Honorable Farris Bryant  
Ocala, Florida

Dear Farris:

We knew from the beginning that you would do nothing that you did not feel was right for Florida, but we are still a little surprised and greatly disappointed that you found it necessary to halt your campaign for Governor.

We understand and appreciate what you are up against regarding financial support. It is hard to understand the attitude of "the people". There seems to be so few who really understand what integrity in Government means. We appreciate your moral fibre and like your honesty and sincerity.

Did you see the U. S. Steel Hour last night? It was a presentation of "The Candidate" and was so appropo of our local current situation. We thought of you.

Please extend to Julia our warm regards, and with admiration and respect.

Yours sincerely,

Grace W. Burwell
