

January 26, 1960

Letter to the Editor
The Tampa Tribune
Tampa, Florida

Noticed recent controversy over Mr. Farris Bryant's stand that planning is vitally needed because we are "out of space" in Florida for various needs. Amen to that. Anyone associated with educational facilities, as I am, will applaud this gubernatorial candidate with gusto. I note that Dade County expects grammar and high school enrollments to increase 27% by 1963 and if that "out of space" problem which is similar to that faced by every county in Florida doesn't call for energetic, intelligent and immediate attention, I will be astonished.
