Funny Things that Happen in the Middle of the Night

The Tallow is in the middle of the night. The candle is in the middle of the night. The oil is in the middle of the night. So is the cream. The butter is in the middle of the night. The egg is in the middle of the night. And the milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night. The milk is in the middle of the night.

If you want to know what the milk is doing in the middle of the night, go and look for it. You will find it in the milkman's house. If you want to know what the butter is doing in the middle of the night, go and look for it. You will find it in the butterman's house. If you want to know what the cream is doing in the middle of the night, go and look for it. You will find it in the creamman's house. If you want to know what the oil is doing in the middle of the night, go and look for it. You will find it in the oilman's house. If you want to know what the tallow is doing in the middle of the night, go and look for it. You will find it in the tallowman's house. If you want to know what the candle is doing in the middle of the night, go and look for it. You will find it in the candelamaker's house.

So the next time you go to bed, go to sleep, and dream of milking cows, don't be surprised if you wake up and find that the milk is in the middle of the night.
