L.A. shooting suspect holes up in cabin

Associated Press

BIG BEAR, Calif. — The extraordinary manhunt for the former Los Angeles police officer suspected of three murders began converging Tuesday on a mountain cabin where he was believed to have barricaded himself inside, engaged in a shootout that killed a deputy and then never emerged as the home went up in flames.

A single gunshot was heard from within, and a charred body was found inside.

If the man inside proves to be Christopher Dorner, the search for the most wanted man in America over the last week would have ended the way he had expected — death, with the police pursuing him.

Thousands of officers had been launched a campaign to exact revenge against the Los Angeles Police Department for his firing. They said he threatened to bring "warfare" to officers and their families, spreading fear and setting off a search for him across the South- west and Mexico.

"Enough is enough. It's time for you to turn yourself in. It's time to stop the bloodshed," LAPD Cmdr. Andrew Smith said at a news conference outside police headquarters in Los Angeles, a starkly different atmosphere than last week when officials briefed the news media under tight security with Dorner on the issue.

A short time later, the man inside spoke.

Nearby 150 residents and staff members of the New Horizons Village, a home for developmentally disabled adults, had a Mardi Gras parade Tuesday on their Lecanto campus.

ABOVE: Residents decorated bikes, bicycles and floats and don colorful masks like the one full of feathers Sandy Morrow wore. Traditional purple, green and gold colors ruled during the parade, complete with Zydeco music provided by Pete Molina of Pand Entertaiment.com. RIGHT: The parade consisted of three laps around the facility. Those riding on the floats, including Denise Clark, toss beads to friends, family members and others watching the display. BELOW: LPN Jennie Borum, dressed as a pirate, tosses beads toward the crowd as she rode alongside resident Patrick Martin and Kim Jameson. Active treatment facility daytime supervisor Marsha Abreu spoke of the event with pride. "This makes them happy," she said of the activity. "They can actually put on a parade and that's important for the sense of accomplishment."

BOCC to study other sources of revenue

Commissioner Adams not sold on idea

By a 4-1 vote, commissioners on Tuesday agreed to proceed with finding ways to fund county government beyond property taxes.

"Ad valorem resources are declining. We hope they have hit rock bottom. But obviously that is not something anyone can predict with any measure of accuracy," said Heather Encinosa, representing Nabori, Giblin & Nickerson, a law firm that specializes in advising local governments about funding.

Encinosa presented a scope-of-services proposal costing $85,000 between her firm and the Citrus County Board of County Commissioners (BOCC) creating three new positions: a tax assessor, an auditor and a coordinator, an MSBU for fire protection services and an MSBU for road panel services.

"Not all of those positions are fixed numbers. Municipal Services Board Unit (MSBU) is a non-ad valorem assessment. Municipal Services Taxing Units (MSTU) are ad valorem assessments for a service used throughout the county," Encinosa said.

The service might be completed in May, with a report released in June.

Adams countered that ad valorem taxes go up and down for a reason — because the economy goes up and down and people's incomes go up and down. The fluctuation was what would hold government accountable to spending what the people could afford, Adams said.

Adams countered that ad valorem taxes go up and down for a reason — because the economy goes up and down and people's incomes go up and down. The fluctuation was what would hold government accountable to spending what the people could afford, Adams said.

Panel votes 3-1 to replace chairs in Curtis Peterson Auditorium

Staff writer

INDEPENDENCE — Citrus County School Board members voted Tuesday to replace seats that have been in place since Curtis Peterson Auditorium was built 30 years ago.

The vote passed 3-1 with board member Thomas King voting no. Board mem-

ber Doris Bateman voiced con-

cerns about the $175,000 cost, but voted for it to avoid a 2-2 tie that would have defeated the auditorium plan.

The board has only four mem-

bers since Susan Hale’s resigna-

tion last June of a March meeting, so the board has given it time for nam-

ers to respond. American families living on bases overseas.

I don’t want to find out we don’t have money for technology next year because of those seats in Curtis Peterson.

Crystal River unveils plan for North Citrus

Crystal River — city officials strive to achieve uniformity in street architectures between North and South Citrus Avenue and provide a foothold for the north side to meld closer to reality.

During the Community Redevelopment Agency (CRA) meeting Monday, Crystal River Public Works Director Dave Bur- nell unveiled a plan to build refurbished street sidewalks made of pavers, benches, trees and shrubs to the area.

There also is an option for a median along South Citrus Avenue, a plan Burnell said the project may not be feasible because of the CRA’s input before con- sideration.

“IT’s more extensive than you think,” Burnell said. “It’s a good idea to have busi-

ness’ input before consid-

ering the issue.”

Burnell expects to ad-

dress the CRA next month. For information, call Kennedy at 352-564-2925 or akennedy@chronicleonline.com.

WHAT: Crystal River City Council meeting

WHERE: City Hall, 513 N.W. 13th St., Crystal River

WHEN: 6 p.m. today

MEETING: Public.

We are working with employees now. ‘We have a number of open positions in Florida and they will receive precedence for other Duke nuclear sites.’ There will be severance pay available and in the long term, the plant known as CR3 will probably employ 50 to 80 employees. It’s still going to be an impact to the community,’ Glenn told the Chronicle Editorial Board on Thursday afternoon. It will not happen next year, there they are still forming requirements that need to be met along with things like the post-Fukushima meeting regulations. ‘There is going to be a high level of activity at the plant for the next several years.’

Duke will push for reforestation and will be reviewing and are now developing a plan to be in place for the next five to 40 years.

WE ARE WORKING WITH EMPLOYEES NOW. ‘WE HAVE A NUMBER OF OPEN POSITIONS IN FLORIDA AND THEY WILL RECEIVE PRECEDENCE FOR OTHER DUNE NUCLEAR SITES.’ THERE WILL BE SEVERANCE PAY AVAILABLE AND IN THE LONG TERM, THE PLANT KNOWN AS CR3 WILL PROBABLY EMPLOY 50 TO 80 EMPLOYEES. IT’S STILL GOING TO BE AN IMPACT TO THE COMMUNITY,’ GLenn TOLD THE CHRONICLE EDITORIAL BOARD ON THURSDAY AFTERNOON. IT WILL NOT HAPPEN NEXT YEAR, THERE THEY ARE STILL FORMING REQUIREMENTS THAT NEED TO BE MET ALONG WITH THINGS LIKE THE POST-FUKUSHIMA MEETING REGULATIONS. ‘THERE IS GOING TO BE A HIGH LEVEL OF ACTIVITY AT THE PLANT FOR THE NEXT SEVERAL YEARS.’

Duke: Nuke plant impact will be gradual

CITRUS COUNTY (FL) CHRONICLE WEDNESDAY, FEBRUARY 13, 2013

Duke: Nuke plant impact will be gradual

CRISTAL RIVER — Putting the nuclear plant in mothball and cutting staff will be a drawn-out process.

‘Nothing happens overnight,’ said Alex Glenn, president of Duke Energy’s operations in Florida. He said company officials will essentially pull the plant out of mothball status in the next five months and are now developing a plan to be in place for the next five to 40 years.

“We are working with employees now,” he said. “We have a number of open positions in Florida and they will receive precedence for other Duke nuclear sites.”

There will be severance pay available and in the long term, the plant known as CR3 will probably employ 50 to 80 employees.

“It’s still going to be an impact to the community,” Glenn told the Chronicle Editorial Board on Thursday afternoon. “It will not happen next year, there they are still forming requirements that need to be met along with things like the post-Fukushima meeting regulations.”

“There is going to be a high level of activity at the plant for the next several years,” he said.

He said they are reviewing a potential gas plant to be built in several counties, including Citrus and are considering both existing power plant sites and new ones.

Glenn said the decision to retire CR3 was based on technical and economic analysis and the president and said the plants will be phased out in 2015 to 2018. As a result, he said, it will need to get more energy by 2015. The utilities are a new nuclear plant in the middle of the country.

“We will need to get more energy by 2015,” he said. “It will need more energy by 2015. The utilities are a new nuclear plant in the middle of the country.”

Obama announced a tax increase on high-income earners.

On the economy, Obama offered few signs of being willing to make any major modification to ongoing deficit reduction efforts. The president said his budget would include changes to Medicare, though he said that he would be willing to discuss a bill that would change the eligibility age for the program.

They were not expected to push for reforestation and will be reviewing and are now developing a plan to be in place for the next five to 40 years.

### Dow Near Record

NEW YORK — The Dow rose to its highest level since the start of 2008, soaring 46 points from a record set the day before. Stocks gained after impressive results from two big consumer brands.

The Dow Jones industrials climbed 46.74 to 14,018.70, putting the benchmark above the record close of 14,015.85 set on Oct. 16, 2007. The Standard & Poor’s 500 index gained 2.17 points to 1,594.43, also close to its historic high.

In a quiet day of trade, stocks were driven higher by beauty products maker Estee Lauder and luxury clothing company Michael Kors, whose results impressed investors. "It’s boosting the entire economic activity in the U.S."

Financial and home building stocks also rose, led by Bank of America, which switched some of its business to buybacks.

The Dow has surged at the start of the year, climbing its best January in almost two years. But the buybacks meant to avoid the "cliff" of spending and 3,000 cuts. Investors are also becoming more comfortable with the housing market.

### Rhode Island Struggles with Highest Unemployment

**Associated Press**

**Prov/Chrg. R. I.**

Rhode Island is reeling in the wake of a gashing cosmetics company into the big-time gainer on the S&P 500.

Expectations, turning the long-suffering state from its record low, plunged 80 percent, as the industry struggles to find a footing in the big-time gainer on the S&P 500.

The credit and business data com- for the third quarter, across the country.

The Dow rose $5, or 9 percent, slashing costs. Michael Kors rose $5, or 9 percent, after impressive results from two big consumer brands.

A 24-year-old Army veteran who has gotten by on part-time work since losing his job as a waitress in Providence last year, is turning to a Providence bookstore in the hopes of finding a new job. "I sit in my apartment all day, all night," she said. "I just don’t know what to do." 

"It’s up to state workers to extend emergency unem- ployment benefits in Rhode Island in the wake of another 25,000 claims. The state’s unemployment compensation program was set in October 2007. The S&P 500 was 1,350. The Dow Jones industrials climbed 46.74 to 14,018.70, putting the benchmark above the record close of 14,015.85 set on Oct. 16, 2007. The Standard & Poor’s 500 index gained 2.17 points to 1,594.43, also close to its historic high.

This is "not a good sign" for the state’s unemployment rate, which could peak during the recent recessions and 11.8 percent.

The Dow Jones industrials climbed 46.74 to 14,018.70, putting the benchmark above the record close of 14,015.85 set on Oct. 16, 2007. The Standard & Poor’s 500 index gained 2.17 points to 1,594.43, also close to its historic high.

In a quiet day of trade, stocks were driven higher by beauty products maker Estee Lauder and luxury clothing company Michael Kors, whose results impressed investors. "It’s boosting the entire economic activity in the U.S." The Dow has surged at the start of the year, climbing its best January in almost two years. But the buybacks meant to avoid the "cliff" of spending and 3,000 cuts. Investors are also becoming more comfortable with the housing market.
Tea party still going strong

Henry Kelley Florida correspondent

But here we are, really? So dead? Karl Rove just last week had to do a full court press to convince the Republicans to nominating ‘electable’ candidates like Romney, McCain, Scott Brown, or even Thune. We think Rove is for it and Thune and the inner circle of the Republican Party is for it.

Well, that’s the opinion of the Republicans now have Team Obama/Rove, and we have our principles, and we have not been bought by money for basic services. We are not using the lies and fiction. I, gas, endow war, insurance companies, and Obamacare liars, I am under- standing that Team Obama/Rove are attacking us instead of talking about anything other than the health care that the federal government is making available to build a road and the road construct

We are not as concerned about health care options for the county. We are not as concerned with the idea of the county hospital governing board having some of the property tax dollars, or keeping the road construct

No matter how the pun

to the tea party, the Democrats are con

ranging health care options for the county.

The need that should be

Who is responsible?

Who is responsible for Cedar Key’s water going salty? Once we are in withdrawal, we will never have to think about it ever again. Will that be able to be handled properly? Who is responsible for not providing enough for people’s water?

Panthers exit district play for at least one year

The ball wasn’t bouncing Lecanto High School’s way as the Panthers made their own break.

On Tuesday morning, Lecanto officially announced it had successfully petitioned the Florida High School Athletic Association to leave District 6A-5 and into District 6A-6 with assistant coach Matt McKinley in a direct response to the FHSAA’s final football district realignment released at the end of January.

In the district, Gainesville High School and Ocala Forest dropped from Class 6A to Class 6A-6 and into District 6A-5 with 25th-ranked eight assists, Pat Young recorded his sixth injury. star Nerlens Noel go down with a knee

For most golfers, this is truly a turning point in the year-round support for a Valentine’s Day charity golf tournament. This year's event will be held on Feb. 25, at Sugarmill Woods Golf Club, with proceeds from the event benefiting The Boys & Girls Clubs of Citrus County.

The scramble will benefit The Boys & Girls Clubs of Citrus County and is open to all levels of play. Sponsorships for other components of the event at all levels are available by contacting Duane Acha, events coordinator, at 352-746-3262, ext. 231, or via email duane.acha@citruscountysunn.com or call 746-9028.

The Boys & Girls Club is the largest youth development organization in the country, providing kids with a safe place to learn and play. Every day, in every community, Boys & Girls Clubs make a difference in the lives of young people by teaching them the skills they need to grow up healthy, strong and independent. The Boys & Girls Clubs of Citrus County serves more than 1,000 youth after school, on weekends and during the summer months. For more information, call Duane Acha, events coordinator, at 352-746-3262, ext. 231, or via email duane.acha@citruscountysunn.com or call 746-9028.

Vijay Singh admitted to using a banned substance, but the PGA Tour is taking its time to determine the integrity of the player. Singh has been a key player on the PGA Tour for many years, but recently, he admitted to using a substance that could potentially affect his performance. The PGA Tour is currently investigating the matter to determine the extent of Singh's use of the substance and whether it violates the tour's anti-doping policies.

The beauty of this hole is that you have to carry your approach out of the trees. That's the one time the PGA Tour really cools down and goes into the trees. It's a must-play, it's a must-hit tee shot.

Tournament of Champions postponed

A perfect storm was brewing over the PGA Tour's Tournament of Champions. A combination of players and the flu and an important event this weekend were making it unlikely that the tournament would go on as planned.

Thursday Morning Citrus Area Doubles League

This is a must-play, it's a must-hit tee shot. Even a 6.0 handicap can score 90 on this course.

Singh needs to take a break for drug use

The Associated Press

LOS ANGELES — This is the time of year when players need to avoid the perception that they are taking a break.

It has been two weeks since Singh, a former Ryder Cup player, pulled out of the Australian Open and then said he was going fishing and "golfing for a living" before he was "looking forward to some change in my body." Singh flashed a smile at the news conference on Tuesday, but he also showed a hint of anxiety as he announced he would not play again for at least a month.

The Associated Press

The tournament is not taking relief, even for Singh, who is among the players to be inserted in the field.

"I'm sure it will be a difficult time for me," Singh said. "I have been playing for a long time and I am sure it will be a difficult time for me to stop."

The Associated Press

Singh met with PGA Tour Commissioner Tim Finchem at Pebble Beach, and the two men discussed Singh's future.

amount of time to essentially relearn skills that never truly falls off, then your team could easily order district play!

**Guess**

Nearly all of the districts, currently listed as individual high school districts, which are composed of the only regular-season public high schools in the county, are currently under the same kind of upheaval. Lecanto is most like the latter, but not sure what the long-term outcome is.

A brief history lesson: In 2001-02, when Citrus County’s three districts first went under the microscope, there were 24 schools, including three clubs that were both baseball and basketball programs. In those days, there were all eight teams in a district, with all eight teams playing each other four times on the field and once in basketball.

The first season under the new district structure was 2002-03, and Lecanto has vacated a victory for using a ineligible player.

This year, Lecanto is 2-3 overall. Though Lecanto got to play two or three district games, its starting left fielder was out for nearly all of those games on the field and the hitting charts. It was still a strong showing and providing some fuel for the Panthers’ district. It’s a long way to go in a 41-7 season for an 8-14-0 team.

Regardless of how the administration tries to spin it, this is a segregation of the students.

Notwithstanding the circumstances, the decision will surely be polarizing amongst the players, the parents and the community.

We involved as many of the stake- holders as possible, and it was a good decision that could be made in that circumstance.

The difference was also had three blocks.

Regardless, all the other teams are working on their own, but the Panthers are still a very strong district team.

Lecanto’s graduation rate is way below the state average.

The Panthers might not be playing a very good team, but the Panthers are still playing a very good team.

The Panthers were ranked No. 2 in the nation.

**Hurricanes storm past Lake Weir on softball field**

- Jessica Lippitt (3 for 3, R/B) and key assistance from Orlando Garcia led Lake Weir to a 3-0 victory at Lake City.

- Two freshmen, who had a reverse league and added a east, led left-handed pitcher.

doped lead Citrus girls tennis to win

On Saturday, the Citrus girls tennis team won the District 9-1A tournament in Plant City, beating out 15 other teams.

Dodd, in her third varsity season, beat them in the finals after a tiebreaker to win the second match against the Panthers' Jeryn Price.

Since Dodd led the Citrus girls tennis team to the district championship last year, she has continued to excel in her sport.

The Citrus junior also competed in the No. 1 doubles match during the state tournament this past season.

She finished the year ranked No. 4 in the state.

Teachers delve into Marine experience

Project designed to give educators clear understanding of the Corps

TROY REED
(Streetcar/ Herald Review)

The Marine Corps, always out front in the battle to win hearts and minds, has come up with a plan of ‘Semper Fi’ high program to equip educators about the process of turning kids into Marines.

And two of its latest recruits are Mike Conlin, the athletic director and head coach at Carlinville High School in Moweaqua, and his wife, Shawn Conlin, who teaches eighth grade at Meridian Middle School in Bloom. They will fly out April 22 for an intense five-day program based at the Marine Corps Recruit Depot in San Diego.

The idea is not to craft warrior pedagogues armed with really aggressive authentics who can be parachuted behind the lines to demoralize the enemy, but to help the teachers get back to their classrooms with a clear understanding of just what the Marines are about and how they achieve it.

Then, when students considering a military career raise their hands in class to ask a question, their mentors can come up with something more than an educated guess about what those young charges can expect.

The Conlins will be shown where discipline and teamwork meet, and train, and they will also experience a healthy slice of basic training. For those among us who base their knowledge of the Marine manufacturing process on watching reruns of the movie ‘Full Metal Jacket,’ coping with civilian educators with guns in Marine drill instructors might seem a little daunting.

But they were also pushed by a visitor, which they recited once the “button” was pressed. "I am Neil Armstrong." "One giant leap for mankind. 'One small step for man, a large leap for mankind." "I am a fighter pilot. In 1962, I was chosen to go to space training," Mullins said. "One step for man, a giant leap for mankind." "I am an astronaut. In 1969, I walked on the moon. 'One giant leap for mankind.'" "I am an astronaut. In 1969, I walked on the moon. 'One giant leap for mankind.'"

No soil needed in this garden

Hydroponics feed campus

JOSEPH STEPMEN
Editors/ News-Gazette

ALLENSPORT, Pa. — With a sea of red and yellow peppers glowing like a pre- viously unseen Pennsylvania College of Technology greenhouse, a look of a traditional gardening area at first glance. But upon further inspection, tubs pumping a water and nutrient mixture to rows of plants in plastic containers give a very different impression.

A 966-square-foot heated greenhouse that grows more than 3,000 heads of lettuce, 100 heads of broccoli and a variety of fresh, locally grown produce on campus.

The produce, however, isn’t being

NCLB waiver weakens grad rate accountability

Some states tripping No Child Left Behind requirements

Associated Press

Many states granted waivers from the No Child Left Behind law are relaxing or ignoring federal regulations designed to hold schools accountable for the number of students who graduate from high school on time, according to a new report released Thursday.

When No Child Left Behind was signed into law in 2001, states used such many different ways to calculate graduation rates it was almost impossible to know how many students in the U.S. finished high school with a regular diploma.

The U.S. Department of Education tried to fix that in 2008 when it established federal requirements for reporting and holding schools accountable for how many students graduate. But now, with 34 states and the District of Columbia granted waivers from No Child Left Behind, some are relaxing or ignoring some of those requirements, potentially allowing low-performing students to fall through the cracks once again.

The Alliance for Excellent Education, a D.C.-based gay organization that tracks education policy, and political consultant Bob Wise, studied the waivers granted to each state and concluded that only a few states are fully complying with the

HONORS

Larry Warren High School stu-
dent Tristin Hatcher and twin brother Richard Rizzolo have been named the West Citrus Elks Lodge No. 2693 students of the month in January, according to Kathleen, 17, the daughter of Larry and Karen Hatcher of Homosassa.

Kathleen has served in Link Crew for the past three years and is currently serving as a mentor to incoming freshmen at Larry Warren High School. She was also named to the 2012-13 National Honor Society. He has a 4.1 weighted GPA, has been the principal’s honor roll winner, and was the principal’s award winner in Chemistry II and had perfect attendance grades in 9th and 10th.

Rizzolo, 16, is the son of Greg and Kelly Rizzolo of Crystal River, a three-year member of the National Honor Society and a two-year member of Future Business Leaders. He has a 4.2 weighted GPA and has been a member of Link Crew for the past three years, serving as a mentor to incoming freshmen at LWHS. He was named to the 2012 National Honor Society. Rizzolo plans to attend the University of Central Florida and major in criminal justice and forensics.

Jennifer Lamond of Cristo- fornt Rock High School Inverness and Gary Williams of Crystal River, both of whom are student-athlete seniors, have been named the state’s list for academic ex- cellence for the fall 2012 term by Springsfield High School in Springsfield, Mass.

Seven Rivers Christian School senior Albert Green was recently awarded the Sil- ver Key in the 2012-13 Scholastic and Artistic Writing Awards. Green indicates that his academic achievements, literary and technical skill, and overall character, along with his various extracurricular activities have earned him college credits by graduation.

Rizzolo is a four-year mem- ber of the basketball team, serving as captain his senior year and helping the team win its 2012 district title. He was named All-Chronicle Team Player in grades 10 and 11. He is also an eight-year mem- ber of the Citrus Wildkats’ AAU basketball team. He has had more than 220 hours of community service, which includes coaching the LSHS Panther Basketball Camp, mentoring incoming ninth- graders and collecting food for the Daily Life Center.

On Saturday, Feb. 16, in conjunction with the January ceremony of the National Honor Society, students will be recognized as Honorable Mention, Honorable Mention with Distinction, and recipients of the Silver Key Award. Nominations will be due by Dec. 1. For more information, call Mrs. Dufresne at 352-344-2777 or email mdufresne@ccs.k12.fl.us.

FUNDRAISERS

The Citrus Spel- l-a-Rama Spelling Bee will be held on Tuesday, Feb. 19, at Pleasant Grove Elementary School. The event will begin at 4 p.m. at Rock Creek Elementary School.

The Student Council of Springsfield High School has joined together to support the Boys Toy for Tope Fundraiser for Leased Primary School. Boys Toys Education can be found at the Citrus Spelling Bee. Proceeds from the event will be donated to families of children with per- sonalized inflatable rides.

There are two drop boxes — one in the lobby of the West Citrus Woodlands Club, and another in the Mili- tary Dollar Store on West Citrus Avenue in Crystal River. For a complete listing of the products, go to www.RotarySMC.com.

For more information, call Karen at 352- 746-4355.

The Rotary Club of Sug- arloft and the Rotary Interact Club of Leesburg High School have joined together to support the Boys Toy for Tope Fundraiser for Leased Primary School. Marines

Marines are continously looking for marine science information to bridge too far in terms of school. When you ask a student why they are interested in marine science, they will say, “I am a marine biologist!” The fact is that marine science is a broad field and it is not as simple as just being a marine biologist. It’s important to understand the different aspects of marine science, and to get a better understanding of the challenges that they face.

Marines, especially given their unique circumstances, need to be prepared for the challenges that they face. They need to be able to adapt to new situations, and to be able to think critically about the problems they face. They need to be able to communicate effectively, and to be able to work well with others.

Marines are also faced with the challenge of maintaining their health and well-being. They need to be aware of the risks associated with their work, and to take steps to protect themselves. They need to be able to cope with the stress that comes with their job, and to find ways to maintain their mental health.

Marines are also faced with the challenge of maintaining their fitness. They need to be aware of the importance of physical fitness, and to take steps to stay in shape. They need to be able to maintain their strength, and to be able to do the demanding tasks that they face.

Marines need to be aware of the potential risks that they face. They need to be able to take steps to protect themselves, and to be able to cope with the stress that comes with their job. They need to be able to maintain their fitness, and to be able to do the demanding tasks that they face.
The InvenSense Doze No. 232 recently donated these $300 scholarship awards to Withlacoochee Technical Institute students. Standing, from left are Student Tonya Monge, Scholarship Chairman Jenni Lynn Page, Scholarship recipient Layne Eggers, Withlacoochee Technical Institute Scholarships Co-Chairman, Donald Lucon, Duval scholarship committee chairman.

10. These two offers a brief overview of Microsoft Office Web-Apps. If you have access to Mi- crosoft Office Live ID you can create, open, edit and share documents in the web browser. Office Web-Apps are a free tool available to anyone with an Internet connection and a browser. Features include the ability to create new documents, edit documents from any computer, and share documents with others. Excel and Word can create documents for free, but you must have a Microsoft account in order to edit or share documents with others. Office Web-Apps are available at www.office.com/apps.

11. Skinner was all in.

12. Layne Eggers, assistant professor of Agriculture, said he "jumped at the opportunity to be in this initiative." He said he has been working 30 years with vegetables in Citrus County and has seen many changes in the industry.

13. The Citrus County Produce Company produces seven types of lettuce, tomatoes, cucumbers, squash, and eggplant. "We have a small school that runs a ‘nutrient film technique’ system, which uses tubes to control the nutrient solution. This enables us to make multiple moves through our greenhouse with one system," Eggers said.

14. Water is recirculation by means of a system of pipes that are constantly pumped outward from the greenhouse, which connect to recirculating systems. "When you have tomatoes growing in a greenhouse and you have a letter to Education Sec- retary Arne Duncan stating waivers were including graduation rates of differ-
ents to the plants.

15. Skinner said choosing the "system of cultivation was easy on decisions as it's a perfect fit with the college mission of looking for emerging technologies." Although the practices aren't new, "it's a way to get students to learn leadership," Eggers said.

16. But the project just isn't complete yet. "We’re learning about the program," Eggers said. "We’re learning about the program," Eggers said. "When we harvest in a quarter of the lettuce, we’re going to start learning the parts of doing business with the growers." Eggers said the lettuce was the first to taste the "It was awesome," he said.

Every year, people and their pups gather at the Westminster Kennel Club Dog Show, which is part of the Tennessee Walking Horse National Celebration. The show is held in New York City and is one of the largest dog shows in the country. People from all over the world will watch it on TV or online.

The Westminster Dog Show is the second-longest continuously held sporting event in the United States. Only the Kentucky Derby has been going on longer, by one year. The 173rd Westminster Kennel Club Dog Show will be held Feb. 12-13 this year in New York City.

Meet David Frei

David Frei (fry) has been the TV co-host and color commentator of the Westminster Dog Show since 1997. He’s also the master of ceremonies for the Westminster Kennel Club Show and the Westminster Weekend, which includes the Westminster Junior Show, the Westminster Breed Show, and the Westminster Kennel Club’s Meet the Breeds! events. Frei, along with other experts, helps people learn about the history and making of a dog breed.

Dogs on the job

Some dogs have been bred for a single job, like those that are good at digging, running fast or herding. Other jobs are shared by different breeds, when each breed is good at a different thing. Dogs might have been bred to herd sheep, for example, for their ability to encourage movement and drive a herd of sheep in the right direction. Dogs might have been bred for the same activity, like the Greyhound, which is bred to be fast, or the Whippet, which is bred to be fast and agile. These pointers are being judged for winners of other breeds that were separated even further into varieties. Some varieties, like the Greyhound, are separated by size, weight or activity. A-dog and B-dog are chosen from among the final winners of each variety, one for each gender. The two dogs will be matched together. For example, one variety might be separated by size and another by weight. The two dogs might be matched together.

Caneine champs

In dog shows, judges imagine the dog doing the job it was bred to do. They look for special traits that help the breed do its job well. Dogs such as those that are good at digging, running fast or herding are rated accordingly.

People often prize specific looks, so the judge will also look to see if the dogs have the right color or eye color. They might look for examples of the right eye color or eye color.

Many dogs don’t need to do the jobs their ancestors were good at because modern dogs don’t need to do the jobs their ancestors were good at. Today, most people want their dogs to be good companions. We don’t need dog shows where the dogs are judged on how much they can do a certain job.

New breeds

The Westminster Kennel Club is looking to have new breeds added to its list of eligible breeds. The club uses dog shows to help people learn about the history and making of a dog breed.

Best in Show

In the Westminster show, the big dogs are decided into seven groups: sporting, hound, working, terrier, toy, non-sporting and herding. The Best of Breed winners go on to compete in one of these seven groups.

The group will be held at the Crystal River Public Library, 601 S. 8th Street. For more information, call Stephanie Hopper at 352-594-5490.

Citrus Macintosh Users Group

Citrus Macintosh Users Group will have its annual Social Security session and a Valentine’s Day lunchtime meeting Tuesday, Feb. 12, at 12 p.m. The meeting is at the Key Clubhouse, 1715 Forest View Lane, Lecanto at 352-582-3275.

Citrus, a yellow Labrador retriever, has been named the Florentine’s “Dog of the Year” by the Italian Chamber of Commerce. His owner, James Florentine, organized a Miami Beach parade to celebrate his dog’s victory. The parade included a float decorated with a large yellow ribbon, and Citrus was the center of attention.

CMUG members to socialize in real time Classes in February will include iPad, iPhoto instruction. Call Betty Berger at 352-464-4955.

Free caregiver support

If you are a caregiver of a loved one with dementia or Alzheimer’s disease, you are invited to a free event! Wednesday, Feb. 6, at 5 p.m. The event is sponsored by the Florida Department of Elderly Health Services.

Free caregiver support

The group will be held at the Crystal River Public Library, 601 S. 8th Street. For more information, call Stephanie Hopper at 352-594-5490.
Dear Annie: Our daughter is planning to get married. We decided to give her a jump start on the wedding, and she created a budget to handle all aspects of the event. Unfortunately, she selected a wedding gown based on her price, and it does not flatter her. She and I would like to purchase something closer to the dress she dreamed of, but we are not able to. 

Dear Annie: We celebrated Anna’s adoption multiple times—right after her birth, at her baptism, when we gave her a baby shower and then after her home court house. We reminded each of these events and told him we love Anna and don’t like his implication that she cannot wear the dress until he marries her. New and we hope this will open her eyes. We are so happy for her birthday. Thank you to all those who sent her a gift from us and wish her a happy birthday. We love her.
