Dear Farris:

We are still having problems with the Internal Revenue Department regarding qualifying the One Thousand (\$1,000.00) Dollar donation which we made in June of 1963.

Our contribution was made to "Florida Program for Cold War Education". The agent that has audited our return is Mr. Charles Howard of the Tampa office. He says that he cannot correlate the agency to whom we made our check, with the Institution for American Strategy - Florida Program.

It would be greatly appreciated if you would assist us again in this matter. I believe if you would call Mr. Ward Holland of the Jacksonville office Internal Revenue Department and explain to him the circumstances and ask him to call Mr. Howard of the Tampa office everything will be clear as it should be.

I appreciate your assistance in the past and in this matter and am hopeful that this procedure will finally solve our problem.

Sincerely yours,
