Gardening Hints

For Amateurs

The Garden In January

SEEDLING PROGRESS

Christmas Coriander

The seedlings have been planted in boxes and have grown well. The plants are strong, and should be transplanted to the garden as soon as possible.

GARDENING TIPS

1. Always read the instructions on the labels of the chemicals you use. Follow them carefully.

2. Keep your garden clean and well-organized. This will make it easier to maintain.

3. Be patient. Gardening is a long-term process and it takes time to get the desired results.

COOKERY CORNER

ROSÉ PEA R

Tender pears are one of our most popular fruits in the winter. They are delicious when served with a sweet sauce. Here is a recipe for a simple syrup sauce that goes well with pears.

METHOD

1. Peel and core the pears. Cut each fruit into eight pieces.

2. Place the pears in a saucepan with 1 cup of sugar. Add 1 cup of water and bring to a boil.

3. Reduce the heat to low and simmer for about 10 minutes, until the pears are tender.

4. Add 1 tablespoon of vinegar and 1 tablespoon of lemon juice.

5. Serve the pears warm, topped with the sauce.
