

# Healthy Gators 2010

## Highlights

December 2006  
Volume I - Issue 5

### Programming Work Group Updates

**New Work Group Chair** – Cher Harris from the College of Health & Human Performance has agreed to serve as chair of our Programming Work Group. Cher's contact information is 392-0578 ext 1279 and [c Harris@hnp.ufl.edu](mailto:c Harris@hnp.ufl.edu). Thanks and congratulations to Cher!

**Requests to Co-sponsor Programs** – The Programming Work Group will review and approve all requests to co-sponsor campus health programs or events. If you wish to include the HG 2010 name or logo on your event publicity, please submit a written request to Cher Harris.

### Coming in 2007

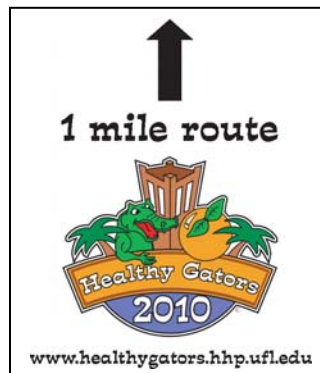

**Sidewalk signs** – All five sidewalk activity routes will be completed by early spring semester. Route maps are posted on our website.

**End-of-Semester Stress Relief Tradition** – The Programming and Comm/PR Work Groups have been exploring the idea of hosting an end-of-semester event that would become a campus tradition. We are currently working with other campus organizations on the details. Contact Cher Harris with ideas or to help.

**Website Changes** – Thanks to coalition members for helping to evaluate the website last spring. Based on the results, new features will be added soon. Key changes will include:

- Resources and information organized by health topic
- A UF Health Events Calendar with an online submission feature
- A gallery of photos representing healthy gators, a healthy campus and coalition events
- A feedback link to solicit improvements to the website

Look for changes by early spring semester! Contact Jane Emmerée with comments and suggestions.

### Outdoor Smoking Policy Going Campuswide!

Healthy Gators 2010 is working with the Department of Environmental Health and Safety to reduce exposure to second-hand smoke. Based on the Policy Work Group's recommendation, UF's Environmental Health & Safety Committee has approved an expansion of the coverage of the existing smoking policy. Beginning in January, smoking within 50 feet of any campus building will be prohibited.

The Comm/PR Work Group and GatorWell Health Promotion Services will launch an awareness campaign of the policy in January.

Campus and community smoking cessation resources and services will also be publicized to help smokers kick the habit.

## Orange & Blue – A Healthy You!
