TREATMENT OF FLORIDA PRISONERS

Address of Governor Gilchrist Before the National Prison Congress—Death Rate Remarks With Lowest.

Seattle, Wash., Aug. 15, 1898.
To the Editor Osca Barner:
Governor Gilchrist, of Florida, spoke as follows today in the National Prison Congress:
Mr. President, and Members of the National Prison Association of the United States:
As governor, and chairman of the board of prison control of Florida, which board has full power over the prisons in the state, and as chairman of the board of prison control, it is my duty to report, and I shall be glad to answer any questions that may arise from the representatives present, and to address you in respect to the corrections of the state.
A word of caution, if you may, of Florida as far as its institutions are concerned. It is a strong state, with a large number of prisoners, and some of the prisoners are a menace to the community. It is important that we should have some sort of control over the prisoners, and the state has taken steps in that direction.
