A drill line of Fine Garden Seeds in bulk.

**FERTILIZER FOR CORN**

The people of Florida are welcoming to the possibilities of Sauter's Fertilizer for Corn production. Some Florida farmers have planted their hundreds of acres of corn with Sauter's Corn Fertilizer and have reaped a bumper crop from our stock of corn. We are now in the market with our best stock of corn seed. Our customers are asking for more corn seed and more corn fertilizer. We are glad to fill their demands.

**SEED POTATOES—ROSE No. 4**

Ideal Potato Manure

**FARMERS AND RISERS**

The editor of the Central Illinois, a paper published in Champaign, Illinois, has the following to say: 

"When you have a good communicable subject, it is the duty of a good teacher to take advantage of the public mind and to help in telling a good story. The teacher should never be afraid of the power of his subject. He should let it work for him and not for the world. He should make his students forget that they are learning anything. He should let them learn by themselves."

**THE GLOBE**

The Globe is printed in Florida and is the official organ of the Florida Agricultural Society. It is a weekly newspaper and is published every Thursday. It covers all matters relating to agriculture in Florida.
