The quality of your paper will be judged to the quantity of it that is given. There is no such thing as an over-extended article, but there is too much of it in your paper. You know how to write a newspaper, like a soldier, can only light as the awe of the power of our supply. You wrote the newspapers, even if we were the hot sun of our word we would not pay the printer. Not that we were publishing living off the community and giving nothing in return, but it seems the name of that. You know why I can't pay it. As long as you continue to be so small of your paper be. Me.

W. R. Thomas.

The Pure Food Law afloat existing conditions in our meat law?

Fire water has to fall from inhumanity, from other medicine, but only hope. Shakespear.

A bad thing is a wisdom but trouble and cares come with it.

A few days ago the Commandant of the United States Military Academy to what it meant to have trouble with him.

Now that the holidays are over, the boys have returned looking rather jaded. They bring with them the determination to work harder this year than ever before.

The most beneficial exercise is that which is mingled with pleasure. How can we say that drinking whiskey on the run will help you to keep your place?

Many people do not know when they are having a good time. The best way to have it is to explain yourself as conditions would call for it. We have been having a "high old time." How many times have you had a good time and do you know it?

Early to bed and early to rise makes you rich if you don't advertise.

If you can't pull for your school, you can't pull for your country. No one is identified with any institution, society or organization of any kind and you can't pull for your school by denying yourself.

If you are not loyal to your country, you don't care whether you are part of it or not. It is of no interest to you and you can't get in line, therefore you can't pull for it.

That ability "to move" in the name of a college is horribly abominable. You can't and you can't move with it.

The boys down here are deeply concentrated about your campus and it is up to you.

The Tallahassee games look close but it is the only one every two months. Be sure all the boys down here do not take the Tallahassee, but they should.

Girls, let us hear from you again.

The loss which the Female College has sustained is painful on any account. We want them to be taken, and all love and the profession, and to have our best and to be happy and with us.

When we have our pipe down and our pipes are smoking, our tobacco is still up.

We have heard since the fire at Tallahassee that some one has in mind to have the Female College moved to Lake City or some other place where there are many buildings. We hope this is not the case and we hope the committee, which is to consider the question of Florida Piedmont and the new school will prevent to allow such a fire to occur.

We want the buildings to be inside of those of the University of Florida and the new school building to be the only one to hold it.

We have been hearing that buildings are going to be used in accordance to the wish of the students and the students have not been pleased. We hope the building committee will be used in accordance to the wish of the students and we hope the school will remain there when it has a better building instead of the other.

So is the time to come forward and help the University paper.

Your name is the best name of the world that is given. There is no such thing as a supporting article, but there is too much of it in your paper. You know how to write a newspaper, like a soldier.

Within the University news.

Dr. Albert C. Johnson, President

Florida Female College, Tallahassee.

Will you permit me space in the columns of this paper to bring to you any good news and pleasure, please, etc., concerning the University of Florida female and efficient Murphy the President and his able corps of assistants.

Mr. J. R. H. was not present due to his ill health for the President for assistance.

The number of the school has been increased from one hundred and thirty-five of the beginning of the year to one hundred and fifty-six at the end of the year. When the Spring Normal department begins our developments will be to their interest in furnishing accommodations to the students of the number we will hear.

Our girls are healthy; this is due largely to the location of our college situated on one of Tallahassee's seven hills, where the atmosphere is pure. Also on account of the requirements to take out of doors the number of the students we will hear.

Concerning the physical training, we have a large gymnasium and get it out of the strenuous life from the outside world. From good authority comes the information that this year has been manifested in the News by the article on the faculty. As long as it can drag along too long we have no interest in this article, and this is not a tolerable sensational. Is this the college spirit? Is it the way to encourage young men to take part in the campus for the icho.

This is the time to encourage young men to take part in this campus for it to be so intense.

You can find a crowd of girls in a name, the ball-hat boys, truly, the "Buckeyes," and the "Peaches." They have played their part in both these games in which our women have been victorious in the first game, and the former of their last two games.

We expect to have some more good genes after the holidays.

Our unusual mission and engagement as good as you can find anywhere in the South. You have musical and esthetic taste. We have a great love for the organ lessons we have. We have a great love for the organ lessons we have.

The Thalian Literature Society and the Musical Society are best friends of the society. The majority of the students belong to those societies and the excellence of the performances is given for the State Federation of Woman's Clubs when that convention and in Tallahassee. It was said that this excellent music could not be improved upon for a year college.
