make things a whole lot worse.

But now airlines are pressing a new scheme that could be worse. You are getting traction in a compliant Congress. Industry allies are getting support in a Congress not— at least until they run into the tack-ons.

The measure would allow airlines to go back to advertising the way of the free checked bag. The “Transparent Airfares Act” — a misnomer if ever there was one — breezed through a key House committee last month. Little wonder. It is sponsored by the committee’s chairman and its ranking Democrat — Rep. Bill Shuster, R-Pa.

Shuster’s argument that “higher and higher” taxes is why we need this measure is nonsense. It would break the taxes out right under the full price. Travelers want the full cost upfront, and not be ambushed later. How is this rational? How is this fair?

This makes consumers smarter. And perhaps that’s what is upsetting the airlines so much.

Sue Brannon, Community Manager
Dink McNeill, President
Tom Wood, Chairman

M ost chiefs started in the late afternoon by 9 p.m. I was in the main room, and half the kids’ faces were pineapples. I can’t stand that, so I went to the Lincoln Room for a quiet moment. I remember saying as I passed out the paper, “If this is it, it’s been nice!”

I never found out what was causing the problem. When I felt better in the morning, they released me to go home. Right away I realized that my attitude and my strength started to return. I think I had decided that morning to build up my health and fitness, recover thoroughly, and make something of myself in my life: to make the most of what I had to work with, the best I can be, and contribute what I can to the world a little better place because I was here.

In our mental health, our atti­tude, and our happiness related to our health? Does it have an effect on how long we live, the quality of that life? You bet it does. Psychological research has produced many experiments that confirm that the quality of life we live is the most important Psychological research has produced many experiments that confirm that the quality of life we live is the most important

Leadership Failing – Part 2

Explanations to ‘Is Church government’

Since the first century, more than a dozen different forms of church polity have developed. In general, though, these principal types of church government have been most common in the Western Christian Church:

One is the episcopal, coming from the Greek word episkopos, which means bishop or overseer. In this form of government, authority rests with the bishop or bishops. Modern episcopal bodies argue that there is a succession of bishops representing the apostles’ doctrine. Though, there is no such thing as the ‘first bishop’.

A second type of church government is congregational. A council or presbytery makes up the local church. Authority rests with the membership of the local church. The New Testament writers did the same thing when they wrote about necessary church practices (1 Cor. 11:2) but never as a binding. As the apostles’ doctrine became more widely known and as the apostles themselves began to pass away, the church’s autonomy became more apparent. For example, except for occasional reference to a local meeting of the body of Christ, all that the New Testament word church is used in the New Testament is the local assembly. Strictly speaking, there is no such thing as the Baptist Church, only Baptist churches. Not until the third and fourth centuries did church bodies begin to submit to outside authority and institutional organization.

A third type of church government is episcopalian. Modern episcopalian bodies argue that there is a succession of bishops representing the apostles’ doctrine. Though, there is no such thing as the ‘first bishop’.

A fourth type of church government is presbyterian. In this form of government, authority rests with the membership of the local church and the priesthood is involved. Congregationalism stresses human autonomy within the church or over the churches as a whole, and pastors are regarded as equal officers—not church managers. Episcopal is among these three bodies with a congregational polity.

All of these types of church government can claim historic approval in the New Testament. We should keep in mind that God has blessed sincere believers through a variety of systems throughout the years. We wish to discover, as best we can, the New Testament model of church government.

The New Testament does not give detailed instructions about church government. Because we must find the proper pattern in bits and pieces, these notable features of the early church are explained here:

First, church is the New Testament church. The New Testament bears the mark of God’s kingdom. As God’s people are united in Christ, the church is God’s family on earth. This unity is symbolized by baptism. As the early church was united, apostles’ doctrine became more and more widely known and the apostles themselves began to pass away. The church’s autonomy became more apparent. For example, except for occasional reference to a local meeting of the body of Christ, all that the New Testament word church is used in the New Testament is the local assembly. Strictly speaking, there is no such thing as the Baptist Church, only Baptist churches. Not until the third and fourth centuries did church bodies begin to submit to outside authority and institutional organization. In this form of government, authority rests with the bishop or bishops. Modern episcopal bodies argue that there is a succession of bishops representing the apostles’ doctrine. Though, there is no such thing as the ‘first bishop’.

Give kids more safe places to play in your community

A young boy spins around on playground equipment.

Stand/Act

A safe place to play is something that many parents and kids take for granted, but in areas of communities across the US, there are inadequate spaces for children to get off the streets and play different sports.

Many charitable organizations are out there looking to help communities in need. Foundations like the Cal Ripken, Sr. Foundation help build more multi-purpose, synthetic turf Youth Development Parks across the country to give kids safe places to play. The fields that the CRSF are building are done in partnership with local governments, corporations, concerned individuals and youth-serving organizations.

Donate

Many charitable organizations are out there looking to help communities in need. Foundations like the Cal Ripken, Sr. Foundation help underserved kids nationwide through programming and the construction of Youth Development Parks in America’s most needy areas.

When we started the foundation in memory of dad in 2001, we never dreamed it would be as successful as it is today. Today, we are covering 90% of the cost, and the remainder is paid by the kids, their families, and their communities through fundraising and donations. We continue to build Parks in communities across the country and provide programming for kids in need. The CRSF is currently looking for interested communities. You can find more information and ways to donate at www.RipkenFoundation.org.

Volunteer

In many parts of the country there is simply not enough staff to run after-school sports programs. Consider volunteering at a local park or after-school center. Giving your time to help kids in the community can mean the difference between a program’s survival and its demise. Many children are shaped by their time playing sports. You can help ensure that more kids get this important opportunity.

Scholarships for free and reduced lunch kids as well as Exceptional Education Children could pay all of the tuition and are now Available for the 2014/2015 year.

Volunteer

In many parts of the country there is simply not enough staff to run after-school sports programs. Consider volunteering at a local park or after-school center. Giving your time to help kids in the community can mean the difference between a program’s survival and its demise. Many children are shaped by their time playing sports. You can help ensure that more kids get this important opportunity.
Boost your infant’s brain development

When babies are born, their minds are still at work in progress and will rapidly grow and change based on their experience. That means the first few years are critical for healthy brain development.

Parents play a daily role in preparing their child for life by focusing on positive ways to nurture brain development, starting with expectations at birth. Watch how your infant focuses, and moves in time with your voice. As he grows, talk to him about everything he’s experiencing. Even at age three, he’ll be less likely to resort to unthinking, crying or whining. Follow your infant’s gaze to get a sense of what is capturing his or her attention. When it’s appropriate, let your child explore that object. Be aware of your own negative feelings because your child’s brain is “feeling” them as well.

Infants tell us when they’ve had enough and it’s time for a nap by avoiding eye contact, becoming sleepy or fussy, coughing or rubbing his or her eyes. Be sure to smile back. When your baby starts to smile, be sure to smile back. When you laugh, your baby will laugh. When your baby laughs, you should laugh back. It’s a timeless way to build a child’s confidence. The caregiver is there.

Make eye contact with your child from day one. One that could be physical, pats or a touch or even during necessary activities like diaper changes.

When your baby starts to smile, be sure to smile back. Your infant learns healthy, positive ways to get your attention, to express comfort. Even in infancy, it’s an important step to build a child’s confidence that the caregiver is there.

Follow your infant’s lead. Get a sense of what is capturing his or her attention. When it’s appropriate, let your child explore that object. Be aware of your own negative feelings because your child is “feeling” them as well. Infants tell us when they’ve had enough and it’s time for a nap by avoiding eye contact, becoming sleepy or fussy, coughing or rubbing his or her eyes. Be sure to smile back.

Preparation for your baby

While pregnancy can be a joyful time, there can be a lot to think about. Whether you’re a first time parent or you have a growing brood, welcoming your newest family member is a big task. Here are some ways of organizing:

• Do your research. While certain parenting skills are intuitive, there are also many that must be acquired. Gather as much information as you can from other parents, your obstetrician and pregnancy and child development books, magazines and blogs.

• Check-out. Maintain a special calendar for your pregnancy that you can keep on top of doctor’s appointments and other important health reminders, there are several good apps that make this easy.

• Think ahead. Even at a baby store designed for parents’ convenience, shopping will become more difficult over the baby years. So think beyond infancy and consider your baby’s future needs, like different clothing sizes, convertible car seats, safe play areas, feeding accessories and developmental toys.

More tips for expecting parents can be found at www.babybump.com.

The mission of Florida Gateway College is to provide...
FORT WHITE — Fort White High’s baseball team drew a tough opponent in the opening round of the state playoffs and the Indians’ district championship season ended with an 8-2 home loss to Trinity Catholic High on Thursday.

The Celtics (19-8) advance to play the winner of the Bradford High/The Villages High game on Tuesday.

The game was a dead heat through three innings. Trinity Catholic scored one run in the fourth inning, which turned out to be the game’s only run scored.

“Trinity hit the ball well and we didn’t,” Fort White coach Williams said. “We gave them a few breaks. They put balls in play and we gave them some breaks, whether it be overthrows or things like that. Our defense was a little bit off, but Trinity had a good day. They’re a good team.

Williams believes the Lady Tigers will be ready for the chance at the Final Four, especially with the game at home.

“Being at home gives us a good environment to play in,” Williams said. “Our coach said that we’re evenly matched in their paper. I think we’re due for an offensive show. Their shortstop (Haydn Horstmann) is going to Florida State and she’s very hard to get out. She’s probably scored the majority of their runs. St. Augustine said they out hit them both times, but had too many errors.”

Williams and the Lady Tigers experienced their own share of errors against Oakleaf High with five. The head coach is expecting that to change tonight.

“We’re going to need a good game defensively and need to take care of getting your runs. We went through the same thing last year where we didn’t get a lot of run support for our pitchers in regionals.”

Williams hopes that the Lady Tigers’ luck will change this year as they try to make the most of their scoring chances and put runs on the board during the final stretch.

“Trinity hit the ball well and we didn’t,” Williams said. “They’re a good team.”

For both teams, it’ll be an opportunity to get back to the promised land.

“We have two championship game teams squaring off,” Williams said. “They’re hungry to finish what they started. It’ll be a battle of two best in the region. The hardest part about getting to the finals has always been that somebody is just stacked out of Jacksonville.”

Top 10 matchup

Regional Finals tonight

By BRANDON FINLEY
bfinley@lakecityreporter.com

Two teams with championship game experience will square off in the Regional Final of the Class 6A playoffs tonight as defending 6A state champion Columbia High takes on 2013 runner-up Creekside High at 7 p.m. in Lake City.

Columbia comes in as the top-ranked team in 6A and all classifications in the Miracle Sports poll, while Creekside is No. 8 in 6A.

“They graduated 20 of their girls that went to college, but they kind of get a reload going on,” Columbia head coach Williams said. “They’ve been one of the top teams in Jacksonville since they opened. They remind me of Oakleaf. There are similarities in the way they play and the way they coach. Every team right now is capable of winning. We just need a good game defensively and need to take care of getting your runs. We went through the same thing last year where we didn’t get a lot of run support for our pitchers in regionals.”

Columbia High assistant coach Mitch Shoup high-fives Brittney Morgan after a base hit against Oakleaf High on Tuesday.

DEAR ABBY:

My wife and I both served in the military. When she returned from Egypt 19 months ago, she dropped a bomb on me, saying she didn’t love me anymore. She left me with our kids, and we have suffered. The worst part is, our kids and refuses to get a job when it comes to the kids.

She has no more savings and denies -- constant trips out to an affair, which she has been seeing more than me. It has been ever since she got back.

I have no more savings and have suffered.

Deborah

DEAR DEBORAH:

I am a student in a community college. I enjoy the diversity of the students here; many are adults who are changing careers or getting the education they’ve always wanted.

One woman in my class has a habit of bringing her 2-year-old who I understand that sitter can be very distracting and help is expensive, but this disrupts the class -- and I know it distracts the mother. She often has to get up mid-leison when her child needs to use the restroom.

I want to stop on toenails or in people’s private lives and I should have made arrangements

Sherry

DEAR SHERRY:

I wholeheartedly agree with you that the mother does not have a right to decide who should care for her child in the school setting.

PS. Colleges have baby-sitting facilities on campus.

Debbie

DEAR DEBBIE:

I am a single mother of a 2-year-old boy. Zack. His father has shared custody, but he doesn’t have a very good co-parenting relationship.

Shortly after I gave birth, he left me to be with a woman he had met while I was pregnant, and they are still in a relationship.

She thinks of me to post pictures of Zack on her social media sites and has a problem with this, and not least of all that it is incredibly hurtful to see another woman pretending she is in a “mother” role with my son.

I have confronted my ex about this, and although he told me he would stop it, he also told me it is none of my business what happens while Zack is in his care.

I am right to make this an issue, or do I need to move on and accept that this woman is in my son’s life? — OFFENDED IN SAN JOSE

DEAR OFFENDED:

I sympathize with the frustration you are feeling, but I can’t say what’s happened that’s dangerous. It appears to be to your ex’s welfare, as well.

I don’t know how serious he is about being with this woman, but that will add to your personal stability. If you are willing and able to give these young people a chance, the lawyer can help you determine whether the child needs protection. You have a right to have this woman’s character determined.

Debbie

DEAR DEBBIE:

If you haven’t consulted a lawyer to seek custody of your child, NOW is the time. He won’t have to file a lawsuit or use sanctions.

I would like to have custody of my daughter.

Sharon

DEAR SHARON:

You should consult an attorney to protect your rights. You are not standing still. A change will allow you to use your parenting time more effectively.

Debbie

DEAR ABBY:

I was pregnant, and they turned off by his smell that unusual way and you will ally. Use your skills in an opportunity profession-

I was off and on, but must follow through.
