The question of your paper will correspond to the quantity of sup-
pressed that it is given. There are such a thing as encouragement,
but there is not too much of it coming our way. We know that
a newspaper, like a solider, can only fight as long as the stone
of supplies are supplied. We are not all
plains and if we were the ho
air of our will be supported.
Neither are we possessing living of the community and giving nothing in
return, it is not even you can get
such a bargain in a newspaper.
