

March 30, 1967

Dear A. J. :

I heard in California yesterday of the results of the Florida election, and feel badly about it for many reasons -- but particularly because Florida loses your service. It ought not to be.

I have pursued the matter of an individual to help from the Democratic Committee, but could never get an answer, either affirmative or negative. I did tell Hank Watson when he was up here what the current status of my efforts was, and I hope he conveyed that to you.

When I come home, I well may not be involved in any personal politics, and we ought to do something to help build the party structure. It needs discipline -- self discipline.

With warmest regards, I am

Sincerely,

Farris Bryant
