Honorable Ferris Bryant
Ocala, Florida

Dear Ferris:

Just a brief note to tell you how sincerely I enjoyed your inspiring talk at the North Orlando Kiwanis Club, Tuesday the 21st. Your type of thinking as shown by your speech is the type of thinking that, in my opinion, is essential to preserve this country as we have known it. The internal affairs of the country today should be of more concern to the people than the total conditions of the world at large. We must first gain and uphold for ourselves those convictions of Freedom which we are trying to hold out and bring forth to the rest of the world. Your talk was one of the very few that I have heard that did not hold out some specific solution and I with many others, along with you, feel that the situation at hand takes a thoughtful and cautious attitude and is one that you cannot at this time, unfortunately, bring about a solution with one quick action.

Whatever your political aspirations may be in the future I would be very honored to be considered "On Your Team".

Thanks, very much, again.

Fraternally yours,

Charles W. Rex, Jr.
