A Correction.

During the past week considerable comment has been passed on the published report in the Tribune of the lunacy commission appointed to examine W. C. Rawlinson. That paper stated that the commission reported him sane, but recommended that he be placed in a hospital. We have been asked by members of the commission to state that our contemporary was in error and that no such recommendation was made, and it was beyond their power to make any such suggestion to the court. The commission was composed of Dr. E. E. Rollins,

Dr. W. E. VanLandingham and Col. E. C. Summerlin, who turned over their report to the sheriff last week and it was sent to Judge Jones. We endeavored to secure a copy of the report but failed to do so. We make the above statement on the request of those interested.

Card of Thanks.

The children of Mrs. E. F. Beville wish to extend their thanks to the numerous friends who assisted them during the illness and after the death of their mother.
