Mr. William B. Killian
Chairman
State Road Department
Tallahassee, Florida

Florida - FAI Route 95 - Golden Glades (Miami) to
West Palm Beach

Dear Sir:

Your letter of June 2, 1960 submitted a time table for the development of the section Interstate Route 95 between the Golden Glades Interchange and the Sunshine State Turnpike at West Palm Beach. This schedule of timing for construction along Interstate Route 95 was concurred in by the Turnpike Authority under date of May 28, 1960.

Our Washington office has reviewed this matter and we are advised that in view of the approval by the Turnpike Authority of your proposed time schedule for development of this route section, this office may take the usual program actions for advancing the work on FAI Route 95 from Miami to West Palm Beach. It has been indicated that studies must be made to determine the most economical and feasible locations prior to preparation of construction plans and acquisition of right-of-way. We were also authorized to proceed with program actions with the further understanding that your Department will not proceed with the development of this section of FAI 95 in advance of the time schedule approved by the Florida State Turnpike Authority.

We suggest that the necessary studies be undertaken as soon as possible in order that this office may be in position to authorize preparation of construction plans when you may desire to advance the various projects along this section.

Yours very truly,

W. C. Peterson
Division Engineer
