The SICK TREATED

At Prices to Suit Students

No Drugs—No Surgical Instruments

Since opening up office in Ocala last March I have treated a number of patients very successfully in cases of bronchitis, fever, croup, whooping cough and other affections. No drugs were administered. This method of treating is very safe and the results are wonderful. The patients are up and about in a few days. They are kept up by proper food and exercise. I am now treating a number of cases which I hope will be cured. If you have not tried this method of treating for your ailments, I would like to treat you. I will use no drugs but introduce the patients to proper food and exercise. I will treat them free of charge.
