WINTER HAVEN, FLORIDA
BOX 953 — PHONE CY 3-3483

Governor and State Cabinet:

RE: Tampa Tribune clipping attached.

Wealthy private contractors and developers could be found to build a wide causeway as shown in red if such a concern were allowed to make it wide enough on each side of a 200 ft. road through the middle to sell lots and make a profit on the deal, along with a fee for crossing during the next 20 years, so that such firm could finance the project from such fees and realty sales.
