Hon. C. Farris Bryant
Member, Legislative Council
M & C Bank Building
Deals, Florida

Dear Farris:

Enclosed is a tabulation presenting a general idea of the work load of 49 of the 55 House Committees which were appointed during the last session. The totals include both Senate and House Bills.

We have other information concerning committee activities, with a more detailed breakdown, should you deem it useful.

I expect to see Hyron Blee on my way to Madison and would like to make a recommendation on my return from that trip about the 17th of October. Do you think it will be possible for the Committee on Personnel and Expenses to hold a meeting, or should the committee's reaction be obtained by correspondence? I would appreciate hearing from you on this.

Looking forward to seeing you in October, I am, with kindest personal regards,

Sincerely,

S. Sherman Weiss
Director
